Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Authorizing First Installment Payment to Elmer E. Smith for Certain Lands in and Adjacent to Hetch Hetchy Valley Required for Reservoir Rights of Way.

Resolution No. — (New Series), as follows:

Resolved, That an expenditure of \$10,000 be and the same is hereby authorized to be made out of the Surplus Fund in payment of Elmer E. Smith for the first installment on purchase price of lands in and adjacent to Hetch Hetchy Valley and required as reservoir rights of way in the matter of the acquisition of water supply for the City and County of San Francisco; said expenditure to be made subject to the approval of the Mayor and the City Attorney.

The attention of the Auditor and the Treasurer is hereby called to the provisions of this Resolution.

Motion.

Supervisor Center moved that City Engineer Marsden Manson be granted the privilege of the floor for the purpose of explaining the necessity of the above expenditure.

So ordered.

Privilege of the Floor.

Whereupon, Marsden Manson, City Engineer, addressed the Board, stating that, anticipating the necessity of the purchase of the lands mentioned in the above Resolution, he had, after conference with the Mayor, obtained options on the same last February. The options were about to expire, and unless the first installment was paid at once the City would have to pay a much higher price later on.

Final Passage.

Whereupon, the question being taken the above Resolution was finally passed as Resolution No. 2330 (New Series), by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Final Passage.

The following Bill heretofore passed for printing was taken up, finally passed by the following vote and numbered as follows, to wit:

Accepting Deeds to Lands in Parkside District Dedicating Same to Street Purposes and Naming it "Sloat Boulevard".

Bill No. 522, Ordinance No. 446 (New Series), entitled, "Accepting deed from Parkside Realty Company of San Francisco (a corporation) to lands connecting the Great Highway with Corbett avenue, declaring said lands to be an open public street and naming the same "Sloat Boulevard."

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

PRESENTATION OF BILLS AND ACCOUNTS.

Demands upon the Treasury amounting to \$32,647.87, and entered in Register of Demands No. 6 (New Series), and numbered consecutively therein 8339 to 8713, inclusive, were presented, read and referred to the Finance Committee.

REPORT OF FINANCE COMMITTEE.

The Finance Committee, by Supervisor Jennings, reported in favor of allowing the demands heretofore read and referred, said Committee having duly examined and approved the same, and, on his motion, said demands were so allowed and ordered paid by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

PRESENTATION OF PROPOSALS.

Proposals to furnish stationery, books and printed blanks required for the various departments, officers and offices of the City and County from July 1st, 1908, to June 30th, 1909, were received, opened and read, being as follows:

For Printing and Printed Blanks—Britton & Rey, Yawman-Erbe Manufacturing Co., A. Carlisle & Co., Buckley & Curtin, O. E. Olsen, Neal Publishing Co., American Printing Co., E. C. Hughes Co., Jas. H. Barry Co., Levison Printing Co., Phillips & Van Orden Co., Jas. T. Lynch, Lane-Stapleton Co.

For Book Supplies—F. Malloye, Neal Publishing Co., Levison Printing Co., Brown & Power, J. B. McIntyre Printing Co., Isaac Upham & Co., Carlisle Printing Co., J. Kitchen Jr. Co., Eclipse Manifold Manufacturing Co.

For Stationery Supplies—Moise-Klinkner Co., Sanborn-Vail Co., Irving, Wirth & Jackens, Schwabacher-Frey Stationery Co., H. S. Crocker Co., Isaac Upham Co., Yawman-Erbe Manufacturing Co., Payot, Stratford & Kerr, Cun-

ingham, Curtis & Welch, City Commercial Co., Typewriting Co.

NEW BUSINESS.

FIXING AND DETERMINING GAS RATES FOR THE FISCAL YEAR 1908-9.

Report of A. M. Hunt, Gas Engineer, with Appraisement of Cost of Plant of San Francisco Gas and Electric Company, Used in Supplying Gas to the City and County of San Francisco and the Inhabitants Thereof, and of the Cost of Producing and Distributing Gas to the Consumer.

To the Finance Committee and Committee on Artificial Lights of the Board of Supervisors, San Francisco, California.

Gentlemen:

In compliance with your instructions, I have made an appraisal of the cost of the plant of the San Francisco Gas and Electric Co., used in supplying gas to the City of San Francisco and the inhabitants thereof, and of the cost of producing and delivering gas to the consumer, and submit the following report:

General.

In appraising the plant, the following basis has been adopted:

The S. F. G. & E. Co. furnished me with inventories of all property at their various works, made in December, 1906, and supplemented it with a list of additions since that date. These inventories I checked by personal visits to the various plants, noting such apparatus and properties as were not used and usable.

The Company furnished me with maps showing location, size, and length of mains now in use. It also furnished statement of the number of meters, services, and street lamps.

In controlling the appraisal, I have been guided by the decision of the Supreme Court of California, in the case of the San Diego Water Co. v. City of San Diego et al. as quoted below. This case has been cited to me by members of your Committees as governing the matter:

"Nor can the investment on which the company is entitled to base its compensation be held to include property not now actually employed in collecting or distributing the water now being supplied, however useful it may have been in the past or may yet be in the future.

"It is the money reasonably and properly expended in each year in collecting and distributing the water which constitutes the current expenses which may be allowed; and it is the money reasonably and properly expended in the acquisition and construction of the works actually and properly in use for that purpose

which constitutes the investment on which the compensation is to be computed."

"With regard to the question of depreciation of the plant by use, it is sufficient to say that ordinary repairs should be charged to current expense, that substantial reconstruction or replacement should be charged to the construction account, and that depreciation should not otherwise be considered."

Gas Works.

All the gas now being used in San Francisco is produced at what are known as the old Potrero and Independent plants, located in the Potrero.

At the North Beach plant there are storage holders, a compressing plant and a tar distilling plant in use.

At the Pacific Gas & Improvement Co.'s plant there is a holder and a compressor plant in use.

Considerable apparatus has been transferred from these plants to the Potrero, and put in use there since the earthquake. At both the North Beach plant and at the Potrero plant there are installed a number of retorts and other appliances for making coal gas. They have not been used for a number of years, and it is extremely improbable that conditions in California will, in the proximate future, change so as to permit their economic use. They have been excluded from the appraisal, following the ruling cited above.

During the past two winters the S. F. G. & E. Co. has not been able to produce at its plants sufficient gas to supply the requirements of the City. The deficiency has been supplied by an allied company having its plant across the line in San Mateo Co. The San Francisco Co. is at the present time installing apparatus to enable it to supply the full demand, and this apparatus will be ready for service before July 1, 1908. It has, therefore, been included in the appraisal as if finished.

Nearly all the apparatus in use at the plants has been installed within the past twelve years, and values have been assigned fairly representing cost of such work. New apparatus installed since the earthquake and fire of 1906 has been appraised at actual cost.

Buildings have been appraised, where costs were not known, on the cubic foot basis, after consultation with a competent builder, due allowance being made for foundation difficulties in certain instances.

Mains.

The companies' officials claim that they have 500 miles of mains in use and 80 miles of small mains not in use.

The measurements from maps fur-

nished me showed only 467 miles approximately, and this amount was used as a basis. On some streets there are three mains, and on quite a number two mains. It is difficult to determine absolutely what amount of this duplication is justifiable. Where three mains exist in the same block the smallest was deducted. Where there are two mains in a block, both small, both were allowed. Where there are two mains, one large and one small, the smaller was deducted unless special reason existed for not doing so. Among such reasons I mention the following: If the larger main served a definite purpose as a feeder, both were allowed. Personal knowledge that pressure was low in certain districts previous to some of the duplication, gave justification for some allowances. Duplicate mains are allowable on extra wide streets, such as Market street, on account of reduced cost of services, and the same is true on some streets due to depth of foundations of cable tracks.

The number of miles of mains allowed as "properly in use" was taken as 415.36 miles. This is a deduction of a little over 11% from the mileage shown by the maps of the Company, but as the deductions were made from the smaller sizes of pipes, the deducted value is much less.

It is fairly impossible to determine the cost of laying mains at the dates when the earlier installations were made, but the bulk of the mains, at least as represented by cost, were installed within the past twenty years, and the unit prices used were carefully chosen. I would note that these, as well as other unit prices, were taken from results of actual work done in San Francisco, and not assumed from work done elsewhere.

I would also note that due allowance was made for administration expense of construction work, and for interest during construction period. The interest was reckoned for a six months' period, as this is half the interval at which rates are fixed.

Meters.

The number of meters in use on December 31, 1907, was taken, and to it was added the probable number that will be connected from that date to December 31, 1908, which date will be the middle point of the year for which rates are to be fixed. An additional allowance was made for meters which must be carried in stock, and out of use for repairs and proving.

Proper allowance was made for meter connections and cost of first installation.

Services.

The number of live services was

taken and increased by the number of new services that will probably be connected within the year. An allowance was also made for dead services in temporarily vacant premises.

The appraisal is not given in detail, but in four main items corresponding with the statement submitted to your Board by the S. F. G. & E. Co. I have, however, itemized in greater detail what the lump sums cover, following the same notation given on the inventory of the S. F. G. & E. Co.

APPRAISAL.

Pipes.

This item, as given on inventory of S. F. G. & E. Co. covers real estate, buildings, furniture and fixtures, and all apparatus at plants. I have included the same items, as well as stock of gas-making material, and stock of supplies at warehouse \$2,832,045.00

Pipes.

This item covers all pipes, including high pressure feeders, house connections, connections to street lamps, and district governors 5,027,760.00

Meters.

This item covers meters in use, in process of repair and stock 827,750.00

Lamps.

This item covers street lamp posts, but not connections to same 87,531.00

Total appraised value. \$8,775,086.00

Cost of Producing and Delivering Gas.
General.

The cost of producing and delivering gas is divided into three main items as follows: Manufacturing cost, Distribution and Administration.

To arrive at the amount of these items, the appended statements, taken from the accounts of the San Francisco Gas & Electric Co. for the year 1907, have been used, together with other information obtained from the officials of that company:

Manufacturing.

During the first eight months of 1907 the S. F. G. & E. Co. did not manufacture any gas. Its Potrero plants were operated by an allied corporation, which sold gas to the S. F. G. & E. Co. at the rate of 30 cents per 1000 cubic feet delivered in the

holders. During the last four months of the year, the latter company operated its own plants. It purchased during the year 2,403,329 thousand cubic feet of gas, and manufactured 1,148,085 thousand cubic feet.

Its charges for the gas it manufactured, taken from its books, was \$276,128.73, or the cost per 1000 cubic feet delivered in the holder was 24.051 cents, of which oil amounts to 13.924 cents.

I have no criticism to offer as to the amount of the various items, and with the exception of oil, they should be at least as low for the ensuing year. It may be contended that the amount of gas made during the last four months of the year is in excess of the average rate of production for the year, and that consequently the average cost for the entire year will be greater. Any such tendency to increase of cost will be fully offset by the fact that a greater proportion of the gas will be made in large generators with consequent reduced labor cost. There is also a certain indeterminate amount of lampblack that will be produced as a by-product and utilized in producing gas, and a certain amount of tar will also be produced as a by-product, the value of which will tend to reduce the cost per thousand.

The average price paid for oil purchased in 1907, as taken from the Company's books, was 74.02 cents per barrel. Their contract for the ensuing year calls for a price of \$1.00 per barrel. From personal knowledge of the market, I can state that satisfactory oil for use in gas-making cannot at the present time be procured for less. This increase in the price of oil will increase the cost of gas made during the ensuing year by 4.887 cents per thousand.

This will make the cost of gas in the holder 28.938 cents per thousand.

Distribution.

The distribution costs for the year 1907, as taken from the books of the S. F. G. & E. Co. show \$148,106.92 expended for labor and \$482,540.46 for material.

In scrutinizing the labor costs, I have no criticism to offer. Based on the sale of 2,528,767,400 cubic feet of gas during the year, the distribution labor cost per 1000 cubic feet was 5.857 cents.

In scrutinizing the items making up the charge for "Material, Distribution of Gas," there are several items calling for comment.

The first item is Street Lamp Operation, Welsbach Contract, \$48,934.36.

As stated to me by officials of the Gas Company, it has a contract whereby the Welsbach Company assumes all expenses of operating street

lamps, except the supply of gas to the lamps and repairs to lamp posts and service pipes.

The number of lamp posts in operation on December 31, 1907, was given at 3945 with single burners, and 215 with triple burners. Considering this as the average for the year 1907, the income from these lamps at the rate paid by the City would be \$116,662.42. Deducting the amount paid to the Welsbach Co. leaves to the S. F. G. & E. Co. for the gas furnished to these lamps the sum of \$67,728.06.

The schedule for these lights provides that they are to be lit at an average time of one-half hour after sunset, and extinguished at an average time of one-half hour before sunrise, making the average period of burning eleven hours per day, or the total hours burning per year will be 4015.

I am informed by the officials of the Gas Co. that its contract with the Welsbach Co. is figured on the basis of each lamp using 4 cu. ft. of gas per hour. The total gas used for street lamp service during the year will thus be 73,715,400 cu. ft. Or, the S. F. G. & E. Co. receives a net average rate of 91.877 cents for each thousand feet of gas so furnished. The cost of the street lamps and services to them has been included in my appraisal of plant on which interest is to be allowed, and the average rate as above indicated is more than sufficient to reimburse the Company for the other items of cost of the gas used, so the amount of the Welsbach Co.'s contract should not, in my opinion, be counted as an item of distribution cost as affecting the gas rate.

Should you, however, decide that it is a just charge, the amount per 1000 ft. of gas sold is 1.935 cents.

Among other items noted under the head of Materials, Distribution of Gas, are the following:

Replacement of mains . . .	\$ 50,000.00
“ “ services . . .	193,199.41
“ “ meters . . .	120,467.69

\$363,667.10

A statement from the books of the Company taken off by Mr. Stuart shows that these amounts were originally charged against plant account. It is for your Board to determine whether they shall be allowed or not. For your guidance and information, I would note that the second item is sufficient to install approximately 9000 services, and that the third item is sufficient to purchase and install approximately 11,000 meters. I would also note that this number of services is over 19% of the service connections in use December 31, 1907,

and the number of meters is just under 19% of those in use on the same date.

It does not seem to me probable that there will be a call for replacement of such a number of meters and services during the coming year, due to ordinary wear and tear, as distinguished from the results of a general catastrophe.

The amount per 1000 ft. of gas sold represented by these items is as follows:

Replacement of mains...	1.977 cents
" " services ..	7.640 cents
" " meters ..	4.764 cents

The remaining items under the head of Materials, Distribution of Gas, amounting to \$69,939.00, call for no special comment. They amount to 2.766 cents per 1000 cu. ft. sold.

Administration.

This account is charged with \$663,897.58 on the books of the Company.

Among the items included are the following:

Bond interest	\$291,582.00
Interest on floating debt...	36,848.60
Sinking fund	90,350.00

If interest is allowed on the appraised value of plant, I do not see that these items can be properly taken into account in determining the rate to be allowed. They amount to the following per 1000 cu. ft. of gas sold:

Bond interest	11.536 cents
Interest on floating debt...	1.457 cents
Sinking fund	3.569 cents

The remaining items of this account, amounting to \$245,116.98, call for no comment, and amount to 9.693 cents per 1000 cu. ft. of gas sold.

Leakage.

The foregoing has covered all the charges carried on the books of the Company pertaining to the manufacture and distribution of gas and administration. It does not, however, go into one very important element in the cost to the Company of the delivered gas. I refer to the element of leakage from mains, services, etc., of gas that is manufactured and sent out from its works.

In the year 1907 the Company sent out from its works 3,551,414,000 cu. ft. of gas, and accounted for 2,528,767,400 cu. ft. sold. The balance, or 1,022,646,600 cu. ft., or 27.53% of all the gas sent out from the works, is accounted for as leakage. Such an amount of leakage is very abnormal. It is undoubtedly mainly due to the effect of the earthquake of April 18, 1906.

The report of the President of the San Francisco Gas & Electric Co. shows that the leakage during the

year 1902 amounted to 146,908,000 cu. ft. Comparisons of leakage should always be based on its amount per mile of main in use, and not on percentage of send-out lost, as leakage is independent of send-out, being a function of the pressure in the mains and the size of the openings through which the leakage occurs.

I have no absolute data as to the miles of mains in use by the S. F. G. & E. Co. in 1902, but it closely approximated 250. On this basis, the leakage per mile of main was 587,600 cu. ft. during that year. Even this was excessive as compared with good practice in other localities.

Another system of mains, now a part of the system of the S. F. G. & E. Co., comprising about 60 miles of pipe, had no leakage during the first eight months it was under pressure.

If the leakage for the year 1907 is calculated on the basis of 467 miles as measured from the Company's maps, it amounted to 2,189,823 cu. ft. per mile of main in use. If it is figured on the basis of 500 miles of mains claimed by the Company, it amounted to 2,045,295 cu. ft. per mile of main.

It is difficult to decide what is a fair normal leakage for San Francisco, under normal conditions and without earthquake damage.

In 1904 the average leakage of all companies operating in the State of Massachusetts was 165,835 cu. ft. per mile of mains. The average for all the companies operating in Boston and its immediate suburbs was 307,460 cu. ft. per mile of main in use.

I believe that a distributing system properly installed in San Francisco, and that had not been subjected to severe earthquake conditions, should be considered as being in poor condition if its leakage exceeded 450,000 cu. ft. per mile of main per annum. This would have amounted to about 7½% of the gas made in 1907, based on sales as of that year.

The S. F. G. & E. Co. suffers a peculiar hardship if it is compelled to assume the loss amounting to the difference between 7½% and 27½%. On the other hand, it is a hardship on the consumer to be called on to pay for the manufacture of gas never delivered.

The Gas Co. must render service, and such service can only be given through the mains which it has. It certainly seems advisable in the interests of both parties that a strenuous effort be made to reduce this leakage item.

While entirely outside the scope of my instructions, I would suggest that if you are inclined to recommend an allowance to cover the entire amount of leakage during the year 1907, a

stipulation be made with the Gas Co. to the effect that it will expend at least the major part of such allowance in reducing leakage.

In arriving at the effect of leakage in increasing the rate for gas, after you have decided what percentage of leakage to allow, divide the cost of 1000 cu. ft. of gas in the holder (28.938 cents, as given above) by the numeral obtained by subtracting from 100 the percentage of leakage allowed, and multiplying by 100. The result is the cost of manufacture of each 1000 ft. of gas delivered to the consumer on the basis of the percentage of leakage employed.

RESUME.

I give below in condensed form the different items deduced in the foregoing:

Manufacture.

Cost per 1000 cu. ft. of gas delivered in the holders during the year July 1, 1908-July 1, 1909, assuming oil to cost \$1.00 per barrel .. 28,938c

(If it is decided to allow the Gas Co. to charge a rate that will repay the cost of leakage of N % of the gas made, the above item becomes per 1000 cu. ft. delivered to the consumer 28.938 divided by 100 minus N x 100.)

Distribution.

Labor cost 5.857c
Welsbach contract (propriety of charge questioned) 1.935c
Replacement of mains (propriety of charge to be determined by the Board) .. 1.977c
Replacement of services (pro-

priety of charge to be determined by the Board) .. 7.640c
Replacement of meters (propriety of charge to be determined by the Board .. 4.764c
Other items of distribution, not questioned 2.766c

Administration.

Bond interest (propriety of charge questioned) 11.536c
Interest on floating debt (propriety of charge questioned) 1.457c
Sinking fund (propriety of charge questioned) 3.569c
Other items of administration (not questioned) 9.693c

Interest.

Preceding items have been based on charges for the year 1907 and the amount of gas sold during that year. They will be affected very slightly if at all, by increased sales, except in the case of interest charges under administration. Interest on appraised value should, however, be divided by the amount sold during the year July 1, 1908-July 1, 1909. It is highly probable that the sales for that year will be at least 10% greater than for the year 1907, or 2,781,644 thousand.

On this assumption, increase the rate per 1000 cu. ft. for each one per cent allowed 3.155 cents.

In concluding I desire to acknowledge the courtesies extended by the officials of the Gas Company with whom I have come in contact. They have afforded me every facility and information asked for, freely and frankly.

All of which is respectfully submitted.

A. M. HUNT.

Report of Public Accountant C. D. Stuart,
on Cost of Manufacturing and Distrib-
uting Gas in San Francisco for the
Years 1906-1907.

111 New Montgomery street,
San Francisco, May 18, 1908.

To the Finance and Artificial Lights
Joint Committee, Board of Super-
visors, San Francisco.

GENTLEMEN:

At your request I have examined the books of account and the financial condition of the San Francisco Gas and Electric Company, from April 18, 1906, to December 31, 1907, and herewith I submit the following report:

All of the principal books of account, statements, vouchers, letters, contracts, and other records usually accumulated during the business existence of a corporation were destroyed by the fire of April 18, 1906. A new ledger was opened as soon thereafter as possible, as from date of January 1, 1906, the data for the various accounts and entries being taken from the trial balance book, which was saved. There was also saved a large proportion of the statements of gas sold to consumers in the month of March, 1906, and up to date of meter readings, so that the company was enabled to issue bills for that month. But the gas consumed from the dates of the last meter readings before the fire, and up to the time of the fire in the burned district, was lost to the corporation, because the meters that registered this amount were all destroyed.

The ledger balances I have accepted as I found them, for I am satisfied that the auditor of the corporation exhausted every source of information to secure accuracy in the entries. The differences between costs as stated by the corporation, and the results obtained herein by this examination, will be found in the manner of debiting the items that go to make up expense charges, and capital charges. That is to say, I have taken a number of charges out of expense accounts, and put them in capital or plant accounts.

COST OF GAS.

The cost of gas to the consumer is kept under three headings in the corporation books: Manufacture, Distribution, and Administration. *Manufacture* includes all costs of making gas delivered to the gas holder, such as fuel, water, chemicals, labor and transportation. *Distribution* includes all costs for getting gas from holder to consumer, such as the putting in of services, repairs to mains and meters, cartage, reading meters and making statements. *Administration* includes executive expenses, bookkeeping, fixed charges on investments, taxes and provision for the general monetary requirements of the corporation. These costs are given in detail on pp. 16 to 18 hereafter.

MANUFACTURE.

No gas was manufactured by the corporation from the date of the fire up to September 1, 1907, the necessary supply for the city having been bought mostly from the California Gas Company, with three or four purchases from the San Mateo Power Company. The cost of this gas was thirty cents a thousand cubic feet, delivered in the corporation's gas holders. On page 11 hereof the cost of gas in holder is given at a little over 39 cents a M. I find that the added 9 cents represents the cost of gas necessary to offset leakage from mains, which is due to the effect of the earthquake in loosening leaded joints and in breaking cast-iron pipes. The percentage of leakage since the fire is 27½%, as will appear on page 11 hereof, and if to 30 cents is added a leakage of 27½% it gives as cost of gas in holder a little more than 39 cents. That is to say, about 1,022,646,600 cubic feet that the corporation received pay for was lost in 1907 through leakages.

Since September 1, 1907, the corporation has been gradually increasing its own production of gas until it is now manufacturing about all that is consumed in the city. For the last four months of 1907 the cost of manufacturing was 24 5/100 cents, exclusive of leakage, as will appear on page 11 hereof. This cost is below the average, because the period covered is a time of maximum gas consumption.

DISTRIBUTION.

On page 13 hereof the cost of distribution of gas is given by the corporation statement at .25633 cents a M cubic feet for 1906, and .24938 cents for 1907. I have deducted from the corporation's statement of 1906 the item debited to Renewals, for \$288,214.51, and in 1907 the same item, for \$366,685.43. After making these deductions the cost of distribution for 1906 is .12060 cents a M, and for 1907 .10438 a M.

I have made these deductions from distribution costs for the reason that in the ledger these sums have been debited from month to month to construction account, and at the end of the year they were taken from construction and debited to distribution. I am assured by both the auditor and the comptroller that these items are not expenditures for new construction, but rather for repairs and refitting old work, and it has been the custom of the accountants to charge to construction all repairs costing more than \$500, and at the close of the year to segregate from this amount whatever charges are clearly repairs rather than renewals. The purpose of keeping track of repairs in this manner is to hold the average monthly expenditures as nearly even as possible, for other-

wise a heavy repair charge in any month might show a loss in earnings for that month.

The journal voucher for these debits is rather vague as to the nature of the work done, and I am unable to say from the entries on the books whether these debits are construction or are merely repairs. But I find that English authorities allow gas and water corporations for repairs an annual charge that runs as high as 5% of capital invested in plant. As the San Francisco Gas Company's plant represents an investment of nearly \$9,000,000, according to your gas engineer, Mr. Hunt's, appraisalment, the actual average charge for the two years 1906-1907, is \$327,449.97, or a little more than 3½% of the investment, which corresponds with the allowance made by British authorities for this sort of depreciation. I find that in this country also, the "State of New York Public Service Commission" has issued the following instructions in their circular No. 45, April 1, 1908, page 6:

"Whether through wear and tear or through casualty it becomes necessary to replace some part of any structure, facility, or unit of equipment, and the extent of such replacement does not amount to a substantial change of identity in the structure, facility, or unit of equipment, the replacement of such part is to be considered a repair, and the cost of such repair is to be treated as an operating expense, and must not be charged as a replacement to any capital account."

ADMINISTRATION.

The administration cost of gas as furnished by the corporation's statement, page 13 hereof, is .38191 cents a M cubic feet in 1906, and .26254 cents in 1907. I have deducted from the total cost under this heading the items of Bond Interest, Sinking Fund, Bad Debts due to Fire Losses, and also the fire losses included in the charges of Sundry Sales, Fire, and Earthquake Account, and Storeroom Loss Account, as will appear on page 13 hereof. After making these deductions, the respective costs a M cubic feet are, for 1906—.10850 cents, and for 1907 .10885 cents. I am confident that Bond Interest and Sinking Fund are not proper charges to administration expense. I am in doubt about the other items, since I find that the State of New York Public Service Commission, on page 126 of the circular already referred to, says:

"By an extraordinary casualty is meant one of such violence and irregularity that provision cannot be made against it through the exercise of ordinarily reasonable prudence; *e. g.* the Galveston tidal wave and the San Francisco earth-

quake. All other casualties of classes occurring with such degree of frequency and uniformity that the principles of insurance are applicable thereto, must be provided for through suitable charges to the insurance account."

While it is true that the earthquake of April 18, 1906, was an extraordinary occurrence impossible to have provided against, it appears to me that such items as book accounts destroyed by fire, warehouse supplies burned, and costs of removing debris from corporation real estate, are losses that ordinary commercial enterprises must make up from their capital, in the shape of assessment on stockholders, or further issue of shares, if necessary, because they would expect to make good the advances by an increase of profit on the goods they sell. But a public service corporation that is limited by municipal control to a much narrower per cent. of profit than ordinary concerns expect to make, might reasonably ask to be allowed to add losses of the foregoing class to the cost of the commodity supplied by them.

After deducting all the before-mentioned debits from Administration, Distribution and Manufacture, the cost of gas a thousand cubic feet will be .61127 cents for 1906, and .60635 cents for 1907, as will appear on page 14 hereof. These sums represent merely the actual cost of gas manufacture, distribution, and administration, regardless of the money invested, and of the deterioration in the plant, and closely approximate the cost as worked out by Mr. Hunt on page 5 of his report, and as will also appear on page 11 hereof.

INTEREST AND DEPRECIATION.

The custom of British municipalities, in the supervision of gas and water corporations, is to allow an annual profit of 10% on the investments. Out of this allowance the corporation is expected to accumulate over a course of years, a reserve or sinking fund, amounting to 10% of the investment. Out of this reserve all extraordinary expenses are to be paid, thus creating a special fund, as it were, for the restoration of capital destroyed or made useless by other causes than wear and tear.

In addition to allowances for wear and tear on the plant of gas corporations, there is usually allowed a certain percentage for depreciation. In Great Britain the life of a gas plant is figured at about 35 years, and probably in this country climatic conditions, an important factor in causing wear and tear, are not sufficiently different to make a change in this estimate, which would give a percentage a little less than 3% of plant investment.

In case the custom of other municipalities is followed, in fixing the gas rate for this city, it will be necessary to add further to the actual cost of gas in 1907 the percentage of wear and tear, the percentage of depreciation, and the two following items: (1) Increase of gas oil. The cost of oil for 1907 averaged about 74 cents the barrel. The cost of oil for the two years from June 12, 1908, to July 13, 1910, will be \$1.00 the barrel of 42 gallons, according to the terms of contracts made for oil by the corporation, with the Associated Oil Company, which price, I am told, is not unreasonable. (2) Increase of taxes. The Assessor of this City and County has advised me that the assessment of the San Francisco Gas and Electric Company for the coming year will be increased \$1,000,000.

The increased cost of oil will add to the cost of gas in 1907 about 5 cents per M feet, as will appear from page 11 hereof. The increased assessment will add to the cost of gas per M feet about $\frac{3}{4}$ of a cent, or a total increase for 1908 of about 6 cents a thousand. If to the actual cost of manufacturing, distributing, and administering the gas production of 1907, which is say 60 cents a M cubic feet, there will be added 6 cents for increased cost of oil and taxation in 1908, and $2\frac{1}{2}\%$ of the plant valuation of \$8,000,000 for wear and tear, and $2\frac{1}{2}\%$ for depreciation, and 5% for interest on the investment, it will bring up the cost of gas to the consumer to 10% on \$8,000,000, in addition to the actual prospective cost of gas for 1908, or nearly \$1.00 a M cubic feet.

I have not calculated what effect an increase of 10% in sales of gas for 1908 will have on the cost of production for that year. The manufacturing cost of any added supply will be within a few cents of present cost, unless the increase is very appreciable. The distribution cost will be lessened by say $\frac{1}{2}$, since the meter readers, statement clerks and bookkeepers at present employed in this department have about all the work they can get through from day to day, and an increase of sales will demand some corresponding increase in these clerks. The administration cost alone will probably not change. Thus a saving of 30 to 40 cents a M cubic feet on say 252,876,740 cubic feet may be effected, and this saving must be averaged over a total sales for the coming year of say 2,780,000,000 cubic feet, which will be less than 4 cents the M. I would judge that the entire reduction in cost of 1908 production over 1907 production will not average more than 5 cents the M cubic feet.

I have looked into the Loss and Gain account of the corporation to determine whether or not their finances show the effect of producing gas at a cost of 60 cents and selling it for 85 cents. In their statement of assets and liabilities for December, 1907, the gas plant is valued at \$17,984,173, carried as an asset, a valuation in excess of its present worth by many millions of dollars. Among the liabilities are \$2,070,330 due sundry creditors, \$450,576 due California Gas Company, and about \$175,000 of accrued debts such as interest, taxes, etc., which make about \$2,700,000 in liabilities that have been accumulating in excess of profits, until it will take the gross earnings of almost an entire year at 1907 rates to liquidate. Outside of the gas plant, there is only about \$900,000 of assets to meet this liability, or a deficit of about \$1,800,000. How long this deficit has been accumulating, or where the amount was expended, it is difficult to say, in the absence of the burned ledgers, but it appears like a sum that will require years of fair profits to pay off.

I am of opinion that the corporation has not been expending sufficient in repairs and refitting its plant, especially mains and services, to maintain the highest efficiency of its service, as is evidenced by the large leakage per cent. of gas in process of distribution. British authorities allow as high as 5% of the actual plant valuation for wear and tear, which means that maintenance demands a certain large expenditure of money each year merely to keep the plant in working order, and this expenditure is a charge against cost. The average expenditure of the corporation for maintenance during the two years since the fire was a little over \$327,000 a year, or about 4% on a plant valuation of \$8,000,000. When it is considered that the fire and earthquake caused unusual damages to the distributing system and greatly increased the leakage per cent. of the mains and services, it is clear that the expenditure of \$327,000 a year for the past two years has been too low. But a profit of only 25 cents a M cubic feet would give on the sales of 1907 of 2,528,000,000 cubic feet, about \$630,000, which, after deducting \$327,000 cost of repairs, leaves a little over \$300,000 to meet dividends on a capital investment in the gas end of the corporation of over \$9,000,000, about 3 1-3% a year. As the loss to the community from leakage is about \$850,000 a year, the need of keeping up the maximum expenditures for repairs becomes self-evident. It seems to me that if a liberal allowance is made by your Board for wear and

tear, it should be understood that a due proportion of the allowance is put to the stopping of leaks in mains.

In the appraisement of the plant made by Mr. Hunt at a total valuation of \$8,775,086, page 12 hereafter, will be found the item of \$412,431, real estate. As there is no special depreciation in real estate, this total should be deducted from the total estimate for plant to get the value subject to wear and tear charges, as follows:

On p. 15 hereafter I have given the revenue from gas sales for 1906 and 1907.

In a separate volume marked Volume II I have given an analysis of the ledger accounts that go to make up costs of Manufacture, Dis-

tribution and Administration. Also I have given an analysis of Executive Salaries for 1907, which appear large. The only comparison I could find is a gas and electric corporation in Massachusetts that sold \$3,600,000 worth of light and power, with executive salaries at about \$260,000, as against \$153,000 for the San Francisco Gas and Electric Company, a fair equivalent in proportion to revenue of \$2,291,000.

Whether or not the profits from the electricity sales of the San Francisco Gas and Electric Company are large enough to carry the apparent shortage on the gas end, I have not investigated, as it seemed to me that the gas figures speak for themselves.

I trust that I have covered all points necessary to enable your Committee to reach a satisfactory determination of what the gas rate for the coming year should be, and if any point has been overlooked, I shall be pleased to take it up on request.

Yours faithfully,

C. D. STUART,
Accountant.

Reply of San Francisco Gas and Electric Company to Reports of Messrs. A. M. Hunt and C. D. Stuart, presented to Board of Supervisors on Valuation of Gas Plant and Cost of Manufacture, Distribution and Administration in the Matter of Fixing Gas Rate for Fiscal Year 1908-1909.

May 29th, 1908.

To the Joint Committee on Finance and Artificial Lights, of the Board of Supervisors, City and County of San Francisco.—Gentlemen: In conformity with your request for submission in writing of a statement embodying the views of this Company on reports submitted to your Committee by Experts, Messrs. Hunt and Stuart, on the physical and financial status of gas department, as a basis for fixing the rate to be charged for gas, during the fiscal year 1908-1909, the following is submitted for your consideration:

It is interesting to note that the figures and statements submitted to the Board of Supervisors by this Company in its initial argument filed with said Board and in subsequent printed arguments submitted compare exactly with the reports of the experts who in every way confirm the same, disputing only upon the basis of calculation in fixing the cost of gas manufactured and distributed, which basis will be discussed later in this argument.

Report of Mr. A. M. Hunt.

In his estimate of the value of the gas plant now in actual use by the Company, the absence of detailed statement makes a full criticism impossible.

In our opinion, the valuation of the property, on a most conservative basis, should be in excess of \$12,500,000, for example:

In the matter of street main valuation, the appraisement of Mr. Hunt is \$5,027,760.00, on a basis of approximately \$12,000.00 per mile, while in a published report by Marsden Manson, City Engineer, issued under authority of Ordinance No. 353 (New Series), of the Board of Supervisors of this City and County, the cost of 483,558 lineal feet of pipe and fittings for water distribution is given at a mileage cost of \$31,674.70. This would indicate that the value of \$12,000.00 per mile for the present installed system of gas mains owned by this Company in San Francisco is too low.

Passing thus briefly the matter of appraisal of property and assuming, for the sake of argument, that Mr. Hunt was not controlled by a decision of the Supreme Court of the State of California, later discussed, we come to the cost, on his basis, of the production and delivery of gas. Said cost he bases upon the gas manufactured during the last four months of the year and fixes the same at 24.051 cents. Subsequently he makes an allowance of 4.887 cents as the added cost of oil at \$1.00 per barrel in place of 74.02 cents, price paid during 1907. We contend that the last four months of the year form no criterion for the entire year, as these months are of necessity ones of greatest economy due to largest output.

At this point we desire to quote from Mr. Hunt's report:

"From personal knowledge of the market, I can state that satisfactory oil for use in gas making cannot at the present time be procured for less (one dollar per barrel)."

The basis of Mr. Hunt's estimate of cost for manufacture is the gas manufactured and not the gas distributed. This point will be later considered.

In distribution, the first item of objection in his report is the cost of \$48,934.36, for street lamp operation, under Welsbach contract. It cannot be conceived how in any way this could be a matter of objection, as it enters directly into the cost of distributing the gas, as much as the collection of the bills from customers or the attention to complaints. His basis of reasoning falls to the ground by reason of his error in computation of amount received from City for lighting. He states that the income from the lamps in operation would be \$116,662.42. It is of record in the office of the City Clerk that the revenue from street lighting was \$93,220.45, the net revenue, therefore, after deducting Welsbach costs, being \$49,286.09. The number of lamps actually lighted on the basis of a consumption per lamp of 4 feet per hour, gives a total of only 64,900.800 cubic feet or 75.946 cents per thousand. It is, therefore, obvious that this charge of 1.935 cents per thousand for street lamp operation should remain.

As to the replacement charges for mains, services and meters, this will

later be considered in connection with Mr. Stuart's report, but in this connection it would seem immaterial (in referring to Mr. Hunt's report) what the number of meters and services replaced were, as the conditions of demand necessitated this large expenditure. Whether or not it will re-occur during the coming year is only a matter of conjecture, and the Company must be compensated by a rate in one year to take care of actual losses in the preceding year.

Administration.

This matter can be dismissed briefly, as there is no material contention between Company and experts. At no time, in the presentation of its case by the Company, was any claim made for interest on bonds or for amount of sinking fund. It was contended, however, that interest on floating debt should be allowed as a factor of cost, when such interest was necessitated by the borrowing of money to meet actual expense in construction or otherwise, and on this question, I beg to quote from the case of the San Diego Land & Water Co. vs. City of National City et al., 174 U. S. Reports, page 757:

"The contention of the appellant is, that in ascertaining what are just rates, the Court should take into consideration the cost per annum of operating the plant, including interest on moneys borrowed and reasonably necessary to use in constructing same."

The Court sustaining the contention of the appellant, says:

"Undoubtedly all these matters ought to be taken into consideration and such weight be given them when rates are being fixed as under all circumstances would be just to the Company and to the public."

The opinion of the Court in the case of San Diego Land and Water Co. vs. National City et al., 174 U. S. 757, was quoted approvingly by the Supreme Court of the United States in the case of Cotting vs. Kansas City Stockyards Co. et al., 183 U. S. 79, 89-90. In the case of the Spring Valley Water Works vs. City and County of San Francisco, 124 Fed. 574, Judge Morrow, in discussing the question whether the Board of Supervisors in fixing the rates for water should take into consideration the annual depreciation of the perishable part of the company's plant resulting from its use and from natural causes, says:

"It seems just and proper that such an allowance should be made. It is sanctioned by authority, but I do not think it necessary to take that element into consideration at this time."

This opinion was rendered upon an application for preliminary injunction, which was granted. The significance

of the last clause in the above quotation is, that upon the facts shown by affidavits, the plaintiff was entitled to the preliminary injunction without taking into consideration the annual depreciation of the perishable part of the company's plant.

It seems only reasonable that where a business, by reason of imposed rates by a municipality, is non-productive, that money borrowed to sustain said business should be a proper charge against operating; this, according to Mr. Hunt's report, being 1.457 cents, should be allowed.

Mr. Hunt deals at length with the question of leakage, but leaves undetermined the amount which should be allowed.

Our contention is that all the calculations should be based, not upon what gas may be manufactured for, but what gas the Company is able to deliver to consumers; this point is argued later.

The records of the Engineering Department of the San Francisco Gas and Electric Company, which were not destroyed in the fire of April, 1906, disclose the fact that the average leakage for a term of years was approximately 12 per cent. This amount of leakage has been accepted both here and elsewhere as indicating first-class construction of distributing systems. Leakage does not necessarily mean only the escape of gas from the mains, but is the result as well of condensation, due to differences in temperature and also defective registration of meters in use; but for purposes of argument we will assume a leakage of 12 per cent, and by the equation which Mr. Hunt gives, the cost of gas would be increased to 32.884 cents per M., an increase over his figures of 3.946 cents.

It is contended that the Board of Supervisors should take into consideration, as Mr. Hunt suggests, an allowance for present conditions, due to losses suffered and over which the distributing Company had absolutely no control, I quote from his report:

"The gas company must render service and such service can only be given through the mains which it has."

I further quote on the matter of leakage:

"Another system of mains, now a part of the system of the San Francisco Gas and Electric Co., comprising sixty miles of pipe, having no leakage the first eight months under pressure."

Such a condition from a gas engineering standpoint is absolutely untenable. Sixty miles of pipe absolutely tight would lose from $3\frac{1}{2}$ to 4 per cent of the volume of gas by con-

densation, providing no usage was had from it whatever.

On the basis of Mr. Hunt's report, he makes the rate exclusive of interest on appraised value, and eliminating leakage. Welsbach charge, replacement and interest on floating debt 47.254 cents, to which we claim should be added the cost on the basis of gas sold with an allowance of 12 per cent leakage, Welsbach charge, interest on floating debt, 7 per cent on his value of plant, and on the basis of Mr. Stuart's report 2½ per cent on

said valuation, for maintenance and 2½ per cent for depreciation, and the further sum of 1.4 cents for the cost of taking care of increase of consumers due to increased sales on the basis of an increase in such sales of ten per cent, and .771 cents on the basis of increased taxation of Company's property by Assessor for the coming fiscal year, making a total cost of 99.923 cents per M., allowing for his estimate of manufactured cost based on the four largest delivery months of the year.

In dismissing the details of Mr. Hunt's report we desire to quote his concluding sentence:

"In conclusion I desire to acknowledge the courtesies extended by the officials of the gas company with whom I have come in contact. They have afforded me every facility and information asked for, freely and frankly."

This disposes of the criticisms heretofore made regarding the attitude of the company in the matter of submitting its books and plant to the experts for free examination.

Report of Mr. C. D. Stuart.

In the details of the cost as determined by the examination of the books of the Company, Mr. Stuart has not followed the figures given by Mr. Hunt, as will appear from the foregoing table, in that he has allowed the leakage item as contended, the Welsbach cost of lighting and maintenance of street lamps, interest upon floating debt in administration account, and he recommended an allowance for maintenance and depreciation.

On page 3 of his report, Mr. Stuart frankly states:

"Referring to the calculations of Mr. Hunt as to the cost of gas manufactured during the last four months of 1907, this cost is below the average, because the period covers a time of maximum consumption."

He beg particularly to call your attention to the matter of an allowance for replacement and refer to article from which Mr. Stuart has quoted the instructions issued by the State of New York Public Service Commission in a circular to the several gas companies governing costs of operation.

"Whether through wear and tear or through casualty it becomes necessary to replace some part of any structure, facility or unit of equipment, and the extent of such replacement does not amount to a substantial change of identity in the structure, facility, or unit of equipment, the replacement of such part is to be considered a repair, and the cost of such repair is to be treated as an operating expense, and must not be charged as a replacement to any *capital account*."

As also the quotation on page 4 of his report from the same authority:

"By an extraordinary casualty is meant one of such violence and irregularity that provision cannot be made against it through the exercise of ordinary reasonable prudence; e. g., the Galveston tidal wave, and the San Francisco earthquake. All other casualties of classes occurring with such degree of frequency and uniformity that the principles of insurance are applicable thereto, must be provided

for through suitable charges to the insurance account."

I have heretofore dwelt in this discussion on Mr. Hunt's report of the matter of the increased cost of gas distributed by reason of the increased cost of oil and increased taxes, which items are supported by Mr. Stuart.

On page 8 of his report, Mr. Stuart makes the following statement, referring to a deficit in earnings of the Company of \$1,800,000.

"How long this deficit has been accumulating or where the amount was expended, it is difficult to say, in the absence of the burned ledgers, but it appears like a sum that will require years of fair profit to pay off."

It can be said that this deficit is directly the result of the rate of gas at 85 cents per M. established in 1906 and perpetuated in 1907.

We contend that Mr. Stuart's allowance of 5 per cent on value of plant as interest on investment is too low, as will later appear in this argument.

As the contentions of both the experts in the matter of an allowance for depreciation and proper interest charge upon invested capital seem to be the only vital questions at issue, we desire to submit certain authorities and reasons for such allowance.

In several of the states of the United States of America, where Public Service Commissions have been established by the Legislatures of said states, notably New York, Massachusetts and Wisconsin, said Commissioners have, in allowing rates to be charged by gas companies, made the matter of replacement, depreciation and maintenance a charge against the operating expense, and as a basis for determination of profit in England, the several municipal bodies have gone even further and allowed a charge against operation annually which would provide a sinking fund to take care of extraordinary charges. Quotations have already been given you from the instructions of the Public Service Commission of the State of New York.

In the State of Massachusetts the Board of Gas and Electric Light Commissioners allow annually to the several companies a charge for depreciation approximately three per cent, and allow all maintenance and ordinary repair charges in addition thereto, as does the Public Service Commission of New York.

The Public Service Commissioners of the State of Wisconsin, in the matter of the application of the La Crosse Gas and Electric Company for authority to increase rates, lays down the following as its ruling in the matter

of depreciation charges, from which we quote:

"The question of depreciation is an exceedingly important one, there is continually in progress in the plants of industries of this character (gas and electric), except, perhaps, in the land on which they are located, a waste or depreciation, which is due to its use and to the ravages of time. A part of this wear and decay is offset by the ordinary repairs. Some kinds of property becomes useless in a few years, other kinds again, last longer. It all must be replaced sooner or later. This replacement is properly an operating expense. It should in some form be charged against the earnings. The manner in which this is done is not of special importance. Depreciation is an expense which must be met."

They further state:

"In fixed charges, are annually included, rent of plant, taxes, depreciation and interest upon the investment."

In the case of the Long Branch Commission vs. Tinnern Manor Water Company, 62 Atl. 474, the Court decides:

"In a suit to determine reasonable rates at which a water company should be compelled to furnish water to a city for public and private consumption, such rates should be established as would enable the water company to derive a fair income, based upon a fair value of its property at the time it is being used by the public, taking into account the cost of maintenance, depreciation, current operating expense, etc."

In the case of the Kennebec Water District vs. City of Waterville et al., 54 Atl. 6, the Court says:

"Summarized, these elemental principles are the right of the Company to derive a fair income based upon a fair value of the property at the time it is being used for the public, taking into account the cost of maintenance, depreciation and current operating expense, etc."

Again, in the case of Andrew Brymer et al. vs. Butler Water Company, 36 L. R. A. 260, the Court decides:

"A system of water rates that yields no more income than is fairly required to maintain the plant, pay fixed charges and operating expenses, provide a suitable sinking fund for the payment of debts and pay a fair profit to the owners of the property, is not unreasonable."

With reference to the above, it may be said, that to maintain a plant, it is necessary to provide for two items: (1) ordinary repairs, (2) replacement of worn out or obsolete apparatus and machinery.

The necessity of making an annual allowance or sinking fund to cover depreciation, arises from the fact that the second item of maintenance above mentioned, i. e., replacement of worn out or obsolete apparatus and machinery, must be provided for periodically rather than annually, although the actual diminution in value, resulting from use, is constantly progressing.

Therefore, when the courts say that rates should make an adequate provision for the maintenance of the plant, this means that a proper allowance must be made for periodical replacement of apparatus that depreciates gradually.

What is meant by depreciation as an item to be considered in fixing gas rates can best be explained by a concrete example. A plant for the manufacture and distribution of gas includes buildings, machinery and mains. Some parts of such machinery and buildings wear out rapidly and are frequently broken. These parts are from time to time repaired or replaced and the expense of repairing and replacing them is charged to maintenance and repairs. But the mains laid in the streets gradually rust out. Even the most durable parts of the machinery and the buildings in which such machinery is housed gradually deteriorate and eventually have to be replaced by new mains, machinery and buildings. This gradual deterioration of mains, machinery and buildings cannot possibly be repaired from time to time or year to year. Such deterioration is called depreciation. As this deterioration is continuously progressing, though the ultimate repair or replacement occurs in more or less frequent periods, it must be provided for from the earnings of the Company in the same way as current repairs. The replacing of worn out and obsolete machinery and apparatus periodically is as essential to the maintenance of the plant as is the making of current repairs. Properly speaking, therefore, maintenance of a plant includes both current repairs and the charges made to cover depreciation. To hold that the Company is not entitled to rates that will enable it to set aside annually a sufficient sum of money to pay for the periodical replacement of worn out and obsolete machinery and apparatus is just as reasonable as to say that when a man lends money for a term of years he is not entitled to the return of his principal in addition to the stipulated or legal interest. If a company invests ten million dollars, in a plant for the manufacture and distribution of gas, and is allowed only rates sufficient to enable it to pay the cost of production, operating expenses, re-

pairs, taxes and a reasonable interest or return upon its investment, and if the life of the plant is, for example, twenty years, then at the end of the first period of twenty years the company will have received for the benefit of its stockholders only the reasonable interest upon its original investment and the original investment itself will have been consumed in serving the public. The public, by enforcing such rates as the maximum, will have appropriated and taken to itself the entire original investment and the use thereof for the said period, although it will have paid for nothing except the use. The injustice of such action must be apparent to the most casual observer.

In discussing the San Diego decision, under which Mr. Hunt formulated his report, we desire to call your attention to the absurd deductions, which are forced by a strict interpretation of that portion of the decision referred to by Mr. Hunt.

If a company is not permitted to charge depreciation to operating expenses, but must charge the same to construction, and, if, under the same decision, the actual amount placed into construction cannot be considered, but only the amount of property actually in use, it would not be long, acting under such decision, before a company would be forced into the bankruptcy courts, as, under the ruling, additional amounts charged to construction other than actually placed in the property, could not be considered as a basis for fixing rates.

In the matter of a reasonable amount of interest to be allowed to public service corporations, it must be apparent that an amount of 5, 6 or 7 per cent should not be considered as compensatory, owing to the risks incident to the business and the necessity for borrowing money by bonds or otherwise to meet the growth of the business in every well-developed city. To borrow money at 5 per cent and then only earn 5 per cent upon the money invested, would bring nothing for dividends to the stockholders who initiated the business, and whose money, in good faith, was put in to meet the difference between the necessities of construction by bond borrowing and the actual cost of the plant. No commercial enterprise would be satisfied with less than 20 to 30 per cent upon its capitalization, and such amounts are earned every day by well-established institutions who are not under governmental regulation.

There are many decisions of the courts of this land, deciding that public service corporations, with the risk of its business being controlled by municipal bodies, and the attendant

risk of dealing with a large number of consumers, together with the fact that its plants cannot be converted to other uses, entitled such corporations to a much larger rate of interest than the ordinary rate paid upon state or government bonds.

In the matter of leakage, and repeating what has been before stated in this argument, the calculations of the revenue to be obtained by a gas company should be based, not upon the amount of gas manufactured, but the amount sold, and for which it receives revenue.

In the case of the New York Consolidated, on appeal from decision of the Commission, fixing rate at eighty cents, it was determined by the Court that the amount distributed was the factor in computation of cost.

Such has been the decision in all cases where a question of rate for either gas or electric service was concerned.

Commercial enterprises base their costs upon delivered costs and not manufactured. Their leakage, whether by theft, error, losses in manufacture and distribution, or otherwise, is added to the cost of the article distributed and the consumer pays for the same. The same ruling should prevail in the estimate of the cost to the gas company of its distributed commodity.

In the attempt to make this argument a brief one, avoidance of unnecessary details has been made, which will be fully brought out in an oral argument proposed to be made before the Board of Supervisors, with its permission, when the matter comes before it for hearing.

All of which is respectfully submitted,

SAN FRANCISCO GAS AND ELECTRIC COMPANY.

By JOHN A. BRITTON, President.

Communication from A. M. Hunt in Answer to Reply of S. F. Gas and Electric Co. to Reports Made by Himself and C. D. Stuart on Valuation of Gas Plant and Cost of Manufacture and Delivery of Gas.

Joint Committee of the Board of Supervisors on Artificial Lights and Finance.

Gentlemen:

I this afternoon received a copy of reply of the S. F. G. & E. Co. to reports made by Mr. Stuart and myself on the valuation of gas plant and cost of manufacture of delivery of gas.

I have gone over same as carefully as the time at my disposal would permit, and submit the following comments thereon:

On Page 1, the Company takes exception to the valuation of the property, and in support of its contention notes the fact that my valuation of

the street mains is on a basis of approximately \$12,000 per mile, while a recent report by Mr. Manson, City Engineer, gives a cost of \$31,674.70 per mile for a water distribution system.

The Company fails to call attention to the fact that this report is the one made on the question of a salt water fire-protection system for the City of San Francisco, and the estimate for same is noted as covering the following:

Distributing system, consisting of 483,558 lineal feet of cast-iron pipe, with necessary specials, gate valves, gate boxes, hydrants, air valves, relief valves, blow-off valves and fire bolt connections, \$2,900,000. No pipe in this system is smaller than 10" in diameter, and most of it of larger sizes, up to 20" in diameter. It is, furthermore, of very heavy construction and designed to carry a pressure of 300 lbs. per square inch, whereas the pipe used by the gas company is of much lighter weight, in fact as light as is consistent with the matter of handling and resistance of corrosion. Furthermore, the Gas. Co. has large quantities of 2, 3 and 4" pipe; also, the valve system figured on in the salt water system is many times more expensive than the valve system which the Gas Co. has.

This citation is entirely misleading, and so far as I can judge, intentionally so. I am prepared to stand by my valuation.

If the value of the S. F. G. & E. Co.'s system is computed on the basis of cost per mile, as given in Mr. Grunsky's report, it would be over thirteen and a quarter million dollars, or, in other words, the cost of the system of mains alone would be greater than that which the Company itself claims should be the value of its entire investment.

As I anticipated, the Company takes exception to figuring the cost of gas on the basis of the last four months of the year. My original report contains my reason for so doing.

On page 2, under the head of "Distribution Cost," the Company calls attention to an error in computation. In making the computation with reference to the revenue derived from street lighting, I did make an error. This error arose from a misunderstanding of information obtained from the Chief Engineer of the Gas Co. as to the number of street lamps in use. Some of these lamps have three burners and others only one burner, and it is a confusion on this point which led to the error. The actual facts are as follows:

The Chief Engineer of the Company

reports that on Dec. 31, 1907, there were in operation 3945 street lamps, having one burner each, and 215 street lamps having three burners each. On this basis, and taking the rates provided in the Ordinance, on the assumption that the number of lamps in use Dec. 31st, 1907, would represent the average between the periods of July 1st, 1907, and July 1st, 1908, the gross return to the Company for these lamps would be \$106,957.54, instead of \$116,662.42, as given in my report. The number of cubic feet of gas used by these burners during the year would be 73,715,400 cu. ft. The rate to the Company in excess of the Welsbach contract would, therefore, be 78.848c instead of 91.877c, as stated.

I regret exceedingly that this error should have occurred, and trust the Company's interests have not been prejudiced thereby.

Under the head of "Leakage," the Company states that the leakage prior to the fire was 12% and that they should be allowed this amount, and that this amount of leakage is accepted elsewhere as indicating first-class construction of distributing systems. In my opinion, the Company is in error in this statement.

The Company also takes exception to my statement as to there being no leakage from a system now incorporated with theirs during the first eight months under pressure. It is, of course, inevitable that if gas is sent into the mains at a temperature above that at which it will pass through the consumer's meter, there will be a reduction in volume, due to the cooling. This, however, in the case in question, was probably very small, as the plant was operated much below its normal capacity and the gas had ample time to cool in the works system, thus obtaining normal temperature, with consequent shrinkage and condensation before it was sent into the street mains.

Nothing which the Company presents offsets the data and facts given with reference to the companies operating in the State of Massachusetts, and especially in the city of Boston. The amounts which I quoted for these localities are what is known in gas parlance as "unaccounted for" gas and not leakage, leakage being a misleading term.

I think the above covers all the points which it is incumbent upon me to take cognizance of. If there are any other on which you desire information, please advise me.

Yours very truly,

A. M. HUNT.

Report of Finance and Artificial Lights Committees on Bill Fixing Heat, Light and Power Rates for Fiscal Year 1908-9.

Supervisor Jennings presented the following report:

To the Honorable the Board of Supervisors of the City and County of San Francisco.—Gentlemen: Your Finance and Artificial Lights Committees, to whom were referred by Resolution No. 2103 (New Series) of your Honorable Board, the matter of employing experts to examine into all phases of the business of manufacturing and distributing of gas in the City and County of San Francisco, beg leave to present the following report:

As authorized by said Resolution your Committee engaged on April 1, 1908, the services of A. M. Hunt, Civil Engineer, and Chas. D. Stuart, Expert Accountant, and instructed said gentlemen to examine into the matters referred to your Committee and to present their reports and conclusions.

The report of Engineer Hunt was filed on May 15, 1908, and that of Expert Stuart on May 18, 1908, and were given due consideration by your Committee, as was also the reply of the San Francisco Gas and Electric Company to the reports of the experts, filed May 29, 1908.

From the report of the expert gas engineer and of the expert accountant and from the investigations made by your Committee, we estimated that the sum of 85 cents per 1000 cubic feet of gas will yield to the San Francisco Gas and Electric Company for the year commencing July 1, 1908, a fair and reasonable return upon the value of its plant actually used in supplying gas to the City and County of San Francisco and to its inhabitants.

We find that the following items and amounts should be allowed in computing the cost of manufacturing and distributing gas for the year commencing July 1, 1908, and ending June 30, 1909:

Manufacturing cost of 1000 cubic feet of gas.....	28.938 cents
Distribution	8.623 cents
Administration	9.693 cents
Leakage	3.946 cents
Welsbach expense	1.935 cents
Interest on floating debt..	1.457 cents
Maintenance	7.516 cents
Extra expense through increased sales	0.700 cents
Increased taxes	0.711 cents
7 per cent interest on investment, estimated at \$8,875,086	22.085 cents

Total cost of gas at burner85.664 cents

Inasmuch as a very liberal appraisal was made by Engineer A. M. Hunt, of the distributing plant of the San Francisco Gas and Electric Company, and as the Hunt appraisal is even in excess of the valuation which the company is willing to accept as a basis for the establishment of rates, your Committee is of the opinion that the 85 cent rate is fair and equitable.

We append hereto and make a part of this report the reports of Engineer A. M. Hunt and of Expert Chas. D. Stuart, and also the reply thereto of the San Francisco Gas and Electric Company.

Your Committee therefore recommends the amendment of Bill No. 454 by reducing the rate for gas therein recommended from 95 cents per 1000 cubic feet to 85 cents per 1000 cubic feet, and also recommends the reenactment of the present electric light and power rates for the ensuing fiscal year, as expressed in Bill No. 455.

Respectfully submitted,

THOS. JENNINGS,

D. C. MURPHY,

JAS. A. JOHNSTON,

Read by Clerk.

GAS RATES BILL.

Thereupon, Bill No. 454, Ordinance No. — (New Series), entitled, "Fixing the minimum standard quality and illuminating power of gas and the maximum rate and price to be charged therefor for the year commencing July 1, 1908, and ending June 20, 1909," was taken up.

Motion.

Supervisor Johnston moved that the privilege of the floor be granted to John A. Britton.

So ordered.

Privilege of the Floor.

Whereupon, John A. Britton, President of the San Francisco Gas and Electric Company, addressed the Board, stating that the experts' figures were based on the maximum months of sale, that the City should make good "depreciation" as well as "maintenance" and that 7% on approximately \$9,000,000 was not an adequate return.

Amendment Lost.

Supervisor Murdock moved the amendment of Bill No. 454 by fixing the maximum rate of gas at 90 cents per one thousand cubic feet in lieu of 95 cents.

Motion lost by the following vote:

Ayes—Supervisors Broderick, Center, Comte, Murdock, Pollok, Rixford—6.

Noes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLaren, Murphy, Payot—12.

Amendment Carried.

Supervisor Johnston moved that the recommendation of the Joint Committee to amend Bill 454 by fixing the gas rate at 85 cents per one thousand cubic feet be adopted.

Amendment carried by the following vote:

Ayes—Supervisors Baneroff, Booth, Connolly, D'Ancona, Giannini, Hooks, Jennings, Johnston, McAllister, McLeran, Murphy, Payot—12.

Noes—Supervisors Broderick, Center, Comte, Murdock, Pollok, Rixford—6.

Passed for Printing.

Whereupon, the question being taken on Bill No. 454, as amended, the same, in words and figures following, was passed for printing by the following vote:

Bill No. 454, Ordinance No. — (New Series), Fixing the minimum standard quality and illuminating power of gas and the maximum rate and price to be charged therefor, for the year commencing July 1, 1908, and ending June 30, 1909.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The minimum standard quality and illuminating power of gas to be furnished by any person, company or corporation, to be used in the City and County of San Francisco, is hereby established at nineteen (19) candles, said candle power to be determined by the Board of Public Works of the City and County of San Francisco, and the maximum rate and price to be charged and collected therefor from consumers by any such person, company or corporation, for the year commencing July 1, 1908, and ending June 30, 1909, is hereby fixed and established at eighty-five (85) cents per one thousand cubic feet.

Section 2. The maximum rate and price to be charged by any person, company or corporation for furnishing gas for lighting public buildings for the year commencing July 1, 1908, and ending June 30, 1909, is hereby fixed at eighty-five (85) cents per one thousand cubic feet.

Section 3. The maximum rate and price to be charged by any person, company or corporation for furnishing incandescent gas lamps for lighting the public streets, parks or squares for the year commencing July 1, 1908, and ending June 30, 1909, is hereby fixed at eight and seven-tenths (8.7) cents per lamp per night, including care, lighting and extinguishing, each lamp to be kept burning from thirty (30) minutes after sunset until thirty (30) minutes before sunrise on the next day, and the number of such gas lamps may be in-

creased or diminished by the Board of Supervisors, and subject to any moonlight schedule the Board may adopt, provided that the price of incandescent gas lamps of three lights each is hereby fixed at fifteen (15) cents a cluster lamp per night.

Section 4. The maximum rate and price to be charged by any person, company or corporation for furnishing gas for heating purposes for the year commencing July 1, 1908, and ending June 30, 1909, is hereby fixed at eighty-five (85) cents per one thousand cubic feet.

Section 5. All ordinances and parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 6. This ordinance shall take effect and be in force on the first day of July, 1908.

Ayes—Supervisors Baneroff, Booth, Connolly, D'Ancona, Giannini, Hooks, Jennings, Johnston, McAllister, McLeran, Murphy, Payot—12.

Noes—Supervisors Broderick, Center, Comte, Murdock, Pollok, Rixford—6.

Passed for Printing.

The following Bill heretofore referred to the Finance and Artificial Lights Committees and reported upon favorably by said Committees was *passed for printing* by the following vote:

FIXING AND DETERMINING ELECTRIC LIGHT RATES FOR THE FISCAL YEAR 1908-9.

Bill No. 455, Ordinance No. — (New Series), Fixing the maximum rate and price to be charged for incandescent and electric lights and for electricity for heat and power purposes for the year commencing July 1, 1908, and ending June 30, 1909.

Be it ordained by the people of the City and County of San Francisco as follows:

Section 1. The maximum rate and price to be charged by any person, company or corporation for furnishing incandescent electric light to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1908, and ending June 30, 1909, is hereby fixed at nine (9) cents per one thousand (1000) watt hours.

From this rate discounts shall be allowed for quantity consumed per sixteen candle power lamp as follows:

On a consumption per 16 candle-power incandescent lamp of 2000 to 3000 watt hours in one month, 5 per cent.

On a consumption per 16 candle-power incandescent lamp of 3000 to 4000 watt hours in one month, 10 per cent.

On a consumption per 16 candle-power incandescent lamp of 4000 to

5000 watt hours in one month, 15 per cent.

On a consumption per 16 candle-power incandescent lamp of 5000 to 6000 watt hours in one month, 20 per cent.

On a consumption per 16 candle-power incandescent lamp of 6000 to 7000 watt hours in one month, 25 per cent.

On a consumption per 16 candle-power incandescent lamp of 7000 to 8000 watt hours in one month, 30 per cent.

On a consumption per 16 candle-power incandescent lamp of 8000 to 9000 watt hours in one month, 35 per cent.

On a consumption per 16 candle-power incandescent lamp of over 9000 watt hours per month, 40 per cent.

In estimating the discounts, one arc lamp shall be equivalent to two sixteen incandescent lamps for each ampere of current used by said arc lamp.

A charge of \$1.00 for the maintenance of a meter during any month may be made to any consumer whose bill for current furnished during such month does not exceed \$1.00, but in the event of such charge being made, no further charge shall be made for current furnished during said month to said consumer.

Section 2. The maximum rate and price to be charged by any person, company or corporation for furnishing arc lights of 7 amperes and pressure at each lamp of not less than 70 volts, or lamps of equal wattage, to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1908, and ending June 30, 1909, is hereby fixed as follows:

For each arc light burning twenty-four hours, \$5.00 per week.

For each arc light burning from sunrise to sunset, \$3.00 per week.

For each arc light burning from sunset to sunrise, \$2.25 per week.

For each arc light burning from sunset to midnight, \$1.75 per week.

For each arc light burning for six nights from sunset to 9:30 p. m., \$1.40 per week.

Section 3. The maximum rate and price to be charged by any person, company or corporation for furnishing electricity for heat and power purposes to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1908, and ending June 30, 1909, is hereby fixed at 9 cents per 1000 watt hours, subject to the above discounts, each horse power of motor capacity connected being considered as equivalent to twelve and one-half sixteen candle power incandescent lamps.

Section 4. All ordinances or parts of

ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 5. This Ordinance shall take effect and be in force on the first day of July, 1908.

Ayes—Supervisors Baneroff, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hoeks, Jennings, Johnston, McAllister, McLeran, Murphy, Payot, Pollok, Rixford—18.

SPECIAL ORDER OF BUSINESS, 3:30 P. M.

BILL BOARD ORDINANCE.

In accordance with motion made at last meeting,

Bill No. 389 (New Series), entitled, "Regulating the construction and maintenance of billboards and advertising sign boards, and the granting of permits therefor," and Bill No. 390 (New Series), entitled, "Imposing a license on persons, firms and corporations carrying on the business of bill posting, or sign advertising by means of billboards, or advertising sign boards," together with substitute Bill No. 504, Ordinance No. — (New Series), entitled, "Regulating bill posting, sign and bulletin painting, distributing, card and banner tacking, and all outdoor advertising and imposing a license tax on persons, firms and corporations engaged in the business so regulated," heretofore referred to the Licenses Committee and returned by said Committee with the recommendation that Bills Nos. 389 and 390 be indefinitely postponed and that substitute Bill No. 504, as amended by Committee, be passed for printing; also Bill No. 514, Ordinance No. — (New Series), entitled, "Imposing a license tax upon persons, firms and corporations carrying on the business of bill posting, or advertising by means of billboards or advertising sign boards," submitted as a substitute by Supervisor Pollok in lieu of the foregoing, were taken up.

Motion.

Supervisor Comte moved that W. H. Seeley be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon, Mr. W. H. Seeley, representing Varney and Green, addressed the Board objecting to basing a license tax on the superficial area of Bill Boards for the reason that same could not be well determined and that such a method would therefore be impracticable. He suggested that tax be based on percentage of the gross receipts.

Adoption of Substitute Bill.

Thereupon, the question being taken on the adoption of Bill No. 514, submitted by Supervisor Pollok

as a substitute for all pending measures, the same was adopted by the following vote:

Ayes — Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Jennings, McLeran, Murphy, Payot, Pollok, Rixford—11.

Noes—Supervisors Broderick, Center, Comte, Hocks, Johnston, McAllister, Murdock—7.

Notice of Reconsideration.

Supervisor Comte changed his vote from No to Aye and gave notice that at the next legislative session of the Board he would move the reconsideration of the vote whereby Bill No. 514 was adopted.

Adopted.

The following Resolution was adopted:

Tax Collector Withdraw from Sale Certain Property erroneously Assessed for the Fiscal Year, 1907-8.

On motion of Supervisor Pollok: Resolution No. 2331 (New Series), as follows:

Resolved, That the Tax Collector be and is hereby directed to withdraw from Tax Sale for the year 1907-8 the following described property, in accordance with Section No. 3806 of the Political Code, said property having been erroneously assessed for said year, to wit:

The following Resolution was introduced by Supervisor Comte and on motion *laid over one week*:

Directing Assessor to Assess Fillmore Street Wharf Property in Accordance with Law.

Whereas, The City Attorney, in a written communication, filed April 20, 1908, advises that in accordance with court decisions setting forth that the fee to the property commonly known as the "Fillmore Street Wharf Property" is in private ownership, and not in the City; furthermore, that the City and County never possessed any more than an easement in said property, which easement has since lapsed owing to non-user thereof, and

Whereas, The City Attorney also advises that the said property known as the "Fillmore Street Wharf Property" should be assessed to private owners and should be taken from the list of City property; therefore,

Resolved, That Resolution No. 18164 (New Series), adopted May 25, 1885, wherein and whereby the City and County Surveyor was directed to delineate upon the official map of this City and County the land owned by the City at the north end of Fillmore street, occupied by the Fillmore-street wharf, and comprising a space commencing at the southerly end of said wharf and for a distance of two hundred feet on both sides thereof northerly to the point where in the year 1862 the waters of the bay were twelve feet deep at low water; also to furnish the Assessor with a plat of said property, in order that the same may be exempted from taxation, be and the same is hereby repealed.

Resolved, That the Assessor be and he is hereby directed to assess the said Fillmore-street wharf property in accordance with the law;

Resolved further, That the attention

of the Assessor, Recorder, Board of Public Works and City Engineer be and is hereby called to the provisions of this Resolution, and said officials are directed to change their maps and plats accordingly.

Adopted.

The following Resolutions were adopted:

Award of Contract Printing Law and Motion Calendar, Daily Trial Calendar, Decisions of the Supreme and Appellate Courts and the Journal and Calendar of Proceedings of the Board of Supervisors to Recorder Publishing Company.

APPROVING AND ACCEPTING STIPULATION IMPOSED BY DEPARTMENT OF INTERIOR IN GRANT OF RESERVOIR SITES AND RIGHTS OF WAY AT LAKE ELEANOR AND HETCH HETCHY VALLEY.

On motion of Supervisor Giannini: Resolution No. 2342 (New Series), as follows:

Whereas, The Board of Supervisors, by Resolution No. 1176 (New Series), approved August 1, 1907, authorized Mr. Marsden Manson to represent the City and County of San Francisco in the matter of making such argument to the Secretary of the Interior, written

or otherwise, as he might deem necessary, to obtain rights of way and reservoir sites at Lake Eleanor and Hetch Hetchy Valley, for the purpose of furnishing a water supply to San Francisco; and

Whereas, said Marsden Manson, in compliance with said Resolution, prepared and presented in person to the Secretary of the Interior, on the 14th day of September, 1907, a printed argument presenting the City's case and meeting the objections of the Turlock and Modesto Irrigation Districts thereto, and thereafter said Marsden Manson proceeded to Washington, D. C., as representative of the City and County of San Francisco and conferred with the Secretary of the Interior Department between April 6, 1908, and May 16, 1908, in relation to the application of the City and County of San Francisco for said reservoir sites and rights of way; and

Whereas, Under date of May 7, 1908, said Marsden Manson repeticioned the Honorable the Secretary of the Interior in behalf of the City and County of San Francisco to exercise his supervisory authority and reopen the application of James D. Phelan for reservoir rights of way in the Hetch Hetchy Valley and Lake Eleanor sites in the National Park, and to grant to San Francisco the rights prayed for in said petition; and

Whereas, The Honorable the Secretary of the Interior, James Rudolph Garfield, did on the 11th day of May, 1908, render his decision granting the City and County of San Francisco subject to certain conditions, reservoir sites and rights of way at Lake Eleanor and Hetch Hetchy Valley in the Yosemite National Park, a copy of which decision is in words and figures as follows:

Decision of the Secretary of the Interior Department, Washington, D. C., Granting the City and County of San Francisco, Subject to Certain Conditions, Reservoir Sites and Rights of Way at Lake Eleanor and Hetch Hetchy Valley in the Yosemite National Park.

Department of the Interior, Washington, May 11, 1908.

Water Supply, City of San Francisco—Application for Lake Eleanor and Hetch Hetchy Valley Reservoir Sites. Act of February 15, 1901.

The Commissioner of the General Land Office.

Sir:

October 15, 1901, James D. Phelan, then Mayor of the City of San Francisco, filed application for reservoir rights of way within the Yosemite National Park upon what are known as the Lake Eleanor and Hetch Hetchy Valley reservoir sites. This application was made under the Act of February 15, 1901, and was in fact the application of the City made in the name of

James D. Phelan to avoid the difficulties which beset a city if it must announce its business intentions to the public before securing options and rights necessary for its project. This is not disputed, and the fact is corroborated by his assigning to the City and County of San Francisco, on February 20, 1903, all his rights under the above application.

This application was considered by the Secretary of the Interior and, on December 22, 1903, rejected on the ground that he did not have the legal power to allow such a right of way within the Yosemite National Park. From that time to this the city has with practical continuity, pressed its request for a permit to use these reservoir sites. The City failed, however, to take steps to reopen this case in the form prescribed by the Rules of Practice of this Department, and for that reason, technically had no application on file after December 22, 1903. On the other hand, the City's evident good faith and the strong evidence that it supposed its application was alive, in the Department, is shown by the fact that at its request and solicitation the question of the power of the Secretary of the Interior to grant the rights of way applied for was referred to the Attorney-General, who, on October 28, 1905, held definitely that the Secretary of the Interior had full discretionary power to grant rights of way for reservoir, irrigation, or hydro-electric purposes within the Park.

When the Secretary's decision of December 22, 1903, was made final, the maps of location for the two reservoir sites were returned to the City, and unfortunately were destroyed by the fire which followed the earthquake of 1906. Fortunately, however, exact tracings of these maps had been made by the City Engineer for use in court proceedings, and for that reason it has been possible to file exact reproductions of the original maps, certified by the City Engineer. When the attention of the City's representative was called to the fact that technically the City had no application before the Department, he, on May 7, 1908, formally filed a petition requesting the Secretary of the Interior to exercise his supervisory authority and reopen the matter of the application of James D. Phelan for the reservoir rights in question, thus treating it as though it had never lapsed. I have given the most careful consideration to this petition, and have decided that the facts mentioned above are ample grounds for exercising my supervisory power and therefore restate the application of James D. Phelan, assigned to the City, as though the case had been technically kept alive since December 22, 1903, by specific compliance with the Rules of Practice of the Department. To this end the

tracings of the original maps of location as recertified by Marsden Manson, City Engineer, on April 22, 1908, will be accepted in lieu of the original and treated accordingly.

Congress, on February 15, 1901, provided specifically:

"The Secretary of the Interior * * * is authorized * * * to permit the use of rights of way through * * * the Yosemite, Sequoia and General Grant National Parks, California, for * * * water conduits and for water plants, dams, and reservoirs used to promote * * * the supply of water for domestic, public, or other beneficial uses * * * provided that such permits shall be allowed within or through any of said parks * * * only upon the approval of the chief officer of the Department, under whose supervision such park or reservation falls, and upon a finding by him that the same is not incompatible with the public interest."

By these words Congress has given power to the Secretary of the Interior to grant the rights applied for by the City of San Francisco, if he finds that the permit "is not incompatible with the public interest." Therefore I need only consider the effect of granting the application upon "the public interest."

In construing the words of a statute, the evident and ordinary meaning should be taken, when such meaning is reasonable and not repugnant to the evident purpose of the law itself. On this broad principle the words "the public interest" should not be confined merely to the public interest in the Yosemite National Park for use as a park only, but rather the broader public interest which requires these reservoir sites to be utilized for the highest good to the greatest number of people. If Congress had intended to restrict the meaning to the mere interest of the public in the park as such, it surely would have used specific words to show that intent. At the time the act was passed there was no authority of law for the granting of privileges of this character in the Yosemite National Park. Congress recognized the interest of the public in the utilization of the great water resources of the Park and specifically gave power to the Secretary of the Interior to permit such use. The proviso was evidently added merely as a reminder that he should weigh well the public interest both in and out of the Park before making his decision.

The present water supply of the City of San Francisco is both inadequate and unsatisfactory. This fact has been known for a number of years and has led to a very extensive consideration of the various possible sources of supply. The search for water for the City has been prosecuted from two diametrically opposite points of view. On

the one side, the water companies, interested in supplying the City with water for their own profit, have taken advantage of the long delay since it was first proposed to bring water from the Yosemite to San Francisco to look up and get control, so far as they could, of the available sources in order to sell them to the City. On the other hand, both the National Government and the City of San Francisco have made careful study of the possible sources of supply for the City. Four or five years ago, the Hydrographic Branch of the Geological Survey, after a careful examination by engineers of character and ability, reached the conclusion that the Tuolumne River offered a desirable and available supply for the City. The same conclusion was reached by the engineers of the City of San Francisco after years of exhaustive investigation.

I appreciate keenly the interest of the public in preserving the natural wonders of the Park and am unwilling that the Hetch Hetchy Valley site should be developed until the needs of the City are greater than can be supplied from the Lake Eleanor site when developed to its full capacity. Domestic use, however, especially for a municipal supply, is the highest use to which water and available storage basins therefore can be put. Recognizing this, the City has expressed a willingness to regard the public interest in the Hetch Hetchy Valley and defer its use as long as possible.

The next great use of water and water resources is irrigation. There are in the San Joaquin Valley two large irrigation districts, the Turlock and Modesto, which have already appropriated under State law 2,350 second feet of the normal flow of water through Lake Eleanor and Hetch Hetchy. The representatives of these districts protested strongly against the granting of the permit to San Francisco, being fearful that the future complete development of these irrigation communities would be materially hampered by the City's use of water. After repeated conferences, however, with the representatives of these irrigation districts I believe their rights can be fully safeguarded, provided certain definite stipulations to protect the irrigators are entered into by the City. Fortunately, the City can agree to this, and the interest of the two users will not conflict. On the contrary, the City in developing its water supply will to a considerable extent help the irrigation districts in their further development.

The only other source of objection, except that from persons and corporations who have no rights to protect but merely the hope of financial gain if the application of the City is denied, comes from those who have a special interest in our National Parks from

the standpoint of scenic effects, natural wonders and health and pleasure resorts. I appreciate fully the feeling of these protestants and have considered their protests and arguments with great interest and sympathy. The use of these sites for reservoir purposes would interfere with the present condition of the Park, and that consideration should be weighed carefully against the great use which the City can make of the permit. I am convinced, however, that "the public interest" will be much better conserved by granting the permit. Hetch Hetchy Valley is great and beautiful in its natural and scenic effects. If it were also unique, sentiment for its preservation in an absolutely natural state would be far greater. In the mere vicinity, however, much more accessible to the public and more wonderful and beautiful, is the Yosemite Valley itself. Furthermore, the reservoir will not destroy Hetch Hetchy. It will scarcely affect the canyon walls. It will not reach the foot of the various falls which descend from the sides of the canyon. The prime change will be that, instead of a beautiful but somewhat unusable "meadow" floor, the valley will be a lake of rare beauty.

As against this partial loss to the scenic effect of the Park, the advantages to the public from the change are many and great: The City of San Francisco and probably the other cities on San Francisco Bay would have one of the finest and purest water supplies in the world; the irrigable land in the Tuolumne and San Joaquin Valleys would be helped out by the use of the excess stored water and by using the electrical power not needed by the City for municipal purposes, to pump subterranean water for the irrigation of additional areas, the City would have a cheap and bountiful supply of electric energy for pumping its water supply and lighting the City and its municipal buildings; the public would have a highway at its disposal to reach this beautiful region of the Park heretofore practically inaccessible; this road would be built and maintained by the City without expense to the Government or the general public; the City has options on land held in private ownership within the Yosemite National Park, and would purchase this land and make it available to the public for camping purposes; the settlers and entryman who acquired this land naturally chose the finest localities, and at present have power to exclude the public from the best camping places; and further the City in protecting its water supply would furnish to the public a patrol to save this part of the park from destructive and disfiguring forest fires.

The floor of the Hetch Hetchy Valley, part of which is owned privately

and used as a cattle ranch, would become a lake bordered by vertical granite walls or steep banks of broken granite. Therefore, when the water is drawn very low it will leave few muddy edges exposed. This lake, however, would be practically full during the greater part of the tourist season in each year, and there would be practically no difficulty in making trails and roads for the use of the tourists around the edges of the Valley above high water mark. The City of San Francisco, through its regularly authorized representative, has, in order to protect the interests most directly involved, agreed to file with the Secretary of the Interior a stipulation approved by specific resolution of the Board of Supervisors and duly executed under the seal of the City of San Francisco, as follows:

"1. The City of San Francisco practically owns all the patented land in the floor of the Hetch Hetchy reservoir site and sufficient adjacent areas in the Yosemite National Park and the Sierra National Forest to equal the remainder of that reservoir area. The City will surrender to the United States equivalent areas outside of the reservoir sites and within the National Park and adjacent reserves in exchange for the remaining land in the reservoir sites, for which authority from Congress will be obtained if necessary.

"2. The City and County of San Francisco distinctly understands and agrees that all the rules and regulations for the government of the Park, now or hereafter in force, shall be applicable to its holdings within the Park and that except to the extent that the necessary use of its holdings for the exclusive purpose of storing and protecting water for the uses herein specified will be interfered with, the public may have the full enjoyment thereof, under regulations fixed by the Secretary of the Interior.

"3. The City and County of San Francisco will develop the Lake Eleanor site to its full capacity before beginning the development of the Hetch Hetchy site, and the development of the latter will be begun only when the needs of the City and County of San Francisco and adjacent cities, which may join with it in obtaining a common water supply, may require such further development. As the drainage area tributary to Lake Eleanor will not yield, under the conditions herein imposed, sufficient run-off in dry years to replenish the reservoir, a diverting dam and canal from Cherry Creek to Lake Eleanor reservoir for the conduct of waste flood or extra-seasonal waters to said reservoir, is essential for the development of the site to its full capacity, and will be constructed if permission is given by the Secretary of the Interior.

"4. The City and County of San Francisco, and any other city or cities which may, with the approval of the municipal authorities, join with said City and County of San Francisco in obtaining a common water supply, will not interfere in the slightest particular with the right of the Modesto Irrigation District and the Turlock Irrigation District to use the natural flow of the Tuolumne River and its branches to the full extent of their claims, as follows: Turlock Irrigation District, 1500 second feet; Modesto Irrigation District, 850 second feet; these districts having respectively appropriated the foregoing amounts of water under the laws of the State of California.

"To the end that these rights may be fully protected, San Francisco will stipulate not to store nor cause to be stored, divert, nor cause to be diverted from the Tuolumne River, or any of its branches, any of the natural flow of said river when desired for use by said districts, for any beneficial purpose, unless this natural flow of the river and tributaries above La Grange dam be in excess of the actual capacities of the canals of said districts, even when they shall have been brought up to the full volumes named, 1500 second feet for the Turlock Irrigation District and 850 second feet for the Modesto Irrigation District.

"5. The City and County of San Francisco will in no way interfere with the storage of flood waters, in sites other than Hetch Hetchy and Lake Eleanor by the Modesto and Turlock Irrigation Districts or either of said districts for use in said districts, and will return to the Tuolumne River above the La Grange dam, for the use of said irrigation districts, all surplus or waste flow of the river which may be used for power.

"6. The City of San Francisco will upon request sell to said Modesto and Turlock Irrigation Districts for the use of any land owner or owners therein for pumping sub-surface water for drainage or irrigation any excess of electric power which may be generated such as may not be used for the water supply herein provided and for the actual municipal purposes of the City and County of San Francisco, (which purposes shall not include sale to private persons nor to corporations) at such price as will actually reimburse the said City and County for developing and transmitting the surplus electrical energy thus sold, the price, in case of dispute, to be fixed by the Secretary of the Interior; and no power plant shall be interposed on the line of flow except by the said City and County except for the purposes

and under the limitations above set forth.

"7. The City and County of San Francisco will agree that the Secretary of the Interior shall at his discretion, or when called upon by either the City or the Districts to do so, direct the apportionment and measurement of the water in accordance with the terms of the preceding clauses of this stipulation.

"8. The City and County of San Francisco, when it begins the development of the Hetch Hetchy site, will undertake and vigorously prosecute to completion a dam at least 150 feet high, with a foundation capable of supporting the dam when built to its greatest economic and safe height, and whenever, in the opinion of the engineer in charge of the reservoirs on behalf of said City and County and of the municipalities sharing in this supply, the volume of water on storage in the reservoirs herein applied for is in excess of the seasonal requirements of said municipalities, and that it is safe to do so, that such excess will be liberated at such times and in such amounts as said directions may designate, at a price to said Districts not to exceed the proportionate cost of storage and sinking fund chargeable to the volumes thus liberated, the price in case of dispute to be fixed by the Secretary of the Interior; provided that no prescriptive or other right shall even inure or attach to said districts by user or otherwise to the water thus liberated.

"9. The City and County of San Francisco will, within two years after the grant by the Secretary of the Interior of the rights hereby applied for, submit the question of said water supply to the vote of its citizens as required by its charter, and within three years thereafter, if such vote be affirmative, will commence the actual construction of the Lake Eleanor Dam and will carry the same to completion with all reasonable diligence, so that said reservoir may be completed within five years after the commencement thereof, unless such times hereinbefore specified shall be extended by the Secretary of the Interior for cause shown by the City, or the construction delayed by litigation; and unless the construction of said reservoir is authorized by a vote of the said City and County and said work is commenced, carried on and completed within the times herein specified, all rights granted hereunder shall revert to the Government."

In considering the reinstated application of the City of San Francisco, I do not need to pass upon the claim that this is the only practicable and

reasonable source of water supply for the City. It is sufficient that after careful and competent study the officials of the City insist that such is the case. By granting the application opportunity will be given for the City, by obtaining the necessary two-thirds majority vote, to demonstrate the practical question as to whether or not this is the water supply desired and needed by the residents of San Francisco.

I therefore approve the maps of location for the Lake Eleanor and Hetch Hetchy reservoir sites as filed by James D. Phelan and assigned to the City of San Francisco, subject to the filing by the City of the former stipulation set forth above, and the fulfillment of the conditions therein contained.

Very respectfully,

JAMES R. GARFIELD.

Secretary,

now therefore be it

Resolved, By the Board of Supervisors of the City and County of San Francisco, that the action of Marsden Manson, City Engineer of the City and County of San Francisco, and the duly authorized and accredited representative of said City and County, in petitioning the Department of the Interior for said reservoir sites and rights of way, and expressing the stipulations acceptable to the City, which the Honorable the Secretary of the Interior prescribed as the terms of his decision hereinabove expressed be and are in all things hereby approved and ratified; and, the conditions expressed in the letter of the Honorable, the Secretary of the Interior, James Rudolph Garfield, of date May 11, 1908, to the Commissioner of the General Land Office, above quoted, be and hereby are accepted in full by the City and County of San Francisco.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdoch, Murphy, Pollok, Rixford—17.

Declaring that no Permit Shall be Granted for Overhead Trolley Operation of Street Cars on Outer Tracks of Lower Market Street, Unless Companies Pay \$1,000 Monthly Into City Treasury and Agree to Grant Rights of Way to Another Street Railway Over Said Tracks.

Supervisor Giannini introduced the following Resolution:

Whereas, The Board of Supervisors, by Resolution No. 1677 (New Series), approved December 11, 1907, granted the United Railroads of San Francisco and the Sutter Street Railway Company, permission to erect and maintain for a period of sixty days an overhead trolley wire over the track of the Sutter Street Railway Company on the

south side of Market street, between a point opposite the junction of Sansome and Sutter streets and the ferry, it being distinctly understood, however, that in granting said permit the Board of Supervisors in no manner recognized the right of either the United Railroads of San Francisco or the Sutter Street Railway Company to construct or maintain permanent overhead trolley wires over any railroad track on Market street, and

Whereas, By Resolutions No. 1936 (New Series), No. 2077 (New Series), No. 2116 (New Series) and No. 2184 (New Series) said temporary permit expressed in Resolution No. 1677 (New Series) was extended from time to time and the last extension of time granted under Resolution No. 2184 (New Series) expires June 1, 1908; now therefore

Resolved, That this Board hereby declares that no further permits shall be granted to said United Railroads of San Francisco and to said Sutter Street Railway Company to operate and maintain said overhead trolley wire over the tracks of the Sutter Street Railway Company on Market street, between Sansome and Sutter streets and the ferry, unless the United Railroads of San Francisco and the Sutter Street Railway Company agree in writing to pay monthly into the treasury of the City and County of San Francisco for this privilege the sum of one thousand dollars (\$1000.00), and further that said named companies agree in writing to grant a right of way for a municipally owned street railroad, or for any other street railroad designated by the Board of Supervisors over said tracks of said Sutter Street Railway Company on Market street.

Amendment.

Supervisor Murdock moved to amend as follows:

"That a permit be granted to the United Railroads of San Francisco and to the Sutter Street Railway Company to operate and maintain overhead wires over the tracks of the Sutter Street Railway Company on Market street, between Sansome and Sutter streets and the ferry, during the pleasure of the Board, upon the payment monthly in advance into the treasury of the City and County of San Francisco of the sum of \$1000."

Amendment lost by the following vote:

Ayes—Supervisors Broderick, Center, Comte, Murdock—4.

Noes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murphy, Pollok, Rixford—13.

Absent—Supervisor Payot—1.

Adopted.

Whereupon, the question being taken on the above Resolution, same was *adopted* as Resolution No. 2343 (New Series), by the following vote:

Ayes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McLeran, Murphy, Rixford—11.

Noes—Supervisors Broderick, Center, Comte, McAllister, Murdock, Pollok—6.

Absent—Supervisor Payot—1.

Privilege of the Floor.

Whereupon, J. H. Boeckmann, president of the Sutter Street Railway Company, was granted the privilege of the floor and requested that he be granted a temporary permit for twenty days within which to change the mode of street car operation on said route.

Adopted.

The following Resolutions were *adopted*:

Adopted.

The following Resolutions were *adopted*:

Clerk to Serve Notice of Termination of Lease on J. Oliva to Land in House of Refuge Tract.

On motion of Supervisor Center: Resolution No. 2345 (New Series), as follows:

Whereas, The City and County of San Francisco heretofore leased to one J. Oliva, that certain portion of the House of Refuge Tract lying to the east of the Southern Pacific Railroad Company's right of way and to the north of Ocean avenue, and also a certain portion of said lot lying west of said railroad's right of way, upon the condition that said lessee shall furnish to the jails and prisons of the City and County all rough vegetables required for their use, and upon the further condition that said lease may be terminated upon six months' notice by the City and County of San Francisco; and

Whereas, it is expedient to terminate said leasehold by reason of the fact that said lands may be required for other purposes than those for which they are now used; nor therefore be it

Resolved, That the Clerk of this Board be and he is hereby authorized and directed to serve upon said J. Oliva a notice that said leasehold is now terminated and that the City and County of San Francisco shall require the use of said lands from and after six months from date of approval of this Resolution.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Pollok, Rixford—17.

Bid of Presidio and Ferries Railroad Company for Franchise.

The following bid of the Presidio and Ferries Railroad Company, filed June 6th, 1908, was received, opened and read:

To the Honorable the Board of Supervisors of the City and County of San Francisco, and John E. Behan Esq., Clerk of said Board.—Sirs: In accordance with the provisions of Resolution No. 2202 (N. S.) passed by your Honorable Board on April 20, 1908, and approved April 30, 1908, and that certain Notice of Sale thereunder entitled "Notice of Street Railroad Franchise for Sale", and in compliance with the provisions of the Charter of said City and County of San Francisco, the undersigned, the Presidio and Ferries Railroad Company, a street railway corporation, existing under and by virtue of the laws of the State of California, hereby bids the following percentages for the franchise in said Resolution set forth and described to wit:

Three (3) percentum of the gross receipts of said company accruing under said franchise during the first five (5) years of the term for which the franchise is to be granted.

Four (4) percentum of said gross receipts during the remainder of said term.

We enclose herewith a bond in the penal sum of five thousand (5000)

dollars conditioned that we shall well and truly perform the conditions set forth and defined in said Resolution, and upon which said franchise is to be granted.

Very truly yours,
PRESIDIO AND FERRIES RAILROAD COMPANY.

By GEO. A. NEWHALL, President.
 By JOHN B. LEIGHTON, Secretary.

Bond of Presidio and Ferries Railroad Company.

Whereas, On application duly made and filed, the Board of Supervisors of the City and County of San Francisco, State of California, did by Resolution No. 2202 (N. S.), passed April 20, 1908, and approved April 30, 1908, determine to grant a franchise for a term of years from the date of approval of said franchise until December 10, 1913, to construct, lay down and operate a single or double track street railway, with all the necessary sidetracks, turnouts, switches, crossings, curves, connections and facilities upon, along and across that certain route, and subject to those certain conditions in said resolution set forth and defined, which said Resolution is hereby referred to and made a part hereof with the same effect as though the said Resolution was set forth in full;

And Whereas, Among other conditions, it was in said Resolution No. 2202 (N. S.) expressly provided that the bidder for said franchise should file with his bid, a good and sufficient bond in the penal sum of five thousand (\$5000) dollars, with sureties thereon satisfactory to the Mayor of said City and County of San Francisco, conditioned that such bidder shall well and truly observe and perform all of the conditions of the franchise for which application was so made, in case said franchise should be awarded to him, and in case of the breach of the conditions of said bond, the whole of the penal sum of five thousand (\$5000) dollars shall be taken to be liquidated damages;

And Whereas, the Presidio and Ferries Railroad Company, a California corporation, is about to bid for said franchise in accordance with the provisions of, and subject to, the conditions in said Resolution set forth and defined;

Now therefore, in consideration of the premises, and for the purpose of enabling said Presidio and Ferries Railroad Company to bid for, and receive said franchise, and of complying with the conditions of said Resolution No. 2202 (N. S.), and more particularly with said condition hereinbefore referred to and set forth, the undersigned Presidio and Ferries Railroad Company, a corporation, as principal, and E. W. Newhall and Edgar M. Wilson as sureties, do hereby jointly and

severally promise and agree to and with the said City and County of San Francisco, State of California, that the said Presidio and Ferries Railroad Company shall well and truly observe and perform the conditions of said franchise for which application has been so made, in case the said franchise is awarded to the Presidio and Ferries Railroad Company, and that in case of breach of any of the conditions of said grant, the whole of said penal sum of five thousand (\$5000) dollars shall be taken as liquidated damages.

The condition of the above obligation is such that if the above named Presidio and Ferries Railroad Company, its successors, or assigns, do and shall well and truly observe, perform and keep all and every the conditions specified and contained in said grant which on the part of the said Presidio and Ferries Railroad Company is, are or ought to be observed, performed, fulfilled and kept according to the true intent and meaning thereof, then the above written obligation shall be null and void; otherwise to remain in full force and effect.

In Witness Whereof, the said Presidio and Ferries Railroad Company has caused these presents to be executed under its corporate name and seal by its President and Secretary thereunto duly authorized, and the said sureties have hereunto set their hands, this 5th day of June, 1908.

Affidavit of Geo. A. Newhall, President of Presidio and Ferries Railroad Company.

Before the Honorable the Board of Supervisors of the City and County of San Francisco.

In the matter of the bid of Presidio and Ferries Railroad Company (a corporation), for a street railroad franchise under Resolution No. 2202 (N. S.).

Affidavit of George A. Newhall, President of said Presidio and Ferries Railroad Company.

State of California, City and County of San Francisco.—ss.

George A. Newhall, being first duly sworn, deposes and says:

That he is now, and for more than six months last past has been, the duly elected, qualified and acting President of the Presidio and Ferries Railroad Company, which said company is a street railway corporation duly organized and existing under and by virtue of the laws of the State of California.

That said Presidio and Ferries Rail-

road Company is about to bid for the franchise to construct, maintain and operate a street railway along and upon certain streets in said City and County of San Francisco, the determination to grant which is evidenced by that certain Resolution known as No. 2202 (N. S.) heretofore passed by said Board of Supervisors on April 20th, 1908, and approved April 30th, 1908, bids for which have been invited by said Board, and which said bid is about to be filed in compliance and accordance with that certain "Notice of Street Railroad Franchise for Sale," heretofore published by the Clerk of said Board of Supervisors pursuant to said Resolution No. 2202 (N. S.).

That the bid about to be filed by said Presidio and Ferries Railroad Company as aforesaid, is a genuine bid for said franchise, and is not collusive or sham; that said Presidio and Ferries Railroad Company has not colluded, conspired, connived or agreed, either directly or indirectly, with any other bidder or bidders, or person or persons, to put in a sham bid, or that such bidder or bidders, or person or persons shall refrain from bidding therefor; and has not in any manner sought by collusion to secure any advantage against said City and County of San Francisco, or any person interested in said street railroad for itself or for any other person.

This affidavit is attached to and made a part of said bid, and is intended to, and does accompany the same in accordance with, and as required by said "Notice of Street Railroad Franchise for Sale."

GEO. A. NEWHALL.

NOTICE OF RECONSIDERATION.

Bill Board Ordinance.

In accordance with notice given at meeting of June 1, 1908, Supervisor Comte moved the reconsideration of the vote whereby Bill No. 514, Ordinance No. — (New Series), entitled, "Imposing a license tax on persons, firms and corporations carrying on the business of bill posting, or advertising by means of bill boards or advertising sign boards" was adopted in lieu of all pending measures on this subject.

Motion carried by the following vote:

Ayes—Supervisors Baneroft, Booth, Broderick, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston,

McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—17.

Motion.

Supervisor Murphy moved that the privilege of the floor be granted to Mr. C. Allen.

Privilege of the Floor.

Whereupon, *E. R. Allen*, Bill Board Inspector of the City of Los Angeles, addressed the Board, stating that Los Angeles charged one cent per year, payable quarterly, for each square foot of bill board space and that the entire receipts to the City at this rate amounted to approximately \$3400 a year. He stated also that he obtained his information as to the amount of active bill boards in use from data furnished by advertisers, but that he was obliged to verify this by reference to the books of the bill board companies.

J. Green, of Varney & Green, also addressed the Board objecting to the basing of a tax on the superficial area of bill boards and stated that if same was based on a percentage of the gross receipts he would consider it a fair rate and one that would be acceptable to his firm.

Refused Passage.

Whereupon, the question being taken on Bill No. 514, Ordinance No. — (New Series), entitled, "Imposing a license tax upon persons, firms and corporations carrying on the business of bill posting, or advertising by means of bill boards, or advertising sign boards," the same was *refused adoption* by the following vote:

Ayes—Supervisors Baneroft, Booth, Payot, Pollok, Rixford—5.

Noes—Supervisors Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy—13.

Passed for Printing.

Whereupon, Supervisor Comte moved that Bill No. 504, Ordinance No. — (New Series), entitled, "Regulating bill posting, sign and bulletin painting, distributing, card and banner tacking and all outdoor advertising, and imposing a license tax on persons, firms and corporations engaged in the business so regulated," as reported by the Licenses Committee, be *passed for printing*.

Motion carried by the following vote:
Ayes—Supervisors Baneroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

PROPOSALS.

Proposals (186 in number) to furnish supplies to the various departments and institutions of the City and County for the year commencing July 1, 1908, and ending June 30, 1909, were received, opened and read.

Motion.

Supervisor Pollok moved that the bid of the Van Arsdale-Harris Lumber Co., which was deposited in error in the office of the Board of Fire Commissioners and later this day, to wit, at the hour of 3:10 o'clock p. m., filed with the Clerk in open session of the Supervisors, be received, opened and read.

So ordered.

Whereupon all of said bids were ordered referred to a *Committee of the Whole Board*.

UNFINISHED BUSINESS.**Telephone Rates Bill.**

Bill No. 515, Ordinance No. — (New Series), entitled, "Fixing and Determining the maximum rates or compensation to be collected for telephonic service in the City and County of San Francisco for the year commencing July 1, 1908, and ending June 30, 1909, and prescribing the quality of said telephonic service during said year," heretofore passed for printing, was taken up on final passage.

Amendments.

Supervisor Murphy presented the following amendments and moved their adoption:

Amend Section 1 of the Bill as follows:

In place of "for each additional telephone installed in hotels connected with the private exchange therein, a sum not to exceed 25c per month" insert, "for each additional telephone installed in hotels and connected with the private exchange therein:

50c per month each for the first 100 telephones or less;

45c per month each for telephones over 100 and not over 150;

40c per month each for telephones over 150 and not over 200;

35c per month each for telephones over 200 and not over 300;

25c per month each for telephones over 300.

For each desk set in place of wall set, 10c per month in addition to the above rates."

Insert after, "not to exceed 1½c per switch," "except that in case of hotels the charge shall not exceed 2½c for each and every exchange switch."

Amendments carried.**Passage to Print.**

Whereupon, Bill No. 515 (New Series), as amended, was passed for printing by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Final Passage.

The following Bill, heretofore passed for printing, was taken up, *finally passed* by the following vote, and numbered as follows, to wit:

SUSPENDING THE DOLLAR LIMIT OF TAXATION FOR 1908-9.

Bill No. 530, Ordinance No. 450 (New Series), "Determining and declaring that a great necessity and emergency exists within the City and County of San Francisco, and setting forth the character of such necessity and emergency, which requires that the limitation of taxation contained in Section 11 of Chapter 1 of Article III of the Charter of the City and County of San Francisco be temporarily suspended, temporarily suspending such limitation so as to enable the Supervisors to provide for such necessity and emergency and increasing the rate of taxation for the fiscal year ending June 30, 1909, over and above that authorized to be levied by said Section 11 of Chapter 1 of Article III of said Charter; and authorizing and levying a tax of twenty-seven cents upon each one hundred dollars of the assessed value of property within said City and County in excess of the sum and rate provided for in said Section 11 of Chapter 1 of Article III of said Charter for the purpose of providing for the great necessity and emergency, and specifically for paving, repaving and repairing streets, for reconstruction and repair of sewers, for construction and repairs to public buildings, for construction and equipment of Fire Department buildings, for the purchase of lands for Fire Department purposes, and for the continuation, and enforcement of sanitary measures."

Be it Ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited, determined and declared that a great necessity and emergency exists within the City and County of San Francisco, which requires that the limitation of taxation contained in Section 11 of Chapter 1 of Article III of the Charter of said City and County be temporarily suspended, and that the character of such necessity and emergency is as follows, to wit:

On the 18th day of April, 1906, a large number of the public buildings and much of the Fire Department equipment of said City and County were destroyed by fire, and on said day a large extent of the public sewers of said City and County were damaged and destroyed by earthquake; that a large extent of the public streets of said City and County were damaged by the combined effects of fire and earthquake; also that during the present fiscal year the said City and County contained a number of cases of bubonic plague and many deaths resulted therefrom, necessitating unusual expenditures for its eradication, and the necessity for such expenditures therefore will continue for the next ensuing fiscal year.

Section 2. That by reason of the great necessity and emergency herein set forth, large sums of money will be required to be expended by the City and County for the paving, repaving and repairing of streets, for the reconstruction and repair of sewers, for the construction and equipment of Fire Department buildings, for the purchase of lands for Fire Department buildings and for the continuation and enforcement of sanitary measures. That the large sums required for the aforesaid purposes cannot be obtained from the ordinary annual income and revenue of the City and County, and said necessary expenditures cannot be made without temporarily suspending the limitation upon the rate of taxation provided for in Section 11 of Chapter 1 of Article III of the Charter of said City and County.

Section 3. For the reasons and for the purposes set forth in the preceding sections of this ordinance, and under the authority conferred upon the Mayor and the Board of Supervisors by Section 13 of Chapter 1 of Article III of said Charter, it is hereby determined and declared that the provisions of Section 11 of Chapter 1 of Article III of said Charter in so far as the same fixes and limits the rate of taxation to be levied for municipal purposes is hereby temporarily suspended so as to enable the Supervisors to provide for the herein recited great necessity and emergency.

Section 4. For the purpose of raising by taxation the sum of nine hundred thousand dollars appropriated in and by the budget for the fiscal year of 1908-9 for the paving, repaving and repairs to streets, for the constructing of and repairs to sewers and for the construction of and repair to public buildings, the same being the great necessity and emergency herein set forth, the Board of Supervisors is hereby authorized to levy, and there is hereby levied, a tax of twenty cents upon each one hundred dollars of assessed valuation of property within the City and County of San Francisco as the same appears, or will appear, upon the assessment roll of said City and County, and the proceeds of such tax shall be applied to the aforesaid purposes as specified in said Budget.

For the purpose of raising by taxation the sum of one hundred and eighty thousand dollars, appropriated in and by the Budget for the fiscal year 1908-09 for the construction and equipment of Fire Department buildings, and for the purchase of lands for Fire Department purposes, the same being the great necessity and emergency herein set forth, the Board of Supervisors is hereby authorized to levy, and there is hereby levied, a tax of four cents upon each one hundred dollars of assessed valuation of property

within the City and County of San Francisco as the same appears, or will appear, upon the assessment roll of said City and County and the proceeds of such tax shall be applied to the aforesaid purposes and as specified in said Budget.

For the purpose of raising by taxation the sum of one hundred and thirty-five thousand dollars appropriated in and by the Budget for the fiscal year 1908-09 for the continuation of sanitary measures under the direction of the Board of Health and the United States Marine Hospital Service, the same being the great necessity and emergency herein set forth, the Board of Supervisors is hereby authorized to levy, and there is hereby levied, a tax of three cents upon each one hundred dollars of assessed valuation of property within said City and County of San Francisco as the same appears, or will appear, upon the assessment roll of said City and County, and the proceeds of such tax shall be applied to the aforesaid purposes and as specified in said Budget.

The above tax, aggregating twenty-seven cents upon each one hundred dollars of assessed valuation aforesaid, herein levied and authorized to be levied, is and shall be an increase of and an addition to the rate of one dollar taxation on each one hundred dollars of assessed valuation of property within the City and County of San Francisco, and an addition to and increase of all taxes of every amount and kind authorized to be levied under and by virtue of the provisions of Section 11, Chapter 1, Article III of the Charter of the City and County of San Francisco.

Section 5. This Ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hooks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Declaration of Chair and Approval of Bill.

Thereupon, his Honor the Mayor declared the Bill suspending the dollar limit of taxation passed by unanimous vote, and affixed his signature thereto.

BOND ISSUE OF MAY 11, 1908.

Communication from Dillon and Hubbard as to Sufficiency of Resolution Declaring Result of Bond Election and of Ordinance Providing for Issuance of Bonds.

San Francisco, California, Public Improvement Bonds.

Dillon & Hubbard,

New York, May 26, 1908

Percy V. Long Esq., City Attorney, San Francisco, California.—Dear Sir: We duly received your letter dated May 16 enclosing draft of proposed resolution of the Board of Supervisors declaring the result of the election with respect to the proposed issue of \$18,200,000 bonds by the City and County of San Francisco, and two copies of draft ordinance providing for the issue of the bonds. We note your statement that the resolution would probably be adopted on May 25 and that you expect to have the proposed ordinance introduced and passed to print on June 1st.

We note also your statement that there are one or more certified copies of documents on your list to be sent to us which will be forwarded in a few days and that you will then submit a list of all the proceedings, journal entries, ordinances, resolutions, affidavits, etc., that will be printed in the transcript of proceedings which will be issued in pamphlet form. In making up this transcript of proceedings please see that copies of all the papers and documents requested in our letter to you dated May 18 are included, except, of course, such papers as cannot be furnished until after the bonds are sold.

The draft of proposed resolution you sent us is satisfactory.

The draft ordinance is also satisfac-

tory, except section 7, which contains provision with respect to the levy of taxes. The provision as to the tax levy contained in ordinances numbers 404 and 410 are, as you know, very elaborate, and we think that section 7 of this draft ordinance should be in form somewhat different from that contained in the draft you sent us. If the ordinance were passed with the tax provision as you have stated it in section 7, question might be raised as to whether the Board of Supervisors had attempted to change by amendment the tax provisions contained in ordinances 404 and 410. We therefore recommend that section 7 be changed as indicated in the enclosed copy, which section 7 as changed by us reads as follows:

"Section 7. For the purpose of providing for the payment of the principal and interest of said bonds taxes shall be levied and collected as provided in ordinance number 404 (new series), and ordinance number 410 (new series)."

We have purposely omitted the designation of the fund arising from the taxes for the various bond issues because it seemed to us that possibly there might be a question whether the law might not require the taxes for the different issues to be kept separate, and in any event, it is better we think not to make a provision in this proposed ordinance with respect to how the funds shall be designated, whether it is one fund or separate funds. We do not think that any such designation is necessary as bearing on the legality of the bonds and it might be open to some objection.

In section 6 of the proposed ordinance we notice the words "This bond" appear five times, where it seems to us that perhaps the words "such bond" might be more appropriate, although the legal meaning of the two would not necessarily be different.

Referring to our letter of May 18 we enclose herewith form for signature certificate and for treasurer's receipt.

Very truly yours,

DILLON & HUBBARD.

Telegram from Dillon and Hubbard to City Attorney Stating that Bonds Must be Signed by Municipal Officers on Delivery.

New York, May 26, 1908.

Percy V. Long, City Attorney, San Francisco: Telegram twenty-fifth received. Bonds, like other negotiable instruments, take effect only on delivery. Charter and ordinance requires bonds to be signed by Mayor, Treasurer and Auditor, coupons by Treasurer, and seal should be attested

by Clerk. This implies that they shall be such officers when bonds take effect, namely, on delivery. Bond until delivered only printed paper and has no legal existence as bond. Signature of Treasurer on coupons may be lithographed or engraved. Should suppose City would know in advance what officers probably in office when bonds are to be delivered and arrange accordingly as to preparation of bonds and coupons. If only portion of each lot bonds sold advise that such portion include an equal amount of bonds of each maturity to avoid possible question of not having bonds conform to ordinance regarding maturities. Resolution and proposed ordinance satisfactory excepting section 7 regarding tax about which we write fully today.

DILLON & HUBBARD.

Communication from Dillon and Hubbard
Advising as to the Signing of Bonds and
Coupons and to the Manner of Disposing of Same.

San Francisco, California, Public Improvement Bonds.

Dillon & Hubbard,

New York, May 26, 1908.

Percy V. Long, Esq., City Attorney,
San Francisco, California—Dear Sir:

We received this morning your telegram dated May 25 as follows:

"Letter of May 18th received. Would like authority on point that present officers cannot sign all bonds and particularly coupons. This we did in last issue which has not yet been all sold. To leave blank signature for treasurer on coupons is quite impracticable. Also if we print only such portion as we are about to sell it will delay matters considerable as we cannot know for some time the precise bonds that we will sell. A portion of each series may be sold."

In reply we sent you telegram today as follows:

Telegram twenty-fifth received. Bonds like other negotiable instruments take effect only on delivery. Charter and Ordinance require bonds to be signed by Mayor, Treasurer, and Auditor, coupons by Treasurer, and seal should be attested by Clerk. This implies that they shall be such officers when bonds take effect, namely, on delivery. Bond until delivered only printed paper and has no legal existence as bond. Signature of Treasurer on coupons may be lithographed or engraved. Should suppose City would know in advance what officers probably in office when bonds are to be delivered and arrange accordingly as to preparation of bonds and coupons. If only portion of each lot bonds sold advise that such portion include an equal amount of bonds of each year's maturity to avoid possible question of not having bonds conform to ordinance regarding maturities. Resolution and

proposed ordinance satisfactory except section seven regarding tax about which we write fully today."

Our telegram, we think, explains itself. We may add, however, this: that if you sell a portion only of each lot of the bonds it would be advisable in our judgment that you should sell an equal amount of each year's maturity so as to avoid any possible question being raised that the bonds were not payable in the years which the ordinance calling the election prescribed. If, for example, you should sell only bonds falling due in any one year or any number of years, but not an equal amount of bonds from the maturities of each year, then question might be raised after part of the bonds had been sold that the scheme of maturities as provided for in the constitution, in the charter, in the ordinance calling the election, and by the vote of the people, had been departed from, and that such lot of bonds when issued must stand on the legality of those bonds at the time they are issued. Similar questions have arisen in connection with other bonds issued in California, namely, Los Angeles, San Diego, and we believe other places, and the course which we have recommended has been followed in those cases. It is inadvisable to pursue any other course, and we strongly recommend a similar course for you, if you find it practicable to adopt it.

As to the signatures on the bonds, the principle as we understand it is clear that a contract or an instrument executed by a municipality, as, for example, a deed or a note or bond, or other negotiable instrument, should be executed by persons who are in office at the time the instrument takes effect. This on general principles; but in this case, section II, article XII, of the Charter as amended prescribes that the officers therein named shall sign the bonds. Sometimes, as, for example, in railroad mortgages, where such course is allowable, it is provided that bonds issued at a later date under the mortgage shall be valid notwithstanding the fact that they bear the signatures of officers of the company who have gone out of office at the time the bonds are delivered. Sometimes it is possible, also, where a contract to purchase actually exists—the bonds to be delivered at a future date, to have the bonds delivered in escrow, so that the only condition of the bonds being delivered is that the purchaser shall pay for them at certain specified times, in which case the signatures on the bonds at the time they are delivered in escrow are those which would be valid, as delivery to the purchaser relates back to the delivery in escrow. In the case of these San Francisco bonds, we do not see that any of these courses is practicable, under the present circum-

stances. We should suppose that it would be practicable for the City, knowing what bonds it intends to offer for sale in the near future and what persons will be in office at the time of the proposed sale and delivery of the bonds, to have the bonds prepared so that they can be signed by the officers in office at the time of the delivery of the bonds, and so that the coupons will bear the engraved or lithographed signature of the treasurer who will be in office at the time and whose name appears as treasurer upon the bond itself. It is clear under said section II, article XII, of the Charter that the bonds must be signed by the officers in office at the time the bonds are delivered. The treasurer, for example, in office at the time must be the officer whose name is signed on the bond as treasurer. If you have the coupons engraved with the name of the treasurer and there has been a change in the office after the name has been so engraved on the coupons and before delivery of the bonds, the anomaly is presented of the name of one man signed on the bond as treasurer and the name of another attached to the coupon as treasurer. Even if this were allowable as a matter of law, about which we have, to say the least, grave doubts, it would raise such practical if not serious difficulty as to interfere with the negotiation of the bonds by the City and by bond dealers.

We are sending you a separate letter of this date in regard to the tax provision of section 7 of the draft ordinance.

Very truly yours,
DILLON & HUBBARD.

The first of these is the fact that the
 system is not a simple one, and that
 the results are not always the same.
 The second is that the system is not
 always the same, and that the results
 are not always the same.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Referred.

Supervisor Johnston presented the following:

Withdrawal by Spring Valley Water Company of Prior Offer of Said Company to Sell Its Properties to the City and County.

Office of the President.

Spring Valley Water Company,
375 Sutter street.

San Francisco, June 22, 1908.

To the Honorable, the Board of Supervisors of the City and County of San Francisco.—Gentlemen: In a letter addressed to the Special Committee of the Board of Supervisors on Water Supply, under date of April 13th, 1908, I stated that the directors of the Spring Valley Water Company would recommend to the stockholders of the Company the sale to the City and County of San Francisco of the property (of the Company) for the face value of its outstanding bonds and the outstanding stock.

No response has been made to my letter. You have fixed rates on a basis of valuation very much below the figured named, and have resolved in favor of the acquisition of another water supply.

Th offer made to recommend to the stockholders a sale on the terms

stated is therefore hereby withdrawn.

Very truly yours,

(Signed) A. H. PAYSON,

President Spring Valley Water Co.

Ordered referred to the Water Rates Committee.

BOND ISSUE, MAY 11, 1908.

Communication from Kountze Brothers in Matter of Fiscal Agency, New York City.

New York, June 13, 1908.

Hon. John E. Behan, Clerk, Board of Supervisors, San Francisco, Cal.—Dear Sir: We beg to acknowledge receipt of your favor of May 29th in regard to acting as the Fiscal Agent in New York of the City and County of San Francisco in the matter of paying interest on and redeeming bonds.

We shall be very pleased to receive the appointment and shall give such business as you entrust to us our close personal attention, and as we are acting in this capacity for a large number of municipalities, we are thoroughly familiar with the business and are able to offer you the benefit of our experience.

In reply to your inquiries would say 1st—Kountze Brothers is not incorporated, but is a copartnership composed of the following members:

L. Kountze, New York City.
Charles B. Kountze, Denver.
Wm. H. Hollister, New York City.
A. F. Kountze, New York City.
H. D. Kountze, New York City.
W. D. Kountze, New York City.
R. L. Livingston, New York City.
Harold Kountze, Denver.

It is not customary for private bankers here to make financial statements, but you can undoubtedly satisfy yourself as to our reputation, standing and responsibility through your local banks or through the usual channels.

2nd—We will be pleased to receive money from you for credit to your account with us or will accept checks on any point in the United States for collection and credit to your account on receipt of returns at cost.

We will pay against funds in hand the interest on and principal of your bonds in accordance with your instructions. The coupons and bonds after payment we will, if so desired, cancel

immediately, and return to you periodically. We will also render you statements of your account with us as may be desired by you. We will from time to time at our expense advertise that the bonds and interest are payable at our office.

3rd.—As compensation for this service we would charge you $\frac{1}{8}$ of 1% on the par value of the interest or coupons paid by us and $\frac{1}{16}$ of 1% on the par value of the bonds paid by us. This commission would be charged to your account with us about the 15th of each month. If it is not satisfactory to you to have us make you a direct commission charge, we would suggest that you may pay us for this service by maintaining with us a satisfactory deposit account subject to check or by arranging to deposit your funds with us a reasonable length of time prior to the maturity of your obligations.

4th.—If it is absolutely essential that we do so, we will arrange with one of the larger surety companies to furnish a bond and will charge you at the rate of \$50.00 for every \$100,000 or portion thereof of bond required by you.

These terms shall of course be subject to modification or cancellation by either party, but only after a reasonable notice to that effect has been given.

Awaiting the receipt of your further favors, we remain,

Yours very truly,

KOUNTZE BROS.

Communication from Dillon and Hubbard of New York: Relative to Payment of Interest and Principal on Bonds Through Fiscal Agent in New York.

San Francisco, California, Public Improvement Bonds.

John E. Behan, Esq., Clerk Board of Supervisors, San Francisco, California.—Dear Sir: We have your letter of June 10, in which you state that the board of supervisors desire to be advised as to the method of paying interest and principal on bonds through its fiscal agent in New York. You inquire as to whether it is customary to deposit funds with the city's fiscal agent in advance of payments by such agent, or does such agent advance the money and the city reimburse him on presentation of interest coupons and bonds redeemed. From our experience, and from inquiries made since the receipt of your letter, we find that it is customary for the municipality to deposit the required funds with the fiscal agent in advance of payments made by the agent on behalf of the municipality, and the fiscal agent pays out such funds only in accordance with specific instructions from the municipality. There is no practical difficulty, we are told, in the municipality approximately ascertaining the amount required, inasmuch as the treasurer of the city will

soon know or can ascertain where the bonds are held and where they will be presented for payment—that is, either at the city treasury or at the fiscal agency. If coupons or bonds are presented which exceed the amount which the municipality has provided, the practice is to arrange that by wire.

You state in your letter that if the practice is such as we have stated above, there is a possibility that your charter provisions may prove an objection to your following it, referring us to section 2, chapter 3, article 4 as amended in the charter of 1907. Upon a reading of this amendment, it does not seem to us that it embraces the case where the municipality has bonds payable at its fiscal agency in the city of New York, and where the municipality directs money to be sent to such fiscal agency for the specific purpose of redeeming bonds or coupons of the municipality payable at such fiscal agency. That is not, we are inclined to think, a deposit of money of the city within the meaning of said section 2. But even if that is not so, a bond of indemnity to secure the city against possible loss given by such fiscal agent, if the municipality thought it expedient to require one, would be valid as a common law obligation, even if not expressly required by the charter.

The above answers your inquiries as we understand them.

Very truly yours,

DILLON & HUBBARD.

Communication from City Clerk of Los Angeles Relative to Fiscal Agent in New York.

Los Angeles, June 17, 1908.

Mr. John E. Behan, Clerk Board Supervisors, San Francisco, Cal.—Dear Sir: Replying to yours of the 10th inst., asking for the provisions existing between this city and the so-called "fiscal agent" in New York City, will say that we have not entered into an agreement with Messrs. Kountze Bros. of New York, but they have agreed to take care of all bonds and coupons presented to them and draw on this city through its local banks.

Respectfully,

H. J. LELANDE, City Clerk.

By CHAS. L. WILDE, Deputy.

COMMUNICATIONS AND REPORTS FROM CITY AND COUNTY OFFICERS.

Communications and Reports from City and County officers were received and referred as follows:

To the Building Laws Committee.

VETO MESSAGE.

San Francisco, June 19, 1908.

To the Board of Supervisors of the City and County of San Francisco:

I am constrained to return with my disapproval Bill No. 528 amending certain sections of the Tenement House Law. The amendatory section which compels my disapproval is Section 24, which, as originally enacted last year, reads as follows:

"Section 24. The depth of the yard behind every tenement house erected upon a corner lot shall not be less than ten (10) feet in every part, provided that where such lot is less than one hundred (100) feet in depth, the depth of the yard shall not be less than ten (10) per centum of the depth of such lot, but shall never be less than five (5) feet in every part. Where a corner lot is more than fifty (50) feet in width, the yard for that portion in excess of fifty (50) feet shall conform to the provisions of Section 21 of this Ordinance."

The amendment relieves the owners of corner lots less than 100 feet in depth from providing any yard space whatsoever behind the tenement erected on such lots. An amendment so substantial, so vital as this needs the carefullest consideration before it becomes a law. So far as I am aware this amendment has been urged by no one but a few owners of corner lots, and by them because, as they assume, a hard-

ship will be worked against them in the matter of their material interests; but it must be kept in mind that every general rule will at times work individual hardship; and it must still more be kept in mind that inches of ground and dollars of income are not to be measured against human health and human lives. The question to be determined must be decided from the point of view of the people living in the whole block and not from the point of view alone of those who own the corner lots of the block. The corner-lot owners, with their two frontages, may have a sufficiency of fresh, circulating air; but far otherwise would it be as to every one else in the block with the rear of each corner lot sealed up, so as effectually to prevent any circulation of air throughout the block. Indeed, it is imperative that corner lots be provided with yards; for, as has been well pointed out, "this open space is practically the only means of ventilating the interior portions of the whole block, and that otherwise, with the tall modern tenements and the present contracted backyard space, the air in the interior of the block would soon become stagnant and vitiated."

In such an important matter (and none could be more so, for it affects health and even life itself), San Francisco can not afford to go backward, rather should she go forward. Instead of making the habitations worse where so many of our fellow creatures are compelled to live, everything possible should be done to make them better. The importance of fresh air to healthful life is almost a modern discovery. Let us see to it that this shall be plentifully provided in our houses, and especially in those where numbers are collected in individual buildings. New York and Chicago both require, behind tenement houses, the space our law at present requires, and there should be no yielding by us on this important point. No city has given more, if as much, thought to the tenement-house problem as has New York, and her insistence on these rear-yard spaces is based on the greatest consideration.

It is true the amendment relates only to corner lots having a depth of less than 100 feet, but such lots probably make up at least seventy per centum of all corner lots; and the law at present compels less rear-yard space of them than is compelled of larger corner lots. It may well be that the tenement house law needs amendment, but not in the restrictive manner suggested, but rather in a manner that will in nearly every possible instance give a free circulation of air through the spaces between the buildings.

To the Finance Committee.

Communications—From his Honor the Mayor, renewing previous recommendation that Sheriff be authorized to appoint four road guards to guard prisoners doing work in the immediate vicinity of the County Jail.

From City Attorney, with opinion that the petition of alleged qualified electors for calling a special election to submit propositions to issue bonds for the acquisition of the franchises and properties of various quasi-public corporations comply with legal requirements of the Charter, and all that is required is the verification of the signatures of said alleged electors.

From Chief of Police, with requisition for two motorcycles.

From Board of Public Works, recommending payment of claim of Otis Elevator Company in the sum of \$6400 for constructing elevator in City Hall, which was accepted by said Board prior to April 18, 1906.

Also, recommending setting aside of \$385 to meet City's portion of expense of constructing sewer in Fourteenth avenue South, between "L" and "H" streets.

Also, transmitting Resolution adopted by said Board allowing claim of Lange and Bergstrom in sum of \$5225 as first payment on contract for constructing Winfield Scott School building.

VETO MESSAGE.

San Francisco, June 22nd, 1908.

To the Board of Supervisors of the City and County of San Francisco.—Gentlemen: I am constrained to return to you with my disapproval demands in favor of the Union Machine Company No. 9719 for \$378.00, No. 9720 for \$456, No. 9721 for \$382 and No. 9723 for \$393, for the reason that on their face they show that they cover but one piece of work, and that they are split into four demands for the obvious purpose of avoiding the provisions of the Charter in that regard.

Yours truly,

(Signed) EDWARD R. TAYLOR,
Mayor.

Instructing City Attorney to Demand Payment of 1906 Percentages in Gross Receipts of United Railroads of San Francisco Franchises.

Also, Resolution No. 2427 (New Series), as follows:

Whereas, The United Railroads of San Francisco did on April 2, 1908, file with the Board of Supervisors a statement of gross receipts for the year 1906 of street car lines upon which percentages are due the City and County under the terms of the several franchises, which percentage amounts in said year, according to said statement, to the sum of \$33,686.01; and

Whereas, The report of John Pettee, expert accountant acting under direction of the Finance Committee of the Board of Supervisors, filed June 1, 1908, shows that the amount due the City and County of San Francisco under said franchises for said year 1906 is \$39,335.81, a difference in favor of the City and County of the sum of \$5,649.80; and

Whereas, Although repeated notices have been served upon the United Railroads of San Francisco to appear before said Finance Committee in relation to the difference existing between said respective reports, the said United Railroads of San Francisco has failed to appear in response to said notices; now therefore

Resolved, That the said statement of the United Railroads of San Francisco and said report of John Pettee, expert accountant, be and the same are hereby referred to the City Attorney with request that said official make demand for the immediate payment of percentages due the City and County of San Francisco as specified in said report of John Pettee, and if met with refusal to take the proper and necessary steps to compel the payment of said moneys.

NEW BUSINESS.

Adopted.

The following Resolutions were adopted:

Award of Contract, Lighting Streets and Public Buildings, 1908-9.

On motion of Supervisor D'Ancona: Resolution No. 2456 (New Series), as follows:

Resolved, That the contract to light the streets and the outlying districts of, and all public buildings (except school buildings) of the City and County of San Francisco with gas and electricity, and for supplying power for all purposes for the term of one year commencing July 1st, 1908, and ending June 30th, 1909, in strict accordance with the specifications and advertisements inviting proposals thereon be and the same is hereby awarded to the San Francisco Gas and Electric Company, a corporation, at the hereinafter designated prices and modifications thereof, said company being the lowest responsible bidder, to wit:

For each separate gas lamp per

night\$.087
For each separate arc light per night20712
For gas for public buildings, per 1000 cu. feet..... .60
For electric current for public buildings and for power purposes, per kilo-watt hour..... .04

Provided, that the sureties on the bond of the San Francisco Gas and Electric Company, which bond is hereby fixed at \$45,000.00, shall be satisfactory to his Honor, the Mayor, who is hereby authorized to enter into said contract, subject to the following conditions, to wit:

That said San Francisco Gas and Electric Company shall, during said term of one year, from July 1st, 1908, to June 30th, 1909, light the public streets and outlying districts of the City and County with not less than 4336 gas lamps and not less than 1931 electric arc lamps during the said term.

Of the above 1931 electric arc lamps 1681 shall be lighted all night and the remaining 250 may be extinguished at midnight, as is the practice at the present time, it being distinctly understood, however, that the City and County may during the period of said term order any and all said last mentioned lights to be lighted all night, subject, however, to the increased scale for all night lighting as hereinafter provided.

The term of lighting and extinguishing shall be as follows:

Arc lights shall be lighted three-quarters of an hour after sunset and shall be extinguished not earlier than three-quarters of an hour before sunrise, excepting, however, the aforesaid 250 lights extinguished at midnight. In the case of gas lamps the last lamp shall be lighted not later than one hour after sunset and the first gas lamp shall be extinguished not earlier than an hour and a quarter before sunrise, provided that the last lamp shall not be extinguished earlier than fifteen minutes before sunrise.

The acceptance of the bids aforesaid are subject to the following conditions, to wit:

That said bids be and they are hereby reduced and modified so that the total sum to be paid hereunder to the San Francisco Gas and Electric Company, a corporation, for the lighting of all public buildings (except school buildings), streets, and the supplying of power to the City and County for the term of one year shall be three hundred and twenty-five thousand dollars (\$325,000), payable in such monthly sums as may be chargeable according to the monthly usage, but not to exceed in the aggregate for the year, three hundred and twenty-five thousand dollars (\$325,000).

Deductions for lights not burning shall be computed at the rate of 6.548

cents per night for single burner gas lamps; 5 cents per night for each lamp of an all-night or 12 o'clock triple lamp cluster, except where one of the lamps of a triple-lamp cluster should continue to burn all night, then the deduction charge for that lamp shall be 6.548 cents per night, 20.712 cents per night for each all-night electric arc lamp and 13.81 cents per night for each 12 o'clock arc lamp.

That irrespective of the number of lights installed the City and County shall not be obligated to pay more than the following scale of rates to the San Francisco Gas and Electric Company, a corporation, to wit:

For each single burner gas lamp, lighted all night, 6.548 cents per lamp per night.

For each gas triple lamp cluster lighted until 12 o'clock, or all night, 5 cents for each lamp of the cluster per lamp per night.

For a single lamp of a triple-lamp cluster used all night where two lamps of the cluster are extinguished at midnight, 6.548 cents.

For each electric arc lamp, lighted all night, 20.712 cents per lamp per night.

For each electric arc lamp, lighted until midnight, 13.81 cents per lamp per night.

It is understood that all single burner gas lamps and all triple-lamp clusters not 12 o'clocks shall be what is termed all-night every-night lamps, i. e., lighted upon the sunset-sunrise schedule, for 365 nights in the year.

It is understood that all 12 o'clock arc lights and 12 o'clock triple-lamp clusters are to burn from the lighting times as above noted until 12 o'clock midnight.

It is understood that in order to facilitate extinguishing all 12 o'clock triple-lamp clusters shall be grouped and contiguous.

City Attorney Compromise Claim of Otis Elevator Company and Confess Judgment in Sum of \$5000.

Also, Resolution No. 2459 (New Series), as follows:

Whereas, The City Attorney by communication filed June 23, 1908, advises that there is now pending in the Superior Court in and for the City

and County of San Francisco, the case of Otis Elevator Company vs. the City and County of San Francisco, involving the claim of said Otis Elevator Company in the sum of \$6,400 for the construction of an elevator installed in the City Hall previous to the fire of April 18, 1906, that in said case, the defense of the City is purely a technical one and that Hon. John Hunt, Judge of the Superior Court has twice overruled the City's demurrer to the plaintiff's complaint thus declaring that the defense sought to be maintained by the City is not tenable; and

Whereas, The City Attorney advises that the Otis Elevator Company is willing to accept the machinery of said elevator now remaining in the City Hall, and make an allowance of \$1400 on their claim, and further recommending that said claim be compromised in the sum of \$5000; now therefore

Resolved, That the City Attorney be and he is hereby authorized, empowered and directed to confess judgment in the sum of \$5000 in said action, said sum to be in full satisfaction of all claims against the City and County in said matter.

Motion.

Supervisor Payot moved that James A. Snook & Co., whose bids were rejected, be given a hearing before the Joint Committee on Hospital and Health and Police.

So ordered.

Award of Contract, Horses and Buggies.

Supervisor Payot introduced the following Resolution:

Resolved, That the following named be and are hereby awarded contracts, terminable at the expiration of any month during the fiscal year 1908-9 by the Board of Supervisors of the City and County of San Francisco, to furnish and deliver horses and buggies to the various departments of the City and County in accordance with the specifications submitted with their respective bids on June 22, 1908, at the rate of Forty-five (\$45.00) dollars per month for each horse and buggy furnished; provided, however, that not more than eight (8) horses and buggies shall be furnished by any of the following named awardees to any or all of the departments of the City and County of San Francisco during the period same are to be furnished, to wit:

J. A. Steele, Wm. J. Gallagher, Chas. Lennon & Sons, Halloran, Hession & Co., Wilson & Rooker, M. Gilmore, Golden Gate Stables, C. J. Clemens, G. L. Crabtree, Thos. J. Morton, Thos. P. Conlon, Wm. Michaelson, John J. Doyle, Holland & Kendall.

Motion.

Supervisor Connolly moved that James Maher be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon, James Maher addressed the Board, stating that he was furnishing four buggies to the City at the present time, that the service was satisfactory, and requested, on behalf of himself and others, that all bids be rejected, inasmuch as the prices were uniform and showed collusion.

L. C. White, representing Stable Owners Association, addressed the Board favoring the adoption of the Resolution.

Motion.

Supervisor Murphy moved that all bids be rejected, that the rate for buggy hire be fixed at \$45 per month and that not more than 8 buggies be hired from any one stable.

Motion carried.

Substitute Resolution.

Whereupon, the following substitute Resolution was introduced and *adopted* by the following vote:

Resolution No. 2463 (New Series).

Resolved, That all bids to furnish and deliver horses and buggies to the various departments of the City and County, received by the Board of Supervisors June 22, 1908, be and the same are hereby rejected.

Further resolved, That all officers, offices and departments of the City and County requiring the use of horses and buggies for which appropriations have been made in the Budget for the fiscal year 1908-9, be and are hereby authorized, empowered and instructed to engage such services at a rate of not to exceed forty-five (\$45) dollars per month for each horse and buggy furnished.

Provided, however, that the person, company or corporation supplying such service shall not be permitted to furnish in any one month more than eight horses and buggies to any or all of the officers, offices or departments of the City and County.

The attention of the Auditor and the Treasurer is hereby called to the provisions of this Resolution.

Granting Permits, Pipe Line and Overhead Wire for Power Transmission, Miller and Lux.

On motion of Supervisor Center:
Resolution No. — (New Series),
as follows:

Whereas, Miller & Lux, Incorporated, has filed a petition June 18, 1908, with this Board for permission to lay a six (6) inch pipe line for the purpose of carrying water, and also to erect poles and to string wires thereon for the transmission of power from the property of Miller & Lux, Incorporated, situate on the southerly line of Fourth avenue South, between P street South and Q street South, along Fourth avenue South from Q street South to P street South, and thence along said P street South across Railroad avenue to the Abattoir located in Block No. 23, Butchers Reservation, and it appearing that said pipe line is to be used for the conducting of water from property owned by Miller & Lux, Incorporated, in Block Eighty-four (84), O'Neil & Haley Tract to its abattoir in Butchers Reservation, Block Twenty-three (23), and said wires are to be used for the purpose of conveying power from said abattoir to pumps on property of Miller & Lux, Incorporated, in said O'Neil & Haley Tract, Block Eighty-four (84), for the purpose of operating said abattoir and protecting the same from fire, and

Whereas, The territory through which said pipe-line and wire are to traverse is entirely uninhabited and largely covered by water, and the granting of said permission, subject to revocation, as hereinafter provided, will be without present injury to the public; now, therefore be it

Resolved, That said privilege heretofore described be and the same is hereby granted upon the following express conditions, to wit:

First, Said permission is granted subject to the right of the Board of Supervisors at any time to revoke the same, and upon such revocation said Miller & Lux, Incorporated, shall forthwith remove said pipe-line and wires.

Second, The said pipe-line shall be laid below the official grades of the hereinbefore mentioned streets and below the present grades of any of said streets which are traveled upon, but where the same passes over land covered by water the same may be placed above the surface of such water; provided, that if at any time hereafter said streets are paved or filled in so as to be used for traffic by the public, said pipe-line shall be laid below the grade thereof.

Third, In consideration of the granting of such permit said Miller & Lux,

Incorporated, shall at all times while exercising such privileges keep such streets in repair for the space of two feet over said pipe-line, and if at any time said streets are paved, said Miller & Lux, Incorporated, shall pay the expense of paving said streets to the extent of two feet over said pipe-line and keep said pavement in repair to said extent.

Fourth. Said wires shall be strung on poles placed as near as may be along the line of said streets, and so as not to interfere with the use of said streets by the public, and the said poles and wires may be removed, or the wires placed underground, at the pleasure of the Board of Supervisors.

Fifth. Said water and power shall be used only by said Miller & Lux, Incorporated, in operating said abattoir and protecting the same from fire, and for no other purpose whatsoever.

Resolution No. 1902, (New Series), passed February 3, 1908, is hereby repealed.

Providing \$23,142.50 for Payment of Unpaid Salaries of School Teachers for Portion of Fiscal Year 1906.

Resolution No. — (New Series):
Whereas, A certain portion of the salaries of the High School Teachers, Special Teachers and Evening School Teachers of the School Department of the City and County of San Francisco, has been withheld for the fiscal year ending June 30th, 1907, although under the law all teachers of the San Francisco School Department are entitled to such annual compensation as is fixed by the Board of Education between the 1st and 21st days of May of each year; and,

Whereas, The Finance Committee of the Board of Supervisors have heretofore recommended that such withheld salaries be paid during the fiscal year ending June 30th, 1908, provided the condition of the funds would permit; and,

Whereas, By reason of the fact that the condition of the Surplus Fund is such that it is now possible to pay said salaries, now, therefore,

Resolved, That the said withheld salaries of the High School Teachers, Special and Evening School Teachers, according to their claims as filed in the office of the Board of Supervisors, be and the same are hereby approved, allowed and ordered paid, and the Auditor and Treasurer be and are hereby authorized, empowered and instructed to respectively audit and pay out of the Surplus Fund such claims to the following aggregate amount, to wit: twenty-three thousand and one hundred and forty-two dollars and fifty cents (\$23,142.50); that is to say, six thousand five hundred and ninety-six dollars and twenty-five cents (\$6596.25) for the Evening Teachers, sixteen thousand and seventy-eight dollars and twenty-five cents (\$16,078.25) for the High School Teachers, and four hundred and sixty-eight dollars (\$468.00) for the Special Teachers.

Further Resolved, That the sum of twenty-three thousand and one hundred and forty-two dollars and fifty cents (\$23,142.50) is hereby set aside, appropriated and authorized to be expended out of said Surplus Fund for the purposes herein indicated, and the attention of the Auditor and the Treasurer is hereby called to the provisions of this Resolution.

Message from Mayor.

Refusing to Sign Contracts of Brown & Power, Phillips & Van Orden Company and Commercial Publishing Company on Ground of Collusion.

Mayor's Office, City and County of San Francisco.

San Francisco, June 29th, 1908.

To the Board of Supervisors of the City and County of San Francisco:

I beg to submit to you the following:

Pursuant to the advertised proposals of your Honorable Board to furnish stationery, books and blanks required for the various departments, officers and offices of the City and County from July 1st, 1908, to June 30th, 1909, the City Commercial Company presented proposals to furnish said stationery at certain stated prices; Brown & Power, a corporation, presented proposals to furnish said books; and Phillips & Van Orden Company, a corporation, presented proposals to furnish said blanks; and to each of said parties your Honorable Board awarded the contract for the furnishing of most of the articles on which it had bid as aforesaid, pursuant to recommendation in that regard of the Committee on Printing, they having secured the furnishing to the City of nearly all the stationery, books and blanks.

Contracts covering all of the above mentioned supplies have been presented to me for my signature, one of those contracts having been executed by Brown & Power Company, one by Phillips & Van Orden Company, and one by the City Commercial Company by "T. P. Robinson, Manager." In explanation of the Robinson signature there is attached to the contract of the City Commercial Company the following:

"We, the undersigned co-partners doing business under the name of the City Commercial Company do hereby authorize Thos. P. Robinson to sign all contracts.

"BROWN & POWER CO.

"W. M. BROWN, President.

"PHILLIPS & VAN ORDEN CO.

"G. D. PHILLIPS, President.

"THOS. P. ROBINSON."

We have here quite an interesting family party sitting down and dividing between themselves the printing, book and stationery supplies of the City, and even going the length of using the name of a fictitious partnership, in order, as they imagined, that the scheme might look better upon the face of it. I say "fictitious partnership," for, as corporations cannot legally become copartners, the City Commercial Company as a partnership can have no legal existence. Its proposal hence for furnishing the stationery above mentioned and the award to it by your Honorable Board are alike of no validity. The collusion in the bidding of Brown & Power Company and Phillips & Van Orden Company is obvious. Having assumed the relationship of partnership in regard to certain articles needed by the City each necessarily became aware of what articles each was to bid on and what the respective bids should be. What was done, as plainly appears on the face of the papers submitted to me, is, that one agreed not to bid on certain articles in consideration of the other having a free hand in bidding on certain other articles. Thus, the combination allotted the stationery to the City Commercial Company, the books to the Brown & Power Company, and the blanks to Phillips & Van Orden Company. This is a favorite method of collusive bidding, but it is not often, I fancy, that the parties give themselves away so openly as in the present instance. If the method adopted here were carried out as to all the supplies furnished the City,

competition as to such supplies would become a farce, and the contract provisions of the Charter become a dead letter.

Had the Printing Committee known the facts as they are now known, they doubtless would not have made the recommendation they did. The facts are disclosed for the first time by an examination of the contracts presented to the Mayor for his signature. It is by reason of these facts that I have withheld my signature from the contracts, and that I shall not sign them as at present advised.

I deem it my duty to lay this matter before your Honorable Body for such action as in your judgment is meet. I know full well that every one of you is at one in the resolution to maintain, so far as lies within his official power, the strictest honesty and impartiality in the administration of the City's affairs. And right here let me add that it is subject of grave consideration whether those who have been found to collude in bidding on supplies, or in perpetrating any fraud in the matter of such supplies, should thereafter have their proposals considered.

I accompany this communication with the contracts above mentioned.

EDWARD ROBESON TAYLOR,
Mayor.

Ordered referred to Printing Committee.

ADJOURNMENT.

There being no further business, the Board at the hour of 4:35 o'clock, adjourned.

VETO MESSAGE.

San Francisco, July 1, 1908.

To the Board of Supervisors of the City and County of San Francisco: I am constrained to return to you with my disapproval demands in favor of the Union Machine Company, No. 9966

for \$417.00, No. 9967 for \$446.00, No. 10310 for \$357.20 and No. 10312 for \$305.00, for the reason that on their face they show that they cover but one piece of work and that they are split into four demands for the obvious purpose of avoiding the provisions of the Charter in that regard. These demands are in the same form as the ones in favor of the same claimant for the same work as those which were on the 22nd day of June returned to your Honorable body with my objections and which objections, on the 29th day of last month, were sustained by you.

EDWARD ROBESON TAYLOR,
Mayor.

BOND ISSUE, MAY 11, 1908.

Telegram Relative to Payments and Terms.

New York, June 26, 1908.

Hon. John E. Behan, Clerk, Board of Supervisors, San Francisco, California.—Dear Sir: We beg to confirm our telegram to you of this date, as follows:

"Cannot give you copy of arrangements with Los Angeles, as none have been concluded. We would not permanently arrange to pay against any account except against funds in hand. While we do not care to make any modification in the terms quoted in our letter of June 30th, we would give careful consideration to any proposition you may desire to suggest."

We regret that you are under a misapprehension with regard to our having completed arrangements with Los Angeles, and trust that the foregoing dispatch will set the matter right with you. Awaiting your further advices, we are,

Yours very truly,

KOUNTZE BROS.

Read and ordered referred to Public Utilities Committee.

Communication from Kountze Bros., Explaining Agreement with Los Angeles as to Fiscal Agency.

New York, July 1, 1908.

Hon. J. E. Behan, Clerk of the Board of Supervisors, San Francisco, Calif.—Dear Sir: We understand from our mutual friends, the French American Bank, that you received the following letter from Los Angeles:

"Los Angeles, June 17, 1908.

"To J. E. Behan, Clerk of the Board of Supervisors, San Francisco: Replying to yours of the 10th inst. asking for the provisions existing between this city and the so called fiscal agent in New York City will say that we have not entered into an agreement with Messrs. Kountze Bros. of New York but they have agreed to take care of all bonds and coupons presented to them

and drawn on this city through its local banks.

“(Signed) H. J. LELANDE,
“City Clerk.”

We do not understand how Mr. Lelande can have gotten his facts so completely turned about. As we telegraphed you, we have not made any arrangements with Los Angeles, nor are we, nor have we been in communication with them in regard to the terms on which we would pay their bonds and coupons in New York. Our negotiations on this subject have as yet not been commenced.

The only definite arrangement that we have had was an agreement with an attorney from Los Angeles to pay such coupons maturing June 1st, 1908, as might be presented to us in New York from the issue of \$23,000,000 water bonds, with the understanding that on notice from us, Los Angeles should provide funds in New York to cover. There was no agreement to pay any bonds, and furthermore the arrangement was purely a precautionary measure to protect the city, as we understand that the few bonds that had been sold were almost all held in California.

Should you desire to do so, we have no objection to your showing this letter to the city officials at Los Angeles.

We trust that this matter is now clearly understood by you, and we await your further favors.

Yours very truly,

KOUNTZE BROS.

WATER SUPPLY—SAN FRANCISCO.

Report of Public Utilities Committee on Acquisition of Municipal Water Supply.

To the Hon. Board of Supervisors—Gentlemen: Your committee on Public Utilities having under consideration the acquisition of a Municipal Water Supply for the City and County of San Francisco herewith presents a communication from the City Attorney giving an outline of the procedure requisite in the matter of securing a water supply and works for the City and County of San Francisco, which communication is annexed to this report, and in accordance therewith presents a bill soliciting offers for the sale to the City and County of such existing utility and recommends its passage.

Respectfully submitted,

D. C. MURPHY,

R. McLERAN,

Committee on Public Utilities.

June 24, 1908.

Outline of Procedure in Matter of Acquisition of Municipal Water Supply.

Gentlemen: By Resolution No. 2403 (New Series) you request the City Attorney to furnish your Board for its guidance an outline of the requisite procedure to be taken in the matter of acquiring a system of water supply and works for the use of the City and County and its inhabitants, together with the successive actions to be taken by your Board in such matter.

I herewith submit an outline of the procedure necessary.

First. Passage of preliminary Ordinance declaring that public necessity demands the acquisition of such supply, etc. This Ordinance should conform with the requirements of sections one and five of article XII of the Charter and should contain: (a) a declaration of public necessity, (b) a direction to the Board of Public Works to forthwith prepare and submit plans and estimates of the cost and original construction and completion by the City and County of the proposed water supply, (c) a direction to the Board of Public Works to procure and place on file with your Board plans and estimates of the cost of obtaining from such sources as your Board may designate as available a sufficient supply of good, pure water for the City and County, and (d) a designation of such sources as your Board may deem available and sufficient for such water supply for the City and County.

It would appear from the terms of the Charter that your Board must not only procure plans and estimates of the cost of original construction and completion of a water supply and water works, but these estimates should include the cost of obtaining the water supply from such sources as you may designate and thereby ascertain the cost of the acquisition of such sources with necessary rights of way, reservoirs, etc.

The foregoing Ordinance must be published fourteen times after its approval by the Mayor.

Second. Passage of Ordinance soliciting offers for sale of all existing water works and water supplies which are being employed in furnishing and supplying the City and County, and its inhabitants, or any part thereof with water.

Such Ordinance should be passed and approved as other Ordinances and may be passed at any time after the approval of the Ordinance above mentioned. It should be followed with notice of time for filing said offers.

Third. The consideration by your Board of any and all offers that shall have been made to sell such water supplies and water works to the City and County.

Fourth. Filing of plans and esti-

mates called for in preliminary Ordinance.

Fifth. If the purchase of the existing utility or the acquisition of another by original construction is still deemed advisable, another Ordinance should be passed declaring the public necessity and reciting the foregoing proceedings.

Sixth. This should be followed by an Ordinance declaring that the proposed cost so far exceeds the annual revenues that a municipal bond of indebtedness must be incurred for the proposed acquisition.

Seventh. Thereafter an Ordinance should be passed calling a special election stating therein the purposes for which the election is called, to-wit: (a) the question of acceptance of offers to sell, (b) the question of incurring a bonded indebtedness for acceptance of such offers, (c) the question of acquisition by original construction, (d) the question of incurring a bonded indebtedness for the purpose of such original construction.

Such Ordinance must also give the estimated cost of each of said propositions, the proposed methods and manner of payment thereof and shall fix a date on which such special election shall be held, the manner of holding such election, and the manner of voting for and against each proposition for which it is necessary to incur a municipal indebtedness; then the Ordinance must specify the objects and purposes for which such indebtedness is proposed to be incurred and that the bonds of the City and County shall issue for the payment of the cost thereof.

Such Ordinance must be published daily for at least ten days and at the expiration of said publication the Supervisors must cause to be published daily for not less than two weeks, in an official newspaper, a notice of such election, which notice must conform with all of the requirements of section 8 of article XII of the Charter.

Respectfully,

PERCY V. LONG,
City Attorney.

Passed for Printing.

The following Bill was passed for printing:

Soliciting Offers for System of Water Supply and Works for San Francisco.

On motion of Supervisor Murphy:

Bill No. 587, Ordinance No. — (New Series), entitled, "Soliciting offers for the sale to the City and County of San Francisco of any existing public utility, to wit: A system of water supply and works for supplying water to said City and County and its inhabitants, or any portion thereof; expressing the determination of the Board of Supervisors to consider any offers that may be made for the sale of such public utility,

directing the Clerk of this Board of Supervisors to give notice by publication that such offers are solicited and will be considered, this ordinance being the second of a series of ordinances to be adopted by the Board of Supervisors designed to secure the public utility named."

Award of Contract for Engraving and Printing Municipal Bonds—Issue of May 11, 1908.

Supervisor Murphy introduced the following Resolution:

Resolution No. — (New Series), as follows:

Awarding a contract to the Western Bank Note Company for the engraving and printing of municipal bonds.

Resolved, That a contract be and the same is hereby awarded to the Western Bank Note Company to engrave, print and deliver to the City and County of San Francisco 18,200 bonds authorized to be issued by Ordinance No. 477 (New Series), approved June 20, 1908, 7640 of said bonds to be delivered on or before August 27, 1908, at a price of \$6000 and the remainder of said 18,200 bonds to be delivered in such amounts and at such times as may be hereafter required by the Board of Supervisors at a cost of thirty-five cents for each bond so furnished, in accordance with the notice inviting bids, the specifications, and the proposal therefor submitted by said Western Bank Note Company in compliance with the said notice inviting bids for doing said work upon the 22nd day of June, 1908, which proposal with all others submitted was on said day opened and considered by said Board of Supervisors.

All other bids for doing said work are hereby rejected.

His Honor the Mayor is hereby authorized to enter into the contract hereby awarded and to approve the sufficiency of the sureties upon a bond in the sum of two thousand dollars to be furnished by said Western Bank Note Company for the faithful performance of said contract.

Motion.

Supervisor Hocks moved that Max Gumpel be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon, Max Gumpel, representing Schwabacher, Frey & Co., addressed the Board, stating that his firm was a lower bidder than the Western Bank Note Co., and protested against the award.

Adopted.

Thereupon, the question being taken, the above resolution was adopted as Resolution No. 2469 (New Series), by the following vote:

Ayes—Supervisors Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok—14.

Rejection of Bids of Jas. A. Snook and Company.

Supervisor Payot submitted the following report rejecting bids of Jas. A. Snook and Company and moved its adoption:

Report of Joint Committee on Hospital and Health and Police.

To the Honorable the Board of Supervisors of the City and County of San Francisco—Gentlemen: Your Joint Committee on Hospital and Health and Police to whom was referred the protest of James A. Snook and Company against the rejection of the bids of said Company for supplies to be furnished departments and institutions of the City and County for the fiscal year commencing July 1, 1908, begs leave to report that a meeting was held for the consideration of said protest, at which meeting the protestants, represented by counsel, were heard, and also the heads of various municipal institutions affected.

Your Committee recommends as a result of said investigation that the protest be overruled and the bids submitted by James A. Snook and Company be rejected for the reason that the evidence presented demonstrated that said Company is irresponsible and in the opinion of your Committee it is not in accord with sound policy to permit any contractor who, in the past,

has failed to live up to his agreements to continue contractual relations with the City and County.

Respectfully submitted,

HENRY PAYOT,
CHARLES A. MURDOCK.

Motion.

Supervisor Connolly moved that the privilege of the floor be granted to the representatives of Jas. A. Snook and Company.

So ordered.

Privilege of the Floor.

Whereupon, Frank Haynes, representing Jas. A. Snook and Company, addressed the Board stating that certain allegations had been made before the Joint Committee on Hospital and Health and Police derogatory to the character of the firm of Jas. A. Snook and Company and that if said matter was considered by the Board as a whole that he was satisfied that the report of the Committee would not be sustained.

Adoption of Report.

Whereupon, the question being taken the above report was *adopted* by the following vote:

Ayes—Supervisors Comte, D'Ancona, Johnston, McAllister, Murdock, Murphy, Payot—7.

Noes—Supervisors Broderick, Center, Connolly, Hocks, McLeran, Pollok—6.

Excused from voting—Supervisor Jennings—1.

Absent—Supervisors Bancroft, Booth, Giannini, Rixford—4.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Referred.

Supervisor Comte introduced the following:

Repealing Ordinance No. 453. Regulating and Licensing Special or Private Detective Agencies.

Bill No. 592, Ordinance No. — (New Series), entitled, "An Ordinance repealing Ordinance No. 453 (New Series), being 'An Ordinance regulating the business of furnishing or supplying special or private detectives or watchmen for hire or reward, imposing a license upon the same, and regulating the issuance of such license.'"

Ordered referred to the Police Committee.

Adopted.

Resolved, That said plans be designed so that at a later time a second story may be added to be rented for meeting and similar purposes.

Ayes—Supervisors Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok—14.

Passed for Printing.

The following Resolution was introduced under suspension of the rules and *passed for printing*:

Authorizing Payment, Construction of Golden Gate School.

On motion of Supervisor Jennings: Resolution No. — (New Series). Authorizing an expenditure of \$11,600 to be made out of the "School Construction Account" of the Public Building Fund in payment to the Condon-McGlynn Co., said sum being the first payment under contract for the construction of the Golden Gate School.

Adopted.

The following Resolution was introduced under suspension of the rules and *adopted*:

Mayor to Sell at Auction Junk on Almshouse Tract.

On motion of Supervisor Payot: Resolution No. 2472 (New Series), as follows:

DELIVERY OF ASSESSMENT ROLL 1908-1909.

The Chair announced that the Assessor, Washington Dodge, had this day delivered to the Clerk of the Board of Supervisors the Assessment Roll of the fiscal year 1908-1909 consisting of sixty volumes, describing real estate and personal property, seventeen volumes describing unsecured personal property and four volumes of indexes.

Also, that the Assessor had filed on the first day of July, 1908, the List of Arbitrary Assessments, separate from the Assessment Book, as required by Section 3633 of the Political Code of the State of California.

Also, that the Tax Collector, pursuant to the provisions of Section 1897 of the Political Code, had filed the Military Roll of 1908.

Report of Assessor on Assessment Roll of 1908-1909.

San Francisco, July 6th, 1908.

To his Honor the Mayor and the Honorable Board of Supervisors of the City and County of San Francisco.—Gentlemen: The Assessment Roll for the fiscal year 1908-1909 has been completed, and is now delivered in accordance with law to your Board, for review and equalization.

The assessment of this year is of exceptional interest, showing as it does our City's remarkable progress during the past two years.

The total assessment of all property amounts to \$453,551,184, which is a gain of \$23,900,000 over last year's assessment. The assessment is made up of the following items:

Real estate, \$258,642, 215.

Buildings, \$90,996,500.

Personal property, \$103,912,469.

The greatest gain is in the assessment of buildings, which is \$24,181,299 greater than that of last year. If, however, the assessment of this on buildings is compared with that of 1905, the year preceding the fire, it will be observed that the present assessment on buildings is but \$6,833,665 less than that of 1905. A more remarkable fact is that the assessment next year on buildings now in the course of construction will increase the total assessment of buildings beyond that of 1905, or of any year in our City's history.

An interesting comparison is shown by the assessments given below, the first being that of the year preceding the fire, the second that of the year following, and the last being that of this year:

	1905.	1906.	1908.
Real Estate	\$304,136,185	\$237,082,752	\$258,642,215
Buildings	97,830,165	50,250,480	90,996,500
Personal Property	122,264,596	88,805,510	103,912,469
Total	\$524,230,946	\$376,138,742	\$453,551,184

While the total assessment of real estate for this year is about the same as that of last year, it must not be inferred that no relief has been granted to such real estate in the burned area as has markedly depreciated in value. Reductions which aggregate several millions have been made in the assessment of such real estate, but these have been offset by the gain in values made in certain outlying sections of the City which have enhanced in value since the fire, by reason of the shifting of population to these districts.

It is true that greater reductions could justly and reasonably be made in the assessment of considerable real estate in the burned district. The undersigned, however, was limited in the reductions by the City's needs in the way of revenue. The Roll returned, it will be observed, is but little in excess of the estimated amount which your Honorable Board adopted last month, and on which amount you fixed the City's revenues and made the appropriations for our various City departments. Had the assessment been less than your estimate of \$450,000,000, the result would be a deficit in our revenues.

It must be apparent that in our present condition, with a dollar limit of taxation, and with increased municipal expenditures due to the great destruction of City property, and to the issuance of bonds, we are prevented from making those reductions in the assessment of real estate which might, in many cases, be justified. It has been our endeavor, however, to assess all real estate on a uniform basis of valuation, that the burden might fall on all evenly.

Taxes on personal property unsecured by real estate which are payable to the Assessor, have been promptly paid, and the collections to date have reached the sum of \$625,000, as compared with \$416,000 for last year.

Respectfully submitted,
WASHINGTON DODGE,
Assessor.

**PROCEEDINGS OF BOARD OF
EQUALIZATION.**

The Board then proceeded to and examined the Assessment Roll as received from the Assessor, and the Military Roll as received from the Tax Collector.

Resolutions Adopted.

Whereupon, the following Resolutions were introduced by Supervisor Pollok, Chairman of the Equalization of Assessments Committee, and adopted, to wit:

Board Remain in Session as a Board of Equalization.

Resolution No. 2473 (New Series), as follows:

Resolved, That the Board of Supervisors, having met on this (Monday) afternoon, July 6, 1908, and examined

the Assessment Books of Real and Personal Property for the year 1908 will thereafter be in session as a Board of Equalization from time to time until Monday, July 20, 1908, at 12 o'clock noon, for the purpose of hearing applications, verified by oath, for the correction of assessments on said assessment books.

Adopting Rule, Notice of Intention to Increase Assessments.

Also, Resolution No. 2474 (New Series), as follows:

Adopting a rule as to the manner in which persons, firms, companies and corporations are to be notified why their assessments for the fiscal year 1908-1909 should not be increased by the Board of Supervisors sitting as a Board of Equalization.

Resolved, That it is hereby adopted as a rule of this Board that the notice required to be given under the provisions of Section 3673 of the Political Code to corporations or persons to show cause why their assessments on the assessment book of real and personal property for the fiscal year 1908-1909 shall not be increased, will be as follows:

To corporations: A written or printed notice addressed to the president,

secretary or managing agent of each corporation, and delivered by the sergeant-at-arms of this Board at the office of each corporation in this city.

To persons, firms or companies: A written or printed notice, postage prepaid and mailed to their address.

The Clerk is hereby directed to cause to be delivered or mailed to the several corporations, persons, firms, or companies, when designated by this Board, the said notice at least twelve (12) hours prior to the time set for hearing said parties as aforesaid.

**Board of Equalization Hear Applications
July 14, 1908.**

Also, Resolution No. 2475 (New Series), as follows:

Resolved, That this Board shall meet on Tuesday, July 14, 1908, at 2 o'clock p. m., as a Board of Equalization to examine applicants for reduction of assessments who have filed sworn applications as required by law, and to perform such other duties as may come before said Board.

ADJOURNMENT.

There being no further business, the Board at the hour of 3:40 o'clock, adjourned.

JOHN E. BEHAN, Clerk.

6. That granite curbs and a bituminous rock pavement be constructed on Boston place, from First street to its easterly termination, including the intersection of Boston place and First street.

7. That artificial stone sidewalks be constructed on the northerly side of California street, from Presidio avenue to First avenue, including the angular

corners of intersecting streets; also on the southerly side of California street, from Parker avenue to First avenue, including the angular corners of intersecting streets.

8. That a 12-inch ironstone pipe sewer with appurtenances be constructed in States street, from Castro to the second angle point in center line of said street westerly from Castro street.

9. That an 8-inch ironstone pipe sewer with appurtenances be constructed in Sixteenth avenue South, from the southerly line of "R" street South to a point 125 feet southeasterly therefrom; also in the crossing of Sixteenth avenue South and "R" street South.

10. That an 8-inch ironstone pipe sewer with appurtenances be constructed in Clyde street, between Lusk alley and Townsend street.

11. That a 12-inch ironstone pipe sewer with appurtenances be constructed in Santa Marina street, between Prospect avenue and Gladys street, and in the crossing of Santa Marina street and Gladys street; also an 8-inch ironstone pipe sewer with appurtenances in crossing of Santa Marina street and Gladys street; also a 12-inch ironstone pipe sewer with appurtenances in Santa Marina street, between Gladys street and Mission street, and in the crossing of Santa Marina street and Mission street.

Also, recommending the ordering of the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

That artificial stone sidewalks be constructed on southerly side of Frederick street, between Stanyan and Cole streets; on Carl street, between Cole and Stanyan streets; on Clay street, between Cherry and First avenue; on Alabama street, between Twenty-fifth and Twenty-sixth streets; on the northeasterly angular corner of the crossing of Alabama and 25th streets and the northwesterly angular corner of the crossing of Alabama and Twenty-sixth streets. Also, that granite curbs and artificial stone sidewalks be constructed on Twenty-third street, between Diamond and Douglass streets.

Also, requesting that no awards be made for certain items on Schedule of Supplies for 1908-9, and stating reasons for said request.

IN MATTER OF TEMPORARY PERMIT TO OPERATE OVERHEAD TROLLEY, OUTER TRACKS, LOWER MARKET STREET.

The following matters were read by the Clerk:

Communication—From the San Francisco Labor Council, indorsing action of the Board in refusing permit for overhead trolley on outer tracks of lower Market street to Sutter Street Railroad Company.

Petitions—Of the North Central Improvement Association, requesting that Sutter Street Railway Company be granted a temporary permit to operate overhead trolley system on outer tracks of lower Market street.

Of the Board of Trade, requesting that the Sutter Street Railway Company be granted temporary permit to operate overhead trolley system on the outer tracks of lower Market street.

Of the Merchants' Exchange, requesting that the Sutter Street Railway Company be granted a temporary permit to operate an overhead trolley system on the outer tracks of lower Market street.

Of the Chamber of Commerce, requesting that the Sutter Street Railway Company be granted a temporary permit to operate an overhead trolley system on the outer tracks of lower Market street.

Of the Merchants' Association, requesting that the Sutter Street Railway Company be granted a temporary permit to operate an overhead trolley system on the outer tracks of lower Market street.

Of Mrs. C. E. Cooper and others, requesting that the Sutter Street Railway Company be granted a temporary permit to operate an overhead trolley system on the outer tracks of lower Market street.

Of I. J. Ohman and others, requesting that the Sutter Street Railroad Company be granted permission to operate overhead trolley system on the outer tracks of lower Market street without imposition of the conditions required by the Board of Supervisors.

Of Gustav Mann and others, requesting that the Sutter Street Railroad Company be granted permission to operate an overhead trolley system on the outer tracks of lower Market street without the imposition of the conditions heretofore required by the Board of Supervisors.

Motion.

Supervisor McAllister moved that Dr. Hartland Law be granted the privilege of the floor.

Privilege of the Floor.

Whereupon, *Dr. Hartland Law*, representing the Merchants' Association, stated that he was not speaking for the United Railroads, that he did not want the City to forfeit a single right, but that he thought the Sutter Street Railway Company should be granted a temporary permit pending the adjudication of the question at issue.

C. A. Frost, representing Hotelkeepers, addressed the Board, stating that the traffic on Sutter street had fallen about 5000 per day since installation of horsecar line, that those he represented were suffering a loss of patronage on this account, and suggested that the matter might be settled on a basis of a

percentage of the pecuniary benefit derived by the United Railroads from the use of the outer tracks.

Wm. G. Mogan, representing the Chamber of Commerce, also addressed the Board, stating that he was not in favor of retrogression, that a horsecar line on lower Market street was not in line with progress, and requested that the temporary permit petitioned for be granted.

C. A. Grey, representing the Sutter Street property owners, also addressed the Board, stating that he had interviewed Mr. Thornwell Mullally of the United Railroads and had been informed that the Sutter Street cars cannot be practically operated on the center tracks on lower Market street on account of the congestion of traffic thereon.

Motion.

Supervisor *Giannini* moved that the matter be laid over until Thursday, July 16, 1908, at 2 p. m., to be then considered by a committee of the whole Board.

Resolution.

Whereupon, Supervisor *Murdock* presented the following Resolution and moved its adoption:

Resolution No. — (New Series).

Whereas, The Board of Supervisors deplores the inconvenience to citizens by the use on the part of the Sutter Street Railroad Company of the horsecars on lower Market street, and wishes to do all it honorably and reasonably can to effect a settlement of the existing controversy or to clearly fix the responsibility if it must continue; be it

Resolved, That the Committee on Public Utilities and the Judiciary Committee jointly be requested to fully consider at their early convenience the matters at issue between the Sutter Street Railroad Company and the City, and to report their findings with recommendations as to further action of the Board.

Resolved, That the Board hereby reiterates its purpose to fully protect the rights of the citizens of San Francisco and not to surrender any privileges that rightfully belong to them without adequate compensation. That in its judgment the right to the exclusive use of the four tracks on lower Market street is a privilege of very great value, being practically the key to the transportation situation, inasmuch as it effectually shuts out from the Ferry a municipal road or any possible competing company. If the right of maintaining the outside tracks rests in the Sutter Street Railroad Company as a company separate and distinct from the United Railroads of San Francisco, and is so conceded by the municipal authorities, it would seem that they are justified in withholding the permit for the use of the trolley unless the company grants

the use of the rails by another company, and also pays for the privilege a sum approximating the Charter requirement. That the position of the Board may be so reasonable as to make the further use of horsecars clearly an unwarranted act on the part of the Company, the Joint Committee is authorized to accept such modified monthly payment as may be agreed upon, subject to the approval of the Board.

Statement.

Supervisor *Connolly* addressed the Board, objecting to the Resolution, and requested that the hearing be allowed to proceed.

Whereas, The territory through which said pipe-line and wire are to traverse is entirely uninhabited and largely covered by water, and the granting of said permission, subject to revocation, as hereinafter provided, will be without present injury to the public; now, therefore be it

Resolved, That said privilege heretofore described be and the same is hereby granted upon the following express conditions, to wit:

First, Said permission is granted subject to the right of the Board of

Supervisors at any time to revoke the same, and upon such revocation said Miller & Lux, Incorporated, shall forthwith remove said pipe-line and wires.

Second. The said pipe-line shall be laid below the official grades of the hereinbefore mentioned streets and below the present grades of any of said streets which are traveled upon, but where the same passes over land covered by water the same may be placed above the surface of such water; provided, that if at any time hereafter said streets are paved or filled in so as to be used for traffic by the public, said pipe-line shall be laid below the grade thereof.

Third. In consideration of the granting of such permit said Miller & Lux, Incorporated, shall at all times while exercising such privileges keep such streets in repair for the space of two feet over said pipe-line, and if at any time said streets are paved, said Miller & Lux, Incorporated, shall pay the expense of paving said streets to the extent of two feet over said pipe-line and keep said pavement in repair to said extent.

Fourth. Said wires shall be strung on poles placed as near as may be along the line of said streets, and so as not to interfere with the use of said streets by the public, and the said poles and wires may be removed, or the wires placed underground, at the pleasure of the Board of Supervisors.

Fifth. Said water and power shall be used only by said Miller & Lux, Incorporated, in operating said abattoir and protecting the same from fire, and for no other purpose whatsoever.

Resolution No. 1902. (New Series), passed February 3, 1908, is hereby repealed.

Providing \$23,142.50 for Payment of Unpaid Salaries of School Teachers for Portion of Fiscal Year 1906.

Resolution No. 2500 (New Series).

Whereas, A certain portion of the salaries of the High School Teachers, Special Teachers and Evening School Teachers of the School Department of the City and County of San Francisco, has been withheld for the fiscal year

ending June 30th, 1907, although under the law all teachers of the San Francisco School Department are entitled to such annual compensation as is fixed by the Board of Education between the 1st and 21st days of May of each year; and,

Whereas, The Finance Committee of the Board of Supervisors have heretofore recommended that such withheld salaries be paid during the fiscal year ending June 30th, 1908, provided the condition of the funds would permit; and,

Whereas, By reason of the fact that the condition of the Surplus Fund is such that it is now possible to pay said salaries, now, therefore,

Resolved, That the said withheld salaries of the High School Teachers, Special and Evening School Teachers, according to their claims as filed in the office of the Board of Supervisors, be and the same are hereby approved, allowed and ordered paid, and the Auditor and Treasurer be and are hereby authorized, empowered and instructed to respectively audit and pay out of the Surplus Fund such claims to the following aggregate amount, to wit: twenty-three thousand and one hundred and forty-two dollars and fifty cents (\$23,142.50); that is to say, six thousand five hundred and ninety-six dollars and twenty-five cents (\$6596.25) for the Evening Teachers, sixteen thousand and seventy-eight dollars and twenty-five cents (\$16,078.25) for the High School Teachers, and four hundred and sixty-eight dollars (\$468.00) for the Special Teachers.

Further Resolved, That the sum of twenty-three thousand and one hundred and forty-two dollars and fifty cents (\$23,142.50) is hereby set aside, appropriated and authorized to be expended out of said Surplus Fund for the purposes herein indicated, and the attention of the Auditor and the Treasurer is hereby called to the provisions of this Resolution.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Message from Mayor.

His Honor, the Mayor, presented the following:

Mayor's Office, City and County of San Francisco.

San Francisco, July 13, 1908.

To the Board of Supervisors of the City and County of San Francisco:

I am in receipt of a letter from the District Attorney of this City and County, copy of which is as follows:

San Francisco, July 10, 1908.

Hon. Edward R. Taylor, Mayor of the City and County of San Francisco, San Francisco.

Dear Sir:

I respectfully call your attention to the fact that the work now being carried on by the District Attorney of this City and County—I refer to the so-called graft prosecution—requires the assistance of persons who will act as detectives and special agents for the District Attorney, and be subject solely to his order and directions. I would respectfully call your attention to the fact that in the budget for the fiscal year 1908-9, there is set apart for the District Attorney's office the sum of \$70,000. This sum was set apart to be used in carrying on the so-called graft prosecution, and I think that the compensation of a person to be called Special Agent and of twenty-five assistants to be called Assistant Special Agents, may be well and properly met out of that fund. I would further suggest that the compensation of the Special Agent be \$625.00 per month and of the assistants \$150.00 per month each. Therefore, pursuant to the provisions of Section 35 of Article 16 of the Charter of this City and County, I now make application to you as Mayor of the City and County of San Francisco, for authority to appoint an additional assistant to be called Special Agent at a salary of \$625.00 per month and twenty-five assistants to be called Assistant Special Agents at a salary of \$150.00 per month each. And I respectfully request that you recommend to the Honorable, the Board of Supervisors of the City and County of San Francisco that they enact an Ordinance authorizing the appointment of said Special Agent and said twenty-five Assistant Special Agents with the compensation above mentioned.

In making this application I desire to be understood that I intend no reflection whatever upon the Police Department of this City and County, but make this application in the belief that in the proper conduct of this office, there should be attached to it, detectives who would be subject solely to the orders and directions of the District Attorney, a condition which under the provisions of the Charter would be impossible, were the detectives to be assigned to this office by the Police Department.

Respectfully submitted,
(Signed) W. H. LANGDON,

District Attorney for the City and County of San Francisco.

I recommend that the request of the District Attorney be complied with.

(Signed) EDWARD ROBESON TAYLOR,
Mayor.

Ordered referred to Finance Committee.

Referred.

Whereupon, Supervisor Booth introduced the following:

Authorizing District Attorney to Appoint Special Agent and Assistant Special Agents.

Bill No. 600, Ordinance No. _____ (New Series), entitled, "Authorizing the appointment by the District Attorney of one additional assistant to be called Special Agent and fixing a compensation, and of twenty-five additional assistants to be called Assistant Special Agents and fixing their compensation."

Ordered referred to the Finance Committee.

Announcement.

Supervisor Giannini announced that the Public Utilities Committee would visit Hetch-Hetchy Valley leaving this city on August 15, 1908. All members of the Board were invited to accompany said Committee.

Referred.

Requesting Amendment to Building Law Relative to Electrical Wiring in Buildings.

Supervisor McLeran presented the following:

Communication—From the S. F. Branch of the National Electrical Contractors Association, with draft of Ordinance amending Section 325 of the Building Law.

Ordered referred to the Building Laws Committee.

Adopted.

The following Resolution was introduced under suspension of the rules and adopted:

Appointment of Prof. Cory to Ascertain Values of Properties of Pacific Telephone and Telegraph Company.

Resolution No. 2517 (New Series), Resolved, That Prof. C. L. Cory be and is hereby employed at a compensation not to exceed \$1250.00 to prepare and submit to this Board, not later than February 1, 1909, a report showing:

1. The true valuation of the entire installation of the Pacific Telephone and Telegraph Company in San Francisco on July 1, 1908, and all additional investments during the ensuing fiscal year which rightfully increase this valuation.

2. The number of telephones installed on said July 1, 1908, the number of additional telephones installed each month during the ensuing fiscal year and the average income from all telephones of all classes of services.

3. A proper segregation of repair,

maintenance and depreciation accounts as well as cost of operation.

Said report to be based upon a personal inspection and examination of the complete equipment of the Pacific Telephone and Telegraph Company, including its books, records, engineering data, etc., supplemented by actual investigation of pole line installation, underground conduit, etc.

Progress Report of Advisory Committee on Rehabilitation of City Hall.

San Francisco, July 17, 1908.

To the Special Committee of the Board of Supervisors, on the Rehabilitation of the City Hall, Mr. Loring P. Rixford, Chairman.—Dear Sir: This is to inform you that several conferences have been held between Messrs. Albert Pissis, James Reid, John Galen Howard and myself, acting together as an advisory body to the above named Special Committee of the Board of Supervisors.

As a result of those conferences I am requested to inform your Committee, by way of a preliminary report, that we are of the opinion it would be inadvisable to do any further work in the City Hall with a view toward a temporary occupancy; as such would only serve to be in the way and delay the action necessary in the near future, whether it is finally decided to rehabilitate what remains of the struc-

ture, or remove it and make way for a new one.

This being the vacation season it has been very difficult to get all of the members of the above-mentioned advisory body together, first one being absent from the city and then another. At present Mr. Howard is out of town and is not expected to return until the first of August. As soon as he has done so we shall convene, and will doubtless have a complete report ready in a very short while thereafter.

Trusting that the above expression of our opinion at this time may be of some value to your Committee, we remain,

Yours truly,
ALBERT PISSIS,
JAMES REID,
JOHN GALEN HOWARD,
NEWTON J. THARP.

SPECIAL ORDER.

The Special Order of Business, to wit, consideration of Petitions of North Central Improvement Association, Board of Trade, Merchants' Exchange, Chamber of Commerce, Merchants' Association and numerous property owners that Sutter street Railroad Company be granted a temporary permit to operate an overhead trolley street railroad system on the outer tracks of lower Market street fixed for 3 p. m. this day, was proceeded with.

Motion.

Supervisor Giannini moved that the privilege of the floor be granted to anyone who desired to address the Board on the question at issue.

So ordered.

Privilege of the Floor.

Whereupon, Wm. G. Mullan, representing the Chamber of Commerce, addressed the Board stating that he desired only to reiterate what he had said before in the matter of granting a temporary permit to the Sutter Street Railroad Company on the outer tracks of lower Market street and that his opinion in the matter had not changed.

E. C. Gray, representing Sutter street property owners, also addressed the Board stating that he did not wish the city to surrender any of its rights but that he thought that a temporary permit should be granted pending the settlement of the question.

Wm. Neal, teamster, also addressed the Board, and stated that he had observed that prior to the refusal of the Board to grant further permits on the outer tracks of lower Market street

that practically all the cars of the United Railroads and Sutter Street Railroad Company were operated on said tracks and that if the outer tracks could accommodate the traffic at that time he did not see any good reason why the center tracks could not do so now. He also stated that owing to the poor condition of other streets considerable traffic was diverted to Market street and that if the United Railroads was granted use of both tracks it would seriously interfere with said traffic.

Resolution.

Thereupon, Supervisor Giannini introduced the following Resolution:

Granting Temporary Permit to Sutter Street Railroad Company for an Overhead Trolley Street Railroad System on Outer Track of Lower Market Street.

Whereas, Various mercantile and civic organizations and numerous property owners have petitioned the Board of Supervisors to grant to the Sutter Street Railroad Company a temporary overhead trolley permit over the outer tracks of said company on lower Market street; now therefore

Resolved, That the Sutter Street Railroad Company be and is hereby granted permission, revocable at will of the Board of Supervisors, to maintain and operate cars by an overhead trolley over the tracks of said company on Market street between Sansome and Sutter streets and the Ferry, provided, however, that before such privilege shall be exercised, or the cars of said company or those of the United Railroads of San Francisco be operated on said tracks that said Sutter Street Railroad Company shall file with the Board of Supervisors a stipulation in writing, agreeing to grant a right of way for a Municipally owned street railroad over said tracks of said Sutter Street Railroad Company on Market street in common with said Sutter Street Railroad Company, said stipulation to be approved as to form by the City Attorney.

In the event of the failure of said Sutter Street Railroad Company to file the aforesaid stipulation the permission hereby granted shall be without prejudice to the right of the City and County of San Francisco to claim at any time hereafter that the United Railroads of San Francisco or said Sutter Street Railroad Company has no right and never had any right to operate cars by any means over said outer tracks on lower Market street.

Substitute Resolution.

Whereupon, Supervisor Pollok presented the following substitute resolution and moved its adoption:

Resolution No. — (New Series).
As the convenience of the traveling public and citizens generally demands

that electric cars be permitted to run down Market street to the ferry on the outer tracks as formerly, under a temporary, revocable license, and that the horse cars be withdrawn,

Therefore, be it resolved, that a temporary permit be granted to the Sutter Street Railroad Company to operate its cars on Market street from Sutter street to East street without compensation, under the following conditions:

1. Such permit to be revocable at the pleasure of the Board of Supervisors and without prejudice to the rights of either the City and County or of the Sutter Street Railroad Company.

2. In case the permit should be revoked at any time, 30 days' notice to be given.

3. That the United Railroads Company extend without delay their tracks to the Mail dock to accommodate travelers coming to this City by steamships.

Substitute Refused Passage.

Whereupon, the question being taken on the substitute Resolution, the same was *refused passage* by the following vote:

Ayes—Supervisors Comte, McAllister, Pollok—3.

Noes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Rixford—12.

Absent—Supervisors Broderick, Center, Hocks—3.

Adopted.

Thereupon, the question being taken on the Resolution submitted by Supervisor Gianinni, the same was *adopted* as Resolution No. 2519 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Rixford—12.

Noes—Supervisors Comte, McAllister, Pollok—3.

Absent—Supervisors Broderick, Center, Hocks—3.

REPORTS OF COMMITTEES.

The following Committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Passed for Printing.

The following matters were passed for printing:

Establishing Grades, Clyde Street, Crooks Street and Lusk Alley.

On motion of Supervisor Pollok: Bill No. 602, Ordinance No. — (New Series), entitled, "Establishing grades at certain points and elevations on Clyde street, Lusk alley and Crooks street."

Ordering Street Work.

Also, Bill No. 603, Ordinance No. — (New Series), entitled, "Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same," the provisions of which provide that artificial stone sidewalks be constructed on the southerly side of Frederick street, between Stanyan and Cole streets; on Carl street, between Cole and Stanyan streets; on Clay street, between Cherry street and First avenue; on Alabama street, between Twenty-fifth and Twenty-sixth streets, and on Twenty-third street, between Diamond and Douglass streets.

Pipe Line Permit, German Savings and Loan Society.

Also, Resolution No. — (New Series), as follows:

Resolved, That the German Savings and Loan Society be and is hereby granted permission, revocable at will of the Board of Supervisors, to lay pipes for the purpose of conveying steam from the Clunie Building, situate southwest corner of California and Montgomery streets, under and

across California street, to the building of the German Savings and Loan Society, situate on the north side of California street, between Kearny and Montgomery streets.

The said pipes shall be laid to the satisfaction and under the supervision of the Board of Public Works, the Department of Electricity and the Fire Marshal.

The German Savings and Loan Society shall at all times, while exercising such privilege, keep California street in repair for the space of two feet over said pipes.

Extensions of Time, Street Work.

Also, Resolution No. — (New Series), as follows:

Resolved, That Blanchard & Brown Company be and hereby is granted an extension of sixty days' time from and after August 15, 1908, within which to complete the contract for grading Thirty-fifth avenue, between Point Lobos avenue and Fulton street.

This extension of time is granted for the reason that the contractor has been unable to secure the necessary rails for the cars used in grading operations.

Also, Resolution No. — (New Series), as follows:

Resolved, That the City Street Improvement Company be and hereby is granted an extension of thirty days' time from and after August 6, 1908, within which to complete the contract for grading, curbing, paving, etc., the crossing of Eleventh avenue and "L" street.

This extension of time is granted for the reason that the Spring Valley Water Company have yet to relay their pipes.

Adopted.

The following Resolution was adopted:

Intention to Change and Establish Grades on Fourth Street, Between Berry and Channel Streets.

On motion of Supervisor Pollok:

Resolution No. 2542 (New Series), as follows:

Declaring it to be the intention of the Board of Supervisors to change and establish grades at certain points and elevations on Fourth street, between Berry and Channel streets, in accordance with the recommendation of the Board of Public Works, filed July 11, 1908; and further declaring that no assessment district is necessary as no damage will result from said change of grade, inasmuch as the improvements already conform to the proposed grade; also directing the Board of Public Works to cause to be conspicuously posted along the street upon which change or modification of grade or grades is contemplated notice of the passage of this Resolution of Intention.

Report of Clerk of Board of Supervisors on His Inability to Verify Signatures to Petitions for the Acquisition of Certain Public Utilities.

To the Honorable the Board of Supervisors of the City and County of San Francisco.—Gentlemen: Upon February 15, 1908, there was filed in the office of the Clerk of your Honorable Board a petition purporting to be signed by 14,616 alleged duly qualified electors of the City and County of San Francisco, to call a special election for the purpose of submitting to the people of the City and County of San Francisco a proposition to issue bonds for the acquisition of franchises and properties of the United Railroads of San Francisco, of the California Street Cable Railway Company, of the Pacific Telephone and Telegraph Company and of the Home Telephone Company.

Thereafter on March 30, 1908, there was filed 3254 additional signatures to said petition and on April 8, 1908, 582 additional signatures were filed, and on the same date 504 more signatures were also filed.

Section 3 of Article XII of the Charter of the City and County of San Francisco provides that:

"Whenever a petition or petitions, each signed by electors of the City and County equal in number to fifteen per centum of all the votes cast in the City and County at the last preceding general election, shall be presented to the Board of Supervisors, setting forth that the signers of such petition or petitions favor the acquisition of the public utility or utilities therein named, it shall be the duty of the Clerk of the Board of Supervisors to immediately proceed to examine and verify the signatures to such petition or petitions, and to certify the result of such examination to the Board of Supervisors. If the required number of signatures be found to be genuine, the Clerk shall transmit to the Mayor an authentic copy of such petition or petitions, without the signatures thereto.

"Upon receiving a certificate of the Clerk that the petition or petitions contain the required number of genuine signatures, it shall be the duty of the Board of Supervisors to procure, in the manner specified in Section 1 of this Article, plans and estimates of the cost of original construction and completion of each public utility named in such petition or petitions."

In accordance with the mandate of the Charter I have proceeded to examine the signatures to the foregoing petition and as the result of said examination to report as follows:

The petition is not verified in any manner by the oath of any person or of any signer thereto.

There are no means by which I can verify and ascertain whether such signatures are genuine and by reason of that fact it is not possible for me to make a certificate as required by the Charter that such petition contains the required number of genuine signatures.

Respectfully submitted,

JOHN E. BEHAN,
Clerk Board of Supervisors.

Budget appropriation for salaries in said Department.

From Chief of Police, for an additional appropriation of \$11,116 for maintenance of Police Patrol service.

From Board of Education, stating that proposed appropriation of \$2500 for the construction of Denman School building is inadequate and that said Board is unable to make any recommendation in the premises.

From the Department of Electricity, requesting an additional appropriation of \$16,780 to meet deficit in salary fund of said Department, caused by increased wage schedule, and in order to maintain its full working force. Also for a material increase for maintenance of said Department.

From the Department of Electricity, requesting permission to withdraw recent recommendation increasing wage schedule of its employees and to submit in lieu thereof an amended list providing increases for two repairers which had been inadvertently omitted from former recommendation

To the Fire Committee.

Communication—From the Board of Education, stating that it has no objection to the operation of a planing mill by Holden-Duprey Company, in premises at No. 126 West Mission street.

To the Hospital and Health Committee.

Communications—From the Chief of Police, stating that G. Bohrman has been directed to cease work on stable at No. 1331 Fell street until permit therefor is obtained from the Board of Supervisors.

From the Board of Health, stating that there are two obsolete fire engines on the grounds of the Relief Home for the Aged and Infirm, and requesting that same be disposed of.

Protest—Of Board of Education, against grant of stable permit for stable on Union street, adjoining the Sherman School.

To the Judiciary Committee.

Communications—From the Chief of Police, with requisition for certain law books for use in his office.

From Chief of Police, with requisition for certain law books for use in Southern Police Station.

To the Police Committee.

Communication—From the City Attorney, advising that during probationary period police officers may be removed by Police Commission without trial, but that when probationary period has passed said Board has no power to question validity of certification.

To the Public Buildings Committee.

Communications—From Coroner's office, with requisition for one extension telephone.

From the Board of Public Works, stating that it is impracticable for night watchmen at City Hall to report regularly through alarm system in Treasurer's office, but that if separate clocks were provided for their use it would increase efficiency of service; also with report as to cost of various repairs and improvements in Recorder's and Registrar's offices and building to be used by Board of Health on Mission near Seventh street.

From the Board of Public Works, transmitting copy of Resolution allowing Condon McGlynn Company \$7600, second payment for construction of Sunnyside School.

From Coroner, with requisition for telephone in his office in Ortman building, northeast corner of Kearny and Post streets.

From the Board of Public Works, advising that demands of John O'Connor for services as inspector are correct.

From the Recorder, with requisition for one Scott & Child's City Map.

From the Board of Education, with requisition for telephone in temporary Girls' High School, at Scott and O'Farrell streets.

From the Board of Education, recommending the purchase of additional land sites for the first five schools to be constructed under bond issue, to wit: Commercial High School, Denman Grammar School, Hancock Grammar, Jean Parker and Jackson Primary Schools.

From the Board of Fire Commissioners, advising of surplus of \$449.38 in appropriation for construction of fire house at Sixteenth and Albion avenue, and requesting that an additional amount be added to the above to provide \$750 for gas fixtures and sheathing inside of engine-house on Green street, near Leavenworth street.

To the Public Utilities Committee.

Communication—From the City Attorney, with opinion as to legal steps necessary to take in order to secure rights to reservoir lands in Hetch-Hetchy Valley.

To the Streets, Sewers and Parks Committee.

Communications—From the Board of Public Works, recommending the expediency of repaving Leavenworth street, between Sutter and California streets, with bitumen and a central strip of basalt blocks, at an estimated cost of \$20,000.

Also, transmitting map of Lake View as surveyed and monumented by the City Engineer, and recommending that same be approved and ratified.

Also, recommending the ordering of the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

That artificial stone sidewalks be constructed on the northerly side of Precita avenue, between Folsom street and Treat avenue; on Precita avenue, between Harrison and Alabama streets, and on Florida street, between Precita avenue and Peralta avenue. Also, that granite curbs and artificial stone sidewalks be constructed on Alabama street, between Twenty-sixth and Army streets, and in the four angular corners of the crossing of Alabama and Army streets.

Also, recommending that \$75 be made available for the grading and improvement of Forty-fifth avenue, between "I" and "J" streets, in front of engine-house.

Also, recommending that grades be changed and established at certain points and elevations on Nineteenth street, between Valencia and Guerrero streets.

Also, recommending that the Barber Asphalt Paving Co. be granted an extension of sixty days' time within which to complete contract for the paving of Sutter street, from Van Ness avenue to Sansome street.

Also, recommending the expediency of performing the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

1. That granite curbs and a bituminous rock pavement be constructed on Army street, between Mission and Shotwell streets, and on Army street, between Shotwell and Folsom streets.

2. That Eighth avenue, between "K" and "L" streets, be graded to official line and grade.

3. That granite curbs and artificial stone sidewalks be constructed in the four angular corners of the crossing of Connecticut and Mariposa streets, and that a bituminous rock pavement be constructed in the roadway of said crossing, except in such portion required by law to be kept in repair by railroad company having tracks thereon.

Protest—Of the Schroth Company, against paving of Kearny street with basalt blocks and requesting that asphalt be substituted in lieu thereof.

File.

The following communications were received, read and ordered *filed*:

Communications—From the City Attorney, relative to status of action of the San Francisco Gas and Electric Company vs. the Board of Supervisors—agreement of counsel that plaintiff will not charge a rate in excess of \$1.00 per 1000 cubic feet for gas, pending a decision in injunction proceedings, and that Supervisors are without power to enforce Ordinance No. 451 (New Se-

ries), fixing the rate at 85 cents for gas.

Also, with opinion that if resignation is disaffirmed, Frank Esola, formerly of Police Department, may be reinstated in his position in said Department.

Report of Printing Committee on Message from Mayor Refusing to Sign Printing and Stationery Contracts and Charging Collusion of Bidders.

Supervisor Booth presented the following Report and Communication:

To the Honorable the Board of Supervisors of the City and County of San Francisco.

Gentlemen: Your Committee on Printing, to whom was referred the communication from his Honor the Mayor calling attention to the evidence of collusion in certain bids for printing and stationery, begs leave to report that:

In advertising for bids the supplies required by the City for the departments in our charge are segregated and embraced in three distinct schedules. This year there were nine bidders for books, thirteen for blanks and eleven for stationery. In each instance the Committee recommended the acceptance of the lowest bid, and by Resolution of the Board the contracts were so awarded.

Upon the filing of the bonds required it was revealed to the Mayor that a corporation which had been awarded the contract for printing, a corporation which had been awarded the contract for blank books and an individual acting as agent had, as partners, been awarded a contract for stationery, and on the ground that corporations cannot form a partnership and that the alleged firm could have no legal existence, it is claimed that the City should rescind the Resolution by which the award was made.

The question raised being purely legal, we respectfully recommend that

the City and County Attorney be asked to advise the Board as to whether it can legally award the contract to the City Commercial Company.

It is further claimed that the affidavit of partnership established collusion and that the contract awarded to Phillips & Van Orden Co. and to the Brown & Power Co. should also be rescinded. It is clear that there was an understanding between the two corporations by which one bid for printing only, and the other for binding only. Collusion is defined as "secret agreement for a fraudulent or harmful purpose." The agreement in question can hardly be called secret, for it follows a custom of many years' standing and of common knowledge. Much City work combines printing with ruling and with binding, and in instances where printers are not also binders or *vice versa*, co-operation naturally follows, and the bid is commonly made by the party furnishing the greater part of the work.

Phillips & Van Orden Co. are printers having a large plant but not a binder. Brown & Power are stationers and binders with a comparatively small printing plant. It is clear that the agreement is not for a fraudulent and harmful purpose so far as the question of an exorbitant price is concerned. The bid for printing was in genuine competition with twelve others and secured the contract by being so low that no other bidder could meet it. The bid for binding won against eight others, and in both instances strong and aggressive competitors were represented. If the parties to the agreement had been the only bidders, or if the remaining bids were dummies, the transaction would have been unquestionably for a fraudulent and harmful purpose, but as a matter of fact the combination was not by fraud, but presumably through the utilization of thousands of dollars' worth of standing matter of which the City gets the benefit.

A careful tabulation of the bids shows that if the successful bids were thrown out and the award were made to the next lowest bidder, the additional cost to the City would be as follows:

On printing	\$854.66
On binding	771.64
On stationery	104.53
Total	\$1730.63

The only injury done the City, it would seem, is the possible loss of the competition of one of the two firms by an agreement not to bid against each other. Brown & Power are eliminated as competitors. Practically it entails no appreciable loss, as at best they could do but little of the printing, and

with their facilities they could not rival the successful bidder.

The final question is, does an agreement of this character constitute collusion and disqualify a bidder? Is it for a harmful and fraudulent purpose? Does the Board condone wrongdoing by allowing the contract to stand?

After a thorough hearing and a careful consideration of all the facts, in the opinion of the Committee it does not.

Respectfully submitted,

JAMES P. BOOTH.

CHAS. A. MURDOCK.

Communication From J. J. Lermen.

San Francisco, Cal., July 27, 1908.

Honorable James P. Booth, Chairman, Printing Committee, Board of Supervisors of the City and County of San Francisco.

Dear Sir: It was not my intention to import into the recent discussion before your honorable body matters of a technical nature, as it was the desire of my clients and myself that a free investigation should be made into the facts.

It occurs to me, however, in view of the somewhat technical position taken by counsel for the Mayor, to call to your attention a couple of matters that in so far as these contracts are concerned, deprive the Mayor as well as the Board of Supervisors of any further jurisdiction in the matter, leaving the Mayor merely a ministerial duty to perform, namely, the signing of the contracts. The record will show that all of the provisions of the Charter with reference to the advertising for bids, letting the same, etc., were fully complied with; that a final resolution of the Board was passed awarding the three contracts for the furnishing of certain supplies, to the Phillips & Van Orden Company, the City Commercial Company, and Brown & Power Company. The record shows that this resolution was forwarded to the Mayor for his approval, that it was approved by him and the resolution as returned bears his approval.

I submit, therefore, that neither the Board nor the Mayor have any further jurisdiction over the matter, and that all that is left for the Mayor to do is the signing of the contracts, which is a purely ministerial act which he has now no right to refuse to perform.

Secondly, I submit also that a resolution awarding contracts for the furnishing of supplies is not such a resolution as under the Charter requires the approval of the Mayor, and I refer you to the opinion of the Honorable Franklin K. Lane, under date of March 28th, 1900, then City Attorney, furnished to the Board of Supervisors in response to their inquiry, and advising

the Board what resolutions in his opinion require the approval of the Mayor. (Opinions of ex-City Attorney Franklin K. Lane, 1899-1902, pp. 200-201.)

I take it that the Board will look for its legal advice to the City Attorney and will be governed by his opinions. For this second reason, therefore, I do not think that the Mayor has any jurisdiction in the matter, and that his approval in any form of such a resolution is not required.

I am, yours very truly,

J. J. LERMEIN.

Report Adopted.

Supervisor Booth moved that the Report of the Printing Committee be adopted.

Motion carried by the following vote:

BOND ISSUE, MAY 11TH, 1908.

Referred.

The following matters were received, read by the Clerk, ordered entered at large in the Journal and referred to the Public Utilities Committee:

Communication From Dillon and Hubbard Requesting Certain Data Relative to Bond Issue.

John E. Behan, Esq., Clerk, Board of Supervisors, San Francisco, California.

Dear Sir: Referring to your letter of July 2, we have examined the papers therein referred to, and have just sent you the following telegram:

"Send certified copy ordinance four hundred ten giving notice of election. Also affidavits, publication said ordinance before and after passage. Also statement assessed valuation and bonded indebtedness. All other legal papers received satisfactory. As soon as received will send opinion."

and now write to confirm the same. The certified papers requested in our telegram we have never received. When we receive the papers now called for we will, if we find them satisfactory, mail an opinion as requested.

Yours very truly,

DILLON & HUBBARD.

Communication From Dillon and Hubbard Relative to Proceedings for Sale of Municipal Bonds.

New York, July 20, 1908.

John E. Behan, Esq., Clerk of the Board of Supervisors, San Francisco, California.

Dear Sir: We beg to acknowledge receipt of your favors of July 10 and 11,

enclosing copy of resolution directing the giving of notice of sale of the bonds; also copy of notice and form of proposal; also a table of contents of a pamphlet proposed to be issued descriptive of the bonds and of the municipality. You ask us to examine these documents and telegraph our approval or suggested changes. In answer we have to state as follows:

1. We have examined a copy of the resolution directing the sale of the bonds. We do not know, from the papers before us, whether this resolution has already been passed or is still to be acted on, the same not being certified. We have examined the said resolution, and it is satisfactory to us.

2. That resolution, among other things, directs the Clerk to prepare forms and instructions for the use of bidders and to publish a notice in the official newspaper for ten days that bids will be opened, etc., as therein stated, and the said resolution further provides that the Clerk shall otherwise advertise the sale of the said bonds as may be directed by the Committee on Public Utilities. So far as legal requirement is concerned the charter only provides that when such bonds are offered for sale they shall be advertised in the official paper and otherwise if so ordered by the supervisors. It does not appear from the form of notice, which accompanied the said resolution, whether the same has been prepared and approved by the Board of Supervisors or whether it was prepared by the Clerk. It goes into great detail, to which there is no objection, unless it be on the ground of extra expense, and perhaps this would not be considered objectionable by the Board if it is to be published only in San Francisco in one paper for a period of ten days, but if a notice of the sale is to be published in other papers, and particularly Eastern papers, to publish this notice in New York papers would involve a cost of several thousand dollars. Hence, having this and other pertinent considerations in mind, in our letter of May 18, 1908, to Percy V. Long, Esq., City Attorney, speaking on the publication of notices, we said:

"We suggest that either you or the city officers prepare a draft of circular advertising the bonds, also a form for short newspaper advertisement, also form for bid for the bonds, and then send them on for our examination. We send you herewith some circulars which have been prepared in the case of other municipalities with which we have had dealings. We presume you and the officers of San Francisco will be able to improve materially on these circulars. We are inclined to think that a rather full circular, like the Jacksonville circular, is more advantageous than too brief a statement. We also inclose

herewith a pamphlet in regard to Galveston bonds, which shows what can be done in the way of informing the public as to the financial ability of a municipality. A sufficient number of these circulars could be printed so that there could be a supply here in the east as well as a supply in San Francisco; and the newspaper advertisement could state to whom application might be made for circulars and forms for bids. We presume that you will mail such circulars direct to leading houses in San Francisco, New York, Chicago, Boston, and perhaps other cities."

If you desire to publish in the Eastern papers you can readily prepare a short form of notice that so many bonds, bearing such a rate of interest, will be offered at public sale and bids will be received at such a time, and a pamphlet containing a full description will be furnished on application to the Clerk of the Board of Supervisors of San Francisco, or Dillon & Hubbard, 195 Broadway, New York. It is not necessary to advertise the notice in New York for any given number of days. A few insertions would be all that would be of any essential value. We suggest that in addition to such daily newspapers of the city of New York, as you may think best to select, you should also insert a short notice in the Commercial and Financial Chronicle, which is published once a week here on Saturdays, and has a circulation among financial men over a good part of the country and is read and consulted regularly by municipal bond dealers.

3. The table of contents of the proposed pamphlet to be issued seems to be comprehensive and when the circular is prepared, as this indicates, it would seem to be sufficient to give the public all the information that would be desired. It would be well to state, among other things, that the city and county of San Francisco has never defaulted on any of its bonds, or other obligations, if such is the fact.

4. You say the Board of Supervisors are prepared to send a representative to the Eastern cities if the presence of such a representative would be beneficial to the city, and ask our opinion on the point. Our opinion is that it would be more in accordance with the usual course in such cases, and we think perhaps more effectual, to advertise these bonds in the usual way rather than to send somebody asking for personal interviews with banks and bond houses, as such interviews are liable to be interpreted as an effort on the part of the city to hawk about their securities and thus somewhat discredit them. The material thing, in our judgment, is to get up a full description in pamphlet form, as we suggested, and mail such a pamphlet to the leading banking houses and financial institu-

tions of the country. In our opinion they will be governed by the facts which are fully, carefully and accurately stated in such a pamphlet. Since we wrote you before such a pamphlet has been prepared by the city of Los Angeles with reference to its Owens Water Bond issue. This you have doubtless seen, but lest it may have escaped your attention we mail you one herewith.

5. It does not seem to us that a representative should come on here to see the newspapers in regard to the advertising or to select a fiscal agent as these are matters which we should suppose could readily be covered by correspondence.

On the subject of fiscal agents we heretofore addressed a letter to the City Attorney, dated March 7, 1908, which letter you have probably seen. If not he will doubtless show it to you on application.

Very truly yours,

DILLON & HUBBARD.

Communication From Dillon and Hubbard
Relative to Form of Bonds and Registration Statement.

New York, July 16, 1908.

John F. Behan Esq., Clerk of the Board
of Supervisors, San Francisco, California.

Dear Sir: We duly received your letter of July 8 advising us that the city and county of San Francisco had awarded to the Western Bank Note & Engraving Company of Chicago, Illinois, the contract to engrave the bonds and coupons of the bond issue of the city and county of San Francisco, authorized at the election held on May 11, 1908. You enclosed copy of specifications and bid and copy of instructions covering the details of printing. We have noted the contents of your letter.

There is no objection to having printed on the bonds the statement mentioned in paragraph number one in your letter, to the effect that the opinion of Dillon & Hubbard as to the legality of the bonds is on file in the office of the Clerk of the Board of Supervisors and of the Fiscal Agent of the city and county in New York.

With respect to the form of registration mentioned in paragraph two of your letter we have to state that inasmuch as the charter, as amended in 1907, provides for a form of registration statement, and as the ordinance No. 477 New Series, providing for the issuance of the bonds also contains a form for registration in the same form as that contained in the charter, we think that the proper course is to have that form of registration printed on the bond and not the form as printed on the sample which you enclosed with your letter.

In our letter to Percy V. Long, Esq., City Attorney, dated March 6, referring to this matter we stated as follows:

"This statement might be engraved, lithographed or printed on the back of the bond once, and thus provide for one registration. If afterwards a transfer was made by the registered holder the Treasurer of the city could have a rubber stamp and stamp on the back of the bond a registration clause similar in all respects to this one, and repeat this process each time the bond is registered. This seems to us just as well as it would be to print the statement a number of times. We see no objection, however, to having this form of registration engraved or lithographed or printed a number of times on the back of the bond, if you shall think this more desirable."

As to whether this statement of registration shall be engraved more than once on the bond we leave to you and you will therefore give the necessary instructions to the Western Bank Note & Engraving Company with respect to this matter. We may add that we are informed it is the purpose to have a similar form of registration engraved a number of times on the bonds of the city of Los Angeles.

In accordance with your request we are writing to the Western Bank Note & Engraving Company with respect to the suggestions contained in your letter and enclose for your information a copy of our letter.

Very truly yours,

DILLON & HUBBARD.

Enclosure.

July 16, 1908.

Western Bank Note & Engraving Company, Chicago, Illinois.

Dear Sirs: We have been requested by John F. Behan, Esq., Clerk of the Board of Supervisors of San Francisco, California, to furnish you with copy for a statement to be engraved on the San Francisco bonds with respect to our opinion, and also copy of the form of registration. The forms referred to are copied below. We may state with respect to the form of registration that we have suggested to Mr. Behan the advisability of having the form of registration engraved several times on the bonds instead of only once and he will advise you as to his wishes in this matter.

Very truly yours,

[Statement to be engraved on back of the bond.]

The opinion of Messrs. Dillon & Hubbard, attorneys, New York City, as to the legality of the within bond is on file in the office of the Clerk of the Board of Supervisors, San Francisco, California, and in the office of the fiscal agent of said city and county in the City and State of New York.

[Form of Registration.]

San Francisco,190..

This bond is registered pursuant to the charter of the city and county of San Francisco, state of California, in the name of and the interest and principal thereof are hereafter payable to such owner.

Treasurer.

Communication From Dillon and Hubbard
Relative to Their Preliminary Report as
to Legality of Bond Issue.

New York, July 23, 1908.

John E. Behan, Esq., Clerk Board of
Supervisors, San Francisco, Cali-
fornia.

Dear Sir: We have received your
telegram reading as follows:

"Sent you this day ordinance four
hundred ten and affidavits of publica-
tion, Auditor's certificate showing as-
sessment roll exceeding four hundred
twenty-nine million dollars, certificate
of Auditor showing outstanding debt of
three million eight hundred sixty-five
thousand six hundred dollars. Can you
wire over Postal lines opinion as to
legality of bonds as we are about to
issue pamphlet and desire its publica-
tion therein."

Assuming that the papers mentioned
in your telegram will be satisfactory
we have written a preliminary opinion
in favor of the \$18,200,000 San Fran-
cisco public improvement bonds, and
inclose the same herewith.

As it has been necessary to write a
long opinion in order properly to de-
scribe the bonds, and to state the con-
ditions which are usual in a prelimi-
nary opinion, we thought it better to
inquire by telegraph whether you de-
sired us to telegraph you a full copy
of the opinion; hence our telegram of
this date reading as follows:

"Have mailed our opinion. Contains
eight hundred words. Do you want full
copy telegraphed."

Awaiting your answer to our inquiry,
we remain,

Very truly yours,

DILLON & HUBBARD.

Communication From Dillon and Hubbard
With Opinion That Bond Issue is Duly
Authorized.

New York, July 23, 1908.

Board of Supervisors of the City and
County of San Francisco, San Fran-
cisco, California.

Dear Sirs: At your request we have
examined into the validity of an issue
of \$18,200,000 bonds of the City and
County of San Francisco, California,
said bonds being of the denomination
of \$1,000 each, dated July 1, 1908, bear-
ing interest at the rate of five per
centum per annum payable semi-an-
nually January 1 and July 1, said bonds
being for the amounts and numbered
and described as follows:

\$5,200,000 Fire Protection Bonds, numbered from 1 to 5200, both inclusive, and payable \$130,000 thereof eight years from the date of said bonds beginning with the lowest numbers, and \$130,000 thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid;

\$4,000,000 Sewer Bonds, numbered from 1 to 4000, both inclusive, and payable \$100,000 thereof seven years from the date of said bonds, beginning with the lowest numbers, and \$100,000 thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

\$5,000,000 School Bonds, numbered from 1 to 5000, both inclusive, and payable \$200,000 thereof six years from the date of said bonds, beginning with the lowest numbers, and \$200,000 thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

\$2,000,000 Hospital Bonds, numbered from 1 to 2000, both inclusive, and payable \$100,000 thereof five years from the date of said bonds, beginning with the lowest numbers, and \$100,000 thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

\$1,000,000 Hall of Justice Bonds, numbered from 1 to 1000, both inclusive, and payable \$50,000 thereof four years from the date of said bonds, beginning with the lowest numbers, and \$50,000 thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

\$1,000,000 Garbage System Bonds, numbered from 1 to 1000, both inclusive, and payable \$50,000 thereof three years from the date of said bonds, beginning with the lowest numbers, and \$50,000 thereof of the next higher numbers on the same day in each succeeding year until all of said bonds shall be paid.

Said bonds recite among other things that they are issued pursuant to the constitution and statutes of the State of California and the Charter of said City and County of San Francisco and amendments thereto, and pursuant to ordinances and proceedings of said City and County duly adopted and taken, and a vote and assent of more than two-thirds of all the qualified electors of said City and County voting at a special election duly and legally called and held for that purpose; that provision has been made for the collection of an annual tax sufficient to pay the interest on said bonds as it falls due, and also provision to constitute a principal of said bonds on or before sinking fund for the payment of the

maturity, and that said bonds are exempt from all taxation within the State of California. We have examined the constitution and statutes of the State of California and the Charter of said City and County of San Francisco, and certified copies of proceedings of said City and County authorizing the issue of said bonds, also the form of said bonds.

It is our opinion that the issue of said \$18,200,000 bonds has been duly authorized in accordance with the constitution and statutes of the State of California, including the Charter of the said City and County of San Francisco; and that when said bonds have been signed by the Mayor and Treasurer and countersigned by the Auditor, and sealed with the corporate seal of the said City and County, attested by the Clerk of the Board of Supervisors, the coupons on said bonds bearing the engraved or lithographed signature of the said Treasurer, all of said persons being actually in office when the bonds are delivered and paid for, and when said bonds shall have been duly sold at not less than par and accrued interest to the date of delivery of and payment for said bonds, and duly delivered and paid for, the said bonds will constitute valid and legally binding obligations of said City and County of San Francisco.

Very truly yours,

DILLON & HUBBARD.

Progress Report of Board of Public Works on Bond Issue Projects.

San Francisco, July 27, 1908.

To the Honorable the Board of Public Works of the City and County of San Francisco.

Gentlemen: Bill No. 593, Ordinance No. 513 (New Series), directs that the Board of Public Works, the Board of Health, the Board of Education and any other office, officer or department of the City and County of San Francisco ordered or directed by the Board of Supervisors, or required by law to perform services in connection with the disposition of the proceeds of the sale of the bond issue of May 11, 1908, are hereby required to file weekly with the Board of Supervisors a progress report of the condition of the work under their direction or supervision, said report to show the expenditures made in the course of said work and the services accomplished.

In response to a communication dated May 4th, 1908, requesting that \$2500.00 be made available to investigate the possibilities of utilizing the ocean off the foot of X street in place of Mile Rock Point as an outfall for the sewage of the west slope of the peninsula, and thereby to effect a possible reduction of \$300,000 in the cost

of the sewer system, and to a subsequent communication dated June 10th, 1908, a resolution was passed to print on July 13th, 1908, setting aside this sum and \$5,000.00 additional; or \$7,500.00 in all out of the Sewer Construction Account of the Public Building Fund to enable the Board of Public Works to prepare plans, specifications, etc., of the sewers to be constructed by the bond issue of May 11th, 1908.

These sums were asked for in order that the plans and specifications for the most urgent portions of the proposed sewer system might be prepared in advance and contracts therefor entered into as soon as the bonds were sold.

In response to a communication dated June 12th, 1908, asking that \$15,000.00 be set aside for the preparation of detailed plans and specifications for the Fire Protection System, the Board of Supervisors, on June 22nd, 1908, passed Resolution No. 2410 (New Series), recommending that \$10,000.00 be made available to enable the Board of Public Works to prepare plans and specifications for the Auxiliary Water System for Fire Protection.

Immediately upon the recommendation of the expenditure of the above sums by the Finance Committee of the Board of Supervisors, assistants to the extent of the available office space were employed, and the following results have been accomplished:

Sewer System.

Plans for the construction of the intercepting sewer along Fulton street from Masonic avenue to Devisadero street and along Devisadero street from Fulton street to Grove street have been completed and the preparation of the estimate of cost and specifications are under way.

Studies and plans for the main storm water outfall from the Mission District, along Division street and Division street produced between Eighteenth street and Channel street at Seventh street are 25 per cent completed. (I would note that this outfall will cost about \$1,000,000.00.)

The following employees have been engaged on the above work during the month of July, and will continue during the rest of the month:

H. W. Shimer, assistant engineer, at a salary of \$150.00 per month;

J. Otis Borage, assistant engineer, at a salary of \$150.00 per month;

Wm. M. Larned, assistant engineer, at a salary of \$150.00 per month.

Auxiliary Water System for Fire Protection.

One of the important projects before this office is the Auxiliary Water System for Fire Protection.

It was realized that the computa-

tions, working drawings and specifications for the Fire Boats and Mechanical equipment of the pumping stations could not be furnished as soon as desirable if the provisions of the Charter were strictly adhered to; and that if these restrictions were followed, a delay would be imposed in letting the contracts and in putting the system into effective use. This would result in a loss to the people of at least \$100,000 for each month of delay, which loss would be made up of unnecessary interest and excessive insurance premiums.

It was manifest early in the year that the bond issue would be approved and that plans and specifications for certain parts of the system should be prepared by September. Therefor, in March last, this office assumed the responsibility of authorizing Mr. T. W. Ransom, an experienced naval architect and mechanical engineer, to proceed with the preparation of the detail plans and specifications of the Fire Boats, a task involving many months work, as no guiding precedents existed, the nearest example being in New York, where conditions are entirely different from those in San Francisco.

The work was therefor commenced on March 1st, 1908, and has reached the following stage:

Fire Boats—Drawings.

The sheer plan, deck plan and hold plan are 80 per cent completed, and can be ready for tracing in about one week. The midship section has been finished and is ready to be traced.

It is the intention to submit these drawings before tracing them, together with preliminary specifications, to local manufacturers, in order to enable them to utilize sizes of material now on hand in the preparation of their bids, and thus facilitate the early completion of the work. Some slight modifications of the scantlings may be found necessary in order to utilize the material now available with the local builders, and therefor it is not proposed to trace the drawings until after they have been returned.

The lines of the vessels are completed and ready to be traced.

All computations of the displacement, weights and scantlings of the hull, machinery and fire apparatus have been finished, as well as general specifications for the boats.

It is estimated that seventy-five per cent (75%) of the work of preparing specifications and plans is completed.

Pumping Machinery.

An extensive correspondence has been conducted during the past few months with the principal manufacturers of steam turbines and centrifugal

pumps, and data collected which will enable the specifications for this work to be prepared so as to insure the greatest competition consistent with high-class workmanship and at the same time avoid unnecessary delay in placing the contracts and completing this work. No drawings and specifications have as yet been prepared.

Distribution System.

The final sizes of the pipes forming the distribution system have been checked to the extent of 75 per cent of the entire system. In preparing detailed plans and specifications for its construction, studies have to be made of the location of the surface and sub-surface structures in the streets, and especially in the crossings where the controlling gates are to be located. At the present time the force engaged in this work is limited to two (2) draftsmen, by reason of the fact that room is not available for more. The details of less than one per cent (1%) of the crossings have been prepared ready for tracing, and there remain about 1500 to prepare.

Tests of Joints for Distribution System.

A study of the pipe joints used and proposed for the various high-pressure water systems in this country shows a wide variation in their design and cost, for which there appears to be no sufficient reason. The difference in cost between the most expensive and the cheapest in the system under consideration will amount to not less than \$50,000.00.

It has, therefore, been decided to test all of the various designs for the purpose of selecting the most desirable. It is estimated that these tests will cost in the neighborhood of \$1,000.00, or about two per cent (2%) of the possible saving. Detail drawings of each design of joint have therefore been prepared, and the local shops, which are equipped to furnish the high-pressure necessary for this work, have been requested to submit bids for conducting the tests under the direction of this office.

Fire Cisterns.

On July 10th, 1908, a communication was received by P. H. Shaughnessy, Chief Engineer of the San Francisco Fire Department, in which he stated the locations at which he recommended that the 100 fire cisterns be constructed. These locations were approved by the Board of Fire Underwriters of the Pacific.

A draftsman was immediately detailed to prepare the necessary plans, and at present they are 10 per cent completed; as soon as more office

space is available additional are to be placed on this work.

The following employees have been engaged in the preparation of plans and specifications for the Auxiliary Fire System during the month of July, and will continue during the rest of the month:

A. J. Bowie, assistant engineer, salary \$175.00 per month.

F. K. Blue, assistant engineer, salary \$150.00 per month.

V. T. Gilchrist, assistant engineer, salary \$125.00 per month.

Office Quarters and Equipments.

Last January your attention was called to the inadequacy and risk of occupying the present office quarters, and since that time the matter has been frequently taken up with the Chairman of the Committee on Buildings of the Board of Supervisors and the City Architect. The last communication on this subject was on July 10, 1908.

A representative from this office attended a meeting of the Buildings Committee of the Board of Supervisors on July 24th, 1908, and it was agreed by the Committee to recommend to the Board of Supervisors that this office be located in the top floor of the Mechanics' Savings Bank building at Mason and Market streets, provided it can be rented at not more than \$400.00 per month.

It is particularly urgent that the question of quarters for this office be promptly settled, as a delay will continue to check and hamper the progress of the work. At the present time there is not room for any additional draftsmen and accommodation for at least double the present office force should be provided at once. It is also necessary that \$1500.00 be set aside for the purchase of the office equipment, namely: filing cases, desks, chairs, drawing tables, maps and book-cases required to carry on this work.

Respectfully submitted,

MARSDEN MANSON,
City Engineer.

PROPOSALS FOR THE PURCHASE OF STREET AND SEWER BONDS, ISSUE OF 1904.

The following proposals for the purchase of Street and Sewer Bonds of the City and County of San Francisco were received, opened and read, being as follows:

Bid of Crocker Estate Company—Sewer Bonds.

Crocker Estate Company,
San Francisco, July 27, 1908.

To the Honorable, the Mayor and the Board of Supervisors of the City and County of San Francisco—Gentlemen: Enclosed herewith is the proposal of the Crocker Estate Company to

purchase from the City and County of San Francisco, in accordance with the notice of sale of bonds dated July 14th, 1908, sewer bonds of the issue of 1904, aggregating in amount the sum of \$181,200, and constituting all of the fifth series of said bonds, maturing June 30th, 1909.

This proposal has been induced as a result of a conference of the Finance Committee of your Honorable Board held on Friday, the 24th day of July, 1908, at 2:30 o'clock p. m. of said day, and the Honorable Michael Casey, President of the Board of Public Works, at which conference it was understood and agreed that upon the presentation of said bid for said bonds and the purchase thereof by said Company the amount realized therefrom and paid into the public building fund of the treasury of the City and County of San Francisco should be employed and expended in the construction of the following main sewers:

1. In the Amazon street district as provided in the bond issue of 1903 for the construction of the Amazon street sewer from London street to Athens street, and thence southeasterly twelve hundred feet over a proposed new street.

2. The main sewer for Glen Park District.

3. The main sewer for Parkside District.

The proposed improvements of these streets is to insure sewer facilities for large suburban tracts which are rapidly building up and are in immediate need of such facilities.

Trusting that your Honorable Board will find it possible to accept the proposed proposal and to authorize the work proposed, we remain,

Yours very truly,

CROCKER ESTATE COMPANY.

By WM. H. CROCKER, President.

J. N. ROSEKRANS, Asst. Secretary.

Proposal for the Purchase of Sewer Bonds.

To the Hon. Board of Supervisors, City and County of San Francisco—Gentlemen: In compliance with the accompanying notice inviting bids for the purchase of sewer bonds, fifth series, of the City and County of San Francisco, issue of 1904, which notice is attached to, hereby referred to, and made a part of this proposal, and under and in accordance with the conditions and stipulations therein contained and set forth, the undersigned hereby agrees to purchase all of the said fifth (5th) series of the said sewer bonds maturing June 30th, 1909, issue of 1904, and amounting in the aggregate to the sum of one hundred eighty-one thousand two hundred (\$181,200) dollars hereby agreeing to pay for the same on delivery as provided in said notice, the said sum of one hundred

eighty-one thousand two hundred (\$181,200) dollars with accrued interest thereon at date of delivery. A certified check in the sum of nine thousand and sixty (\$9060) dollars said sum of nine thousand and sixty (\$9060) dollars being five (5%) per cent of the amount of this bid, is hereby deposited herewith, payable to John E. Behan, Clerk of the Board of Supervisors of the City and County of San Francisco, and which said check accompanies this proposal and is to be forfeited by the undersigned in case it fails to accept and pay for the bonds hereby bid for on delivery as provided in said notice, if its bid therefor be accepted. Otherwise said check is to be returned to it.

Dated, San Francisco, July 27th, 1908.

CROCKER ESTATE COMPANY.

By WM. H. CROCKER, President.

J. N. ROSEKRANS, Asst. Secretary.

Bid of the North Central Improvement Association—Street Bonds.

San Francisco, July 17th, 1908.

To the Honorable the Board of Supervisors of the City and County of San Francisco—Gentlemen: The undersigned in submitting a bid to your Honorable Board for the purchase of \$12,500 worth of street bonds of the 18th and 19th series of the issue of 1904, calls the attention of your Honorable Board to the fact that positive and direct assurance has been given, both by the Finance and Street Committees of your Honorable Board and also by the Board of Public Works, that the proceeds of the sale of the aforesaid bonds shall be devoted exclusively to the repaving of Montgomery street, between Market and Sacramento streets with asphalt.

Request is therefore made that as soon as the proceeds of this sale are available that this work be ordered by your Honorable Board.

Yours respectfully,

NORTH CENTRAL IMPROVEMENT ASSOCIATION.

EDGAR PAINTER, Secretary.

Proposal to Purchase Street Bonds.

San Francisco, July 17th, 1908.

Pursuant to the Notice of Sale of Bonds annexed hereto and made a part of this proposal, the undersigned offers to purchase of the above described bonds the following: (Street Bonds.) The remaining seven (7) bonds of one thousand (\$1000) dollars each of the 18th series of said Street Bonds, maturing June 30, 1922, issue of 1904; five (5) bonds of five hundred (\$500) each of the 19th series and thirty bonds (30) of one hundred (\$100) each of the 19th and 20th series of said Street Bonds, issue of 1904, for which we agree to pay therefor the sum of twelve thousand five hundred (\$12,500) dollars, being the par value thereof and also such inter-

est as may have accrued thereon at the time of delivery.

Progress Report of City Engineer.

To the Honorable the Board of Public Works of the City and County of San Francisco.

Gentlemen:

In compliance with the directions of Ordinance No. 513 (New Series), I submit the following report for the week ending August 1st, 1908, of progress upon the plans and specifications of the Sewer System and the Auxiliary Water Supply System for Fire Protection, to be constructed out of the bond issue.

Sewer System—

Work has been under way on the plans of the following bond issue sewers during the past week:

Bay street, Montgomery avenue to Taylor street; Taylor street, Bay street Beach street; Beach street, Taylor to Powell streets; Folsom street, Thirtieth to Fourteenth streets; Howard street, Thirteenth to Fourteenth streets; Erie street, Howard street to Folsom street; Fifth street, Market to Channel street.

Work on these plans was commenced under Mr. Thos. B. Woodward. However, it has been found advisable to change some of the details. They may be considered 90 per cent completed. The following employees have been engaged on this work during the past week:

W. H. Shimer, Asst. Engineer, salary of \$150.00 per month;

J. Otis Borage, Asst. Engineer, salary of \$150.00 per month;

Wm. Larned, Asst. Engineer, salary of \$150.00 per month.

Auxiliary Water Supply System for Fire Protection.

Fire Boats—

The pencil drawings for the lines have been perfected and sent to the Union Iron Works in order to have a model of the hull made. This will cost not to exceed \$20.00. Preliminary drawings (working drawings) and specifications for the hull and structural steel work have been completed. Detailed drawings for the monitors have been commenced. The plans and specifications having advanced so that they are now about 78 per cent completed.

Distribution System.

The final sizes of pipes forming the distribution system have been checked to the extent of 90 per cent of the entire system. The final location of the pipes has been determined upon 68 street crossings and the adjacent blocks.

Pipe Joint Tests.

Working drawings of the various joints used on cast-iron pipes for this class of work have been made, submitted to various iron works in order to get bids for practical tests of making, caulking and subjecting these joints to high pressures. The best bid was from the Union Iron Works, who have been awarded the contract for

furnishing castings and labor necessary to make the tests to determine the efficiency of these various types of joints. This work was outlined in last week's report. The cost will be \$498.

Pumps and Turbines—

The preliminary studies of the plans and type of pumps and turbines to be used in salt water pumping stations are in progress.

Cisterns—

Working drawings of 98 of the proposed 100 cisterns are under way and the locations of the underground obstructions in the street in 30 of them have been mapped. This work may be considered 25 per cent completed. The following employees have been engaged on the Auxiliary Fire Protection System during the past week:

A. J. Bowie, Asst. Engineer, salary of \$175.00 per month;

F. J. Blue, Asst. Engineer, salary of \$150.00 per month;

V. T. Gilchrist, Asst. Engineer, salary of \$125.00 per month.

Office Quarters and Equipments.

The last three days of the previous week were spent in preparing to move and in moving from our temporary quarters over the office of the Board of Public Works, to new quarters on the top floor of the Mechanics' Bank building. These quarters will provide us with twice the floor area that we have had in the past, and consequently we will be able to employ the additional draughtsmen required in order to complete these plans. It is expected that fifteen additional draughtsmen will be put to work during the coming week.

Very respectfully,

MARSDEN MANSON,
City Engineer.

Passed for Printing.

The following matters were introduced under suspension of the rules and *passed for printing*:

Ordering Construction of Infirmary, Almshouse Tract.

On motion of Supervisor Jennings: Bill No. 624, Ordinance No. — (New Series), entitled "Ordering the construction of a hospital for the infirm poor to be located on the Almshouse Tract in the City and County of San Francisco in accordance with specifications prepared therefor by the Board of Public Works and approved by the Board of Health; adopting said plans and specifications, and authorizing the Board of Public Works to enter into contract for the construction of said hospital and to provide for progressive payments thereon, and to expend therefor a sum not to exceed \$240,000, payable out of the proceeds of the sale of Hospital Bonds, issue of 1904."

Pipe Line Permit, Haslett Warehouse Co.

On motion of Supervisor McAllister: Resolution No. — (New Series), as follows:

Resolved, That the Haslett Warehouse Co. be and is hereby granted permission, revocable at will of the Board of Supervisors, to lay pipe across Filbert street, east of Sansome street, between their Gibraltar and Battery street warehouses, and across Sansome street, north of Filbert street, to their Battery and Filbert streets warehouses, for the purpose of carrying steam for the operation of elevators.

The said pipes shall be laid to the satisfaction and under the supervision of the Board of Public Works, Department of Electricity and Fire Marshal.

The Haslett Warehouse Co. shall at all times while exercising such privilege keep Filbert and Sansome streets in repair for the space of two feet over said pipes.

Adopted.

The following Resolutions were introduced under suspension of the rules and *adopted*:

On motion of Supervisor McLeran:

Board of Public Works and Board of Health to Examine Plans of William Mooser for Hospital on Almshouse Tract and to Report Whether or Not Said Plans or Any Part of Them Can Be Used in Construction of New City and County Hospital.

Resolution No. 2608 (New Series), as follows:

Resolved, That the Board of Public Works be and is hereby requested to examine, in conjunction with the Board of Health, the plans prepared by William Mooser for the construction of the City and County Hospital on the Almshouse Tract, and to report back at the next meeting of this Board as to whether or not said plans or any part of them can be used for the erection of the New City and County Hospital on the present site on Potrero avenue.

Further Resolved, That in the event said plans cannot be used, to submit to the Board of Supervisors an estimate of the cost of the labor and material incidental to their preparation.

Ayes—Supervisors Bancroft, Booth, Broderick, Comte, Connolly, D'Ancona, Giannini, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Rixford—15.

Board of Public Works to Contract for Fitting Up Building for Board of Health at Seventh and Mission Streets.

On motion of Supervisor Murdock: Resolution No. 2609 (New Series), as follows:

Resolved, That the Board of Public Works be and is hereby requested to

enter into contract for the fitting up of building situate at Seventh and Mission streets, the same to be used as general offices by the Board of Health, for which work an appropriation not to exceed \$4,000 has this day been made by the Board of Supervisors.

Ayes—Supervisors Bancroft, Booth, Broderick, Comte, Connolly, D'Ancona, Giannini, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Rixford—15.

City Attorney to Secure Modification of Restraining Order of San Francisco Gas and Electric Company and to Enjoin Said Company from Disconnecting Service of Consumers Who Refuse to Pay Higher Rate Than Fixed by Board of Supervisors.

On motion of Supervisor Murphy: Resolution No. 2610 (New Series), as follows:

Whereas, By reason of the issuance of a restraining order by the United States Circuit Court, the charges for gas consumed in the City and County have been increased, and the public interests demand that it be determined, as early as possible, whether there is any legal warrant in law for such increase; be it

Resolved, That the City Attorney be and he is hereby requested to make every effort in his power to secure a modification of such restraining order so that no greater charges shall be permitted to be collected for gas than those fixed by the Ordinance of the Supervisors, and to also press the suit in which such order has been issued to a final judgment.

Further Resolved, That the City Attorney be and he is requested, if, in his judgment, such action is deemed expedient, to apply for an injunction restraining the San Francisco Gas and Electric Company from disconnecting service to consumers who refuse to pay a higher gas rate than that fixed by the Board of Supervisors for the year commencing July 1, 1908.

Ayes—Supervisors Bancroft, Booth, Broderick, Comte, Connolly, D'Ancona, Giannini, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Rixford—15.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Passed for Printing.

The following Resolution was introduced under suspension of the rules and *passed for printing*:

Extension of Time, Street Work.

On motion of Supervisor Center:

Resolution No. — (New Series), as follows:

Resolved, That the Barber Asphalt Paving Company be and is hereby granted an extension of sixty days' time from and after August 22, 1908, within which to complete the contract for paving Sutter street, from Van Ness avenue to Sansome street.

This extension of time is granted for the reason that unforeseen difficulties encountered from the cutting back of the sidewalks, removal of I beams and filling of area space in order to obtain a foundation for the laying of the curb, has prevented the contractor from completing the contract.

Adopted.

The following Resolution was introduced under suspension of the rules and *adopted*:

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Adopted.

The following Resolution was introduced by Supervisor Murdock under suspension of the rules and *adopted* by a rising vote:

Respect to the Memory of Former Supervisor Wm. G. Stafford.

Resolution No. 2637 (New Series), The members of the Board of Supervisors would express their sincere respect for the memory of their late associate, William G. Stafford. In him they found a man of genial spirit, but firm in adherence to the right as he saw it. Bringing to public affairs the thorough training gained through the successful administration of a large business, his services were of great value to the city. Unpretentious, straightforward, open to conviction, he presented to every question that arose an intelligent and careful consideration. Reaching his conclusions without prejudice, no suggestion of popularity or of personal concern ever influenced him. He was capable of standing alone when occasion demanded, while he bore no ill-will to those who differed from him. His integrity no one ever questioned. He was absolutely loyal to his friends, and just and courteous to all. He not only commanded respect, but won the warm regard of those who knew him. He bore suffering uncomplainingly, and even with cheerfulness. His memory will always be pleasant to us as of a comrade who dropped from the ranks on the onward march, with a smile on his face.

To his family we extend our heartfelt sympathy, and in loving regard we place this testimonial on the minutes of the Board, and when we adjourn it shall be in respect to his memory.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Connolly, Giannini, Hocks, Johnston, McLeran, Murdock, Murphy, Payot, Rixford—13.

Motion.

Supervisor Johnston moved that the Resolutions be suitably engrossed and a copy presented to the family of the deceased.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Relative to Deposit of Fees Paid by City Engineer for Re-establishment of Lines and Grades on Street Work.

Supervisor Center presented the following:

Communication—From the City Attorney, advising as to deposit of fees paid to City Engineer for the establishment of lines and grades on street work.

Referred to Streets Committee.

Relative to Legality of Plans for Payment of Interest and Bonds of City and County Outside of State.

Supervisor Giannini presented the following:

Communication—From the City Attorney, advising as to the legality of three different plans for payment of interest and bonds of the City and County outside the State.

Referred to the Public Utilities Committee.

Requesting Additional Time for Filing Report of Advisory Committee to Special Committee on Rehabilitation of City Hall.

Supervisor Rixford presented the following Communication, which was received, read and ordered referred to the Special Committee on Rehabilitation of the City Hall:

San Francisco, Sept. 3, 1908.

Loring P. Rixford, Esq., Chairman of the Special Committee on the Rehabilitation of the City Hall, Board of Supervisors, San Francisco, Cal.

DEAR SIR:

On behalf of the Committee of Architects appointed on June 5th last to make a recommendation to the above named Special Committee of the Board of Supervisors, as to the advisability of rehabilitation, partial construction or entirely new construction of the City Hall, I wish to report as follows:

During the past month five conferences have been held in the office of the City Architect and at the City Hall. In each conference all of the members of the Advisory Committee were present—Messrs. Albert Pissis, James Reid, John Galen Howard and myself. The whole matter from the three standpoints outlined above has been gone into very thoroughly, and whereas a conclusion has been reached in a general way, the Committee feels that owing to the great importance of the subject a partial report at this time would be unsatisfactory.

Therefore, the Advisory Committee wishes to ask that the presentation of its report to the Special Committee be set for September 24th, 1908, which will allow sufficient time for consideration and recommendation to the Board of Supervisors at its regular meeting on Monday, September 25th, 1908. This additional time is asked on account of Mr. Howard's business calling him out of town for a week, the necessity of having one more conference and the writing of the report of recommendation.

Yours truly,

NEWTON J. THARP,

City Architect.

BOND ISSUE, 1908.

PROGRESS REPORTS, BOND ISSUE PROJECTS.

Of City Engineer, for Week Ending August 8, 1908.

To the Honorable the Board of Public Works of the City and County of San Francisco—Gentlemen: In compliance with the directions of Ordinance No. 513 (New Series), I submit the following report for the week ending August 8th, 1908; of progress upon the plans and specifications of the Sewer System and the Auxiliary Water Supply System for Fire Protection to be constructed out of the bond issue of May 11th, 1908.

Sewer System—

Work has been under way on the plans of the following sewers during the past week:

Sewers for sewage only in the Yerba Buena District or the portion of the City lying easterly from Second street and Sansome street.

Bay street, Montgomery avenue to Taylor street.

Taylor street, Bay street to Beach street.

Beach street, Taylor street to Powell street.

Folsom street, Thirteenth to Fourteenth streets.

Howard street, Thirteenth street to Fourteenth street.

Erie street, Howard street to Folsom street.

Fifth street, Market street to Channel street.

Preliminary computations of the size, velocity, etc., of the North Point Main Sewer from Army and Valencia streets to Eleventh and Harrison streets have been completed.

Preliminary work on the hydrographic survey of the tides and currents of the ocean adjacent to the entrance of San Francisco harbor has been commenced.

The following employees have been engaged on the sewer work during the past week:

W. H. Shimer, Assistant Engineer, salary, \$150 per month.

J. Otis Burrage, Assistant Engineer, salary, \$150 per month.

Geo. J. Couchot, Assistant Engineer, salary, \$150 per month.

B. A. Baird, Draughtsman, salary \$125 per month.

Auxiliary Water Supply System for Fire Protection—

Fire Boats—The model of the hull which was ordered from the Union Iron Works to be constructed at an expense not to exceed \$20 in accordance

with a set of drawings prepared by Mr. T. W. Ransom has been completed and is in this office, where it may be inspected.

Detail drawings for the 3-inch stationary monitors are 50 per cent. completed.

The preliminary draft of the specifications for the main engine, water tube boilers, condenser, circulating pump, steam steering engine, and windlass have been completed. The plans and specifications of the whole boat are estimated 83 per cent completed.

Distributing System—The final sizes of the pipes forming the distributing system have been checked to the extent of 95 per cent of the entire system, and the final location of the pipes has been determined in street crossings and adjacent blocks.

In reaching conclusions regarding the size of the pipes forming the distribution system full consideration is given the fact that at a future date it will be advisable to increase the area to be protected. The distributing system is being planned so that this can be accomplished without reconstructing any of the parts of the present proposed system.

Pipe Joint Tests—

The contract for making and testing the various types of pipe joints was awarded to the Union Iron Works for \$498. The patterns for all of the joints will be finished to-day, and castings for four of the plugs are completed. It is expected that the actual work of testing will commence Monday, August —, 1908. As soon as these tests are completed the designs of the pipe and specials forming the distribution system will be prepared.

Cisterns—Working drawings of all the 100 cisterns are under way, and working drawing of 20 cisterns are 90% finished; working drawing of 65 cisterns are 50% finished; working drawing of 15 cisterns are 10% finished.

The following employees have been engaged on the Auxiliary Water Supply System for Fire Protection during the past week:

A. J. Bowle, Assistant Engineer, salary, \$175 per month.

Wm. Larned, Assistant Engineer, salary, \$150 per month.

H. B. Truett, draughtsman, \$125 per month.

V. T. Gilchrist, draughtsman, \$125 per month.

W. N. Buckley, draughtsman, \$100 per month.

Miss M. M. Cassin, stenographer, \$80 per month.

Respectfully submitted.

MARSDEN MANSON,
City Engineer.

Referred to Public Utilities Committee.

Of City Engineer, for Week Ending August 15, 1908.

To the Honorable, the Board of Public Works, of the City and County of San Francisco.—Gentlemen: In compliance with the directions of Ordinance No. 513 (New Series), I submit the following report for the week ending August 15th, 1908, of progress upon the plans and specifications of the sewer system and the auxiliary water supply system for fire protection to be constructed out of the bond issue of May 11th, 1908.

Sewer System—

Work has been under way on the plans of the following sewers:

Sewers for sewage only in the section of the city lying easterly from Second street and Sansome street. It has been decided to construct these sewers under two contracts, each of which will amount to about \$200,000.00. All north of Market street will be built under one and those south of Market street under the other.

The tracing of the district north of Market street, showing the location, length, size, etc., of the sewers is complete. The tracing for the district south of Market and east of Second streets is 25 per cent complete.

Work is under way on the following storm sewers:

Bay street, Montgomery avenue to Taylor street.

Taylor street, Bay street to Beach street.

Beach street, Taylor street to Powell street.

Folsom street, Thirteenth street to Fourteenth street.

Howard street, Thirteenth street to Fourteenth street.

Erie street, Howard street to Folsom street.

Fifth street, Market street to Channel street.

The preliminary computations as to the size, velocity, etc., of the North Point main from Eleventh and Harrison streets to its outlet at the foot of Dupont street has been finished.

The following plans which were prepared under Thomas P. Woodward are being modified, and may be considered 90 per cent finished.

Southerly section of the East Potrero intercepting sewer along Twenty-second street, Kentucky street, Nineteenth street, Tennessee street, Eighteenth street, Minnesota street and Mariposa street.

Northerly section of the East Potrero intercepting sewer along Mariposa street, Mississippi street, Seventeenth street, Carolina street, Rhode Island street, Sixteenth street and San Bruno avenue.

Arrangements are still under way to start the necessary hydrographic

work to determine the most desirable point of discharge for the sewage from the western slope of the peninsula.

It is proposed to observe and record the actions of the tides and currents of the ocean adjacent to the entrance to San Francisco harbor during two lunations. Boat sheets of this work have been prepared.

The following employees have been engaged on the above sewer work:

H. W. Shimer, assistant engineer, salary \$150.00 per month.

J. Otis Borage, assistant engineer, salary \$150.00 per month.

Geo. J. Couchot, assistant engineer, salary \$150.00 per month.

M. J. Bartell, assistant engineer, salary \$150.00 per month.

A. E. Toll, draughtsman, salary \$125.00 per month.

F. M. Channing, draughtsman, salary \$125.00 per month.

B. A. Baird, draughtsman, salary \$125.00 per month.

Auxiliary Water System—

Fire Boats—The preliminary draft of the specifications for the main and auxiliary feed pumps, electric lighting plant, pipes and pipe covering as well as the greater part of the minor engine room fitting, etc., have been completed.

The drawing for the 3-inch monitors has been completed and is being traced.

The plans and specifications for the fire boats are about 88 per cent completed.

Distribution System—

The work of checking the final sizes of the pipes forming the distribution system has been completed, and the final location of the pipes has been determined upon 110 street crossings and adjacent blocks. Work has commenced upon making a sectional map of the portion of the city inside of the protected district and one hundred and eighty (180) blocks of the fifty (50) vara district have been drawn and traced.

These sectional maps are required to lay out the pipe system, in order to determine the amount of each size of pipe it will be necessary to contract for, and when complete they will show the location, size, etc., of all the pipes, specials and hydrants of the proposed system.

Pipe Joint Test—

The Union Iron Works have completed the work of making the castings for the first two series of pipe joints to be tested, and the work of making and testing these joints commenced this morning. It will probably require three weeks to complete the tests.

Cisterns—

The following statement shows the conditions of the drawings of the hun-

dred cisterns which will be the first work to be contracted for:

Tracings of plans for:

10 cisterns finished.

62 cisterns 75 per cent finished.

28 cisterns not started.

100

Working drawings for:

20 cisterns finished.

65 cisterns 75 per cent finished.

15 cisterns 10 per cent finished.

100

The following employees have been engaged on the plans of the auxiliary water system for fire protection during the past week:

A. J. Bowle, assistant engineer, salary \$175.00 per month.

Wm. Larned, assistant engineer, salary \$150.00 per month.

H. B. Truett, draughtsman, salary \$125.00 per month.

V. T. Gilchrist, draughtsman, salary \$125.00 per month.

W. N. Buckley, draughtsman, salary \$100.00 per month.

Miss Cassin, stenographer, salary \$80.00 per month.

Respectfully submitted,

MARSDEN MANSON,

City Engineer.

Referred to *Public Utilities Committee*.

Of City Engineer, for Week Ending August 24, 1908.

To the Honorable, The Board of Public Works, of the City and County of San Francisco.—Gentlemen: In compliance with the directions of Ordinance No. 513 (New Series), I submit the following report for the week ending August 24, 1908, of progress upon the plans and specifications of the Sewer System and the Auxiliary Water Supply System for Fire Protection to be constructed out of the bond issue of May 11th, 1908.

Sewer System—

Work has been under way on the plans of the following sewers during the past week:

Sewers for sewage only in the district south of Market street and east of Second street, 50 per cent complete.

Storm sewer in Jackson street from Sansome to Drumm street, and in Drumm street from Commercial street to the Bay, 15 per cent complete.

Storm sewer in Mission street from Second street to the Bay, 10 per cent complete.

The amount of changes required in the plans of the East Potrero Inter-center are greater than expected.

The northerly section is 75 per cent complete.

The southerly section is 85 per cent complete.

Plans for the sewers in the following blocks are 90 per cent complete.
Folsom street, Thirteenth to Fourteenth streets.

Howard street, Thirteenth to Fourteenth streets.

Erie street, Howard to Folsom streets.

Fourteenth street, Howard to Harrison streets.

Plans for the storm sewer in Fifth street between Market street and Channel street are 50 per cent complete.

The hydrographic work to determine the most desirable point of discharge for the sewage from the western slope of the peninsula has been somewhat delayed. It was originally proposed to utilize the boat recently constructed for the Police Department in this work, but a careful examination shows that she would not be safe for such work.

Bids were asked for and received from a number of boat men for furnishing a suitable boat for this type of work, and it was found that such a boat with crew and supplies necessary for her operation could be rented for \$25.00 a day.

After consultation with your Board and the Mayor, it was decided to hold the matter of renting this boat in abeyance until the return of the Board of Supervisors from their vacation, when it could be submitted to them.

The boat will be required for about 60 days and the total cost will be about \$1500.00.

The following employees have been engaged on this work:

H. A. Shimer, assistant Engineer, salary \$150 per month.

M. J. Bartell, assistant Engineer, salary \$150 per month.

L. H. Westdahl, assistant Engineer, salary \$150 per month.

G. J. Couchot, Draughtsman, salary \$150 per month.

A. C. Toll, Draughtsman, salary \$125 per month.

T. M. Channing, Draughtsman, salary \$125 per month.

A. B. Baird, Draughtsman, salary \$125 per month.

Auxiliary Water System.

Fire Boats—

The preliminary draft of the specifications for the following minor parts of the engine room equipment has been completed.

Feed water and filter tank.

Feed water heater.

Engine room floors.

Gratings.

Ladders and hand rails.

Engine room gauges.

Telegraphs.

Gongs.

Speaking tubes.

Traveling and lifting gear.

Ventilators.

Tanks for the storage of lubricating oil and waste.

Spare parts.

Engine room tools.

The detail drawing for the 3 inch monitors has been traced and details of the 2 inch portable monitors are being drawn.

The plans and specifications for the Fire Boats are about 91 per cent completed.

Pipe Joint Tests—

Fourteen tests to determine the effect of hand and machine caulking on the lead in pipe joints have been completed. A number of photographs showing the results of these tests and samples of the lead showing the effect of the caulking have been prepared. Tests are now under way to determine the pressure necessary to force the joints apart.

Distribution System.

It has been decided to temporarily stop work on the plans of the distribution system until the tests of the pipe joints under way are completed, and the men formerly employed on plans for the pipe system are assisting in the tests at the Union Iron Works.

Cisterns—

The following statement shows the condition of the plans of the 100 cisterns:

Tracing of plans for 12 cisterns complete.

Tracing of plans for 63 cisterns 75 per cent complete.

Tracing of plans for 25 cisterns 10 per cent complete.

Working drawings for 25 cisterns complete.

Working drawings for 70 cisterns 75 per cent complete.

Working drawings for 5 cisterns 25 per cent complete.

The following employees have been engaged on the plans of the Auxiliary Water System for Fire Protection during the past week.

A. J. Bowie, assistant engineer, salary \$175 per month.

Wm. Larned, assistant engineer, salary \$150 per month.

V. T. Gilchrist, draughtsman, salary \$125 per month.

H. B. Truett, draughtsman, salary \$125 per month.

W. N. Buckley, draughtsman, salary \$100 per month.

Michael Gleason, pipe caulker, salary \$4.00 per day.

Respectfully submitted,

(Signed) MARS DEN MANSON,
City Engineer.

Referred to Public Utilities Committee.

Communication from City Attorney Advising as to Legality of Plans for Payment of Interest and Bonds of City Outside of State.

September 8, 1908.

Gentlemen:

I am in receipt of your communication asking my opinion as to the legality of three different plans for the payment of interest and bonds of the City and County of San Francisco, such payment being made outside of the State of California.

Section 13½ of Article XI of the Constitution permits the issuance of bonds which by their recitals provide for payment outside of the State. This constitutional provision validates all bonds containing such recitals, but there is an apparent conflict with other provisions which seems to prevent the sending of public moneys outside of the State. This apparent conflict goes to the responsibility of the Treasurer and there is nothing to prevent the Board of Supervisors from adopting any of the plans mentioned in your communication and providing for the compensation of any financial institution that satisfies the Board of Supervisors as to its charges and financial integrity.

Dillon & Hubbard, in a letter to me, dated August 24, 1908, suggest the following:

"It would be an unreasonable construction of section 13½ to say that it disables the Legislature from authorizing the municipality to keep the faith of the City and to make payment of its bonds at the agreed place of payment. To this end it is not absolutely necessary that the funds of the municipality shall be deposited here in New York, for instance the funds of the municipality can be deposited with an authorized bank in San Francisco. They can

be advised that, in order to keep the contract of the City, \$50,000 or \$100,000 will be necessary to provide for the payment of the interest at the fiscal agency of San Francisco in the City and State of New York. The Treasurer can go to the depository in San Francisco, get a draft on the City of New York and direct that the proceeds of this draft shall be used only to pay the interest or principal of the bonds which shall be presented for payment at the fiscal agency. This is our opinion and we think it a sound one."

Respectfully,

PERCY V. LONG,
City Attorney.

Ordered referred to Committee of Public Utilities.

Communication from Dillon & Hubbard
Relative to Payment of Principal and
Interest on Municipal Bonds.

August 31, 1908.

John E. Behan, Esq., Clerk of the
Board of Supervisors, City.—

Dear Sir:

Enclosed please find copy of opinion received this day from Dillen & Hubbard.

Very truly yours,

PERCY V. LONG,
City Attorney.

New York, August 24, 1908.

Percy V. Long, Esq., City Attorney, San
Francisco, California.

Dear Sir:

We have your favor of August 19 relative to the following provisions in the form of bond prepared by us to be issued by the City and County of San Francisco, to wit:

"Both principal and interest being payable in gold coin of the United States at the office of the Treasurer of said City and County, or at the option of the holder at the fiscal agency of the City and County of San Francisco in the City and State of New York."

You state that prospective bidders are in doubt whether the laws of the State of California will permit the deposit of municipal funds outside of the State of California. You call attention to Sections 13, 13½, 16 and 16½ of Article 11 of the Constitution, also to the cause of Yarnell vs. Los Angeles, 87 Cal. 603, and Los Angeles vs. Teed, 112 Cal. 349, and inquire whether they still apply.

It is our judgment that the place of payment provided for in the form of bond, giving an option to the holder to receive payment at the fiscal agency of the City and County of San Francisco in the City and State of New York is valid, and is authorized by new Section 13½ of the Constitution, adopted November 6, 1906. The embarrassment and injury to municipal credit caused by the Los Angeles decisions, above referred to, was doubtless the immediate occasion of this provision of Section

13½ of the Constitution. That section is express that nothing in the Constitution contained, that is to say nothing in any of the provisions of the constitution contained, prohibit the municipality from making its bonds payable at any place within the United States designated in said bonds. The Charter of the City and County of San Francisco provides in express terms that the Supervisors may fix the times and places at which payment of the principal or interest of bonds may be made. It may be that Section 16½ of the Constitution is not broad enough to authorize the deposit of municipal funds of the State of California and confines the right of municipalities to deposit funds in national banks or other banks organized under the laws of the State of California, as contemplated and provided in said Section 16½. It would be an unreasonable construction of section 13½ to say that it disables the Legislature from authorizing the municipality to keep the faith of the City and to make payment of its bonds at the agreed place of payment. To this end it is not absolutely necessary that the funds of the municipality shall be deposited here in New York, for instance the funds of the municipality can be deposited with an authorized bank in San Francisco. They can be advised that, in order to keep the contract of the City, \$50,000 or \$100,000 will be necessary to provide for the payment of the interest at the fiscal agency of San Francisco in the City and State of New York. The Treasurer can go to the depository in San Francisco, get a draft on the City of New York, and direct that the proceeds of this draft shall be used only to pay the interest or principal of the bonds which shall be presented for payment at the fiscal agency. This is our opinion and we think it is a sound one. The City of Los Angeles has issued bonds with the same provision, also the County of Sacramento. Such a provision, even if it should be held to be unauthorized, would not invalidate the bonds, and it is a clear advantage to the City to have such optional place of payment, since many investors do not like to be obliged, especially in distant states, to present bonds to the city treasurer. If the City sees no great advantage in keeping this clause you avoid of course any possible question by striking out the option to pay in the City of New York and leaving the bond and coupons stand payable at the office of the Treasurer of said City and County.

Although it is held by the Supreme Court of Illinois that a municipal corporation cannot lawfully make its obligations payable at any other place than at the office of the Treasurer, yet if thus made payable it does not affect

the validity of the bond. Enfield vs. Jordon, 119 U. S. 680.

Very truly yours,

DILLON & HUBBARD.

Report of Public Utilities Committee on Visit of Inspection to Hetch Hetchy Valley and Lake Eleanor.

To the Honorable the Board of Supervisors of the City and County of San Francisco.

GENTLEMEN:

Inasmuch as proceedings are pending in Board of Supervisors looking to the acquisition of reservoir sites in Hetch Hetchy Valley and at Lake Eleanor, for the purpose of conserving the flood waters of the Tuolumne River and certain of its tributaries, as a future source of water supply for the City and County of San Francisco, it was deemed prudent that an opportunity should be given to the individual members of this Board and representatives of the newspaper press of the city to view the localities named, to the end that judgments might be matured and conclusions reached concerning the value of such reservoirs to any scheme of water supply that might be undertaken by the City through its official representatives.

This Committee therefore made plans for this Board in its collective capacity, to visit Hetch Hetchy Valley and Lake Eleanor, and extended an invitation accordingly.

The invitation was accepted by Supervisors Paul Bancroft, James P. Booth, George A. Connolly, A. H. Giannini, Oscar Hocks, Thomas Jennings, James A. Johnston, M. Hall McAllister, Ralph McLean, Charles A. Murdock, Daniel C. Murphy, Henry Payot, Allan Pollok and Loring P. Rixford.

It is regretted, in view of the pleasant experiences and valuable information secured upon the trip, that the remaining members of the Board found it impossible to accept the invitation.

The following persons also accompanied the party, viz.:

SUPERVISORS' OFFICE.

John E. Behau.....Clerk
H. A. Mason.....Assistant

MAYOR'S OFFICE.

H. A. McKannay.....Secretary
W. B. Kollmeier.....Attorney

The entire party (with the exception of Supervisor Johnston, who was unavoidably detained, but who joined the party later) left San Francisco on the morning of Tuesday, August 18th, and reached El Portal, the terminus of the Yosemite Valley Railroad, at 6:30 in

the evening of the same day. The following day the party proceeded to Yosemite Valley, there remaining Wednesday afternoon and night. On Thursday at 7 a. m. stages conveyed the party to Crocker's, a distance of 26 miles, and after remaining at that point over night resumed the journey to Hog Ranch by stage, and at that point, securing horses and mules, the entire party mounted and with experiences more or less novel reached Hetch Hetchy Valley at 4 o'clock on Friday afternoon.

Saturday, under the guidance of City Engineer Marsden Manson, an inspection was made of the entire Valley, and particular attention was given to the proposed dam site at the lower end of the Valley.

The Valley is approximately three and one-half miles long, and has a width varying from one quarter to three-quarters of a mile wide. The walls of the Valley are extremely precipitous, and rise above the floor of the Valley to a height of between 2000 and 3000 feet. The mouth of the Valley is extremely narrow, and where the river enters the gorge below is less than 100 feet wide. Walls of solid granite rise precipitously from each side of the stream, making a natural dam site apparent to the eyes of the most inexperienced in matters of this kind.

Former City Engineer Grunsky, in 1901, gave the figures of the capacity of the Hetch Hetchy reservoirs with the varying altitude of the dam as follows:

Dam 50 feet high.. 4,670 million gals.
Dam 100 feet high..17,000 million gals.
Dam 150 feet high..35,000 million gals.
Dam 200 feet high..54,000 million gals.

Accurate surveys in the Valley now being made by the City and County, so far as the same have progressed, would indicate that the above is a conservative estimate, and it is probable that the ultimate capacity of the reservoir will be in the neighborhood of 75,000 million gallons.

The water shed tributary to Hetch Hetchy embraces an area of 452 square miles. This area is uninhabited, and practically uninhabitable, and being a portion of the National Park and Reserve, will doubtless remain so for all time to come. The water is of exceptional purity, the precipitation of the region being mainly in the form of snow.

The party was deeply impressed with the advantages possessed by this location as a source of a future water supply for San Francisco.

On Sunday, August 23rd, nearly the entire party made a trip to Lake Eleanor, a distance of 12 miles over an elevated ridge dividing the two water sheds, remaining at the lake over night, and inspecting the proposed reservoir site at this point the day following.

Here the party found a site admir-

ably adapted for reservoir purposes, second only to that of Hetch Hetchy.

Here can be stored surplus water to the amount of 39,000 million gallons, when developed to its full capacity. In order to obtain this quantity it will be necessary to divert the flow from the Cherry Creek water shed immediately to the north. The combined area of Lake Eleanor and Cherry Creek water sheds is 187 square miles.

The character of these water sheds and the quality of the water are essentially the same as those of Hetch Hetchy.

The party returned to Hetch Hetchy on Monday afternoon, remained over night at that point and on the day following returned by trail and stage road to Crockers; thence on Thursday to the Yosemite Valley, where the party divided, some returning to San Francisco and others delaying their homecoming for a few days.

The trip was devoid of accident or incident to mar a most pleasant and profitable experience. Owing to the care and foresight of Engineer Marsden Manson, who arranged all the details of the journey, the discomforts usually attending such an excursion were minimized to the smallest extent. We desire at this time to commend the painstaking care and unceasing vigilance exercised by Mr. Manson over the welfare of the party, to extend to him our thanks, and to acknowledge our appreciation of his services that secured to the party a vast fund of information with so little discomfort.

In conclusion, the Committee ventures to express as the unanimous sentiment of the party the opinion that the visitation of the localities named has served to confirm the reports heretofore made to this Board, viz.—that Hetch Hetchy Valley and Lake Eleanor offer admirable sites for reservoirs wherein to conserve an adequate supply of pure water for San Francisco and neighboring communities for many years to come.

That the time is opportune for the acquisition of the primary rights that will secure this source of supply;

That no time should be lost in securing these rights, which are extremely valuable, perhaps not so much for the immediate present as in the years to come.

Respectfully submitted,

A. H. GIANNINI,

D. C. MURPHY,

R. McLERAN.

Report of Advisory Committee to Hospital and Health Committee on Systems of Garbage Disposal.

San Francisco, Sept. 1, 1908.
To the Hospital and Health Committee of the Honorable Board of Supervisors of the City and County of San Francisco.

GENTLEMEN:

Your Advisory Committee on Garbage Disposal respectfully submits the following preliminary report covering the inspection recently made of garbage and refuse destructors at Seattle, Wash., Vancouver, B. C., and Portland, Ore.

The inspection was made by Messrs. T. B. Berry and L. M. King of your Advisory Committee, and Supervisors Henry Payot and A. H. Giannini of the Hospital and Health Committee, and a thorough examination was made of the methods of garbage disposal in the above named cities.

Inasmuch as two of the three members of your Hospital and Health Committee participated in the inspection, and are therefore fully acquainted with the methods observed, we shall not, in this report, attempt to give a detailed description of each of the destructors, but will give only a general description and the results observed with such recommendations as are deemed important at this time.

Portland.

The destructor at Portland is of the Engle type, requires fuel for burning, and is used for the destruction of wet garbage and dead animals only. About 30 tons per day are being consumed, and the destruction is not complete. The remainder, including ashes and dry refuse, is dumped on low-lying lands.

As this type of destructor is not suited to the conditions here, any further description is unnecessary.

Seattle.

The Seattle destructor is a Meldrum, with four cells, having a capacity of 67 tons per day of 24 hours. The forced draft is by a steam jet beneath the grates and a steam jet in the chimney. It is believed that this form of forced draft is not so easily controlled as would be a fan forced draft, but is useful under certain conditions. The noise from the exhaust steam is objectionable, but this can be obviated when more of the power is used.

The plant is equipped with a B. & W. water tube boiler, which was carrying 140 lbs. of steam during our several visits to the place. Two hundred horsepower is generated, which is at present used only for the steam forced draft and for running a small rock crusher used to crush the clinker for concrete. The greater portion of the power is going to waste, but will be utilized later.

The refuse is fed by hand into the furnace in front and the clinker is removed from the same doors.

The heat generated is intense, and entirely consumes all refuse except a few very refractory kinds which are destroyed in the combustion chamber. The high temperature secured at the plants in Seattle and Vancouver is the secret of the success of these destruc-

tors. The temperature in the combustion chamber of the Seattle destructor is from 1800 degrees to 2800 degrees F., and the average temperature is 2300 degrees. All smoke and gases from the grates must pass through this combustion chamber, where they mix and are burned before entering the chimney. As a temperature of 1800 degrees F. is sufficient to destroy all combustible gases it will be seen that there is little chance for any objectionable odors to escape from the chimney. Analyses of the gas at the base of the chimney show less than one-fourth of one per cent of burnable gas. From the combustion chamber the hot gases pass through the boiler tubes and thence pass through the regenerator tubes, which heat the air used for the forced draft to over 300 degrees F.

There was very little smoke escaping from the chimney, which is only 80 feet high, at the times we visited this plant, although it was in full operation, and most of that observed was apparently steam from the steam draft in the stack.

There were no odors about the plant except immediately over the garbage bin and this is obviated at the Vancouver plant by the air ducts for the fan draft system. The garbage is entirely consumed, the refuse therefrom consisting of fine ash and clinker.

The temperature in the combustion chamber at this plant is so high that even tin cans are successfully destroyed. The cans are left in the combustion chamber for two or three days where they are either melted or burned brittle so that they come out in fragments and are suitable for filling.

The plant at Seattle cost \$36,000 to construct. It is only a 67-ton plant and the building around the furnaces is only temporary.

The operating cost at present is 71 cents per ton. They expect to reduce this 20 cents per ton when certain changes are made in dumping the refuse and thereby reducing the labor. When the waste power is utilized and clinker is sold the cost can be still further reduced.

No fuel is used, as the garbage, which is mixed refuse similar to that in this city, burns itself.

Vancouver.

The destructor at Vancouver is a Heenan & Froude. It consists of only 3 cells and has rated capacity of 50 tons per day. It cost complete \$41,193. It has a permanent brick building and is also equipped with a steam disinfecting plant for the use of the Health Department in disinfecting clothing, etc.

The operating cost at this plant for a five-months' run was 56 cents per ton without deducting revenue re-

ceived, or 46 cents after deducting revenue. This plant differs from that at Seattle more particularly in the kind of forced draft, the method of firing and the system of ventilation.

Forced Draft.

The forced draft is by a centrifugal fan which forces air, heated to 500-600 degrees Fahrenheit, through the grates, quickly drying the garbage and causing it to burn rapidly with an intense heat.

Feed.

The furnaces consist of a single long grate but with separate front and back doors and separate closed ash pits. They are fed by hand from the back and clinkered from the front, which your Committee believes to be an advantage over single front hand feed.

Ventilation.

The ventilating system is such that all air inside the building and from the garbage bins is drawn into the air ducts and forced by the fan draft through the fire and burned so that no odors can escape from the building.

Your Committee considered that in these three respects the Vancouver plant was an improvement over that at Seattle, but that the Seattle plant was superior in its combustion chamber resulting in more complete combustion of gases. Both plants, however, consume their garbage completely and without any objectionable odors and may be considered as working successfully. The temperature at the Vancouver plant is from 1500 to 2000 degrees Fahrenheit, which they consider sufficiently high.

At this plant large dead animals, such as horses and cows, are destroyed in the combustion chamber in about three hours. This can also be done in the Seattle plant, but at present such animals are sent to reduction works for making fertilizer.

The heat from the combustion chamber is utilized in generating steam in a B. & W. boiler. This steam power is used to run the fan forced draft, and for operating the steam disinfecting plant. A 500 light electric light plant is under consideration.

The Vancouver plant is located in the business district, in a block facing one of the main business thoroughfares, and is only 200 feet distant from the street. It is surrounded on three sides by business houses.

Conclusions.

1. The examination of the operation of the plants at Seattle and Vancouver demonstrated to the satisfaction of your Committee that it would be entirely feasible to construct in San Francisco destructors that will entirely destroy the garbage and refuse of this city in a sanitary manner and with-

out causing any objectionable odors, so that such destructors can be operated in any part of the city without being a nuisance or giving cause for any legitimate complaints.

2. The power generated by such plants can be utilized to great advantage in San Francisco for pumping water for the high pressure reservoirs to be constructed on Twin Peaks, for pumping sewage in the new sewer system and for many other purposes.

3. Before it can be determined just what type of destructor will most satisfactorily destroy San Francisco's refuse it is necessary that some preliminary work be done to ascertain definitely the quantity and percentage of ash, wet garbage and dry refuse produced in different sections of the city. As the months of July, August and September produce more wet garbage than other times of the year, it is very necessary that this investigation be commenced as near September 1st as possible. The whole subject being of such importance it is further desirable, before coming to any definite conclusion, that a further investigation of existing successful destructors be made.

Recommendations.

Your Committee therefore makes the following preliminary recommendations:

1. That the City Engineer be authorized and provided with funds to employ inspectors, one or more of whom would be on duty at the Sanitary Reduction Works at all hours when refuse is being delivered there. Such inspectors to note the following:

- a—Number of loads hauled each day.
- b—Locality from which collected.
- c—Weight of each load.
- d—Estimated percentage of ashes, wet garbage and dry refuse in each load.

2. That the City Engineer be requested to have analyses made of the garbage and refuse of San Francisco to ascertain its composition and calorific value.

Respectfully submitted,

T. B. BERRY, Chairman.
L. M. KING,
G. T. BUELL,

BOND ISSUE, 1908.

Presentation of Proposals for the Purchase of Municipal Bonds, Issue of 1902.

Proposals to the number of 100 for the purchase of the following described municipal bonds, issue of 1908, were received, opened, read and on motion ordered referred to the Public Utilities Committee, to-wit:

1. Fire Protection Bonds to the amount of \$1,000,000, comprising 25 bonds of each year's maturity from 1916 to 1955, inclusive.

2. Sewer Bonds to the amount of \$800,000, comprising 20 bonds of each year's maturity from 1915 to 1954, inclusive.

3. School Bonds to the amount of \$1,200,000, comprising 48 bonds of each year's maturity from 1914 to 1938, inclusive.

4. Hospital Bonds to the amount of \$280,000, comprising 14 bonds of each year's maturity from 1913 to 1932, inclusive.

HEARINGS IN MATTER OF APPEALS FROM STREET ASSESSMENTS.

Crossing of Taylor and North Point Streets.

The matter of the appeal of certain property owners from the assessment warrant and diagram issued by the Board of Public Works for street improvement in the crossing of Taylor and North Point streets was taken up and on motion laid over two weeks.

Fair Oaks Street, between Twenty-fourth and Twenty-fifth Streets.

The matter of the appeal of certain property owners against the assessment warrant and diagram issued by the Board of Public Works for street improvement on Fair Oaks street, between Twenty-fourth and Twenty-fifth streets, was proceeded with.

Privilege of the Floor.

Whereupon, Mrs. L. McDermott, being granted the privilege of the floor, addressed the Board, stating that she had received no notice of the intention of the Board of Public Works to order street work and that the price charged was exorbitant.

C. Metzner, property owner, also stated that he had received no notification and that price charged was exorbitant, but that sooner than enter into litigation he would be willing to compromise the matter.

E. M. Leonard, contractor, also addressed the Board, stating that he was the only bidder, that he had bid fairly, had been awarded the contract and had performed the work. He stated further that whatever defects appeared in the work were caused by the installation of piping under the sidewalk after it had been laid.

Motion.

Supervisor Murdock moved that the matter be laid over two weeks.

So ordered.

UNFINISHED BUSINESS.

Final Passage.

The following matters, heretofore passed for printing, were taken up, finally passed by the following vote and numbered as follows, to-wit:

Authorizing Treasurer to Sell Unsold Street Bonds of 1904.

Bill No. 622, Ordinance No. 542 (New Series), entitled, "Reciting that certain bonds of the issue of 1904 remain unsold after having been advertised for sale, no bids therefor having been received, and directing that such unsold bonds be placed on sale at the office of the Treasurer of the City and County and fixing the price at which such bonds may be sold by the said Treasurer of said City and County."

Report of Joint Committee on Public Utilities and Judiciary on Petition of J. M. Agar, Requesting Attorney-General to Bring Suit to Determine Validity of Home Telephone Company's Franchise.

Supervisor Giannini presented the following:

To the Honorable the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

Your Joint Committee on Public Utilities and Judiciary to whom was referred the petition of J. M. Agar, requesting the Attorney-General to bring suit to determine the validity of the franchise of the Home Telephone Company, begs leave to report that said petition, together with the answer of the Home Telephone Company thereto, was considered at a meeting at which exhaustive arguments were presented by able attorneys for both sides.

Your Committee was unable to arrive at any conclusion in the matter, and begs leave to report said petition and the answer thereto to your Honorable Board without recommendation.

Respectfully submitted,

A. H. GIANNINI,

D. J. MURPHY,

R. McLERAN,

A. COMTE, JR.,

J. P. BOOTH,

GEORGE A. CONNOLLY,

Committee.

Motion.

Supervisor Giannini moved that M. I.

Sullivan be granted the privilege of the floor.

So ordered.

Privilege of the Floor

Whereupon, *M. I. Sullivan*, attorney for the petitioner *J. M. Agar*, addressed the Board, stating that the Home Telephone franchise had been obtained by fraud and corruption and should be annulled, that his clients were ready to make an initial bid of \$750,000 for the franchise if it was again offered for sale and would file a sufficient bond as a guarantee of good faith in the matter.

Hugo Asher also addressed the Board, stating that the moral phase of the question should not be lost sight of, and that the good name of the City required that all suspicion of taint in connection with the granting of the Home Telephone franchise should be removed.

William Thomas, representing the Home Telephone Company, addressed the Board, stating that the findings of Judge Kerrigan in the case of "*Asher v. City and County*" were that the price bid at the time of granting the franchise was fair and that there were no irregularities in the proceedings. He also quoted *Dillon* and *Hubbard* to the same effect.

PETITION DENIED.

Motion.

Supervisor *Pollok* moved that the petition of *J. M. Agar* requesting that the Board request the Attorney-General to begin proceedings for the annulment of the Home Telephone franchise be denied.

Motion carried by the following vote:

Report of Supervisor *Murdock* Relative to Changing Names of Certain Streets in the City and County.

Supervisor *Murdock* presented the following Report and Bill, which were read, and on his motion referred to the *Streets, Sewers and Parks Committee*: To the Honorable the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

As a Committee of one to whom was referred the communication of residents on *H* street, protesting against the changing of the name of that thoroughfare to *Balboa* avenue, I beg leave to report in favor of the protest, and improve the opportunity to propose the changing of the names of all streets in the City now designated by letters of the alphabet. It argues poverty of imagination to so name the streets of a

great city, and San Francisco enjoys the distinction of maintaining two sets, one differentiated from the other by the addition of the word "South."

In submitting other names, I retain the initial in each instance, so that the practical advantage is not lost. The streets near the Park designated by letters are *A*, *B* and *C* on the north, and *H* to *U* inclusive on the south. The Parkside property covers the seven blocks from *Q* to *W*, inclusive, and after a prize contest they asked that certain musical Spanish names be substituted for the lettered streets. No action has been taken, but in proposing names for these streets I accept their selections and complete the list with names of like character, mainly historical, and so far as possible embracing the members of the expeditions of *Portola* and *Anza*. Many of these names have been heretofore appropriated, but it seems fitting that all that can be used within the limitations of this alphabetical scheme should be perpetuated.

For the three streets north of the Park I propose the names of *Anza*, *Balboa* and *Cabrillo*. Lt.-Col. *Bautista de Anza* is the little known father of San Francisco. He commanded the expedition that established the *Presidio* and the *Mission*, and is described as a brave and gallant soldier, a wise, beneficent and able commander.

It is to be hoped that the name of the discoverer of the Pacific Ocean may be allowed to rest in peace in his company, with the great navigator *Cabrillo* as the third of the group.

The original "*D*" street has been taken as a continuation of *Fulton*, and the Park wiped out *E*, *F* and *G*.

H street on the southern boundary is deserving of a distinctive name, and to my mind affords an opportunity to commemorate the name of a man who deserves more from the City than he has ever received.

Horace Hawes began his public service as Prefect in 1849. His career covered a long period, and in practical benefits was of incalculable value. The *Hawes Consolidation Act* was his crowning achievement. He was a philanthropist as well as a publicist, and deserves to have his name commemorated permanently. I propose that *H* street be called *Hawes Highway*.

For the remaining streets with initial preserved I propose the following names: *Ignacio*, *Jiminez*, *Karabel*, *Linares*, *Moraga*, *Noriega*, *Ortega*, *Pico*, *Quintana*, *Rivera*, *Santiago*, *Taraval*, *Ulca*, *Vicente*, *Wawona*, and *Xavier*.

The names include the discoverers of Lower California and the Golden Gate, the Lieutenant of Col. *Anza* and several of the members of *Portola's* and *Anza's* expedition.

For the set of streets in South San Francisco I propose the names of a number of men who have lived honor-

ably or served helpfully in this community. The selections have had in view brief names, easily pronounced, that will be serviceable in a business community.

In place of A street South, etc., I submit the following: Alvord, Boalt, Coleman, Dana, Earl, Field, Gray, Hastings, Irving, Judah, Keith, Leese, Mendell, Newhall, Phelps, Quint, Rankin, Selby, Toland and Upton.

Unless the Board is entirely satisfied with the desirability of making these changes, I would suggest the reference of this report to the Street Committee.

Very respectfully submitted,

CHAS. A. MURDOCK.

Changing Names of Certain Streets in the City and County.

Bill No. 645, Ordinance No. — (New Series), entitled, "Changing the names of streets in the Richmond and Sunset Districts now designated by letters of the alphabet."

RELATING TO ACQUISITION OF WATER SUPPLY.

Communication from Spring Valley Water Company.

The following communication from the Spring Valley Water Company, in response to Ordinance No. 505 (New Series) of the Board of Supervisors, soliciting an offer for the sale of the existing water supply, was received, read and referred to the *Public Utilities Committee*:

Executive Department, Spring Valley Water Company, 375 Sutter street, San Francisco, Cal., September 11th, 1908.

To the Honorable the Board of Supervisors of the City and County of San Francisco.

Gentlemen: We beg to acknowledge receipt of your Resolution No. 505, New Series, requesting that this company submit a price at which it will sell its property to the municipality.

Before this action was taken, you passed a resolution declaring that the Hetch Hetchy supply was a desirable one for San Francisco, and you declined to include the plant of this company in the property which you declared it desirable that the City should acquire.

The Charter provides that, before you acquire a public utility, you shall solicit offers of sale of any existing utility. We regard your resolution requesting this company to submit a price as a mere formal compliance with this Charter requirement.

Assuming that the resolution declaring in favor of the desirability of the Hetch Hetchy supply—in which you declined to include the property of this company—was passed by you after a full investigation, it indicates that the municipality does not want to buy the property of this company at its fair value. If, however, you do really wish to acquire its property, it is unfortunate

that your action has necessarily tended to depreciate and minimize its value in the public mind. Under these circumstances, the company cannot be blamed for feeling satisfied that any negotiation looking to the sale of the property to the City would be fruitless and for believing further that, until your attitude undergoes a change, the electors will refuse to ratify the purchase at any price which the stockholders will be willing to accept.

Conflicting statements have been made regarding the water development of which the properties of the company are capable. This is a question that vitally affects value, and, therefore, any proposition of sale that may be made to the municipality will be in such shape as to remove any question of fact concerning this vital issue, and to that end will fix a minimum daily delivery.

Furthermore, it has not been possible in the time fixed by your resolution to arrive at a price at which the company will guarantee a stated development from the properties now owned by it, as, for instance, the delivery of one hundred and ten million gallons or more daily (equal to more than three times the present daily consumption).

It may be of interest to you to know that the company is negotiating for, and feels warranted in stating, that it will obtain an option on a Sierra water supply, and also an option for the delivery of more than two hundred and fifty million gallons daily from that supply into its system at Pleasanton.

This Sierra supply is supported by a perfect and unquestioned title.

Should the company make an offer, it will embrace an option to the City to include this Sierra supply, in addition to the existing properties of the Spring Valley Water Company.

Respectfully,

THE BOARD OF DIRECTORS OF THE SPRING VALLEY WATER COMPANY.

By J. M. DUKE, Secretary.

Lake Eleanor Lands.

The following communications relative to the acquisition of lands in Lake Eleanor reservoir site were received, read and ordered referred to the *Public Utilities Committee*:

Communications from Wm. Ham. Hall Relative to Submission of Offers to Sell Lands at Lake Eleanor.

September 5th, 1908.

The Public Utilities Committee of the Honorable Board of Supervisors, City and County of San Francisco, California.

Gentlemen:

The communication sent me in your behalf by the Clerk of your Honorable Board, under date of the 3rd inst., was yesterday received. I am therein asked

to submit to you "an offer in writing for the sale of all of the lands owned or controlled by me" "in the Lake Eleanor watershed," to the City of San Francisco.

The Cherry-Eleanor-Tuolumne properties, represented by me, are, at present, owned in San Francisco, but they are under a form of sales contract such that the actual control is in New York. The response to your request to sell part of them will have to come from New York. The communication from the City Clerk in your behalf has been forwarded there. An answer even by telegraph cannot be had until the last of next week. It will be communicated to you as soon as it comes.

Meanwhile, I may say that while the properties are not, in whole or in part, in the market for sale, and while no one interested desires to sell, I have been informed that, to arrive promptly at an adjustment of interests with the City of San Francisco, a price will be named for the Lake Eleanor portions of them which I should think would be regarded as entirely reasonable.

Respectfully yours,

WM. HAM. HALL.

Communication from Wm. Ham. Hall
with Offer to Sell Lands at Lake
Eleanor.

San Francisco, California,

September 11th, 1908.

The Public Utilities Committee of the
Honorable Board of Supervisors, City
and County of San Francisco, California.

Gentlemen:

I respond to the communication sent me in your behalf by the Clerk of your Honorable Board, under date of the 3rd inst., as follows: I was therein asked to submit to you "an offer in writing for the sale of all of the lands owned or controlled by me" in the Lake Eleanor watershed, to the City of San Francisco.

Although as yet actually owned here, the control of these properties which alone can respond to your request is now in New York, where they are held under a form of sales contract and where it is expected the title will soon pass.

I herein speak for and at the request of the New York controlling parties. For convenience and brevity I use the plural personal pronoun, as though the New York parties already had title and had wholly taken the place of the owners here and as though I were one of them. You will understand, however, the exact situation as above set out and that I am merely serving the New York holders as a friendly agent.

The properties and rights which the City would have to acquire from us in order to utilize the Lake Eleanor reservoir site constitute a very important part of the holdings on which is based

a great project to conserve and fully utilize the waters of the Cherry-Eleanor branch of the Tuolumne River.

These waters are not tributary to the Hetch Hetchy Valley reservoir site, and our complete utilization of them and of the Lake Eleanor site in which to conserve part of them would not in the least interfere with the City's full utilization of the Hetch Hetchy site and of the waters stored therein.

But the City's utilization of the Lake Eleanor site, if that involves our being wholly deprived of the utilization of Eleanor Creek waters for every purpose would very seriously cut into our enterprise.

It is unnecessary here to describe that enterprise further than to say that it contemplates the utilization of about nine reservoir sites, of which the Lake Eleanor is one of the two most important, together with the employment of waters under at least twelve water rights acquired and held under State law.

The properties, rights and interests which the City would have to acquire from us in order to utilize the Lake Eleanor reservoir site are:

I. Patented lands in Lake Eleanor Valley—919.85 acres.

II. A reservoir right to the Lake Eleanor basin between the low water and the high water planes of the lake, which right antedates all other reservoir rights or water rights here located, and antedates the formation of the Yosemite National Park Forest Reservation.

III. The flood-water right under State law necessary to the utilization of the Lake Eleanor site as a reservoir.

IV. The other rights which we hold and with the profitable enjoyment of which the unreserved transfer of the above holdings to the City would interfere and bring about conflict.

V. The right to conserve and use the flood waters of Eleanor Creek for the generation of power;

VI. The right to use the waters constituting the ordinary flow of the Eleanor Creek for generation of power;

VII. The right to correlate the utilization of Eleanor Creek waters with that of Cherry Creek waters, which, as every person experienced in such matters knows, is valuable beyond the value of the proportionate quantity of water merely.

I enumerate these rights for the purpose of bringing clearly to your minds the fact that, in this matter, we are not simply the owners of some lands in the Lake Eleanor watershed, which it may be convenient for the City to acquire, but in fact are conducting a large enterprise of which the Lake Eleanor storage reservoir, with the other rights and privileges necessary or incident to its building and use, form an important part.

The sale, merely, of our lands as such and without regard to their relation to our enterprise would be one thing, but this relation constitutes quite another thing, and, as said, we have the other properties and rights which the City would necessarily require as much as, and in addition to, the Eleanor Valley lands, for the Lake Eleanor reservoir purpose. Our enterprise is as legitimate as that of the City, and was initiated without any idea of a conflict with the City. We have already laid out a large amount of money, besides some years of time and skilled management upon it. We are going forward with it.

The Secretary of the Interior has issued a permit to the City for the use of the Government lands in the reservoir site. When this was determined upon by the Honorable Secretary, we were the only applicants of record for this privilege. We owned more than half of the lands within the site to be flooded, and we owned the State water right necessary for utilization of the site. The Secretary of the Interior did not and could not grant any water right or water storage privilege. Under very many rulings of the Department of the Interior and decisions of the Supreme Court of the United States those rights can alone be acquired under State law. The water claim which had been filed by Mr. Phelan in the City's interest in 1901 had long since lapsed under that law.

The matter now stands:

That the City, holding a revokable permit, merely, for the use of the Government's minority land ownership in the site, desires to buy our majority ownership for which we have perfect and old titles, and the City must also buy or compensate us for our other rights necessarily taken or diminished in usefulness.

Those who control in this matter, at the present time, are not inclined to speculate in this matter at the City's expense, neither are they inclined to obstruct the City in its move to control a water-supplying source. The owners have a legitimate enterprise of which it is alleged to be necessary that the City deprive them of a very material part. They have already been grievously hampered and put to much unnecessary expense and actual loss, to say nothing of loss of prospective profit, by the contention over that which under the law clearly was theirs and on which they alone have shown good faith by the prosecution of work at great expense.

If they have that which the City must have, this fact may be fortunate for the City. If they have brought together under one ownership a lot of properties theretofore in many hands, and perfected rights but for them not established, or at best inchoate, so that

the City now has but one ownership or control to deal with in this matter, it may be well for the City that such is the case.

The City has agreed to buy and pay \$165,800.00 for lands in Hetch Hetchy Valley which bear a decidedly less important relation to the area of that reservoir site than Lake Eleanor patented lands bear to the area of this reservoir site. Presumably, the City authorities were and are satisfied with the Hetch Hetchy land price. This sum is to be paid for lands alone, which have no value to their present owners other than as lands, merely. By the terms of the permit of the Secretary of the Interior, the City cannot use those lands for such a long time in the future, that interest, not compounded, will more than double their cost to the City.

The Secretary of the Interior has imposed upon the City a condition that it use the Lake Eleanor reservoir within the next several years to come—making necessary the present acquirement of our rights and properties. Under these conditions, and by comparison with the price agreed to be paid for the Hetch Hetchy lands, it would seem that our Lake Eleanor lands alone are worth to the City at least double \$165,800.00.

But on top of this valuation we would have to give up, with the lands:

II. Our old and established reservoir right to the lake between the low and high water planes, and

III. Our water-right necessary to the use of the reservoir to any higher plane;

And in so doing must look out for and preserve to ourselves the usefulness and value of—

IV. Our power utilization of Eleanor Lake waters;

V. Our right to use the Eleanor Creek waters for power;

VI. Our project as a whole and as affected by the lopping off of one of its principal members.

If these latter are to be materially cut into, our price might well be far more than the double of \$165,800.00.

As it is: Reserving to ourselves the right to use Eleanor Creek waters for power purposes, whether stored or not by the City, from the location of the Eleanor reservoir dam down to where the City proposes to divert them from the river into its canal, below the confluence of Jawbone Creek with the Tuolumne River, I am authorized to name as the present price at which the Lake Eleanor lands and rights can be had, the sum of \$200,000.00.

This figure is based on the City's price for the Hetch Hetchy lands, without our taking that advantage which circumstances would justify us in taking, and on the fact that we have spent and will have to spend, before the City would be prepared to take part in the

construction, about \$70,000, for roads to make the localities accessible for construction and operative purposes, which expense the City would have to meet wholly itself were it not for our enterprise.

\$165,800	The City's price for Hetch Hetchy lands.
35,000	Half the cost of roads necessary to make the Eleanor lands available;
<hr/> \$200,800	Total.
\$200,000	The price for our Eleanor reservoir lands.

Our water and other rights necessary to operate the Lake Eleanor reservoir we are practically proposing to convey to the City, for its purposes, free of cost, on condition that we may freely use the water for power purposes without detriment to or abridgement of the City's use of them for all purposes.

The reservation which we make in the above would deprive the City of nothing which its plans have contemplated or which by changing those plans it could make practically useful to it. We stand ready to positively demonstrate this.

The right to use the Eleanor waters for power within the space wherein we reserve that right is a separate and valuable property to us, not necessary to the City's use and with which we are not willing to part.

Our utilization of that right in connection with our other waters would not, in the least, interfere with the City's complete control over its reservoir and the storage and liberation of waters therefrom to suit its purposes.

The Sierra Ditch and Water Company's enterprise is primarily that of water storage and supply for irrigation, and, incidentally, the water will, of course, be used for the creation of power.

Even though it may be necessary that the City deprive us of the Eleanor Creek reservoir waters for our ultimate main purpose of irrigation, it is not necessary that we be deprived of the incidental use of them, or of the current flow of the creek waters for power, which, as I have said, is a separate property.

We are aware that the Secretary of the Interior has put in the permit to the City a stipulation that "no power plant shall be interposed in the line of the flow" of the City's water supply, except for the use of the City or of the Turlock and Modesto Irrigation districts or of the land owners thereof, and that the City shall sell surplus power at cost to said districts and to the owners of lands within them. Presumably this would mean, in the line of flow not only where the waters were being carried in the City's conduit, but

throughout the miles of canyon where the City had no conduit and the waters would be tumbling over natural falls from the reservoir dam to the diverting dam.

We appreciate the Honorable Secretary's being prompted by desire to conserve public interests in this matter. We, however, do not admit that some of our rights must be destroyed or uselessly taken and paid for by the City in so doing.

We cannot conceive that the Honorable Secretary in the haste and distraction of the time when this permit was issued, clearly saw the effect of this provision.

We are not willing to admit that the Turlock and Modesto Irrigation Districts or the land owners therein can be made the beneficiaries, in water power, of a permit issued to the City of San Francisco for the purposes of a municipal water supply.

We do not see how it is possible for the City of San Francisco to undertake to generate and sell power at cost, or any other price, to the Irrigation Districts or their land owners, especially under the guise of obtaining a supply of water for municipal purposes.

We explain that the practical effect of this provision interpreted at what it seems to mean, will benefit neither the City nor the Districts, will uselessly put a burden on the City, harmfully cut into our legitimate enterprise, and indefinitely tie up, unused, a large amount of water power. We stand ready to demonstrate this.

We assert that there is absolutely no necessity for such an arrangement, that there are ample power rights yet unavailed of on the Tuolumne River open to the Irrigation Districts to claim, and, at least equally with those which we hold, subject to the Honorable Secretary's aid to get for the Districts.

We believe that this whole matter can be adjusted before the Honorable Secretary, to the benefit of the Irrigation Districts, without forcing us to litigation or forcing the City to buy at the instance of the District that which the City does not need and cannot advantageously use.

We will sell, practically at the City's own figures, that which the City needs and which might legitimately form a part of its water supply system.

We wish to keep, develop and use that which the City does not need and that which could not legitimately or economically form a part of its proposed water supply works.

Finally, I am requested to state:

That this offer is made only because of your official demand for response to the City's desire to know whether or not the properties in question can be bought, and on what terms;

That it is, for the present, conditional upon completion of the purchase by

the New York parties, which is in process and probable but not yet an accomplished fact;

That no option can be given until the titles have been examined and accepted by attorneys for the New York parties, which it is believed will yet occupy several weeks;

That if the titles are then approved an option will be given the City until the fifteenth day of February, 1909.

In closing I am to say that we are not offering these properties for sale and do not want to sell them; that we seek to fully and promptly develop the water, irrigation and power resources which we now control; that especially we must avoid having them or any of them tied up unused indefinitely; that in this connection we note that the Secretary of the Interior has stipulated in his permit to the City that the Lake Eleanor reservoir is to be constructed within a certain time, in order to make the permit operative; and that we in this offer act upon the presumption that the Honorable Secretary's stipulation in this regard will be complied with.

Very respectfully yours,

WM. HAM. HALL.

The actual figures representing areas of and ownership of lands in the reservoir sites are quite nearly as follows:

Communication from Wm. Ham. Hall with Statement Relative to Offer to Sell Lands at Lake Eleanor.

San Francisco, Calif., Sept. 12, 1908.

Dr. A. H. Giannini, Chairman Public Utilities Committee, Honorable Board of Supervisors.

Dear Sir:

Noticing that in giving my communication of yesterday to the press you have commented somewhat unfavorably on our offer, I am sending you this brief synopsis of that offer, with the intention of asking the press to print it

in full, so that both sides of this matter may be fairly before the public. I do this in the public interest.

We own more than half of the land and control more than half of the lake constituting the Lake Eleanor reservoir site; we control the lake itself for reservoir purposes; and we own the State water right necessary to utilize the reservoir space on top of the lake.

The City has merely a revokable permit to use the Government's minority part of the lands to be flooded in the reservoir site.

We will sell to the City our lands and reservoir right for \$200,000; this sum being based on the \$165,800 which the City is paying for Hetch Hetchy lands, plus \$35,000—half the cost of a road necessary to make the place practically available, and which road we are building.

We reserve our separate right to use the waters of Eleanor Creek for power generation above the point heretofore selected by the City for diversion into its canal.

This withholds from the City nothing which its plans whereon it appealed to the Secretary of the Interior contemplated.

We decline to sell to the City that which does not form a part of its water supply project and which cannot economically be made part thereof.

We will aid in the solution of this matter for the benefit of the City's water supply aspirations, and we will point out how the Irrigation Districts may get power for themselves at cost.

But we decline to be a party to saddling upon the City the necessity of buying out our separate power proposition and sell the Districts power at cost, as the permit of the Secretary of the Interior stipulates shall be done.

And we decline to put into a sale to the City for water supply purposes, a distinct power generation proposition, absolutely unnecessary for the City's water supply works.

We have a great enterprise which we are carrying out. The City can have all of it which is necessary for its water supply project, namely, the Lake Eleanor lands and storage rights, at its own figure for the lands alone, and we practically give the City our lake water storage right, reserving only the separate right of using the water for power where the City project has never contemplated the creation of power, and where the City, controlling the Eleanor waters only, could not economically and practically make power for City use.

The City would own and operate the Lake Eleanor reservoir, and could make ample power for the delivery of and distribution of its waters in the City without buying from us and paying for a power project.

We have thought we were in this matter making a very liberal, even generous, offer to the City, one which

is in a very valuable part, a gift; and we hold only that which is a separate property and which we are advised could not be condemned for the water supply purpose, seeing that it is not necessary for that purpose and has never been incorporated into plans for that purpose.

The public interest demands that this matter be understood on its merits and the facts. If the public and the press are to be the judges, the offer we have made should be published in full.

Respectfully yours,

WM. HAM. HALL.

BOND ISSUE, 1908.

Report of Public Utilities Committee on Proposals to Purchase Bonds.

To the Honorable the Board of Supervisors of the City and County of San Francisco—Gentlemen: Your Committee on Public Utilities to whom was referred the several bids submitted to the Board on September 8, 1908, for the purchase of Fire Protection, Sewer, School and Hospital bonds, issue of July 1, 1908, respectfully reports thereon as follows:

That we considered the various bids submitted and heard all objections raised affecting an award for the sale of said bonds.

That we recommend that the bid of E. H. Rollins & Sons and N. W. Harris & Co. for the purchase of all bonds offered for sale for the sum of \$3,514,520, be accepted, the same being \$9615 in excess of any other bid or combination of bids submitted.

We recommend the apportionment of said sum of \$3,514,520 to the credit of the following accounts of the Public Building Fund, to wit:

Fire Protection Account.....	\$1,080,344

Communication from Dillon and Hubbard Confirming Telegram Recommending Awarding of Municipal Bonds.

John E. Behan, Esq., Clerk Board of Supervisors, San Francisco, California—Dear Sir: We write to confirm a telegram which we sent you today as follows:

"We are informed that Harris and Rollins bid for three million two hundred eighty thousand dollars San Fran-

cisco bonds on printed blank furnished by city without alteration or erasure, that in each blank space after word 'for' the word 'all' was inserted but not amount of bid for each lot of bonds that in blank space under 'hospital bonds' they inserted 'total three million two eighty thousand dollars' and after last phrase 'the sum of' they inserted 'total amount of bid three million five hundred fourteen thousand five hundred twenty dollars,' and that this bid was higher than any other single bid or any combination of single bids by over nine thousand dollars. We are informed that lower bidders seek to prevent award of bonds to Harris and Rollins on ground that failure to insert amount of bid in each blank space constitutes defect so serious as to make bid illegal and not an enforceable contract in favor of city. In our opinion bid of Harris and Rollins in form as stated is legally enforceable contract against them and as statute authorizes the sale of the whole or any part of the bonds and requires bonds to be sold to highest bidder for not less than par it is duty of supervisors on the facts above stated to award bonds to said Harris and Rollins and reject all other bids. This telegram sent on request of Harris and Rollins."

Very truly yours,

DILON & HUBBARD.

Whereupon, Supervisor Giannini presented the following Resolution:

Accepting Bid of E. H. Rollins and Sons and N. H. Harris and Company for Municipal Bonds.

Whereas, Pursuant to Resolution No. 2512 (New Series), the Board of Supervisors did on the 8th day of September, 1908, receive, open and consider sealed proposals for the purchase of certain bonds of the City and County described as follows:

Fire protection bonds to the amount of \$1,000,000, comprising 25 bonds of each year's maturity from 1916 to 1955, inclusive.

Sewer bonds to the amount of \$800,000, comprising 20 bonds of each year's maturity from 1915 to 1954, inclusive.

School bonds to the amount of \$1,200,000, comprising 48 bonds of each year's maturity from 1914 to 1938, inclusive.

Hospital bonds to the amount of \$280,000, comprising 14 bonds of each year's maturity from 1913 to 1932, inclusive, and

Whereas, A bid from E. H. Rollins & Sons and N. W. Harris & Co. was on said day received for the purchase of all of said bonds offered for sale at a price therefor of \$3,514,520; now therefore

Resolved, That the said bid of E. H. Rollins & Sons and N. W. Harris & Co. (the same being the highest and best bid offered for said bonds) be and the same is hereby accepted, and the said described bonds are hereby struck off and sold to said E. H. Rollins &

Sons and N. W. Harris & Co., for said sum of \$3,514,520 in accordance with the terms of said Resolution No. 2512 (New Series) the notice of sale given in pursuance to said Resolution and the bid submitted therefor; that all other bids be rejected and the Clerk of this Board is directed to return all checks and deposits to unsuccessful bidders.

Motion.

Supervisor Giannini moved that W. S. Goodfellow be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon, W. S. Goodfellow, representing N. S. Halsey & Company, addressed the Board, stating that the lumping of bonds and selling them as a whole was not in accordance with the notice of sale and was in conflict with the State Constitution.

S. Ehrman, representing Wells Fargo Nevada National Bank, protested against the award of contract, alleging that blanket bids were not allowable under the terms of the bidding as laid down in the notice of sale.

W. H. Chickering, attorney representing Rollins-Harris interests, also addressed the Board in reply to the argument of W. S. Goodfellow, and stated that, if necessary, his clients would not hesitate to defend their rights in the matter.

Motion.

Supervisor Connolly moved that the Resolution be laid over one week.

E. H. ROLLINS & SONS.

To the Streets, Sewers and Parks Committee.

Communication—From the Board of Public Works, recommending that grades be changed and established at certain points and elevations on Folsom street and on Sutter street.

Also, recommending the expediency of performing the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

That granite curbs, artificial stone sidewalks and a bituminous rock pavement be constructed in the crossing of Clement street and Tenth avenue.

That granite curbs, artificial stone sidewalks and a bituminous rock pavement be constructed in the crossing of "L" street and Tenth avenue, and that brick cesspools and ironstone pipe culverts be constructed in the northwest-

erly, southwesterly and southeasterly angular corners of said crossing.

That granite curbs and a bituminous rock pavement be constructed on Greenwich street, between Fillmore and Steiner streets.

That redwood curbs, rock gutterways and a broken rock pavement be constructed in Thirteenth avenue, between "I" and "J" streets.

That Fourteenth avenue, from the southerly line of "J" street to the southerly line of "K" street be graded to official line and grade.

Also, recommending the ordering of the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

That granite curbs and artificial stone sidewalks be constructed on the westerly side of Church street, including the angular corners of the inter-

sections of Hancock street; also that artificial stone sidewalks be constructed on the southwesterly angular corner of the crossing of Church and Eighteenth streets.

That artificial stone sidewalks be constructed on Twenty-fourth street, between Diamond and Douglass streets, and on the northwesterly angular corner of the crossing of Twenty-fourth and Diamond streets.

That 8, 12 and 15 inch ironstone pipe sewers with appurtenances be constructed in the crossing of Hoffman avenue and Twenty-fifth street.

That a 12-inch ironstone pipe sewer with appurtenances be constructed in Santa Marina street, between Prospect avenue and Gladys street; that 8 and 12 inch ironstone pipe sewers with appurtenances be constructed in the crossing of Santa Marina street and Gladys street, and that 12-inch ironstone pipe sewer with appurtenances be constructed in Santa Marina street, between Gladys and Mission streets, and in the crossing of Santa Marina and Mission streets.

That granite curbs and artificial stone sidewalks be constructed on Eighteenth street, between Potrero avenue and Hampshire street, and on the four angular corners of the crossing of Eighteenth and Hampshire streets.

That Green street, between Baker and Lyon streets, be graded to official line and grade.

That artificial stone sidewalks be constructed on Filbert street, between Laguna and Octavia streets.

That an 8-inch ironstone pipe sewer with appurtenances be constructed in the center line of Twenty-eighth avenue from a point 25 feet northerly from the northerly line of "A" street to the southerly line of Point Lobos avenue.

That an 8-inch ironstone pipe sewer with appurtenances be constructed in Pixley avenue from a point 25 feet westerly from Webster street to the easterly line of Fillmore street.

That a 15-inch ironstone pipe sewer with appurtenances be constructed in North Point street, between Taylor and Mason streets, and that a 15-inch ironstone pipe sewer be constructed in the crossing of North Point and Mason streets.

That the intersection of Fourth avenue and "K" street be improved by grading to official line and grade and by the construction of a 12-inch ironstone pipe sewer with appurtenances in said intersection.

That Fourth avenue, between "K" street and Parnassus avenue be improved by grading to official line and grade, and by the construction of an 8-inch ironstone pipe sewer with appurtenances therein, and that 8 and 18 inch ironstone pipe sewers, with appurtenances be constructed in the crossing

of Fourth avenue and Parnassus avenue; and that brick cesspools and ironstone pipe culverts be constructed in the northeasterly, southeasterly and southwesterly corners of said crossing.

That a 12-inch ironstone pipe sewer be constructed in Lake street, between Twenty-fourth and Twenty-fifth avenues, and in the crossing of Lake street and Twenty-fourth avenue.

Also, recommending that sidewalks widths on Twentieth avenue, from "H" street to its southerly termination be fixed at 12 feet.

Also, requesting that the Board of Supervisors direct the City Engineer to make a re-survey of blocks and streets in 50 Vara, 100 Vara, Mission and University Mound Districts.

Also, recommending the expediency of performing the following work, the expense thereof to be paid out of the proceeds of the sale of Sewer Bonds, issue of July 1, 1908, at the estimated cost hereinafter specified, to wit:

For the construction of a reinforced concrete sewer in Fourteenth street from the westerly line of Howard street to the westerly line of Harrison street, together with lateral sewers in adjacent streets....\$53,000

For the construction of the northerly portion of the East Potrero intercepting sewer ..130,000

For the construction of a reinforced concrete sewer and appurtenances on Fulton and Devisadero streets, from Masonic avenue to Grove street.. 32,000

Also, with weekly statement of expenses of street repair department for the week ending September 12, 1908.

Also, transmitting petition of San Bruno Avenue Improvement Club, that sidewalks widths in San Bruno avenue, from Army street to the County Line, be reduced to 8 feet and alignment corrected.

Also, transmitting communication from the Potrero Commercial and Manufacturers' Association, relative to grading City property on Twentieth and Kentucky streets.

Communication—From the Sheriff, advising as to work performed by prisoners on Ocean avenue, and stating that he will furnish monthly report on said work hereafter.

REPORT OF JOHN PETTEE ON TAX ON GROSS RECEIPTS OF UNITED RAILROADS, 1907.

San Francisco, Aug. 29, 1908.

To the Finance Committee of the Honorable, the Board of Supervisors—Gentlemen:

I have examined the books of receipts of the United Railroads for the year 1907 to ascertain the gross earnings of routes taxable in part or as a whole in which examination I have been the recipient of every facility and courtesy from Mr. Wilcutt and Mr. Will, and beg leave to submit the following report:

I find the additions of such books to be

correct and in Schedule No. 1 I hand you a general accounting of same monthly for each route.

All transfers have been ignored in this investigation and I have observed an invariable rule (as last year) that tax should be paid on that portion of gross receipts that the taxable portion of the road bears to the total length of the road.

The difference between the United Railroads statement and the result of my investigation is shown in Schedule No. 1 and briefly stated is as follows:

Amount of tax as per Schedule No. 1.....	\$25,728.00
“ “ “ “ statement of United Railroads.....	22,805.53
Excess as per Schedule No. 1.....	\$ 2,922.47

The United Railroads in its statement for the year 1907 includes an amount for observation cars. In 1906 statement, no amount was included for these cars.

By Resolution No. 4952 there is allowed the United Railroads for gross receipts of North Beach and Mission Railroad lines for year 1888 \$306,180.10, but as the gross receipts of such lines for the year 1907 amounted to only \$264,878.12 according to United Railroads statement and after correcting an error in Third and Kearny street of \$17,569, the remainder only is

deducted in Schedule No. 1, viz.: \$247,309.12.

I note two errors in mileage for year 1906 which make a considerable deduction in amount for which the United Railroads are liable. If requested I will make a full examination and report on this matter. The railroad man and myself agreed on the figures, but I find they are not accurate.

The differences between the United Railroads statement and the result of my investigation are as follows:

HEARING IN MATTER OF APPEALS FROM STREET ASSESSMENTS.

Crossing of Taylor and North Point
Streets.

Recommended.

The matter of the appeal of certain property owners from the assessment, warrant and diagram issued, by the Board of Public Works for construction of sewer in the crossing of Taylor and North Point streets was taken up, and on motion ordered *recommended to the Streets, Sewers and Parks Committee.*

Fair Oaks Street, Between Twenty-Fourth
and Twenty-fifth Streets.

The matter of the appeal of certain property owners from the assessment, warrant and diagram issued by the Board of Public Works for construction of artificial stone sidewalks on Fair Oaks street, between Twenty-fourth and Twenty-fifth streets, laid over from a prior meeting, was taken up.

Motion.

Supervisor Connolly moved that the privilege of the floor be granted to interested parties.

So ordered.

Privilege of the Floor.

Whereupon, *R. L. Tiernan*, property owner, addressed the Board, stating that the poor character of the work was manifest from the cracked condition of the sidewalks and that the contract price of 21 cents was exorbitant.

Wm. Metzner also stated that the cracking of the sidewalk could not be attributed to installation of service pipe after sidewalk was laid, as his sidewalk is cracked where there is no service connection.

E. M. Leonard, contractor, also addressed the Board, stating that the work was done according to specifications, but that he would repair any damage that is properly chargeable to poor materials or workmanship.

Motion.

Supervisor Murdock moved that the appeal in so far as it pertained to the character of the work be referred to the Street Committee, and that the question of jurisdiction be referred to the Judiciary Committee.

Motion.

Supervisor Bancroft moved that the matter be considered in Joint Committee of Streets and Judiciary.

Motion carried.

Reconsideration.

Supervisor Comte moved that action on above motion be rescinded.

So ordered.

Amendment.

Whereupon, Supervisor Murdock moved to amend his motion by providing that the question of the character of the work be referred to the Streets

Committee and the question of jurisdiction to the City Attorney.

Amendment carried.

UNFINISHED BUSINESS.

Final Passage.

On motion of Supervisor Broderick: Resolution No. — (New Series), Granting Phoenix Rubber Co. permission, revocable at will of the Board of Supervisors, to erect and maintain an engine and boiler of ten horsepower in

premises situate 168 First street, the same to be used for vulcanizing.

Boiler Permit.

Also, Resolution No. — (New Series), Granting Kehoe and Glasby permission, revocable at will of the Board of Supervisors, to erect and maintain a boiler of two horsepower in premises situate 541 Market street, the same to be used for plating purposes.

Engine and Boiler Permit.

Also, Resolution No. — (New Series), Granting F. G. Thomas permission, revocable at will of the Board of Supervisors, to erect and maintain an engine and boiler of four horsepower in premises situate 859 Fourteenth street, the same to be used for dry cleaning establishment.

Laundry and Boiler Permit.

Also, Resolution No. — (New Series), Granting the Bismarck Cafe and Catering Co. permission, revocable at will of the Board of Supervisors, to operate a laundry for private work at No. 884 Folsom street, and also permission is hereby granted to operate under same conditions at said premises a boiler of 8 horsepower to be used for said laundry purposes, provided said boiler shall be erected to the satisfaction and under the supervision of the Board of Public Works and of the Chief Engineer of the Fire Department, and that a certificate of inspection shall be furnished by some competent inspector of boilers that said boiler is safe, which certificate shall specify the test to which said boiler was subjected.

Oil Permits.

Also, Resolution No. — (New Series), Granting permission, revocable at will of the Board of Supervisors, to the Bismarck Cafe and Catering Co. to erect and maintain a storage tank of not more than 2000 gallons capacity, in premises situate Nos. 884 and 886 Folsom street, for the purpose of storing therein crude petroleum to be used as fuel under boilers in said premises.

Also, Resolution No. — (New Series), Granting permission, revocable at will of the Board of Supervisors, to Edward Barron Estate Co. to erect and maintain a storage tank of not more than 1500 gallons capacity, in premises situate 127 Post street, for the purpose of storing therein crude petroleum to be used as fuel under boilers in said premises.

Also, Resolution No. — (New Series), Granting permission, revocable at will of the Board of Supervisors, to Hotel Hamlin to erect and maintain a storage tank of not more than 1800 gallons capacity, in premises situate at No. 337 Eddy street, for the purpose of storing therein crude petroleum to

be used as fuel under boilers in said premises.

Denying Boiler Permit.

Resolved, That the following petition be and the same is hereby denied in accordance with the protest of property owners filed, objecting thereto, to-wit:

The Golden West Woodworking Co., to operate a shop at Seventh street, near Howard street.

The City of Paris Dry Cleaning Co., for permission to install a boiler 2917-19 Twenty-third street.

Motion.

Supervisor Broderick moved that Golden West Woodworking Company at Seventh street, near Howard street, be stricken from resolution and that subject matter of their petition be re-committed to Fire Committee.

So ordered.

Adopted.

Whereupon, the question being taken on the Resolution as amended, the same was *adopted* as Resolution No. 2680 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Passed for Printing.

The following matters were *passed for printing*:

Stable Permits.

On motion of Supervisor Payot: Resolution No. — (New Series), as follows:

Resolved, That in accordance with Ordinance No. 334 (New Series), and Ordinance No. 335 (New Series) of this Board, permission, revocable at will of the Board of Supervisors, be and the same is hereby granted to the following named to maintain stables at the hereinafter described locations, to wit:

John Gordon, No. 38 Pope street, for two horses.

A. Giorge, north line of Clary street, 225 feet east of Sixth street, for four horses.

G. Traversero, east line of San Jose avenue, 75 feet north of Kingston avenue, for four horses.

Adopted.

The following Resolutions were *adopted*:

Repealing Stable Permits.

On motion of Supervisor Payot: Resolution No. 2681 (New Series), as follows:

Resolved, That Resolution No. 2496 (New Series), in so far as it granted permission to Almeda Daly to maintain a stable for four horses on Ivy avenue, 137½ feet west of Franklin

street, be and the same is hereby repealed, and Resolution No. 2497 (New Series), in so far as it granted permission to Nick Salmas Co. to maintain a stable for three horses at No. 683 Clementina street, be and the same is hereby repealed.

Resolved further, That the attention of the Police, Health and Public Works Departments be called to the provisions of this Resolution.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Mayor to Sell Disinfecting Apparatus, Isolation Hospital.

On motion of Supervisor Payot:

Resolution No. 2682 (New Series), as follows:

Resolved, That his Honor the Mayor be and he is hereby authorized and requested to sell at public auction after advertising in the official newspaper for a period of five days as required by the Charter, the disinfecting apparatus lying outside the gate of the Leper Department, Isolation Hospital, on condition that the purchaser remove the same, the said apparatus being unfitted for further use in any Department of the City and County.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Professional Boxing Permit.

Washington Athletic Club.

On motion of Supervisor Connolly:

Resolution No. 2683 (New Series), as follows:

Resolved, That the Washington Athletic Club be and is hereby granted permission to conduct a professional boxing exhibition during the month of December, 1908, subject to the provisions of Ordinance No. 624, approved January 9, 1903.

RELATING TO ACQUISITION OF A WATER SUPPLY.

The following Communications were received, ordered filed and referred to the Public Utilities Committee:

Communication From Spring Valley Water Company With Explanation Relative to its Option on a Sierra Water Supply.

San Francisco, Cal.,

Sept. 18th, 1908.

Public Utilities Committee of the Honorable Board of Supervisors of the

City of San Francisco.—Gentlemen: On behalf of this Company, I beg to acknowledge the receipt of your letter dated September 15th, 1908.

Your letter will be placed before the Board of Directors for their consideration.

Very truly yours,
J. M. DUKE,
Secretary.

Office of the President.
Executive Department
Spring Valley Water Company
375 Sutter street.
San Francisco, Cal.
September 18, 1908.

To the Public Utilities Committee of the Honorable Board of Supervisors of the City and County of San Francisco, and A. H. Giannini, D. C. Murphy and R. McLeran, members of said Committee.—Gentlemen: Referring to your letter of September 15, 1908: You seem to have the impression that our letter to you said, in effect, that should we make an offer of sale of the Spring Valley property to the City and County, it would be so coupled with an option on a Sierra supply as to require the acceptance or rejection of both. This was not intended. Nor do we think the language of our letter susceptible of that construction. Our offer, if we make one, will be in strict compliance with the Charter so far as the existing utility is concerned.

We feel warranted in stating that we will obtain an option on a Sierra supply. It will be obtained without cost to us and will impose no obligations. We quote from our letter of September 11th:

"Should the company make an offer, it will embrace an option to the city to include this Sierra supply in addition to the existing properties of the Spring Valley Water Company."

This option, in the event that the city shall purchase our property, will be turned over to the city without cost, and if it does not feel inclined to avail of it, it need not do so.

On the other hand, if, upon investigation—and there has never been any investigation of this Sierra supply by the representatives of the city—it shall be deemed advisable to avail of the option, that course may be pursued. In other words, the city will get for nothing an option on a supply, the title to which is unquestioned, and this option will impose no obligation whatever upon the city.

As we stated in our letter of September 11th, we thought the above information would be of interest to you.

Yours respectfully,
SPRING VALLEY WATER CO.
By J. M. DUKE, Secretary.

COMMUNICATIONS FROM BOARD OF PUBLIC WORKS WITH REPORTS OF CITY ENGINEER ON PLANS AND ESTIMATES OF PROPOSED MUNICIPAL WATER SUPPLY AND OUTLINING AND RECOMMENDING FIRST STEPS NECESSARY IN ACQUIRING RESERVOIR LANDS, RIGHTS OF WAY, ETC.

Office of Board of Public Works.
San Francisco, September 21, 1908.

To the Honorable the Board of Supervisors of the City and County of San Francisco.—Gentlemen:

There is herewith transmitted plans and estimates of date July 23, 1908, prepared by the City Engineer under authority of and in compliance with Ordinance No. 492 (New Series), approved June 23, 1908. This report outlines and recommends the first steps necessary for the acquiring of reservoir lands, rights of way, etc., for the original construction of works for a water supply, the designated available sources being Tuolumne River, Lake Eleanor and Hetch-Hetchy Reservoirs, State of California.

Respectfully submitted,
BOARD OF PUBLIC WORKS.
By ROBT. J. LOUGHERY, Secretary.
Enclosure.

Office of Board of Public Works.
San Francisco, July 23, 1908.

To the Honorable the Board of Public Works of the City and County of San Francisco.—Gentlemen:

Under Ordinance No. 492, approved June 23rd, 1908, I am directed to file with your Honorable Board plans and estimates for the original construction of works for a water supply, the designated available sources being Lake Eleanor and Hetch-Hetchy Valley and the waters of Tuolumne River, in Tuolumne County, California. It will be observed that these sources were selected by this City in 1901 and rights thereto were filed upon October 15th of that year. These applications were prosecuted to the granting of the rights at Washington May 11th, 1908, by the Hon. James Rudolph Garfield, Secretary of the Interior.

There are two essential conditions fixed in this grant which must be complied with to make it of effect in giving this City the extremely valuable rights designated therein: namely, stipulations Nos. 1 and 9. Under the first of these conditions, the City must perfect its acquisition of ownership and under the other condition, No. 9, the City authorities must submit to popular vote, within two years after the date of grant, namely May 11th, 1908, the acceptance or rejection thereof. The sooner this can be done the better as it gives the electors of this city an opportunity to say whether they want this source of water supply or whether

they prefer the existing condition with its risks, entanglements, endless litigations and annual rate fixing. If the people desire to accept the source now open to them, they are entitled to an opportunity to say so, their action, if affirmative, will afford the present administration time to perfect land purchases and exchanges before March 4th, 1909, when the U. S. officers familiar with this subject will in part retire.

To carry out the first stipulation or condition of this grant options were obtained upon all patented lands in Hetch-Hetchy Valley and upon four other tracts adjacent, for exchange for lands in the reservoirs; and, an effort made to close them by making the first payment of \$10,000.00. This step was thwarted by adverse action of the Auditor, whereupon this payment was met by a popular loan to the city by high-minded citizens. The advantageous purchase of lands in and adjacent to these reservoirs named in the grant was thereby kept possible for a time under the terms of the options now held, but forfeitable unless the later payments named therein be made. These aggregate \$105,800.00, which with interest, fees, etc., may reach \$185,000.00.

One of the conditions essential to fulfilling this option is the payment not later than 90 days, after an election early in November or by February 1st, 1909, of \$50,000.00 upon the purchase price. (See options and agreements in the hands of His Honor, the Mayor.) The present status, therefore, of this vital matter is as follows:

The most abundant, available and purest source has been selected and its acquisition now depends upon the carrying out of the certain conditions above reviewed. These conditions, considering the value of the acquisition, are extremely simple and require less expenditure to complete than has ever been necessary for the acquisition of an adequate source of water supply for any community of the size of San Francisco. Whatever may be the outcome of the present controversies over the rates and purchases of the existing supply the magnificent sources now available should be secured, and no effort nor step should be delayed to make this an accomplished fact.

In every effort to secure a municipal water supply since 1871, this city has been shunted off the course in one way or another. In the attempt of 1875-6 the direct purchase of the source under consideration by the City was resorted to; in 1900 the objection was made that the Charter had not been technically followed; in 1903 the purposes of the City were thwarted by representations

forestalling the presentation of the City's application; and, by the inauguration of an apparently interminable lawsuit over a side issue. From 1904 to 1908, and despite official abandonment by Resolution of the Board of Supervisors in 1906, the claim of the City was kept alive by individual and unofficial effort. In 1908, it was not found possible to thwart the case of the City in Washington, but an "offer of sale" was made along a line palpably impossible under the Charter; and when the direct steps were taken looking to the solicitation of an offer of sale on the prescribed line of the Charter, this "offer of sale" was withdrawn and another digressive lawsuit pushed to the front in the shape of an injunction; what further obstacle will be raised to prevent action by the people of this City on this vital question remains to be developed.

These facts are recalled here in order to emphasize the necessity of holding to a persistent and coherent policy so that the efforts to secure an adequate supply which have been in progress since 1900 may not be artfully turned into irrelevant and abortive lines. The great public interests and intent should not be diverted from the proper course, *namely, the acquisition of an adequate source*, to be used either as a re-enforcing or as an independent supply—the former if a reasonable purchase can be made of existing works, the latter if unreasonable and exorbitant demands be insisted upon.

There is, therefore, submitted the following *Progress report* upon the matter referred to me by your letter forwarding Ordinance No. 492 of June 23rd, 1908, directing the submission of plans and estimates of cost of the acquisition of a water supply.

The first essential step in carrying out this Ordinance is the acquisition of the available sources designated therein and made possible by the grant of May 11th, 1908. It will be observed that a considerable portion of the cost of this acquisition can, under Section 5, Article XII of the Charter, be paid from the annual revenues of the City. It would be manifestly unreasonable to subject the City to the burden of a bonded debt to meet an expense, much of which can be met as above indicated. I, therefore, recommend (1) that the Board of Supervisors be requested to declare the acquisition of lands for reservoir purposes a public utility and to proceed to acquire the same by purchase and contract; (2) that in order to carry out the provisions of the Ordinance and acquire the properties and rights essential thereto that a bonded indebtedness of \$750,000.00 be incurred for the acqui-

sition by purchase or condemnation of lands in and adjacent to Lake Eleanor and such rights of way for reservoirs, flumes, canals, etc., as are necessary to carry out the first requirements contemplated under the Ordinance and as herein designated.

DESCRIPTION OF THE RESERVOIRS AND THE DRAINAGE AREAS TRIBUTARY THERETO.

Lake Eleanor is situated 136 miles east of San Francisco on the west slope of the Sierra Nevada Mountains. It is about 300 acres in extent and lies in a broad flat valley enclosed by precipitous walls of granite, narrowing at the lower end of the valley. It is 4700 feet above sea level and receives the direct drainage from 83 square miles and by a diverting canal 6 miles long from 103 square miles additional of uninhabitable mountain slopes which reach an altitude of 11,000 feet, and receive a mean annual precipitation of from 40 to 50 inches, most of which is snow. These areas are more than four and one-half ($4\frac{1}{2}$) times that tributary to the peninsula system of reservoirs, which latter area receives a mean annual rainfall of from 35 to 50 inches. It is not now necessary to discuss the relative periods of deficiency in precipitation which recur from time to time in each area.

The capacity of the Lake Eleanor Reservoir is as follows:

Height of Dam.	Capacity of Reservoir.
130 feet	6,282 million gals.
150 feet	13,108 million gals.
175 feet	25,000 million gals.
200 feet	39,000 million gals.

Hetch Hetchy reservoir is about 140 miles from San Francisco on the main fork of the Tuolumne River and is about 3700 feet above sea level. It receives the drainage from 452 square miles of the uninhabitable slopes of the Sierra Nevada, reaching to elevation of over 13,000 feet and receiving a mean annual precipitation of from 40 to 50 inches, nearly all in snow. This area is 148 square miles less than that tributary to Sunol Dam, but this latter area receives a mean annual rainfall of from 15 to 30 inches subject to periods of great variation, supports populous and growing towns and quite a well distributed and increasing agricultural and pastoral population. These comparisons with areas with which you are familiar are made to convey a clear conception of the drainage areas and conditions in the Sierras with which equal familiarity is impossible to many.

The capacity of Hetch-Hetchy Reservoir is as follows:

Height of Dam.	Capacity of Reservoir.
100 feet	16,213 million gals.
150 feet	33,071 million gals.
200 feet	48,600 million gals.
250 feet	66,000 million gals.

A dam at this site 250 feet high is well within the possibilities of the site; and, at this height, will hold two and one-half times the combined capacities of all the peninsula reservoirs. The new Croton reservoir for New York holds 31,000,000 gallons, or less than one-half the Hetch Hetchy reservoir at its reasonable development.

Moreover for from five to six months each year the flood discharge of Tuolumne River is available for use without drawing on the two reservoirs above named. Including Lake Eleanor reservoir at its maximum capacity the combined storage is more than five and a half times that of the combined peninsula reservoirs. These comparisons afford a better conception of the water resources which it is now possible to secure for this City by prompt and effective action. No adequate comparison of the ultimate purity of these sources with that now in use is possible, nor indeed necessary.

The water liberated from Lake Eleanor and Hetch-Hetchy reservoirs will flow along the almost inaccessible gorges of Tuolumne River and Cherry Creek, about 16 miles to a point in the Tuolumne gorge about 130 miles distant from San Francisco in an air line, and by canals and conduits planned in 1901, 182 miles, this can be shortened by about $5\frac{1}{2}$ miles.

Two power and one pumping station are located on this line, also four equalizing reservoirs as indicated on the plan submitted herewith. The sites for these were tentatively selected in 1901; but it may be possible to change these to alternative locations and the alignment of the conduit may be slightly corrected.

There are submitted herewith:

(1) A general plan of the region from the summit of the Sierras to San Francisco on which are indicated the drainage areas, reservoirs, route traversed, and the main features of the problem.

This plan is entitled:
Map of the Region between San Francisco and the Summit of the Sierras
Showing the factors of
The Tuolumne Source of
Water Supply.

July 24th, 1908.

(2) A plan of Lake Eleanor Reservoir.

(3) A plan of Hetch-Hetchy Reservoir.

(Nos. 2 and 3 are reproduced from the surveys of 1901.)

(4) A plat of lands held under options.

The reports and estimates of my predecessor, Mr Grunsky, called for \$918,000.00 to be expended for lands, litigation, water rights, and rights of way outside San Francisco. It is not now necessary to provide for the expenditure of this amount for the following reasons: (1) The results of pending proceedings soliciting offers of sale of the existing supply cannot be foreseen. (2) A portion of the required property can be acquired by purchase from funds available from the annual revenue.

I estimate that in addition to these funds, a bond issue of \$750,000.00 should be made available to be sold in amounts of not less than \$100,000.00 as required for the purchase or condemnation of lands, rights of way for reservoirs, canals, power stations, etc., etc., as follows:

ESTIMATE OF COST OF RIGHTS AND LANDS NOW NECESSARY TO ACQUIRE FOR A SIERRA WATER SUPPLY.

For purchase of lands in and adjacent to Hetch-Hetchy Reservoir	\$165,800.00
Contingencies, fees, etc.	19,200.00
For purchase of condemnation of lands for rights of way for canals, power and pumping stations, reservoirs, Lake Eleanor lands, etc.	465,000.00
Contingencies, fees, etc.	100,000.00
	<hr/>
	\$750,000.00

I, therefore, recommend that a bond issue for the above amount, namely, \$750,000.00, be submitted to popular vote in November next. This will carry out stipulation No. 9 of the grant; and, if approved by popular vote, will make available the means to systematically meet the other condition of the grant and acquire for the City the rights necessary for the ultimate development of a water supply of unparalleled abundance and purity.

In order that the steps herein outlined might be taken in accordance with the Charter, I addressed an inquiry to the City Attorney on the 9th inst., requesting him to outline the legal steps which are necessary to take and secure the rights to these reservoir lands. His reply is submitted herewith.

In conformity with this opinion, I further recommend that, as the preliminary ordinance mentioned under I of the City Attorney's letter has been passed (Ordinance No. 492, under which these actions are taken.) This progress report carries out the second step in so far as it relates to the acquisition of the reservoir rights, etc.

As soon as the provisions of the Charter admit, an ordinance calling a special election at which to submit to the electors the proposition of incurring a bonded indebtedness of \$750,000.00 should be prepared and advanced to effect; in order that the people of this City may have an opportunity of expressing their approval or disapproval of acquiring a Sierra source of domestic water supply of the rarest purity and abundance; and, which has been selected by engineers thoroughly familiar with the available sources and made possible of acceptance through the broad and generous policy of the National Government in the grant of May 11, 1908; when ownership to these valuable rights shall have been thus perfected they can be made the basis of a bond issue for their development and utilization.

Respectfully submitted,
MARSDEN MANSON,
City Engineer.

Office of Board of Public Works,
San Francisco, September 21, 1908.

To the Honorable The Board of Supervisors, of the City and County of San Francisco—Gentlemen: There is herewith transmitted, plans and estimates for the original construction of works for a water supply for the City and County of San Francisco, of date September 14, 1908, prepared by the City Engineer under authority and in compliance with Ordinance No. 492 (New Series), approved June 23, 1908.

Respectfully submitted,

BOARD OF PUBLIC WORKS,
By ROBT. J. LOUGHERY, Secretary.
Enclosure.

Office of Board of Public Works,
San Francisco, Sept. 14, 1908.

To the Honorable, The Board of Public Works, of the City and County of San Francisco—Gentlemen: Under authority of and in compliance with Ordinance No. 492 (N. S.), approved June 23rd, 1908, I submit herewith plans and estimates for the original construction of works for a water supply for the City and County of San Francisco, the designated available sources being Lake Eleanor and Hetch Hetchy reservoirs and the waters of Tuolumne river, Tuolumne county, California.

It will be noted,

(1) That these sources were filed upon on October 15th, 1901, and these filings continuously prosecuted to the granting of reservoir rights of way by the Hon. James Rudolph Garfield, Secretary of the Interior at Washington on May 11th, 1908. The securing of these rights are conditioned upon the expression of their acceptance by popular vote; and upon the exchange of lands, upon which options are held

in the interest of the city, for the public lands in the reservoir areas.

Since the date above named, work has been continued in securing lands, surveys of the same and in necessary office studies, etc.

(2) Also that in the year following the filings above named, very carefully prepared plans and estimates for the development of these sources were made. These plans and estimates showed the cost of utilizing these sources either as an independent or as a re-enforcing supply. For supposed reasons of economy, the plans and estimates made in 1900-2 were not fully published and widely distributed at the time as they should have been. Hence the public has been misled through ignorance or design into the idea that no complete study of the problem of water supply was made. The facts are that several years time of the Engineers then on the Board of Public Works, of City Engineer Grunsky re-enforced by the advantage of the advice and counsel of Consulting Engineer Desmond Fitzgerald were devoted to the problem. Field and office parties were kept for nearly a year at work at a cost of \$40,000, and a very complete set of plans and estimates were made. The results of this work, through a misguided spirit of economy have not been properly laid before the public. Hence it has been difficult to meet statements ignorantly or purposely put forth against the propositions then recommended.

For these portions of the works which lie beyond the city limits, no material changes in these plans and estimates are necessary to fit them to present conditions; iron and cement, the two materials of largest cost have cheapened somewhat; while labor, the other large factor, has increased, the changes about offsetting one another in the ultimate cost of the works. Under the conditions imposed by the Government, in making the grant of reservoir rights of way, Lake Eleanor reservoir must be first developed. This condition necessitates the only change in the estimates of those portions of the works which lie beyond the city limits. No other change is necessary, for the head works in the cañon of Tuolumne river are common to both reservoirs and are reached by gravity along the gorges in which their waters naturally flow.

As will be noted in detail later on, four very important factors affecting the cost of the City Distribution system have entered the problem since 1902. These are:

(1) The construction of 92 miles of high pressure fire protection mains will materially decrease the size and cost of mains for domestic and industrial supply in the districts covered by

the auxiliary fire protection system now under way;

(2) Developments since April, 1906, have made it necessary to extend the distribution system over much larger areas than in 1902, some of which areas are inadequately supplied, and the development of others being restricted by lack of a supply.

(3) It is also essential to provide more numerous and larger service reservoirs than was then considered necessary.

(4) There has been a marked demand for extensions to and an increased consumption of water in the high level districts.

These conditions and the changes in the plans and estimates which they necessitate will be considered later.

Sources—

It becomes necessary at this point to recall and express an opinion upon the general questions of the sources and their availability, the grants thereto and the alleged probability of the contamination of the water originating thereon and to be conducted to this city.

Tuolumne river above La Grange dam, at the edge of the foothills, drains about 1501 square miles of the west slope of the Sierra Nevada mountains. See map accompanying this report entitled:

MAP of the REGION BETWEEN SAN FRANCISCO and the SUMMIT of THE SIERRAS showing the FACTORS of the TUOLUMNE SOURCE OF WATER SUPPLY, July 24th, 1908.

This drainage area lies nearly due east of San Francisco; a due east and west line from this city passes through the drainage basin of Merced river and through the southeasterly part of that of Tuolumne river, leaving the main portion thereof north of this line.

This drainage basin of Tuolumne river is naturally divided into six sub-basins, two of which reach the summit of the Sierra Nevada mountains; namely the main Tuolumne drainage basin and Cherry creek; Eleanor creek, a tributary of the latter, reaches to within a few miles of the summit.

The other sub-basins drain regions which lie on the lower slopes of the mountains and do not reach the summit and enter the main stream some twenty miles below Hetch Hetchy valley and below the diverting dam hereinafter mentioned.

Reservoirs—

Quite a large number of glacial lakes and valleys lie in the drainage basin of Tuolumne river; nearly all of which are suitable for the storage of waste flood waters. The largest of these, Hetch Hetchy valley lies N. 85½° E. and about 140 miles from San Francisco, on the main fork of the river and

has about 452 square miles of mountain slopes tributary thereto. The elevation of this tributary area, except the valley itself and the bottoms of the converging gorges, which are about 3700 feet above tide, is between one and two and a half miles above sea level, and its summit line or eastern border fronts for fifty-three miles along the crest of the Sierras from Mt. Lyell northward. This crest has a mean elevation of about 11,500 feet or over two miles above sea level.

At the lower end of Hetch Hetchy valley is a granite gorge having a mean width, at the surface of the low water, of about 65 feet, the sides of which rise precipitously for 800 or more feet. The valley is about $5\frac{1}{2}$ miles long and over one-half mile in width, its walls are so steep as to be practically impassable except at three points occupied by steep rough trails.

This reservoir will hold about the following volumes at successive heights:

Height.	Million Gals.
100 ft.	16,213
150 "	33,071
200 "	48,600
250 "	66,000

Lake Eleanor—

Lake Eleanor is situated near the lower end of the creek of the same name and is some 4 miles northwest of Hetch Hetchy. The tributary drainage area is about 84 square miles rising from the lake surface at 4700 feet to over two miles above sea level.

Two adjacent drainage basins can be made partially tributary to this reservoir, namely Cherry creek with 103 square miles and Falls creek with 37.5 square miles of similar territory.

The lake is about 400 acres in area and is fed by Kibby, Eleanor and Frog creeks. The lower end of the lake is bordered by a gravelly flat resting on granite bedrock, which about a mile and a quarter below the lake, closes into a granite walled gorge and offers an excellent site and material for a dam. This dam can be economically raised to a height of 200 feet.

At successive heights it will impound the following volumes of water:

Height.	Million Gals.
130 ft.	6,282
150 "	13,106
175 "	25,000
200 "	39,000

The two reservoirs when developed to the limits above indicated will furnish over 290,000,000 gallons per day for 365 days; and, considering the fact that the storage waters will be drawn upon for only about 210 days each year, this supply will furnish nearly 500,000,000 gallons per day. Combined with a moderate development of existing nearby supplies these sources will

meet any demand which can now be reasonably foreseen or predicted.

RUN OFF AND THE PURITY AND SANITARY CONDITIONS OF THE TRIBUTARY AREAS.

The areas tributary to these reservoirs are subjected to such severe winter conditions that they are uninhabitable, they are moreover within the boundaries of the Yosemite National Park; so that at no time in the future can conditions arise tending to impair the purity of water flowing therefrom, which cannot be rigidly controlled.

The run off from these areas has never been continuously gauged for a season. But from a comparison of the gauging at La Grange dam by the U. S. Reclamation Service and studies since 1903 it is manifest that the run-off from the tributary are sufficient to more than fill Hetch Hetchy reservoir with a dam at its maximum height during the dryest season which has occurred since accurate gaugings at La Grange were established; and, that by diverting a portion of the run off from Cherry Creek, Lake Eleanor reservoir would have been similarly filled. The estimates of run off by Mr. Grunsky in 1901-3 in the light of more recent data and studies are certainly ultraconservative both as to precipitation and run off. (See pp. 222-223, Reports of Board of Public Works, 1901-2 and 1902-3.)

Considering, therefore, that the run off is ample to fill the reservoirs during dry years and that once put in use some water will naturally be held over, discussions of the details of actual precipitation and run off must await the result of future observations and measurements.

It will, therefore, be observed that the run off from the available areas is more than sufficient to fill the reservoirs during the dryest year of which there is any definite record, but that it is desirable to more accurately gauge the rate of run off and the precipitation.

During about five months each year, between December and July, the discharge of Tuolumne river is more than sufficient to meet all industrial uses, it will consequently not be necessary to draw on the stored waters except when the natural discharge of the river falls below these demands, when the stored water will be liberated from the reservoirs in such quantities as may be necessary.

GENERAL ROUTE OF CONDUITS TO SAN FRANCISCO.

The liberated water of Lake Eleanor or of Hetch Hetchy reservoir will flow along natural channels or gorges to a point about two miles below the junction of the streams; at this site it is proposed to build a diverting dam, situated about 128 miles nearly due east from San Francisco. This dam will

turn and control the flow through gates into a canal cut into the south side of the cañon, tunnelled through its spurs and carried across its side gorges; drainage from the cañon walls above the canal will be intercepted by ditches and conducted under or over this canal. The length of this canal will be about twenty-nine miles and its capacity 250 second feet. It has been intimated that its flow will be subject to contamination, but there is less danger of pollution in this canal than in the natural gorges in which the water now flows without becoming in any way contaminated, as this canal can be protected in case necessity shall arise, as is usually done elsewhere and in the existing water works now supplying the city and as is recommended for Los Angeles by L. P. Stearns and Jas. D. Schuyler, Consulting Engineers. It is, however, possible that at some remote time in the future the waters of Cherry creek, being collected beyond the limits of the Yosemite National Park, may become undesirable. In which event, Lake Eleanor waters can be diverted on the left bank of Eleanor Creek, carried in a separate canal along the cañon wall and delivered without joining Cherry creek drainage, into Tuolumne river at a point above the mouth of Cherry creek. In this event the diverting dam can be placed just above the junction of Cherry creek with Tuolumne river, and Eleanor creek waters used for power as they fall into the headgates of the diverting canal.

At the lower end of the diverting canal there is to be constructed a power station, designated Bear Gulch Power Station. At this station a fall of 766 feet is available; power to the extent of 12,000 horsepower can here be generated. The water from the wheels of this power station will immediately pass into the headworks of another conduit consisting of pipes, tunnels and canals having an aggregate length of 14.56 miles to a second power station on Dry creek, distant 102 miles due east of San Francisco. At this station 330 feet of fall is available and 4500 horsepower may be generated.

The water discharged from this power station is at an elevation of about 580 feet above tide and will here be delivered into tailrace-controlling reservoirs; thence into two 48-inch wrought iron mains which will cross San Joaquin valley and deliver this water into Altamont pumping station. These pipes are 60.5 miles long and are to deliver 60,000,000 gallons per 24 hours.

ALTAMONT PUMPING STATION.

This station is to be equipped with receiving reservoir, electrically driven pumps operated by power transmitted from Bear Gulch and Dry Creek Power Stations, auxiliary steam plant for

emergency use, and delivery pipes into a pressure reservoir about $\frac{3}{4}$ mile west of Altamont and at an elevation of 752 feet above sea level. This station and equipment is planned in masonry, steel and iron and will be kept in continual use.

From the Altamont reservoir the water is to flow by gravity through two wrought iron pipes 48 inches in diameter and passing, around the head of the bay near Alviso to service reservoirs on either side of Mission road near Amazon street, a distance of 70.1 miles. On this line a saving of some $5\frac{1}{2}$ miles may be made by crossing at Dumbarton Point. This will also reduce the distance on which the pipes lie on marsh lands, which experience demonstrates should be avoided as far as possible.

It is observed that under the conditions above named no contamination of the waters from this source can occur if the ordinary and reasonable precautions be taken, whenever occasion therefor shall arise. Under existing conditions ordinary fences will be ample.

(1) The waters are collected from uninhabitable areas within the limits of Yosemite National Park and adjacent forest reserve; the surface of which is composed of rocks and soils of least solubility. The water is therefore initially pure and soft. These areas are inaccessible for the greater portion of the year and are entirely within the Yosemite National Park and are not visited by the great body of campers and tourists which visit Yosemite valley and the Big Tree groves. These great attractions lie in other drainage basins and attract by far the greater portion of the travel.

(2) These waters are to be stored in granite-bound reservoirs of unsurpassed conditions of isolation and natural cleanliness.

(3) They flow either along almost inaccessible mountain gorges or along and through canals and conduits easily guarded and protected by known means always resorted to whenever necessary. It is also manifest therefore that at no time in the future can the sources of water supply herein considered become contaminated nor pass beyond that reasonable control which will preserve their purity from the snow fields of the Sierra to the faucets of the home.

RESUME OF WORKS OUTSIDE THE CITY.

Works outside the city limits are therefore:

(1) Storage reservoirs at Lake Eleanor and Hetch Hetchy valley. (The first of these sites being now estimated upon as per agreement with the Hon. The Secretary of the Interior.) Gauging weirs above and be-

low reservoir. Quarters for employees, etc.

(2) Diverting dam and canal 20 miles long to Bear Gulch power station with equipment of gates, etc., and quarters for employees.

(3) Bear Gulch power station with forebay reservoir pressure pipes, generators, tailrace reservoir, mechanical equipment complete for generating 12,000 horsepower, quarters for employees, etc.

(4) Conduits from Bear Gulch power station to Dry Creek power station 14.56 miles long, complete, with canal pipes, tunnels, gates, quarters for employees, etc.

(5) Dry Creek power station with forebay reservoir, pressure pipes, generators, tailrace, reservoir, mechanical equipment complete for generating 4500 horsepower, quarters, etc.

(6) Pole line and copper conductors for power and telephone lines 145 miles.

(7) Double 48-inch wrought iron pipes 60.5 miles long across San Joaquin valley, accessories, quarters for employees, etc.

(8) Altamont pumping station complete, reservoir, electric and steam-driven pumping plants, housing for plant, stores, mechanical equipment, fuel, etc., quarters for employees, pressure pipes, etc.

(9) Equalizing pressure reservoir at Altamont and double 48-inch wrought iron pipes, tunnels, etc., to service reservoirs in San Francisco, capacity 60,000,000 gallons daily.

For the reason before given, it is not considered necessary at this time for the purposes of this report to make any material changes in the plans and estimates for those portions of the works which lie outside the limits of the City and which were worked out in 1901-2 by City Engineer Grunsky; and, the descriptions of which were in part published in the Reports of the Board of Public Works for 1901-2 and 1902-3, page 248.

From this report the following recommendation of the Board of Public Works is quoted and renewed:

"In 1900, at the beginning of the studies directed by the Charter as to the acquisition of public necessities and utilities, the water supply very properly occupied the first place, and received the most attention and study.

The results of these studies have not yet been laid before the citizens in full published form, so that they are in a large measure ignorant of the very carefully worked out plans for meeting this most pressing necessity of the city. This vital matter has in some way been allowed to fall in the rear, and does not appear at all in the list of projects to be submitted to the voters. Water supply so far outranks all other matters, both in importance and cost, that they could well be allowed to rest until the water question has been settled."

On this work, a large portion of two years was spent costing about \$40,000 and employing eight Assistant Engineers and Draughtsmen with the necessary complement of field assistants. Of this work the report of the Board of Public Works says:

"The volume of work done by the Bureau of Engineering was large and important. The most important was the completion of the report upon a *Municipal Water Supply*, submitted in August, 1902, giving in full plans and estimates of cost of supplying the city abundant and pure water, from a source impossible of contamination. The cost of these works, if constructed as an independent system, is estimated at \$40,000,000.00, but if developed only to reinforce existing supplies, will cost about \$18,000,000.00."

Submitted with this report were 36 sheets of drawings giving in detail a succinct outline of the Tuolumne project, the source, reservoirs, alignments and nature of conduits and works, and a careful and accurate estimate of the cost of the entire project, developed either as an independent source of supply or as an auxiliary supply to the present source. It is to be regretted that these plans and the accompanying report have never been published in full, as they would then afford the public a far clearer knowledge of what has been done at its expense and for its benefit than most of the citizens have any idea.

(For additional data and details of the above described works see pp. 200-237. Reports of the Board of Public Works 1901-2, 1902-3, and the unpublished plans therein referred to, reproduced copies of which are on file in the office of the City Engineer.)

In case the Spring Valley proper-
ties shall be acquired, it will be pos-
sible to make use of all of the existing
sources except Lake Merced, which
should be kept for use only in the re-
mote event of some dire emergency.

The necessity of introducing and
safeguarding a large supply from the
Tuolumne source, with double lines of
pipes, etc., can then be avoided, for
the reinforcement of the local supplies
will then be assured from the Tuolumne
source.

Any deficiency from the peninsula
supply due to a dry season will under
these conditions be met with at least
20,000 million gallons on hand, which
with a daily consumption of 45,000,000
gallons will last for over 400 days, and
before the end of that time restorations
to any extent can be made and delivery
and storage from the Tuolumne source
restored.

By thus using this source as a rein-
forcing supply a reduction of \$11,059,-
550.00 is possible, which increased by
10% amounts to about \$12,165,500.
This saving is accomplished prin-
cipally by limiting pipe lines, siphons
and pressure pipes to single instead of
double lines, and by corresponding re-
ductions in the mechanical equipment

at Dry Creek Power Station, Altamont
and Belmont Pumping Stations, and by
the omission of Belmont reservoir.

All canals, tunnels, forebay, tailrace
and pressure reservoirs and all other
items in the previously named estimate
of \$31,603,330 remain the same and are
designed for 60,000,000 gallons daily.
This leaves the cost of introducing the
Tuolumne source simply as a reinforcing
supply at about \$19,437,800 and en-
sures a supply of at least 45,000,000
gallons per day, and will require ex-
penditures to meet much needed exten-
sions and betterments in the existing
supply.

This estimate accepts the contingency
that interruptions in the Sierra supply
of several months duration might pos-
sibly occur from one of several causes.
In which event it will be noted that
the peninsula reservoirs would under
any circumstances and at any time of
year have on storage from 15,000 to
20,000 million gallons; at a consump-
tion of 45,000,000 gallons per day
nearly a year's supply would be on
hand for use during any interruption
of the supply from the Tuolumne
source.

To this must be added the cost of ac-
quiring the Spring Valley source and

of making certain increases in its supply and extensions and betterments to its service and distributing system.

PURCHASE AND INTRODUCTION OF AN AUXILIARY SUPPLY.

The estimates above outlined anticipate our necessities and does not meet pressing and immediate requirements. Should the Spring Valley supply be acquired it will be necessary to increase the supply at once, and to add betterments and extensions before the Sierra source can be introduced. This statement emphasized the gravity of the situation. This can be made at an expenditure of not to exceed \$1,500,000.00 and this office is prepared to present the steps for this work when required. There, however, remains the necessity of securing the reservoirs now available through the grant of May 11th, 1908.

The acquisition of these highly valuable rights are contingent upon the performance of certain stipulations which will cost in the next two years not to exceed \$750,000, and in the succeeding eight (8) years not to exceed one-half this sum, upon which investment a reasonable interest may be derived. This expenditure will give this city an asset of incalculable value in the shape of an incomparable source of water supply which can be developed to such extents and at such times as may become necessary. The ownership of these rights will add many fold their cost to the properties and industries of this city and stabilize the values of all classes of property.

In a separate report of date July 23rd, 1908, this office has reported upon and recommended the steps necessary to accomplish this desirable result. Prompt action on this report is urgently recommended.

ESTIMATES OF THE COST OF SERVICE RESERVOIRS WITHIN THE CITY LIMITS AND OF AN ENTIRELY NEW DISTRIBUTING SYSTEM.

It remains to present plans and estimates of the cost of an entirely new system of service reservoirs and distributing mains for the city. These constitute the works inside the city limits; and which, for the following reasons, are essentially modified from the plans and estimates submitted in 1902-3:

(1) The provision of an *auxiliary high pressure water supply for fire protection* which requires about 92 miles of large mains, two fire boats of the highest efficiency and 100 additional fire cisterns, these materially reduce the size and cost of the mains for domestic and industrial water supply within the districts covered by this auxiliary supply.

(2) Developments and extensions of the built up areas demand the extension of mains into districts not covered in the plans of 1902-3.

(3) Experience has demonstrated that it is desirable to have larger and more numerous service reservoirs than were formerly designed, thus increasing the volume of water available within the city limits.

(4) There has been an increase in the areas and demands for water in the higher levels which have not been met by the corporation now supplying the city, and which the city must meet if it takes up the work of municipal water supply.

To make these changes the entire problem of service reservoirs and mains has been recast.

These estimates for this distributing and service system are based upon a population of 735,000, a per capita daily consumption of 100 gallons and cover 15,450 acres. This is 5770 acres, or 60% greater area than was considered necessary in 1902-3, in the estimate of City Engineer Grunsky. This increase in area is now considered necessary as it embraces areas the development of which is retarded for lack of water and other areas the development of which is estopped by an insufficiency. These additions will enhance property values and gradually develop a corresponding increase in revenue. The aggregate service reservoir capacity is raised to 366,800,000 gallons, which is a 5 days supply for a population of 735,000, at the above named rate of consumption. The service reservoirs are so connected that any level may be re-enforced as demand may be made. It will be observed that the storage in the city limits is four (4) times the capacity of the existing service reservoirs.

The existing supply is admittedly just sufficient for the present population. The service is inadequate in some districts and entirely wanting in others. It, therefore, barely meets the demands of about 350,000 inhabitants. The above estimate of cost covers a far larger area, and will serve abundantly and satisfactorily more than double the existing population and can be brought into service as demands shall arise.

RECEIVING AND SERVICE RESERVOIRS.

Water from the main supply will be received in two reservoirs, near the intersection of Mission and Amazon streets, having a combined capacity of 203,000,000 gallons, and estimated to cost \$1,028,800. From there it will be supplied both by gravity and pumping station through 38 miles of main and force pipes to 21 service reservoirs in the five different levels into which the area to be supplied is divided.

These service reservoirs hold from 1.1 to 3.68 days supply for the districts which they serve; and, combined with the water stored in the main service reservoirs, will hold about 5 days supply for 735,000 inhabitants at a daily per capita consumption of 100 gallons, and are estimated to cost \$1,585,200.00. The total cost of service reservoirs will thus be \$2,614,000.00, which includes

DISTRIBUTING MAINS AND LATERALS.

Cost of distributing system and equipment.....	7,843,880.00	11,064,380.00
Contingencies, engineering, etc., 10%.....		1,106,438.00
Total		\$12,170,820.00

Recapitulation of cost of an entire new system of service reservoirs, pumping stations and distributing pipe system having a capacity of serving 15,450 acres and a population of 735,000 at a per capita daily consumption of 100 gallons. This system will more than double the capacity of the existing system and will have five times the volume of water stored within the city limits.

Reviewing the various costs of the Tuolumne project, it is observed that to introduce this supply to the extent of 60,000,000 gallons daily; develop sufficient power to do all pumping necessary for this supply and have a considerable reserve for other municipal uses, construct an entirely new system of receiving and service reservoirs, pumping stations and distributing system, with a capacity to abundantly serve double our present population will cost as follows:

Areas, capacities and costs now considered necessary.

Area, 15,450 acres.....	9,680, increase 60%
Capacity of storage 336,800,000 gallons....	218,400,000 gallons, increase 54%
Length of pipe, 643 miles.....	455 miles, increase 41%
Cost per acre, \$788.00.....	\$910.00, decrease 13%
Cost per mile of pipe, \$18,950.00.....	\$19,340.00

These decreases are principally due to the smaller pipe required in the districts covered by the auxiliary water supply system for fire protection.

DEVELOPMENT OF THE TUOLUMNE SOURCE AS AN AUXILIARY SUPPLY.

No adequate comparison can be made with the existing system either as re-

cost of real estate where reservoirs are not located on City property.

PUMPING PLANT.

To serve the levels above the reach of the main service reservoirs two pumping stations are required. These stations are estimated to have an aggregate daily capacity of 41,000,000 gallons, with a reserve capacity of 50 per cent. Complete they are estimated to cost \$606,500.00.

Developing Tuolumne source	
daily capacity 60,000,000	
gallons	\$31,603,330
Distributing system complete	12,170,820

Total\$43,774,150

The rapid development of certain districts since the fire, the natural growth of other districts and the demand for covering districts not now supplied, or inadequately supplied, have all combined to call for an estimate for a distributing system larger than that estimated upon in 1902-3.

Not being able to predicate the rate of increase nor the exact *loci* of this increase it has been considered best to make the distributing system of somewhat greater capacity than the main supply. This latter can be raised when requirements demand.

The following comparisons will give an idea of the increases:

Areas, capacities and costs estimated upon in 1902-3.

gards purity and abundance in every part of the city. It is, however, necessary to consider the cost of acquiring the existing system if a reasonable price can be agreed upon, as a sound business policy requires; then the cost of extensions and betterments of this source as immediate requirements demand; and, to introduce a re-enforcing supply from the Tuolumne source.

Accepting Captain Payson's offer, with a reduction of \$2,000,000.00 for properties not required by the City as a basis for this estimate only, we have cost of acquiring the Spring Valley sources and supply	\$30,000,000.00
Betterments and extensions now imperatively needed	1,500,000.00
Introduction of 30,000,000 gallons daily from Tuolumne source	19,686,660.00
Total	\$51,186,660.00

The cost of operating either system is about the same, but the cost of repairs and extensions will be much greater upon the acquisition of the older works.

There will be a material saving to the city in the acquisition of the existing system, as the high salaries, litigations, cost of experts, printing elaborate reports, etc., etc., now incurred represents an invested capital of at least \$1,500,000.00 at 5%. The City pays all expenses incurred in these salaries and litigations by both the company and itself, a condition not generally known and considered.

This report and the one preceding it are intended to place before this community the most important and vital matter which can confront the people of any city. Upon a proper solution of this problem of a pure and adequate water supply rests the health and well being of its homes, and the development, stability and protection of its properties and industries. It is necessary to advance now on clean-cut lines and in order to give the widest opportunity for a full consideration, it is recommended that the full report of City Engineer Grunsky, the present report and that of July 23rd, 1908, with such illustrative drawings as are necessary to fully explain them be published and widely distributed to the citizens.

The question of municipal ownership of this necessity cannot be allowed to drift, nor be delayed without material loss to both the seller and the buyer. If a reasonable price can be submitted such as the electors of this city will be justified in approving, the development of the Tuolumne source as an auxiliary supply with control of its own power will follow in due time. But if no satisfactory basis for the purchase of the existing supply can be submitted by the Spring Valley Water Company, the development of the Tuolumne source and its independent power should be pushed to completion as herein indicated.

In either event the prompt acquisition of the Tuolumne rights and properties, now available, should be accomplished; for the reason, made doubly manifest by the letter of the Company of date September 11th, 1908, indicating that a supplementary Sierra source

is a necessary adjunct to its resources to adequately meet the needs of this community.

When such a source is introduced it should be from the purest and nearest supply; and from the storage reservoirs to the faucet with all intermediate rights of power under the complete ownership and control of the city.

In considering the acquisition and operation of this necessity, it must be constantly kept in mind that the interest upon the capital invested comes from the rates and not from the taxation of properties. (See section 12, article XII, of the Charter.) Moreover that a sinking fund may be derived from either source of revenue and from the relief of taxation now imposed for lighting streets and public buildings. This averages more than \$300,000.00 per year; capitalized at 5%, this expenditure represents an investment of \$3,000,000.00. The present gross income from water is about \$2,000,000.00.

Of this income the interest on \$1,500,000.00 is spent by the City and through the Spring Valley Company in salaries, legal expenses, expert services, printing, etc., etc.—expenses which could be avoided by a removal of the prime cause of litigation, namely, ownership by a corporation.

The yearly amounts paid for lighting streets and public buildings is over \$300,000.00, which sum is collected by taxation and would not be a burden to the taxpayer if this lighting is made an incident to the public ownership and operation of the Tuolumne source; or, if applied as a sinking fund, this saving would, in 40 years, pay off a large fraction of the bonds issued for the acquisition.

That the water supply of any municipality is capable of yielding a large revenue is abundantly proven by the tenacity with which corporations seek and hold the control of this necessity; and by the beneficial results which have come to municipalities which have retained or regained such ownership. The benefits of the highest order and the advance in values of all properties and industries conferred by municipal ownership of this necessity warrants its prompt acquisition by either purchase at reasonable rates, or by the construction of an independent supply

if this purchase be thwarted by exorbitant demands.

Respectfully submitted,

MARSDEN MANSON,

City Engineer.

Communication From Wm. Ham Hall, Stating that He has Wired as to What Response He Shall Make to Request for an Unconditional and Unrestricted Offer of Sale for All Lands, Rights and Claims Upon Eleanor and Cherry Creeks and Cherry River.

210 Grant Building, San Francisco, Cal., September 16th, 1908.

Mr. John Behan, Clerk Board of Supervisors, San Francisco—Dear Sir: Your communication of yesterday relative to Lake Eleanor matters was duly received and I have taken steps to ascertain by wire what response I am to make to the inquiries therein contained. The responses probably will not be here until Friday. Meanwhile, I am obliged to go up on the work below Lake Eleanor, starting tomorrow morning and returning Saturday afternoon—a rush trip as you will see. I will be able to meet the Public Utilities Committee on Monday morning at any hour you name or on Sunday if you and they care to take the matter up on that day. Write to my office and I will get the letter on return Saturday afternoon, about five o'clock.

Yours truly,

WM. HAM. HALL.

Communication From Wm. Ham. Hall Stating That Holdings Other Than Those Required for a Municipal Water Supply Are Not for Sale.

San Francisco, Cal., September 21st, 1908.

The Public Utilities Committee of the Honorable Board of Supervisors, City and County of San Francisco—Gentlemen: Acknowledging the receipt of the communication of Mr. John Behan, Clerk of your Board, under date of the 15th inst. and written in your behalf, I am to say, for the parties who control the Eleanor and Cherry creeks properties as to which you inquire.

First, you request that we "Give an unconditional and unrestricted offer of sale of all lands, reservoir rights, claims and appropriations upon Eleanor and Cherry creeks and Cherry river throughout their entire lengths without any reservation or other claims whatever."

To this we reply that all of the very extended and many rights and properties to which this request would apply, except those located at Lake Eleanor, are wholly outside of any water supply or other project which the City of San Francisco has ever contemplated, have nothing to do with the so called Hetch Hetchy project, but compose the basis of a large project of our sole origination, on which we

have been for some years at work, and they are not for sale.

Second, you request that we "Give an unconditional and unrestricted offer of sale of all the lands, reservoir rights, claims and appropriations upon Eleanor creek throughout its entire length without any reservations or other claims whatsoever."

To this we respond that this offer would include rights and properties not located at or tributary to the Lake Eleanor reservoir, which were never included in any City water supply or other project, which are parts of the extended project of our sole origination, and as to which the City of San Francisco has no right, upon the basis of its holding a permit to use the Government lands at Lake Eleanor, to demand that we set a price.

These separate properties are: first, our water right to the current or ordinary flow of the stream below the park line, to the extent of our appropriations at points far below Lake Eleanor, and, second, our tract of 640 acres of land, also outside of the park and a number of miles below Lake Eleanor, covering the junction of Cherry and Eleanor Creeks, and each of these streams for a half mile or more above their junction.

These properties are not for sale.

Under date of the 11th inst. we expressed a desire to co-operate with the city in securing complete control of its Hetch Hetchy and Lake Eleanor water supply, and we indicated willingness to sell to the City, practically at its own figure our holdings at Lake Eleanor necessary for that purpose.

In that offer we reserved our power right in the flood waters above the commencement of the City's water supply undertaking. We are unable to see that this reservation would limit or embarrass the City's water-supply project. This reservation covers the only holding which we have at Lake Eleanor that we have not freely offered.

When the City has adopted its proposed project, and we hope before the time comes for such adoption, we will be prepared to talk definitely about selling unreservedly our Lake Eleanor holdings.

Meanwhile, please accept our assurance that we are not disposed to be either unreasonable or unfriendly towards the City in this matter, but are compelled to be business-like.

Your request that we name a price unreservedly on our holdings or some of them, is a request that we remodel a great project, not only physically but financially remodel it—a project which has nothing whatever to do with San Francisco affairs or utilities, and we wish to take time to consider it. Our project has been held up for six years by these complications, of which that

at Lake Eleanor is only one. We have just come to a point where we can go ahead with it. We hope that we have said enough to enable the City to go ahead with its proposed preliminary steps.

Respectfully yours,

WM. HAM. HALL.

Report of Public Utilities Committee on Incurring Bonded Indebtedness for Acquisition of a Water Supply.

San Francisco, September 23rd, 1908.

To the Honorable the Board of Supervisors of the City and County of San Francisco—Gentlemen: In the matter of the acquisition of a municipal water supply with sources at Lake Eleanor and Hetch Hetchy valley and from the waters of the Tuolumne river, which sources were declared available by your Honorable Board by Ordinance No. 492 (New Series), approved June 23rd, 1908, your Public Utilities Committee presents herewith the following report:

That pursuant to said Ordinance there was filed on September 21, 1908, by the Board of Public Works plans and estimates of cost of said supply as prepared by the City Engineer.

Pursuant to the provisions of the Charter an ordinance numbered 525 (New Series) was duly passed and approved July 14, 1908, requesting owners of existing utilities to submit an offer to sell to the City and County their water supply and works, and in pursuance of said Ordinance the Clerk of your Honorable Board published a notice inviting and soliciting such offers and further caused copies of said notice to be served upon the officers of the Spring Valley Water Company and the County Line Water Company, said offers to be submitted not later than September 14, 1908.

That an offer was received from the County Line Water Company to sell its plant to the City and County for the sum of \$60,000, which offer is herewith submitted to your Honorable Board for consideration.

That no offer has been received from the Spring Valley Water Company, although said Company acknowledged receipt of service of notice. It is therefore necessary as the next step in the proceedings in the matter of the acquisition of a water supply that your Honorable Board pass an ordinance determining and declaring that it will be necessary to incur a bonded indebtedness to acquire said water supply inasmuch as it appears from estimates of the City Engineer that the cost thereof cannot be borne entirely out of the annual revenues.

It is unnecessary at the present time to submit to the people the question of incurring a bonded indebtedness for the entire estimate, to wit: \$42,917,030, but it is essential that the question be submitted to the people of approving

the selection of the Lake Eleanor and Hetch Hetchy valley sites as sources of water supply, in order to comply with the agreement heretofore made with the Department of the Interior when the use of said sites was granted to the City and County. To carry out this agreement it will be necessary to expend eventually \$750,000, \$150,000 of which can be paid out of the annual revenues and the remainder \$600,000 must be borne through bond issue.

The Ordinance herewith submitted makes recital of the foregoing facts and expressly declares that it is necessary to incur a bonded indebtedness to fulfill the conditions imposed upon us by the Department of the Interior, that is to say, to purchase patented lands in private ownership in and adjacent to Hetch Hetchy valley and Lake Eleanor and exchange the same with the United States Government for the government lands in the reservoir sites and also to commence the initial work required by the decision of the Secretary of the Interior.

Your Committee therefore recommends the passage to print of the Bill herewith submitted.

Respectfully submitted,

A. H. GIANNINI,

D. C. MURPHY,

R. McLERAN,

Public Utilities Committee.

Opinion of City Attorney.

September 21, 1908.

Board of Supervisors, 70 Eddy street.

Gentlemen: I am in receipt of your communication of September 19, enclosing a proposed Bill to be submitted at the meeting of your Board today, declaring that the cost of a water supply and works cannot be met out of the current revenues and that a bonded indebtedness is necessary.

I have examined the proposed Ordinance and report the same to be satisfactory.

Very truly yours,

PERCY V. LONG,

City Attorney.

Read and ordered filed.

Whereupon, Supervisor Giannini introduced the following Bill, which, on his motion, was passed for printing:

Declaring Necessity of Incurring a Bonded Indebtedness for the Purchase of a Municipal Water Supply.

Bill No. 653. Ordinance No. — (New Series). Reciting that plans and estimates of cost of the acquisition, construction and completion of a public utility, to wit: A Water Supply and Works to be owned and controlled by the City and County of San Francisco to furnish to said City and County and to the inhabitants thereof a sufficient supply of water for all purposes, have been filed; that an offer to sell an existing utility has been received from the County Line Water Company, and has

been considered by the Board of Supervisors, and declaring that a portion of said estimated cost can be paid from the annual revenue or from funds derived from taxes levied for that purpose; that a portion of said estimated cost cannot be so paid and will require the incurring of a bonded debt for the purpose of purchasing certain rights, lands and the construction of certain works for the securing of a source of water supply; this Ordinance being the third of a series of Ordinances to be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the public utility herein named.

Be it ordained by the people of the City and County of San Francisco as follows:

Section 1. It is hereby recited that the Board of Public Works on the 21st day of September, 1908, placed on file with the Board of Supervisors plans and estimates of the cost of original construction and completion by the City and County of San Francisco of a public utility to wit: A Water Supply and Works to be owned and controlled by the City and County of San Francisco to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes; that the total estimated cost of such water supply and works is the sum of \$42,917,030; that said plans and estimates contain sufficient information to enable the Board of Supervisors to take further proceedings to secure said described public utility, and to make the declarations herein contained.

Section 2. That an offer to sell to the City and County of San Francisco for the sum of \$60,000 an existing public utility now used in supplying water to a portion of the City and County and a portion of the inhabitants thereof, has been submitted by the County Line Water Company to the Board of Supervisors, and that the Board of Supervisors has considered such offer, and it is hereby declared that if such offer should be accepted by the City and County said cost thereof can be paid out of the annual revenues of the City and County, in addition to the other necessary expenses thereof, or from funds derived from taxes levied for that purpose.

That no other offer to sell an existing utility herein described has been received by the Board of Supervisors, though said Board by Ordinance No. 505 (New Series) did solicit that such offers should be made and gave notice as required by said Ordinance that it would receive and consider such offers.

Section 3. It is hereby determined and declared:

1. That of the entire estimated cost of the original construction and com-

pletion of the public utility herein named as shown by the plans and estimates of cost thereof as herein recited, public interest and necessity require the sum of Seven Hundred and Fifty Thousand (\$750,000) Dollars for immediate use in purchasing certain lands, rights, claims and the construction of certain works in connection with the Hetch Hetchy and Lake Eleanor Water Supply for the City and County of San Francisco; that the reason such immediate use is necessary is that on the 11th day of May, 1908, the Hon. Secretary of the Department of the Interior of the United States Government did approve of certain maps of location for the Lake Eleanor and the Hetch Hetchy reservoir sites as a source of water supply for said City and County, and granted certain reservoir rights of way and privileges, subject to certain conditions and stipulations to be accepted and fulfilled by the City and County, which conditions and stipulations are set forth and agreed to in Resolution No. 2342 (New Series) of the Board of Supervisors, adopted June 1, 1908, and said sum of \$750,000 is necessary to be expended by the said City and County in order that said conditions and stipulations may be fully complied with on the part of said City and County.

2. That of said Seven Hundred and Fifty Thousand (\$750,000) Dollars, the sum of One Hundred and Fifty Thousand (\$150,000) Dollars can be paid out of the annual revenue of the City and County, in addition to the other necessary expenses thereof, or from funds derived from taxes levied for that purpose.

3. That of said sum of Seven Hundred and Fifty Thousand (\$750,000) Dollars, the sum of Six Hundred Thousand (\$600,000) Dollars cannot be paid out of the annual income of the City and County in addition to the other necessary expenses thereof, or from funds derived from taxes levied for that purpose, and will require the incurring of a bonded debt to the amount of Six Hundred Thousand Dollars for the purpose herein recited.

4. That the remaining portion of said estimated cost of said public utility, to wit: the sum of \$42,167,030, is too great to be paid out of the annual revenue of the City and County in addition to the other expenses thereof, or from funds derived from taxes levied therefor, and will require the incurring of a bonded debt to the amount last stated, but that said debt of \$42,167,030 need not be incurred until after the lands, rights, claims and works shall have been obtained as aforesaid.

Section 4. This Ordinance is the third of a series of Ordinances to be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the public utility herein named.

Section 5. This Ordinance shall take effect immediately.

Action Deferred.

Supervisor Giannini introduced the following Bill which on his motion was *laid over one week*:

Regulating Street Car Traffic.

Bill No. 654, Ordinance No. — (New Series), entitled, "Regulating street railroads and cars in the City and County of San Francisco, and prescribing rules and regulations for the protection of the public from danger and inconvenience in the operations of such railroads."

Adopted.

The following Resolutions were *adopted*:

Granting United Railroads Permission to Withdraw Bid for Franchise on Sixteenth and Kansas Streets.

On motion of Supervisor Giannini: Resolution No. 2684 (New Series), as follows:

Whereas, United Railroads of San Francisco did, on the 29th day of December, 1906, file with the Clerk of this Board its bid for a franchise and privilege for the construction, operation and maintenance of a double track railroad to be built, constructed and maintained over the route and upon the conditions referred to in the Resolution of this Board, known as Resolution No. 540 (New Series), passed November 19, 1906, and approved by the Mayor on the 20th day of November, 1906, determining to grant such franchise and privilege; said bid being accompanied by the bond of United Railroads of San Francisco filed with the Clerk of this Board in the sum of ten thousand dollars (\$10,000.00) with Aetna Indemnity Company as surety, the same having been approved by the Mayor; and,

Whereas, Said bid has not been acted upon or accepted, and said United Railroads of San Francisco has formally withdrawn its said application and bid and requested that its said bond be cancelled, exonerated and returned to it; therefore

Resolved, That permission be and is hereby granted to United Railroads of San Francisco to withdraw its said application and bid and said bond is hereby exonerated, and the Clerk of this Board is hereby authorized and directed to surrender and return said bond to United Railroads of San Francisco.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

CONSTRUCTION OF AUXILIARY WATER SUPPLY SYSTEM FOR FIRE PROTECTION.

The following Bill, heretofore passed for printing and referred to the Public Utilities and Fire Committees, was taken up.

Ordering Construction of Portion of Auxiliary Water Supply System for Fire Protection.

Bill No. 641, Ordinance No. — (New Series), entitled, "Ordering the construction of a portion of the Auxiliary Water System for Fire Protection in accordance with plans and specifications submitted therefor by the Board of Public Works; adopting said plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said system, and to expend therefor a sum not to exceed \$850,000 out of the proceeds of the sale of Fire Protection bonds, issue of July 1, 1908.

Amendment.

Supervisor Giannini moved to amend by providing for unit contracts.

So ordered.

Passed for Printing.

Whereupon, Supervisor Giannini presented the following Bills, which were, on his motion, *passed for printing*:

Ordering Construction of Two Fire Boats.

Bill No. 655, Ordinance No. — (New Series), entitled, "Ordering the construction of two fire boats, component parts of the Auxiliary Water System for Fire Protection, in accordance with plans and specifications submitted therefor by the Board of Public Works and approved by the Board of Fire Commissioners; adopting said plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said fire boats, and to expend therefor a sum not to exceed \$310,000 out of the proceeds of the sale of Fire Protection bonds."

Ordering Construction of Certain Reinforced Concrete Fire Cisterns.

Also, Bill No. 656, Ordinance No. — (New Series), entitled, "Ordering the construction of certain reinforced concrete fire cisterns, component parts of the Auxiliary Water System for Fire Protection, in accordance with plans and specifications submitted therefor by the Board of Public Works and approved by the Board of Fire Commissioners; adopting said plans and specifications and authorizing said Board of Public Works to enter into contracts for the construction of said fire cisterns and to expend therefor a sum not to exceed \$197,500 out of the proceeds of the sale of Fire Protection bonds."

Also, Bill No. 657, Ordinance No.

— (New Series), entitled, "Ordering the construction of certain reinforced concrete fire cisterns, components parts of the Auxiliary Water System for Fire Protection, in accordance with plans and specifications submitted therefor by the Board of Public Works and approved by the Board of Fire Commissioners; adopting said plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said fire cisterns, and to expend therefor a sum not to exceed \$21,500 out of the proceeds of the sale of Fire Protection bonds."

Ordering Construction of Multi-Stage Turbine Pumps and Steam Turbines.

Also, Bill No. 658, Ordinance No. — (New Series), entitled, "Ordering the construction of multi-stage turbine pumps and steam turbines for the fireboats, salt water pumping stations and fresh water pumping stations, a portion of the Auxiliary Water System for Fire Protection, in accordance with plans and specifications submitted therefor by the Board of Public Works, and approved by the Board of Fire Commissioners, adopting said plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said system, and to expend therefor a sum not to exceed \$257,000 out of the proceeds of the sale of Fire Protection bonds."

CONSTRUCTION OF BOND ISSUE SCHOOL BUILDINGS.

The following Bill heretofore passed for printing and referred to the Public Utilities Committee was taken up:

Ordering Construction of Certain School Buildings.

Bill No. 642, Ordinance No. — (New Series), entitled, "Ordering the construction of the Mission Grammar School building, the South End Primary School building, the Bryant Cosmopolitan School building, the Sutro Grammar School building and the Madison Primary School building, in accordance with plans and specifications submitted therefor by the Board of Public Works, and approved by the Board of Education, and authorizing the Board of Public Works to enter into contract for the construction of said buildings, and to expend therefor certain sums out of the proceeds of the sale of School Bonds of issue of July 1, 1908."

Amendment.

On motion Bill No. 642 was amended by providing for unit contracts and in accordance with said amendment the following Bills were *passed for printing*:

Passed for Printing.

Ordering Construction of Mission Grammar School Building.

Bill No. 659, Ordinance No. — (New Series), entitled, "Ordering the construction of the Mission Grammar School building, in accordance with plans and specifications prepared therefor under direction of the Board of Public Works, and approved by the Board of Education, authorizing and directing the Board of Public Works to enter into contract for the construction of said school, and to expend therefor the sum not to exceed \$160,000.00 out of the proceeds for sale of School Bonds, and authorizing progressive payments to be made during the construction of said school building."

On motion of Supervisor Rixford: Bill No. 664, Ordinance No. — (New Series), entitled, "Setting aside and dedicating a portion of 100 Vara Block No. 397 to Children's Playground purposes, and placing same under the exclusive control and jurisdiction of the Children's Playground Commission."

Extension of Time, Excavation of Infirmary Site, Almshouse Tract.

Also, Resolution No. — (New Series), as follows:

Resolved, That the Daniel O'Day Company be and is hereby granted an extension of 15 days' time from and after September 10, 1908, within which to complete its contracts for excavating the site for an Infirmary at the Almshouse Tract.

This extension of time is recommended by the Board of Public Works on account of electric light poles not having been removed.

Adopted.

The following Resolutions were *adopted*:

City Attorney to Solicit Offer for Sale to City of Certain Parcel of Land on Northerly Side of Filbert Street, East of Jones Street, Adjoining Hancock School.

On motion of Supervisor Rixford: Resolution No. 2685 (New Series), as follows:

Resolved, That the City Attorney be and he is hereby authorized and requested to solicit from the owner of the following described lot of land offers to sell to the City and County of San

Francisco said lot as an additional site whereon to construct the Hancock Grammar School, to wit:

Commencing at a point on the northerly line of Filbert street 142 feet 6 inches easterly from the corner formed by the intersection of the northerly line of Filbert street and the easterly line of Jones street; running thence easterly along said northerly line of Filbert street 60 feet; thence at a right angle northerly 120 feet to the southerly line of Valparaiso street; thence at a right angle westerly 60 feet; thence at a right angle southerly 120 feet to the northerly line of Filbert street and point of commencement. Being a portion of 50 Vara Block No. 208.

When said offers are received the City Attorney is requested to transmit the same to the Board of Supervisors for consideration.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

CONSTRUCTION OF BOND ISSUE SEWER SYSTEM.

The following Bill, heretofore passed for printing and referred to the Street Committee, was taken up:

Ordering Construction of Certain Sewers of Proposed Sewer System.

Bill No. 643, Ordinance No. — (New Series), entitled, "Ordering the construction of certain sewers under the general plan for a sewer system, in accordance with plans and specifications prepared therefor by the Board of Public Works; adopting and approving said plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said sewers and to expend therefor a sum not to exceed \$800,000.00 out of the proceeds of the sale of Sewer Bonds, issue of July 1, 1908."

Amendment.

Supervisor Center moved to amend by providing for unit contracts.

So ordered.

Passed for Printing.

Whereupon, Supervisor Center presented the following Bills which were on his motion *passed for printing*:

Ordering Construction of Sewers in Fulton and Devisadero Streets.

Bill No. 665, Ordinance No. — (New Series), entitled, "Ordering the construction of certain sewers and apertenances along Fulton and Devisadero streets from Masonic avenue to Grove street, under the general plan for a sewer system, in accordance with plans and specifications prepared therefor by the Board of Public Works; adopting and approving said

plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said sewers and to expend therefor a sum not to exceed \$32,000 out of the proceeds of the sale of Sewer Bonds."

Ordering Construction of Sewers in Fourteenth Street, From Howard to Harrison Streets, and Lateral Sewers in Adjacent Streets.

Also, Bill No. 666, Ordinance No. — (New Series), entitled, "Ordering the construction of certain sewers in Fourteenth street from the westerly line of Howard street to the westerly line of Harrison street, together with lateral sewers in adjacent streets, under the general plan for a sewer system, in accordance with plans and specifications prepared therefor by the Board of Public Works, adopting and approving said plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said sewers and to expend therefor a sum not to exceed \$53,000 out of the proceeds of the sale of Sewer Bonds."

Ordering Construction, Northerly Portion of East Potrero Intercepting Sewer.

Also, Bill No. 667, Ordinance No. — (New Series), entitled, "Ordering the construction of the northerly portion of the East Potrero intercepting sewer, under the general plan for a sewer system, in accordance with plans and specifications prepared therefor by the Board of Public Works, adopting and approving said plans and specifications and authorizing said Board of Public Works to enter into contract for the construction of said sewer and to expend therefor a sum not to exceed \$130,000 out of the proceeds of the sale of Sewer Bonds."

Granting Temporary Permit to United Railroads to Install Curves at Second and Market Streets and Twelfth and Market Streets and to Operate Cars Thereon.

Supervisor Center introduced Bill No. 668, Ordinance No. — (New Series), entitled, "Granting to the United Railroads of San Francisco temporary permission, revocable at will of the Board of Supervisors, for the laying down of railway tracks and the operating of cars thereon with electricity by means of the overhead trolley system, from a point in Second and Market streets, thence curving into Second street, also in the center line of Market and Twelfth streets, thence curving into Twelfth street."

Motion.

Supervisor Murphy moved that matter be re-referred to the Board of Public Works.

Motion carried.

Reconsideration.

Supervisor Johnston moved reconsideration of Supervisor Murphy's motion to re-refer to Board of Public Works.

Passed for Printing.

The following matter was *passed for printing*:

Pipe Line Permit.

Wm. F. Wilson.

On motion of Supervisor Center:

Resolution No. — (New Series), as follows:

Resolved, That Wm. F. Wilson & Co. be and is hereby granted permission, revocable at will of the Board of Supervisors, to lay pipes for the purpose of conveying steam, commencing at a point 115 feet distant from the northwesterly corner of Powell and Geary streets, running thence easterly from the westerly line of Powell street five feet, then at right angles southerly on Powell street 205 feet, thence easterly to a point on Powell street, distant 20 feet from the south-easterly corner of Powell and Geary streets.

The said pipes shall be laid to the satisfaction and under the supervision of the Board of Public Works, the Department of Electricity and the Fire Marshal. Wm. F. Wilson & Co. shall at all times while exercising such privilege, keep in repair the roadway for the space of two feet over said pipe line.

Adopted.

The following Resolutions were *adopted*:

Intention to Change Grades on Certain Streets.

On motion of Supervisor Center:

Resolution No. 2686 (New Series), Declaring it to be the intention of the Board of Supervisors to change and establish grades at certain points and elevations on Ninth avenue, on Tenth avenue, on Eleventh avenue, on Twelfth avenue, on Thirteenth avenue, on Fourteenth avenue, on Fifteenth avenue, on Eighteenth avenue, on Nineteenth avenue, on Twentieth avenue, on Twenty-first avenue, on Twenty-second avenue, on Twenty-third avenue, on "P" street, on "Q" street, on "S" street, on "T" street, on "U" street and on "V" street, in accordance with the recommendation of the Board of Public Works, filed September 3, 1908; and further declaring that no assessment district is necessary as no damage will result from said change of grade, inasmuch as the improvements already conform to the proposed grade; also directing said Board of Public Works to cause to be conspicuously posted along the streets upon which said change or modifications of grades is contemplated, notice of passage of this resolution of intention.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Mur-

dock, Murphy, Payot, Pollok, Rixford—18.

Also, Resolution No. 2687 (New Series), Declaring it to be the intention of the Board of Supervisors to change and establish grades at certain points and elevations on Tiffany avenue, between Valencia and Twenty-ninth streets, in accordance with the recommendation of the Board of Public Works, filed September 3, 1908; and further declaring that no assessment district is necessary as no damage will result from said change of grade, inasmuch as the improvements already conform to the proposed grade; also directing said Board of Public Works to cause to be conspicuously posted along the street upon which said change or modification of grades is contemplated, notice of passage of this resolution of intention.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Adopted.

The following Resolutions were introduced under suspension of the rules and *adopted*:

Masquerade Ball Permit.

On motion of Supervisor Hocks:

Resolution No. 2688 (New Series), as follows:

Resolved, That O. T. Ripperdan be and is hereby granted permission to hold a masquerade ball on October 10, 1908, at Franklin Hall, No. 1881 Fillmore street, provided the usual license fee of \$15 is paid.

The attention of the Tax Collector is called to the provisions of this Resolution.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly,

D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Tax Collector to Collect Licenses Due From Certain Theaters.

Also Resolution No. 2689 (New Series), as follows:

Resolved, That the Tax Collector be and he is hereby authorized and directed to demand, collect and receive licenses due and payable from the following theaters: Central, Empire, Lyceum, Novelty, Globe, National, Wigman and Van Ness, in accordance with provisions of Ordinance No. 322 (New Series), and be it further

Resolved, That Resolution No. 2653 (New Series) be and the same is hereby repealed.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Referred.

Supervisor Murdock introduced the following:

Amending Ordinance Regulating Roller Skating Rinks, Revolving Wheels, Etc., Prohibiting Location of Same Within One Hundred and Fifty Feet From Any Church or School.

Bill No. 671, Ordinance No. — (New Series), entitled, "Amending Ordinance No. 777, entitled, 'Imposing a license on public roller skating rinks, revolving wheels, chutes, toboggan slides, museums, kinetoscope and phonograph parlors, panorama and cyclorama,' approved May 28, 1903, and amended April 1, 1908," by adding a new section thereto to be numbered Section 4-B, relative to the issuance of permits by the Board of Police Commissioners for public roller skating rinks, revolving wheels, chutes, toboggan slides, kinetoscope and phonograph parlors, panorama and cyclorama.

Ordered referred to the Police Committee.

Changing Names of Certain Streets.

Also, Resolution No. — (New Series), as follows:

Whereas, An Ordinance is before the Street Committee proposing to change the names of certain streets, be it resolved that in connection therewith advisability is called to the necessity of making the following changes:

1st. Changing the name of A street to West Ellis street; changing the name of B street to West Turk street; changing the name of C street to West McAllister street.

It being understood that when the streets now ending at the cemeteries are opened through to the Ocean the prefix West shall be dropped.

2nd. Changing the name New Montgomery street to South Montgomery street.

3rd. Doing away with the use of numbered avenues in South San Francisco. We now have streets numbered from First and Thirty-fourth, avenues from First to Forty-ninth, and another set of avenues from First South to Forty-fourth South. This leads to great confusion, and it would seem that the least settled district can best afford to surrender the numbers.

The following names are suggested as not being now in use and as being associated with two groups of geographical names of equal number, one being the names of mountains and one of rivers:

Antero, Ben Lomond, Castle, Diablo, Etna, Freeman, Galena, Iliamna, Jura, Katahdin, Le Conte, McKinley, Neplin, Ouray, Pilot, Quebec, Rainier, Shasta, Tyndall, Ural, Vesuvius—Avon, Brazos, Columbia, Danube, Elbe, Fraser, Guadalupe, Hudson, Indus, James, La Plata, MacKenzie, Nelson, Orinoco, Potomac, Quinebaug, Rio Grande, San Joaquin, Truckee, Umpqua, Volga.

4th. In cases where the same name is used for a street and an avenue, not continuous, the changing of one or the other.

5th. Compelling the posting of the names of all streets on the corners thereof, with the addition of the block numbers when the same are not accessible from numbered buildings.

Ordered referred to Streets Committee.

Providing for Street Signs at Crossings.

Supervisor Pollok introduced:

Resolution No. — (New Series), as follows:

Whereas, The absence of signs bearing the names of streets at street intersections is a source not only of inconvenience to strangers but to residents, therefore

Resolved, That the Street Committee of this Board be and it is hereby directed to prepare and present an Ordinance that will provide a method for the placing of street signs at street intersections.

Ordered referred to the Streets Committee.

City Attorney to Advise as to Legal Status of Sutter Street Railroad Company Relative to Use of Outer Tracks on Lower Market Street.

Also, Resolution No. — (New Series), as follows:

Whereas, The present condition of the street car service at the junction of Sutter and Market streets is a serious reflection on San Francisco and on common sense, and,

Whereas, If the Railroad Company has no right or title to a franchise for the outer tracks from Sutter street to the Ferry, on Market street, such tracks should be immediately

removed by the municipal authorities from the street, and,

Whereas, If the Railroad Company has a complete legal, indefensible title to such tracks, and the municipal government is powerless to remove said tracks or to interfere with the exercise of said franchise, it is proper that arrangements, be made for the removal of the horse cars and the substitution of electricity, so that the people may not be further punished by a useless controversy, and,

Whereas, The public has no means of ascertaining the precise legal standing of the parties to this controversy, now therefore,

Resolved, That the City and County Attorney be requested and instructed to advise this Board, at his earliest convenience, as to the legal status of the Railroad Company and its outer tracks on Market street from Sutter street to the Ferry.

Motion.

Supervisor Giannini moved that Resolution be referred to the Public Utilities Committee.

So ordered.

Passed for Printing.

The following matters were introduced under suspension of rules and *passed for printing*:

Providing \$1568, Fitting Up Vault, Treasurer's Office.

On motion of Supervisor Rixford: Resolution No. — (New Series), as follows:

Resolved, That the sum of \$1,568 be and the same is hereby set aside, appropriated and authorized to be expended out of the item in the budget

of the fiscal year 1908-9, "For paving, repaving and repairs to streets, for reconstruction and repairs to sewers and for construction of and repairs to buildings," for the purpose of enabling the Board of Public Works to fit up the vault of the Treasurer's office with proper coin cases, bond cases, tables and grill work.

The attention of the Auditor and the Treasurer is hereby called to the provisions of this Resolution.

Authorizing Payment in Sum of \$2815 to Wm. A. Newsom, Extra Work on Yerba Buena School.

Also, Resolution No. — (New Series), as follows:

Resolved, That an expenditure in the sum of \$2,815 be and the same is hereby authorized to be made out of the "Special Deposit Account" for the construction of the Yerba Buena School, in payment to William A. Newsom, for extra work on said Yerba Buena School, as per contract and bill rendered.

Referred.

Relative to Innovation in Brick Construction.

Supervisor Rixford presented:

Communication—From Jos. A. Hofmann, calling attention to the merits of his new method of brick construction.

Ordered *referred to the Building Laws Committee.*

ADJOURNMENT.

NEW BUSINESS (Out of Order).

Denying Petition of Pacific Supply Company for Permission to Blast.

Motion.

Supervisor Broderick moved that Resolution No. —, as follows, be considered:

So ordered.

Resolved, That the petition of the Pacific States Supply Co., filed September 19, 1908, for permission to blast in premises situate in Blocks Nos. 237-8-9, Horner's Addition, and also in that portion situate in a southeasterly direction from the point of intersection of Douglass and 26th streets be and the same is hereby denied.

(Protest filed September 24, 1908.)

Motion.

Supervisor Connolly moved that Walter A. Linforth be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon, Walter A. Linforth, representing the petitioners, addressed the Board stating that it was the intention of the petitioner to drive a tunnel into the hill and to blast from underneath. He stated further that only four-pound charges of powder were to be used in each blast, that the detonation would not be heard 200 feet from the place of operation and that as the permit would be a revocable one, the Board of Supervisors could stop operations whenever the company violated its agreement or the operation of the quarry became a public nuisance.

Wm. White, representing the protestants, also addressed the Board stating that the quarry was already 67 feet below the official grade of the street, that the proposed tunnel was to run parallel and close to Twenty-sixth street and if permit was granted said street would be undermined or considerably weakened. He also read

a communication from the Crocker Estate Company, which has large property interests in the vicinity of quarry, favoring the protest of the residents.

Motion Lost.

Supervisor McLeran moved that the matter go over one week.

Motion lost.

Adopted.

Whereupon, the question being taken on Resolution same was *adopted* as Resolution No. 2690 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, Murdock, Murphy, Payot, Pollok, Rixford—16.

Report of Committee on Civil Service Relative to Improvement of Civil Service Provisions of Charter.

To the Honorable The Board of Supervisors of the City and County of San Francisco,—

Gentlemen: Your Committee on Civil Service respectfully recommends that the accompanying letter be sent to the Civil Service Commission, and that a copy be forwarded to the head of each department conducted under Civil Service regulations.

Very respectfully.

CHAS. A. MURDOCK,

THOS. JENNINGS,

HENRY PAYOT,

Committee on Civil Service.

Office of the Clerk of the Board of Supervisors, New Hall of Justice, 70 Eddy street. San Francisco, Cal., Sept. 28, 1908.

To the Honorable, The Civil Service Commission, Grant Bldg., San Francisco, Cal.—

Gentlemen: The Legislative Department of the City Government is desirous of doing all in its power to make effective the Civil Service provisions of the Charter, and to submit to the voters any changes that experience has shown to be necessary. It therefore invites any suggestions as to Charter amendments that you consider absolutely called for.

The end to be kept in view should be—not Civil Service for its own sake, but the better public service which it is designed to provide. If as a system it does not promote justice, economy and efficiency, it will fall into disrepute and give way to other methods. If it fails to accomplish these ends it is by reason of either unwise limitations and provisions of the laws that establish it, or in the defective or illiberal administrations of those laws. It is our province to give the best possible laws by affording the voters an opportunity for their enactment. It is yours to administer them strictly, but in a broad, judicious and liberal spirit.

If the present provisions of the law or the rules enacted by you for their

administration tend to protect only the employe and do not also protect the City, there is call for amendment.

The laborer must be secure in his right to hold his place as against any political interference and so long as he renders good service, but he must not be protected in inefficiency.

The interest of the City in receiving service comes first. It is for that the law is established and not primarily for the protection of any rights gained under it by the individual.

If charges are made for incompetency, insubordination, misconduct, or any cause impairing efficient service, thorough and impartial investigation should be made and the conclusion of the Commission, based on absolute justice, should be rigidly enforced, regardless of blame or criticism.

If experience has shown that certain positions requiring executive ability, or other qualifications not to be established by examination, would on the whole be more efficiently filled by appointment, they should be removed from the Civil Service list.

The Board of Supervisors is committed to one end—the best possible public service, and in furthering this it wishes the co-operation of every department.

Suggestions as to Charter amendments, constitutional amendments or to the improvement in any way of the administration of the Municipal Civil Service will be given careful consideration.

Yours truly,
COMMITTEE ON CIVIL SERVICE,
BOARD OF SUPERVISORS.

BUILDINGS UNDER CONSTRUCTION.

Monroe School—Brickwork finished. Heating and ventilating ducts and rough plumbing nearly completed. Roof rafters and sheathing on ready for gravel roof. Second story ready for lathing.

Sunnyside Primary School—Inside finish complete. Blackboards set. Heating contractor setting furnace and building plenum chamber. One coat of stain on inside finish.

Laguna Honda School—Finish coat of plaster being put on. Concrete floors complete except in toilets. Heating and ventilating ducts installed. Stairways in place.

Winfield Scott School—Inside finish complete and one coat of stain on. Heating and ventilating plant being installed. Sandpapering floors. Plumbing fixtures set.

Washington Grammar School—Foundation in. Steel frame up. All concrete finished. Brickwork started. Rough plumbing installed. Work stopped temporarily owing to difficulty with contractor.

Golden Gate School—Concrete floors laid except in toilets. Second coat of plaster on.

Yerba Buena School—Concrete for framework and rough enclosure completed. Exterior plastering completed. Grading of lot going on. Finishing of building and installation of heating and ventilating plant under estimation.

Bush Street Fire House—Brick and stone work complete. Rough plumbing installed. Gas and water pipes set. Sheathing on ready for roofing. Partitions all set in second story ready for lathing.

All of the above buildings, with the exception of the Yerba Buena and Bush street fire house, are being built with moneys provided by last Bond Issue.

Infirmary on Almshouse Tract—The contract for the grading for this building is nearing completion. Bids for erection of the main constructive work of the building were opened on September 2, 1908, the lowest bid being for \$119,000.00. All additional plans and specifications are approaching completion and will be ready for estimation in a few weeks.

Almshouse Tank—Concrete foundation finished; working on wood foundation of tank.

BUILDINGS TO BE ERECTED OUT OF THE GENERAL FUND.

Engine No. 1—On Pacific street.

Truck No. 1—On O'Farrell street.

Truck and Hose No. 10—On Sacramento street.

Estimates were received for the first two of the above named fire houses on September 11, 1908. Plans and specifications for Hose No. 10 are complete and will be under estimation during the coming week.

Pullman Company.

Bill No. 652, Ordinance No. 561 (New Series), as follows:

Declaring the length of the main track and assessed value of the railway of the Pullman Company in the City and County for the year 1908.

Whereas, Pursuant to Section 3665 of the Political Code, this Board is required to pass an order stating and declaring the length of the main track and the assessed valuation of each railway in this City and County as fixed by the State Board of Equalization; and

Whereas, The Auditor of this City and County has transmitted to this Board, on the 14th day of September, 1908, a copy of this statement made and received from the State Board of Equalization fixing the assessment of the Pullman Company, which recited that:

The State Board of Equalization on the 3d day of August, 1908, assessed for the year 1908 the Pullman Company for its franchise, roadway, road-bed, rails and rolling stock in the State of California in the aggregate sum of \$1,682,117.

The entire length of the main track of railway of said company in the said State is 3,226.397 miles.

The length of the main track of railway of said company in the City and County of San Francisco is 11.96 miles.

The assessed value per mile of said railway, as fixed by a pro rata distribution per mile of the assessed value of the whole franchise, roadway, road-bed, rails and rolling stock of such railway of the said company within the State, according to said assessment of said State Board, is \$521.36.

The apportionment of the assessment of said franchise, roadway, road-bed, rails and rolling stock by said Board for the City and County of San Francisco is, according to the assessment of said State Board, \$6,235; now, therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby expressly stated and declared that the length of the main track of the railway of the Pullman Company in this City and County is 11.96 miles and that the assessed value of the railway of the Pullman Company in the City and County for the year 1908 is, according to said assessment of said State Board, \$6,235.

RELATING TO THE ACQUISITION OF A MUNICIPAL WATER SUPPLY.

Declaring Necessity of Incurring a Bonded Indebtedness for the Purchase of a Municipal Water Supply.

Bill No. 653, Ordinance No. 562 (New Series), Reciting that plans and estimates of cost of the acquisition, construction and completion of a public utility, to wit: A Water Supply and Works, to be owned and controlled by

the City and County of San Francisco to furnish to said City and County and to the inhabitants thereof a sufficient supply of water for all purposes, have been filed; that an offer to sell an existing utility has been received from the County Line Water Company, and has been considered by the Board of Supervisors, and declaring that a portion of said estimated cost can be paid from the annual revenue or from funds derived from taxes levied for that purpose; that a portion of said estimated cost cannot be so paid and will require the incurring of a bonded debt for the purpose of purchasing certain rights, lands and the construction of certain works for the securing of a source of water supply; this Ordinance being the third of a series of Ordinances to be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the public utility herein named.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited that the Board of Public Works on the 21st day of September, 1908, placed on file with the Board of Supervisors plans and estimates of the cost of original construction and completion by the City and County of San Francisco of a public utility, to wit: A Water Supply and Works to be owned and controlled by the City and County of San Francisco to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes; that the total estimated cost of such water supply and works is the sum of \$42,917,030; that said plans and estimates contain sufficient information to enable the Board of Supervisors to take further proceedings to secure said described public utility, and to make the declarations herein contained.

Section 2. That an offer to sell to the City and County of San Francisco for the sum of \$60,000 an existing public utility now used in supplying water to a portion of the City and County and a portion of the inhabitants thereof, has been submitted by the County Line Water Company to the Board of Supervisors, and that the Board of Supervisors has considered such offer, and it is hereby declared that if such offer should be accepted by the City and County said cost thereof can be paid out of the annual revenues of the City and County, in addition to the other necessary expenses thereof, or from funds derived from taxes levied for that purpose.

That no other offer to sell an existing utility herein described has been received by the Board of Supervisors, though said Board by Ordinance No. 505 (New Series) did solicit that such

offers should be made and gave notice as required by said Ordinance that it would receive and consider such offers.

Section 3. It is hereby determined and declared:

1. That of the entire estimated cost of the original construction and completion of the public utility herein named as shown by the plans and estimates of cost thereof as herein recited, public interest and necessity require the sum of Seven Hundred and Fifty Thousand (\$750,000) Dollars for immediate use in purchasing certain lands, rights, claims and the construction of certain works in connection with the Hetch Hetchy and Lake Eleanor Water Supply for the City and County of San Francisco; that the reason such immediate use is necessary is that on the 11th day of May, 1908, the Hon. Secretary of the Department of the Interior of the United States Government did approve of certain maps of location for the Lake Eleanor and the Hetch Hetchy reservoir sites as a source of water supply for said City and County, and granted certain reservoir rights of way and privileges, subject to certain conditions and stipulations to be accepted and fulfilled by the City and County, which conditions and stipulations are set forth and agreed to in Resolution No. 2342 (New Series) of the Board of Supervisors, adopted June 1, 1908, and said sum of \$750,000 is necessary to be expended by the said City and County in order that said conditions and stipulations may be fully complied with on the part of said City and County.

2. That of said Seven Hundred and Fifty Thousand (\$750,000) Dollars, the sum of One Hundred and Fifty Thousand (\$150,000) Dollars can be paid out of the annual revenue of the City and County, in addition to the other necessary expenses thereof, or from funds derived from taxes levied for that purpose.

3. That of said sum of Seven Hundred and Fifty Thousand (\$750,000) Dollars, the sum of Six Hundred Thousand (\$600,000) Dollars cannot be paid out of the annual income of the City and County in addition to the other necessary expenses thereof, or from funds derived from taxes levied for that purpose, and will require the incurring of a bonded debt to the amount of Six Hundred Thousand Dollars for the purpose herein recited.

4. That the remaining portion of said estimated cost of said public utility, to wit: the sum of \$42,167,030, is too great to be paid out of the annual revenue of the City and County in addition to the other expenses thereof, or from funds derived from taxes levied therefor, and will require the incurring of a bonded debt to the amount last stated, but that said debt of \$42,-

167,030 need not be incurred until after the lands, rights, claims and works shall have been obtained as aforesaid.

Section 4. This Ordinance is the third of a series of Ordinances to be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the public utility herein named.

Section 5. This Ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Booth, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—16.

RELATING TO THE ACQUISITION OF A MUNICIPAL WATER SUPPLY.

Supervisor Giannini presented the following matters, which were read and ordered filed:

Communications from City Engineer and from Attorney, Modesto and Turlock Irrigation Districts, Relative to Decision of Secretary of Interior, Granting Reservoir Rights to San Francisco.

Office of Board of Public Works.

San Francisco, Sept. 26, 1908.

Hon. A. P. Giannini, Chairman of Committee on Public Utilities of the Board or Supervisors, City.

My Dear Sir: I enclose herewith copy of a letter received this morning from the attorney of the Modesto Irrigation District.

As Mr. Dennett was present during

all the discussions relative to the granting of reservoir rights to San Francisco and is an authority on the law and necessities of the districts, I think his interpretation will serve to put at rest some of the mooted questions which have been insistently put forward by ignorant or interested parties to mislead the public.

Respectfully,
MARSDEN MANSON,
City Engineer.

Lewis L. Dennett, Attorney at Law,
Modesto, California.

Sept. 25, 1908.

My Dear Mr. Manson: I noticed in yesterday's Chronicle an article which copied a portion of an interview with me published in our local paper, after my return from Washington.

It is possible that the portion of the interview published might be construed as a claim upon my part that the settlement with San Francisco was more favorable to the districts than to San Francisco.

I think it is only fair that you should understand our attitude in this matter. While there are some particulars in which the agreement might be more favorable to the districts, I believe that as a whole, the settlement was eminently fair to all interests concerned, and that there is assured to San Francisco the opportunity of obtaining abundant water supply with convenient storage facilities, and at the same time the districts are protected in all of the rights which they possessed to a sufficiency of water for the beneficial irrigation of all of the land contained within their boundaries, and that no unfair advantage was given either to San Francisco or to the districts.

Very truly yours,
(Signed) L. L. DENNETT.

Marsden Manson, Esq.,

City Engineer,
San Francisco.

Office of Board of Public Works,
San Francisco, Sept. 26, 1908.

L. L. Dennett, Esq., Attorney at Law,
Modesto Bank Bldg., Modesto, Cal.

My Dear Mr. Dennett: I am this morning in receipt of your timely and courteous correction of a misstatement by one of the papers of this city in a matter in which the mutual interests of San Francisco, and of the districts are vitally affected.

Like yourself I am fully satisfied that under the grant of reservoir rights to this city the interests of both parties to the great water resources of Tuolumne river are well guarded, and, that they can be developed to mutual advantage.

I take the liberty of sending copies of your letter to the Board of Supervisors and to the Mayor, and hope that

we may soon undertake the development of this supply to the benefit of both this city and the districts.

Very respectfully yours,
MARSDEN MANSON,
 City Engineer.

Opinion of City Attorney on Election Call.

Sept. 25th, 1908.

Board of Supervisors, San Francisco, Cal.—Gentlemen: I am in receipt of your communication of even date herewith, enclosing copy of proposed ordinance calling and providing for a special election to be held on the 12th day of November, 1908, for the purpose of submitting to the electors a proposition to acquire a water supply from the Tuolumne River, and for other purposes.

I have carefully examined the proposed ordinance and, though there is apparently some uncertainty as to what is really required in the Charter in these proceedings which may require a determination of court before the questions can be considered settled, the proposed ordinance seems sufficient for the purposes desired.

Yours very truly,

PERCY V. LONG,
 City Attorney.

Report of Public Utilities Committee on Calling Special Election for Acquisition of Water Supply.

To the Honorable the Board of Supervisors of the City and County of San Francisco—Gentlemen: Your Committee on Public Utilities which has in charge the proceedings for the acquisition of a municipal water supply, herewith presents for your consideration a Bill and Ordinance calling a special election for the purpose of submitting to the voters three propositions for the acquisition of this public utility.

The Ordinance provides that three propositions shall be submitted:

1. Acquisition of the utility as a whole.

2. The issuing of bonds to the amount of \$600,000 for immediate use.

3. The purchase of the County Line Water Company.

The election will be held on the 12th day of November, 1908.

In the issuance of the bonds your Committee has deemed it expedient to provide for short term bonds and the entire issue will be redeemed at the rate of \$100,000 a year, commencing one year from the date of the bonds. The rate of interest will be $4\frac{1}{2}$ per cent per annum.

Your Committee also presents the opinion of the City Attorney to the effect that the Bill as provided is sufficient in form and substance and is the proper step to be taken in the regular sequence of ordinances hav-

ing in view the acquisition of the public utility named.

The Committee recommends the passage of the Bill.

Respectfully submitted,

A. H. GIANNINI,
D. C. MURPHY,
R. McLERAN,

Public Utilities Committee.

Calling and Providing for Special Election for Acquisition of Municipal Water Supply.

The following entitled Bill was passed for printing:

On motion of Supervisor Giannini: Bill No. 677, Ordinance No. — (New Series), Calling and providing for a Special Election to be held in the City and County of San Francisco on the 12th day of November, 1908, for the purpose of submitting to the electors of said City and County three propositions, to wit: 1. Proposition to authorize the City and County of San Francisco to acquire by purchase or condemnation a public utility, viz.: A water supply and works to be owned and controlled by said City and County, to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the source of such supply to be Lake Eleanor, the Hetch Hetchy Valley and the waters of the Tuolumne River in Tuolumne County, California; 2. Proposition to incur a bonded indebtedness by said City and County of San Francisco to the amount of Six Hundred Thousand (\$600,000) dollars for the purchase of certain lands, rights, claims and the construction of certain works in connection with the Hetch Hetchy and Lake Eleanor water supply for said City and County; 3. Proposition to acquire by purchase the property of the County Line Water Company used in supplying a portion of the City and County with water at a cost not to exceed \$50,000, the same to be paid for out of the annual revenue of the City and County, this Ordinance being the fourth of a series of Ordinances to be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the public utility named.

Amended Offer of County Line Water Company to Sell Its Plant to City for \$40,000.

San Francisco, Cal., Sept. 28, 1908.

To the Honorable Board of Supervisors of San Francisco—Gentlemen: We will sell the County Line Water Company's plant to the City for the sum of Forty Thousand (\$40,000) dollars.

A. A. RUSSELL,
 President.

Read and ordered filed.

Amendment.

Supervisor Giannini moved to amend Bill by substituting \$40,000 for \$50,000, the price asked for the County Line Water Company's plant, wherever it occurred in the Bill.

Amendment carried.

Passed for Printing.

Whereupon, the above Bill, numbered 677 (New Series), as amended, was passed for printing by the following vote:

Ayes—Supervisors Bancroft, Booth, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Rixford—14.
Noes—Supervisors Broderick, McAllister—2.

Excused from voting—Supervisor Pollok—1.

Absent—Supervisor Center—1.

Explanation of Vote.

Supervisor Pollok explained his vote by stating that he was not willing to vote in view of the failure of the Board to obtain an opinion from the City Attorney as to the rights acquired by the City under the permit of the Secretary of the Interior.

Regulating Street Car Traffic.

Bill No. 654, Ordinance No. — (New Series), entitled, "Regulating street railroads and cars in the City and County of San Francisco, and prescribing rules and regulations for the protection of the public from danger and inconvenience in the operations of such railroads."

Motion.

Supervisor Giannini moved that the privilege of the floor be granted to Wm. Abbott.

So ordered.

REHABILITATION OF CITY HALL.

Supervisor Rixford presented the following Reports:

Report of Advisory Committee Relative to Restoration of New City Hall.

San Francisco, Sept. 24, 1908.

John E. Behan, Esq., Clerk of the Board of Supervisors of the City and County of San Francisco.

Dear Sir:

Pursuant to direction of the Board of Public Works, I herewith respectfully transmit to you a copy of a communication received from Mr. Newton J. Tharp, City Architect; also a report of the Architects appointed by the Board of Supervisors to act in conjunction with him in regard to the matter of the restoration of the City Hall.

Respectfully,

(Signed) ROBT. J. LOUGHERY,
Secretary, Board of Public Works.

San Francisco, Sept. 23, 1908.

To the Honorable the Board of Public Works of the City and County of San Francisco.

Gentlemen:

On June 5, 1908, a communication was addressed to your Honorable Body by the Clerk of the Board of Supervisors, stating that he was directed by the Special Committee of the Board of Supervisors on the reconstruction of the City Hall of San Francisco, to request your Honorable Board to direct the City Architect to consult with Messrs. Albert Pissis, James Reid and John Galen Howard upon the conclusions of the report presented by the City Architect to said Special Committee, and thereafter to report the result of the further investigation and conclusions of said gentlemen and the City Architect as to the rehabilitation, partial construction or entirely new construction of the City Hall.

In accordance therewith, I wish to present to your Honorable Body for transmission to the Special Committee of the Board of Supervisors a copy of the report agreed upon by the above named architects in consultation with the City Architect.

Yours truly,

(Signed) NEWTON J. THARP,
City Architect.

San Francisco, Sept. 22, 1908.

To the Special Committee of the Board of Supervisors on the Possible Restoration of the City Hall, San Francisco, California.

Gentlemen:

In compliance with your request that the undersigned Committee of Architects advise you as to the best policy to pursue regarding the future treatment of the City Hall, we have the honor to report as follows:

We have carefully examined the building in its present state, and the report, with drawings and calculations, which has already been presented by the City Architect, and we are unanimously convinced that the

best interests of the City demand building entirely anew in accordance with the best modern practice as to planning, materials and method of construction, and of monumental character.

We have reached this conviction after a thorough discussion and investigation of other methods of procedure which seemed to offer possible advantages. The magnitude and importance of this question, the many vital and more or less conflicting needs involved, the urgent requirements of safety and convenience, the large sums of money at stake, not to mention the complicated technical problems presented, both structural and esthetic, have necessarily required much consideration and discussion, thus precluding the possibility of an earlier report. Our conclusions, formulated after mature deliberation, rest on what we believe to be the broadest public policy.

The three methods of procedure suggested by the City Architect's report are, in our opinion, the only ones which it is possible to consider. These are:

First: Rehabilitation.

Second: Rebuilding on present foundations.

Third: Building entirely anew.

The first of these, rehabilitation, is open to serious objections. The portions of the building which would have to be wholly rebuilt above the foundations are so extensive, and the portions which might conceivably be saved are so intermingled everywhere with large parts which were damaged, that rehabilitation would necessarily result in a mere patchwork, to which the danger of a future shock might be as great as that through which the building has already passed. It should be remembered that the purpose of the City Hall is to accommodate and safeguard not only the City's records, but the lives of the official representatives of its citizenship, legislative, executive, judicial and clerical, as well as of the general public. Anything short of the safest building which modern science can erect is unworthy of San Francisco for such a purpose. The City cannot afford to run the risk of having to face again her present City Hall problem. On the score, therefore, of safety, and, in the long run, of economy in cost, we advise against rehabilitation.

The argument against the second suggestion—rebuilding on the present foundations—rests on a different basis. Something can be said for it on the score of cost, the foundations being practically uninjured. It must be said, moreover, as the City Architect has pointed out in his report, that the general scheme of the old

building is excellent. In its large lines it was a notable work, especially when we take into account the time at which it was designed. San Francisco was indeed fortunate in possessing in the City Hall what was on the whole perhaps the most successful large work of that time in this country, in respect of big picturesque grouping and the adaptation of monumental planning to an irregular and difficult site. This statement must, however, be immediately supplemented by the strictest reservations. It is extraordinary that a building so well conceived in a large way could have been so poorly worked out in detail. In arrangement and adaptation of structure to practical needs the building left much to be desired. Such defects could be diminished in rebuilding, but they could not be entirely eliminated without radical departure from the old foundations. What seems fairly good, when judged by the standard of other work of 1870, compares very unfavorably with many fine buildings which are being produced to-day. In providing herself with a City Hall, San Francisco should not rest satisfied with approximately reproducing a building which was out of date even before its completion. To rebuild along the old lines would be an anachronism. To tie up the City to a faulty and inadequate scheme would be to saddle the future with a burden progressively more intolerable as time goes on. On the ground that this City should recognize the value of the progress made in recent years, and take advantage of the opportunity offered to rectify the mistakes of the old City Hall, we advise against rebuilding on the old foundations.

According to the estimate of the City Architect, the cost of rebuilding on the old foundations will be \$4,550,000; the cost of an entirely new building or buildings, \$5,250,000. The saving represented by building on the old foundations being, thus, \$700,000. In our judgment, this is a reasonable sum for San Francisco to pay for the permanent increased efficiency, health, comfort and beauty which are reasonably to be expected from a new building unhampered by the old design and executed in accordance with the best modern practice.

We therefore recommend the erection of an entirely new City Hall.

Respectfully submitted,
(Signed) ALBERT PISSIS.

Report of Special Committee on Rehabilitation of City Hall.

To the Honorable the Board of Supervisors of the City and County of

San Francisco—Gentlemen: Your Special Committee on Rehabilitation of City Hall and Housing of Municipal Departments to whom were referred, by Resolution No. 2143 (New Series) of your Honorable Board, the question of the reconstruction and dismantlement of the City Hall, begs leave to present the following report:

Pursuant to directions contained in said Resolution, your Committee obtained from City Architect Newton J. Tharp, during the month of May, 1908, a report upon the condition of the City Hall, in which report three propositions were submitted to your Committee as follows:

- Estimate No. 1—Rehabilitation
- (A) Dome and tower taken down to rotunda.....\$3,035,000
 - (B) Dome and tower and rotunda taken down and rebuilt 3,965,000
- Estimate No. 2—Partially new
- New building on present foundations 4,550,000
- Estimate No. 3—New
- New building or buildings on present site 5,250,000

Believing that the matter of the complete dismantlement of the City Hall or the reconstruction of the building on the old lines, either in whole or in part, was a question of great magnitude and importance and one that would vitally effect the future welfare of the City and County, your Committee submitted said report of the City Architect to a Special Advisory Committee consisting of Albert Pissis, James W. Reid, John Galen Howard and Newton J. Tharp, City Architect, in order that the best professional advice upon the question at issue could be obtained.

Under date of September 22nd, 1908, the said Advisory Committee presented a report to your Special Committee wherein they stated that they had carefully investigated and examined the building in its present state and had also considered the report with drawings and calculations of the City Architect on the matter, and as a result of their deliberations and after a most careful study had been made of the problem they recommended the entire obliteration of the old City Hall and the reconstruction of an entirely new building of modern design and built in accordance with the best modern practice.

The Special Committee to your Honorable Board agrees with the conclusions of the Advisory Committee and herewith presents and make a part of their recommendation the report of said last named Committee.

In order to facilitate the construction of the building in accordance with the promise made the electors of the City and County of San Francisco while other bond propositions were under consideration, your Committee recom-

mends the adoption and approval of the report of the Advisory Committee and also that the sum of \$50,000 be set aside out of the General Fund of the fiscal year 1908-9 for the purpose of enabling the Board of Public Works to enter into contract for the destruction and dismantlement of the present structure, said work to be commenced as expeditiously as possible and to be presented in four or more sections in order that no delay may result.

Respectfully submitted,

Adopting Report of Special Committee on Rehabilitation of City Hall, and Setting Aside \$50,000 for Wrecking of Ruins.

Supervisor Rixford presented the following Resolution and moved its passage for printing:

Resolution No. — (New Series), as follows:

Resolved, That the report of the Special Committee on Rehabilitation of City Hall and Housing of Municipal Departments, this day filed, approving the findings and conclusions of the Advisory Committee to said special committee, consisting of Newton J. Tharp, City Architect; Albert Pissis, James W. Reid and John Galen Howard, which findings and conclusions recommend the erection of an entirely new City Hall on the site of the present dismantled structure, be and the same is hereby adopted.

Further Resolved, That the sum of \$50,000 be and the same is hereby set aside, appropriated and authorized to be expended by the Board of Public Works, out of the appropriation "For paving, repaving and repairs to streets, for reconstruction and repairs to sewers, and for construction of and repairs to public buildings," in the budget of the fiscal year 1908-9, for the purpose of enabling said board to contract for the complete wrecking and dismantlement of said structure, so as to leave the ground free of obstructions, and said Board of Public Works is hereby authorized and instructed to let four or more separate contracts for the dismantlement and wrecking of said building, in order that the work may proceed by sections and be consummated without delay.

The attention of the Auditor and of the Treasurer is hereby called to the provisions of this Resolution.

Privilege of the Floor.

Harry Cresswell was granted the privilege of the floor and requested that the matter be laid over until the next meeting of the Board.

Passed for Printing.

Whereupon, above Resolution was passed for printing.

Motion.

Supervisor D'Ancona moved that above matter be made a Special Order of Business for 2:30 o'clock on Monday, October 5, 1908, and that consideration of Bill regulating street railroad traffic be made a Special Order of Business for 3:00 o'clock of said date.

So ordered.

AMENDING OCEAN SHORE FRANCHISE, RELATIVE TO CROSSING, DIVISION AND FLORIDA STREETS AT GRADE.

The following communications were received and read, the same having been heretofore considered by the Street Committee:

Petition of Ocean Shore Railway Company, to Amend Franchise by Permitting Extension of Viaduct Along Twelfth Street.

San Francisco, August 20, 1908.

To the Honorable the Board of Supervisors of the City and County of San Francisco—Gentlemen: The undersigned, Ocean Shore Railway Company, respectfully requests that your Honorable Board grant it permission, in connection with the franchise heretofore granted by your Honorable Board for the construction of a railroad upon Twelfth street, in the City and County of San Francisco, and State of California, to construct, upon said Twelfth street, a viaduct, commencing at a point 159 feet southeasterly from the southeasterly line of Folsom street, at grade; thence southeasterly on said Twelfth street, raising the grade of said structure as the same is constructed southeasterly on said Twelfth street to where the same intersects and crosses Harrison street, crossing said Harrison street with a clear headroom of 17½ feet. The nature of said structure, if permitted to be constructed, will be a re-enforced concrete viaduct, six (6) feet in width, the center line of which will be located along the center line of Twelfth street, commencing at a point 159 feet southeasterly from the southeasterly line of Folsom street and the northwesterly line of Harrison street; thence continuing across Harrison street with a concrete arch. Said structure will occupy only the minimum width required for the operation of a single-track railroad; and will leave 18 feet on either side thereof for street purposes. The nature and character of the construction will not be unsightly, and will give free access thereunder from side to side for pedestrian traffic.

The object of this request is to eliminate the present grade crossing at Harrison street and thence southeasterly, for the reason that, under cer-

tain weather conditions, it is impossible to hold a train on the present steep descending grade from Division to Harrison street, and the construction of the proposed viaduct will very greatly contribute to the safety of the public where said railroad intersects said Harrison street.

The matter has heretofore been submitted by our Engineering Department to the Engineering Department of your City, who, in turn, has made a recommendation in connection therewith to the Honorable Board of Public Works of your City.

Respectfully yours,
OCEAN SHORE RAILWAY COMPANY.

By J. DOWNEY HARVEY,
President.

Communication from Ocean Shore Railway Company, with Report of its Chief Engineer, on Proposed Grade Changes on Florida Street in Lieu of Viaduct on Twelfth Street.

San Francisco, September 24th, 1908.

Honorable Street Committee of the Board of Supervisors, San Francisco, California—Gentlemen: In view of the unanimous opposition of the property owners along Twelfth street to our application for a permit to elevate our track from a point about one hundred and fifty feet, southerly from Folsom street, to and across Harrison street, filed with your Committee on the 10th instant; and in compliance with your request of the 17th instant, I am handing you herewith a report from our Chief Engineer, Mr. John B. Rogers, which is self explanatory.

It is most essential that we take some action to eliminate the point of danger at our Harrison street crossing, and while we would much prefer to proceed on the lines set forth in our original application, we wish to show due respect to the wishes of the protestants, and will therefore be willing to accept the alternative proposition of constructing our line on the revised grade line of Florida street, as suggested in Mr. Rogers' report, if you will re-refer the matter to the Board of Public Works for final action and recommendation, and will so order.

Very respectfully.

J. DOWNEY HARVEY,
President.

Report of John B. Rogers, Chief Engineer of Ocean Shore Railway Company.

San Francisco, Sept. 24th, 1908.

J. Downey Harvey, Esq., President Ocean Shore Railway Company, 52 Eleventh street, San Francisco, California.

Dear Sir: In the matter of our application for permission to construct a temporary single track viaduct, along the center line of Twelfth street, from a point about 150 feet southerly from

Folsom street, to and across Harrison street, which matter is now before the Street Committee of the Board of Supervisors, having been approved and recommended by the Board of Public Works:

It is our purpose to eliminate, if possible, an element of great danger in the operation of our road across Harrison street. This crossing lies at the foot of a grade so steep that it is impossible to control the movement of heavy trains thereon, under certain weather conditions when the rails are slippery. To remedy this it will be necessary, either;

(1) To elevate our track at the crossing of Harrison street in manner substantially as shown by the plan submitted to the Street Committee, or;

(2) By securing official grade changes on Florida street, northerly from Sixteenth street, and by laying our track to conform to the revised grade line of Florida street, eliminate the steep grade which now constitutes the element of danger.

The proposition of elevating our track along Twelfth street has met with such unanimous opposition from the adjacent property owners that I would recommend withdrawing the application, under an understanding, however, that we will accept an alternative or compromise proposition, substantially as follows:

"The Ocean Shore Railway Company will lay and operate its track or tracks along that portion of Florida street occupied under the provisions of its present franchise, so that the top of rails shall conform to the official grade elevations, to be adopted and established as the official grades for said portion of Florida street as follows:

"On Florida street at the crossing of Mariposa street, to remain at the present official grade.

"On Florida street at the crossing of Seventeenth street, to remain at the present official grade.

"On Florida street at the crossing of Sixteenth, to remain at the present official grade.

"On Florida street at the southerly line of Fifteenth street, to be raised 7.50 feet, and established at 27.50 feet.

"On Florida street at the northerly line of Fifteenth street to be raised 5.52 feet and established at 25.52 feet.

"On Florida street at the southerly line of Alameda street, to be raised 1.52 feet and established at 13.52 feet.

"On Florida street at the northerly line of Alameda street, to be lowered 0.46 feet and established at 11.54 feet.

"On Florida street, 51.33 feet northerly from the northerly line of Alameda street, to be established at 10 feet.

"On Florida street, 360 feet norther-

ly from the northerly line of Alameda street, to be raised 4 feet, and established at 10 feet."

The alternative proposition, as above outlined, is in no way as desirable as the plan first suggested, as it will necessarily introduce a grade crossing with the Peninsula Line tracks of the Southern Pacific Company, which under the first proposition could be avoided. This crossing, at the time the franchise was granted would have been entirely out of the question, but considering the fact that since the opening of the Bay Shore cut-off by the Southern Pacific Company, approximately 90 per cent of the volume of freight and passenger traffic, formerly routed over the Peninsula Line tracks, has been withdrawn and is now being routed via the Bay Shore Cut Off, this crossing can be operated advantageously, and with due regard to the public safety by installing proper interlocking safety appliances, and bringing the trains, cars, motors, etc., of both companies to a full stop before proceeding over and across the same.

This alternate plan will avoid the objections raised by the property owners along Twelfth street to our first proposition of elevating our tracks along that thoroughfare, and will put our approach to Harrison street on approximately a level grade, where our trains can be kept under perfect control. It would also put our crossing of the Peninsula Line track on a level grade, and make the ascent from a point about 125 feet southerly therefrom to Sixteenth street on a 3 per cent grade.

I am handing you herewith map and profile showing the proposed grade changes necessary to carry out the change recommended in this report.

I have conferred with the President of the Board of Public Works and the City Engineer in this matter, and the recommendation submitted herewith meet with the approval of these officials.

Very respectfully,
JNO. B. ROGERS,
Chief Engineer.

Communication from the City Engineer
Recommending Change of Grade on
Florida Street.

Office of Board of Public Works—
Bureau of Engineering.

San Francisco, Sept. 24, 1908.

To the Honorable, the Board of Public
Works of the City and County of
San Francisco.

Gentlemen:

Herewith I submit a schedule for a change of grade on Florida street from Sixteenth street to a line parallel with and 360 feet northerly from Alameda street.

This change is requested by the

Ocean Shore Railway Company to eliminate the present element of danger in operating their road on the heavy grade southerly from Harrison street.

I see no reason why the request should not be granted, but with the condition that the Ocean Shore Railway Company stipulates and agrees to bear all direct or consequential damages incident to the change.

As the affected streets are ungraded, there is no need, under the above conditions, of a district being formed for the assessment of damages and benefits.

Therefore, I recommend that the grade of Florida street, between Sixteenth street and a line parallel with and 360 feet northerly from the northerly line of Alameda street, and on Fifteenth and Alameda streets, between Bryant and Alabama streets, be changed and established at points and at heights above City Base as described in the accompanying schedule.

Respectfully submitted,

MARSDEN MANSON,
City Engineer.

**Report of Streets, Sewers and Parks
Committee on Amending Ocean Shore
Railway Franchise.**

To the Honorable the Board of Supervisors of the City and County of San Francisco.—Gentlemen: Your Street Committee to whom was referred the petition of the Ocean Shore Railway Company for permission to construct a viaduct in the line of Twelfth street over Harrison street, crossing the same with a clear headway of 17 feet 6 inches and reaching the present grade of Twelfth street at a point 125 feet southerly from the southerly line of Folsom street, begs leave to report thereon as follows:

That said petition was duly considered by your Committee and inasmuch as objections were made by the owners of property along Twelfth street against any extension to the viaduct now constructed over the crossing of the Southern Pacific tracks at Florida and Division streets, your Committee and the Board of Public Works suggested to the Ocean Shore Railway Company that said application be withdrawn and another filed in lieu thereof, providing for crossing at grade, which would not be so objectionable to owners of property along the route.

Subsequently, to wit: On September 24, 1908, the Ocean Shore Railway Company filed an amended petition for permission to cross the tracks of the Southern Pacific Company at Florida and Division streets at grade, and also for a modification of the existing grades on Florida from Sixteenth street northerly so as to permit of uniform grade being established between Sixteenth

street and a point fifty feet northerly from Alameda street.

No objections have been filed or made to the granting of amended petition by property owners, and in view of the fact that the element of danger now existing by reason of the operation of cars down the steep descent over the present viaduct into Twelfth street will be eliminated, your Committee recommends the granting of the petition in its present form and herewith submits to your Honorable Board a Bill amendatory of the original Ordinance.

The proposed Bill amends the original grant in the following particulars:

With reference to the crossing over the Southern Pacific tracks at Division and Florida streets, by striking out the words "By an overhead crossing with a clear head room of at least twenty-four feet" and by inserting in lieu thereof the words "At grade", and also with reference to grade crossings by striking out the words "Except Division street Crossing", and by striking out the words "Division street crossing on Florida street shall be by an overhead crossing having a clear head room of not less than fourteen feet".

In accordance with advice of the City Engineer filed September 25, 1908, your Committee recommends that in the event of the Board of Public Works recommending to the Supervisors that the grades be changed along the line of Florida street in the manner suggested by the Ocean Shore Railway Company, and if said recommendation is approved and granted by the Board of Supervisors, that the Ocean Shore Railway Company shall stipulate and agree to bear all direct and consequential damages incidental to the grade change.

Respectfully submitted,
ALLAN POLLOK,
WM. BRODERICK,
Street Committee.

Amending Ocean Shore Railway Franchise.

Supervisor Pollok introduced the following entitled Bill, which, on motion, was ordered *recommitted to the Streets, Sewers and Parks Committee*.

Bill No. 678, Ordinance No. — (New Series), entitled, An Ordinance amending Section 1 of an Ordinance entitled, "An Ordinance amending Section 1 of Ordinance No. 1808, providing for a grant to the Ocean Shore Railway Company, a railroad corporation, of a right of way for, and the right to construct, maintain and operate a railroad, together with all necessary branches, side tracks, turn-outs, switches, crossings, spur tracks, yard tracks, depot tracks, and terminal

tracks and facilities, along, over, under, across, and upon certain streets, avenues, alleys, places and properties in the City and County of San Francisco, and adding thereto a new section to be numbered Seventeen", approved April 2, 1906.

Recommitted.

The following Resolution was introduced by Supervisor Pollok and on motion *recommitted to the Streets, Sewers and Park Committee*:

Changing Grades, Florida Street.

Resolution No. — (New Series), Declaring it to be the intention of the Board of Supervisors to change and establish grades at certain points and elevations on Florida street, Fifteenth street and Alameda street, in accordance with the recommendation of the Board of Public Works, filed September 25, 1908; and further declaring that no assessment district is necessary as no damage will result from said change of grade inasmuch as the streets are ungraded, and there are no existing street improvements: also directing the Board of Public Works to cause to be conspicuously posted along said street upon which said change of grade is contemplated, notice of the passage of this Resolution of Intention.

Agreement of Ocean Shore Railway Company to Pay all Damages that may be Caused by Change of Grades on Florida Street.

San Francisco, Sept. 28, 1908.

To the Board of Supervisors of the City and County of San Francisco—Gentlemen: The undersigned has made an application to you asking that an amendment be passed amending Section 1 of the Ordinance heretofore passed granting a right of way to the Ocean Shore Railway Company for the purpose of constructing, maintaining and operating a railroad upon certain streets within the City and County of San Francisco, State of California. Such amendment, if granted, will have the effect of reducing the grade of Florida street over, along, upon and across that portion of which said Ocean Shore Railway Company now has constructed its line of railroad.

The Ocean Shore Railway Company hereby agrees with you, and with the various property owners along the line of said railway, that if said amendment is granted and the grades of said streets are changed as contemplated, so as to accommodate the said Ocean Shore Railway Company, then and in that event the Ocean Shore Railway Company will pay any and all damages, direct as well as consequential, which

may arise by reason of making said street-grade changes.

Respectrully yours,
OCEAN SHORE RAILWAY COMPANY.

2. That artificial stone sidewalks be constructed on the easterly side of Cherry street, between Washington and Jackson streets, and on the four angular corners of the crossing of Cherry and Washington streets.

3. That artificial stone sidewalks and an asphalt pavement be constructed in the crossing of Nineteenth and Texas streets, and that the catch basins at the southwesterly and southeasterly corners of said crossing be set back to the official line.

4. That a bituminous rock pavement be constructed on the crossing of "C" street and Sixth avenue, and that the granite curbs on said crossing be reset to the official line and grade.

5. That redwood curbs and a broken rock roadway be constructed in "A" street, between Twenty-eighth and Twenty-ninth avenues.

6. That "K" street, from the easterly line of Thirteenth avenue to the easterly side of Fourteenth avenue, be improved by grading to the official line and grade.

Also, recommending the performance of the following street work, the expense thereof to be assessed in whole or in part on private property, to wit:

1. That an 8-inch ironstone pipe sewer with appurtenances be constructed in Clement street, between Eighteenth and Nineteenth avenues; that 8 and 15-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Clement street and Eighteenth avenue, and that brick cesspools and ironstone pipe culverts be constructed in the southeasterly, southwesterly and northwesterly corners of said crossing.

2. That artificial stone sidewalks be constructed in Fourth avenue, between "A" and "C" streets.

3. That artificial stone sidewalks be constructed in Fifth avenue, between "A" and "B" streets.

4. That artificial stone sidewalks be constructed in Third avenue, between "A" and "C" streets.

5. That a 12-inch ironstone pipe sewer with appurtenances be constructed in Twelfth avenue, from the southerly line of "B" street to a point 225 feet southerly therefrom; that 8 and 12-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Twelfth avenue and "B" street, and that brick cesspools and ironstone pipe culverts be constructed, one each on the northeasterly and southeasterly corners of said crossing; also, that a 12-inch ironstone pipe sewer with appurtenances be constructed in Twelfth avenue, between "A" and "B" streets; that 12, 15 and 18-inch ironstone pipe sewers with appurtenances be constructed in the crossing of Twelfth avenue and "A" street, and that brick cesspools and ironstone pipe culverts be constructed, one each on the northeasterly, southeasterly and southwesterly corners of said crossing.

6. That granite curbs and a bituminous rock pavement be constructed on Franklin street, between Chestnut and Francisco streets.

7. That granite curbs, artificial stone sidewalks and a bituminous rock pavement be constructed on the crossing of Chestnut and Franklin streets, and that a brick cesspool and ironstone pipe culverts with appurtenances be constructed in the northwesterly angular corner of said crossing.

8. That granite curbs and a bituminous rock pavement be constructed in Franklin street, between Lombard and Chestnut streets.

9. That granite curbs, artificial stone sidewalks and a bituminous rock pavement be constructed in the crossing of Franklin and Francisco streets; that an 18-inch ironstone pipe sewer with appurtenances be constructed in said crossing, and that brick cesspools and

ironstone pipe culverts be constructed, one each on the northeasterly and southeasterly angular corners of said crossing.

Also, stating that notices of certain grade changes have been duly posted.

Also, recommending that bond of Eureka Construction Co. for permission to blast on Ashbury street, between Sixteenth and Seventeenth streets, be fixed in the sum of \$5000.

File.

The following matters were received, read and ordered filed:

Report—Of Stationery Department of Board of Supervisors for month ending July 31, 1908.

Report—Of the Poundkeeper for the month of September, 1908.

IN THE MATTER OF THE REHABILITATION OF THE CITY HALL.

The hearing in the matter of the rehabilitation of the City Hall, fixed for the hour of 2:30 p. m. this day, was proceeded with, the question being on the final passage of the following Resolution:

Resolution No. — (New Series), as follows:

Resolved, That the report of the Special Committee on Rehabilitation of City Hall and Housing of Municipal Departments, this day filed, approving the findings and conclusions of the Advisory Committee to said special committee, consisting of Newton J. Tharp, City Architect; Albert Pissis, James W. Reid and John Galen Howard, which findings and conclusions recommend the erection of an entirely new City Hall on the site of the present dismantled structure, be and the same is hereby adopted.

Further Resolved, That the sum of \$50,000 be and the same is hereby set aside, appropriated and authorized to be expended by the Board of Public Works, out of the appropriation "For paving, repaving and repairs to streets, for reconstruction and repairs to sewers, and for construction of and repairs to public buildings," in the budget of the fiscal year 1908-9, for the purpose of enabling said board to contract for the complete wrecking and dismantlement of said structure, so as to leave the ground free of obstructions, and said Board of Public Works is hereby authorized and instructed to let four or more separate contracts for the dismantlement and wrecking of said building, in order that the work may proceed by sections and be consummated without delay.

The attention of the Auditor and of the Treasurer is hereby called to the provisions of this Resolution.

Privilege of the Floor.

Frank J. Sullivan was granted the privilege of the floor, and requested that the matter be laid over one week.

J. M. Rothchild, representing the South of Market Street Improvement Club, also addressed the Board, requesting that the matter be laid over one week, within which time the report of an expert employed by his organization would have been made and considered by that body.

Communication from the City Attorney
Advising that Board of Supervisors Have Power to Condemn Ruins of City Hall as Unsafe and Unsanitary and to Provide for Its Demolition.

Whereupon, the following communication was presented and read by the Clerk:

Oct. 5th, 1908.

Gentlemen: In a communication under date of October 2nd, 1908, you ask to be advised as to "whether or not under the Charter of the City and County of San Francisco, there is any power vested in said Board or any other board of the City and County of San Francisco to declare the ruins of the City Hall an unsafe structure and to provide for its entire obliteration."

Under the provisions of Subdivision 6, Section 1, Chapter 11, of Article 11, of the Charter is found the following:

"Subject to the provisions, limitations and restrictions in the Charter contained the Board of Supervisors shall have power:

"To provide for the abatement or summary removal of any nuisance and to condemn and to prevent the occupancy of unsafe structures."

The legislative power to provide for the public safety in matters pertaining to the health and security from injury of the individuals is a grant of the highest legislative character and should be exercised in all cases when it is reasonably necessary. Under the provisions of the Charter just quote your Board has passed ordinances providing for the summary removal of unsanitary and unsafe property belonging to individuals. That the legislative body of a municipality should have power to pass legislation of this character and not have power to remove property of its own which is unsafe or unsanitary would be a startling proposition and lead to remarkable results. To declare that a structure unsafe or unsanitary when belonging to an individual must be removed but to profess itself impotent to remove structures belonging to it which are unsafe or unsanitary would in effect be a declaration of inability to do of its own volition in re-

spect to itself what is of its highest duties to require of individuals.

I am of the opinion, however, that the provisions of the Charter quoted above are broad enough to cover municipal property as well as private property. The words of the Charter are "any nuisance," and "unsafe structure." When the object of such a provision in the Charter is considered the objection that it does not apply to municipal property is readily overcome. For it is inconceivable that the framers of the Charter should have required of individuals what it does not require of itself in a particular where the very object of the provision would be lost, that is the safety and security of the public.

In addition to the above consideration it is fundamental that an incident of ownership of property is the obligation that the property shall not be used or allowed to remain in a condition which is a menace to the public at large.

As said that incident of ownership is an obligation resting upon every property holder. A municipality is allowed under certain conditions to hold property. That it be allowed to do so and not accept the ordinary obligations which are in the nature of limitations upon the use of property would be most illogical and would exempt a municipality from an ordinary obligation which could serve any useful purpose.

Section 17, Article 1 of the Charter provides that, "the municipal corporation known as the City and County of San Francisco * * * may purchase, receive, hold and enjoy real and personal property." These are incidents of the ordinary ownership of property. Property, however, which is unfit and unsafe for occupancy or any use is property that cannot be enjoyed. To enjoy property as the term is used in the Charter means to occupy and use. It would therefore seem that the power given in Section 1, Article 1 of the Charter would necessarily imply the power to place property in a condition to be used or occupied or in other words enjoyed, and if it became necessary to destroy or entirely obliterate buildings upon real property belonging to the City and County, the scope of Section 1, Article 1 of the Charter is ample to give the City and County that right.

In addition to the foregoing considerations I am of the opinion that your Board has general power to order the destruction of any buildings belonging to the City and County when it becomes reasonably necessary to do so in order to put the property to the use for which it is held. The real property on which the City Hall is situated is held by the City for the purpose of having thereon a City Hall. That being the purpose for which the

property is held it becomes a municipal obligation to maintain thereon a City Hall. If, therefore, the building at present thereon is unsafe or unsanitary, preventing human occupancy, the purpose for which the property is held is unaccomplished. It would therefore seem that it is within the implied powers granted to the City and County, narrow as implied powers are, to remove the structure now on the City Hall property, if it be unsafe or unfit for occupancy, to make way for the construction of a building or buildings meeting the purpose for which the property is held.

In *The Mayor of Cartersville, etc., v. Baker*, 23 Ga. 686, a provision granting the legislative body of Cartersville the power "to aid in the building up of such schools, institutions of learning, as they may think proper" was passed upon by the Supreme Court of Georgia, the Court saying: "to aid in building up a school clearly implies the power to build a house for that purpose, as a school could not well be carried on without a house for teachers and pupils."

Under the Charter of New Haven the duty was imposed upon a Common Council "to manage, regulate and control the property, real and personal of the City."

In *Whitney et al. v. City of New Haven*, 20 Atl. Rep. 666, the Supreme Court of Connecticut declared that it could not interfere with an order made by the Common Council of the City of New Haven authorizing and directing the demolition and removal of the old state house building, located upon the public green in the City of New Haven. The Charter of New Haven imposed upon the Common Council the duty "to manage, regulate and control the property, real and personal, of the City." The Court was of the opinion that under this provision of the Charter the Common Council had power to order the destruction or the removal of a city building and it would not interfere with such an order when the expediencies of removing or repairing is a question upon which reasonable and fair-minded men would probably differ.

I am therefore of the opinion that if it satisfactorily appears to your Board that the building now on the City Hall property is unsafe or unsanitary and that for that reason it is reasonably necessary or expedient to entirely remove it, your Board has power under the Charter to declare by resolution that it is unsafe or unsanitary and that it is necessary and expedient to entirely remove the building and order its removal.

Yours very truly,

PERCY V. LONG,
City Attorney.

Finance Committee, Board of Supervisors.

Condemning Unrehabilitated Portions of City Hall and Directing Board of Public Works to Cause Removal of Same.

Thereupon Supervisor McLeran introduced the following Resolution, and moved its adoption:

Whereas, It is a matter of common knowledge that the ruins of the City Hall are in an unsafe and dangerous condition, and such fact has been so declared by the Advisory Committee of the Special Committee of the Board of Supervisors on the Rehabilitation of the City Hall and Housing of Municipal Departments, consisting of Newton J. Tharp, City Architect, Albert Pissis, James W. Reid and John Galen Howard, in report filed September 24, 1908, and while the walls and dismantled structures are permitted to stand they will constitute a constant source of danger and menace to life; now, therefore,

Resolved, That the City Hall be and is hereby condemned as unsafe, and those portions unrehabilitated are hereby declared to be unfitted for further occupancy, and the Board of Public Works is hereby instructed to cause the removal forthwith of the walls and parts of structures thereof now standing, but unoccupied.

Privilege of the Floor.

Whereupon, *Frank J. Sullivan* obtained the privilege of the floor and addressed the Board, stating that the City is not in a financial condition to defray the cost of the demolition of the City Hall and the construction of an entirely new structure. He stated further that the same policy pursued by individuals in the restoration of their private property should be adopted by the City in the restoration of its public buildings. He also presented the following communication from Albert Pissis, member of Advisory Committee on Rehabilitation of City Hall, and requested that it be incorporated in the proceedings:

Letter of Albert Pissis.

San Francisco, October 5th, 1908.

Mr. Frank J. Sullivan, 77 City Hall avenue, San Francisco—Dear Mr. Sullivan: In answer to your communication referring to the question of the City Hall, I will state that I am still of the opinion that this building can be rehabilitated in a creditable manner, but I believe that the interests of the City will be better served in the long run by erecting a new structure whereby we would be justified for the additional expense to expect a building better suited for our new requirements, and built of materials more appropriate to the dignity of the City. As to the question of razing the present City Hall to prepare the site for a new

building or buildings which are still in the air, I think there will be plenty of time to begin the work of demolition when the City will have fully decided on the details of the scheme, and will have adopted the plans and presented the matter of the bond issue to the people. In the meanwhile the large proportion of the present walls and floors of the present building that are good, after being put in shape at a moderate expense, could be used until it became necessary to tear them down to make room for the new improvements.

In conclusion, I would consider it wrong to destroy the present City Hall until we have decided how we will replace it, and until we are prepared to go ahead with the work of reconstruction.

Yours very truly,

ALBERT PISSIS.

J. M. Rothchild stated that the proposition was one that required serious consideration and that all suggestions and reports available touching on the matter should be carefully gone into. He again requested that the matter go over one week.

Harry Cresswell stated that in his opinion the Board of Supervisors had no right to declare the City Hall a nuisance and to forthwith demolish it. He stated further that there is no provision in the Charter which gives the Board of Supervisors power to appropriate moneys for the demolition of a public building.

Motion.

Supervisor Bancroft moved that the speakers be limited to five minutes.

So ordered.

Theodore Pinther, representing the Glen Park Improvement Club, also addressed the Board, stating that it was his opinion that if the matter was left to the people he was satisfied that they would vote unanimously for the rehabilitation of the present building.

P. J. Healy, representing taxpayers, also addressed the Board, stating that the City Hall was architecturally wrong, that it should be taken down and reconstructed on lines consistent with modern architectural ideas. He further suggested that in case it was decided to build anew that another site further out Market street and in the vicinity of the Spring Valley Water Company's property be selected, inasmuch as said location was more in the civic center of the City.

Mayor in Chair.

At the hour of 3:40 o'clock p. m. the Mayor took the Chair.

Privilege of the Floor.

Dr. G. K. Frink, representing various improvement clubs, stated that the organizations he represented were in fa-

vor of the rehabilitation of the present building and that he hoped the Board would take that action.

J. F. Reilly suggested that the legality of the Board's action be carefully gone into and that reports from other architects be considered before final action is taken.

Motion.

Supervisor Connolly moved that the matter go over one week.

Motion lost.

Adopted.

Whereupon, the question being taken on Supervisor McLeran's Resolution, the same was *adopted* as Resolution No. 2726 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, D'Ancona, Giannini, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—13.

Noes—Supervisors Broderick, Center, Hocks—3.

Excused from voting—Supervisor Connolly—1.

Absent—Supervisor Comte—1.

Final Passage.

Thereupon, the question being taken on Resolution adopting Report of Special Committee on Rehabilitation of the City Hall and the Housing of Departments and appropriating \$50,000 for razing ruins of present building, the same was *finally passed* as Resolution No. 2727 (New Series), by the following vote:

Ayes—Supervisors Bancroft, Booth, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—14.

Noes—Supervisors Broderick, Center, Connolly—3.

Absent—Supervisor Comte—1.

Explanation of Vote.

Supervisor Connolly explained his vote by stating that he was impressed by the argument of the protestants that the Board had no power to appropriate money for the destruction of a public building, and for that reason desired that the matter go over one week.

REGULATING STREET RAILWAY CARS.

Consideration of Bill No. 654, Ordinance No. — (New Series), regulating street railroads and cars in the City and County of San Francisco and prescribing rules and regulations for the protection of the public from danger in the operation thereof, made a Special Order of Business for 3:30 o'clock p. m. this day, was proceeded with.

Motion.

Supervisor Giannini moved that the

representatives of the railroad companies be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon *Thornwell Mullally*, representing the United Railroads, addressed the Board, stating that many of the provisions of the proposed Bill were illegal and called particular attention to certain sections which he alleged it was physically impossible to carry out.

Relative to Granting of Western Pacific Franchise.

Motion.

Supervisor Murphy moved that the Western Pacific franchise be taken up immediately after disposal of street railroad bill.

So ordered.

Privilege of the Floor (Continued).

Wm. Abbott, attorney, representing the United Railroads, addressed the Board, stating that an ordinance regulating street railroads should not be oppressive, unreasonable or unjust and that the present ordinance was all of that. Also that the franchise of the company was a contract and as such was inviolable. He stated further that there was nothing in the franchise of the company that required it to give transfers at all and that this was only done for the convenience of the public.

Motion.

Supervisor Pollok moved that the Bill be referred to the City Attorney for his opinion as to its constitutionality.

Motion.

Supervisor Connolly moved that consideration of motion be postponed until all parties were heard.

So ordered.

Privilege of the Floor.

Jesse Lilienthal, representing the Presidio and Ferries Railroad Company, addressed the Board, stating that the provisions of Sections 11 and 18 of the proposed Bill were beyond the power of the Board and requested that the Bill be referred to the City Attorney for his opinion as to its legality.

Horace G. Platt, representing the Geary street, Park and Ocean Railroad Company, stated that he would like to have the opinion of the City Attorney as to the legality of Section 18 of the proposed Bill, in which he alleged an unintentional act might be made a crime.

Dr. M. E. Van Meter, representing taxpayers, also addressed the Board, calling attention to the inconveniences of the new transfer system.

Chas. N. Black, general manager of the United Railroads, addressed the

Board, stating that the reason for changing lines on Turk, O'Farrell and Eddy streets was for the purpose of doing away with four dangerous intersections on Devisadero street, also that the new transfer system would be a convenience to the public and would make for less disputes and misunderstandings between passengers and the employees of the company.

Amendments.

Supervisor Giannini announced that the Public Utilities Committee would agree to the amendment of the Bill by striking out the last clause in Sections 11 and 18.

Motion to Refer to City Attorney Lost.

Whereupon, the question being taken on Supervisor Pollok's motion to refer to the City Attorney the same was *lost*.

Amendments.

Supervisor Murdock submitted the following amendments and moved their adoption, to wit:

1. That all of Section 3 after the word "convenience" be stricken out.

Motion carried by the following vote:

Ayes—Supervisors Bancroft, D'Ancona, Jennings, Johnston, McAllister, Murphy, Payot, Pollok—8.

Noes—Supervisors Booth, Connolly, Giannini, Hocks, McLeran, Murdock—6.

Excused from voting—Supervisor Rixford—1.

Absent—Supervisors Broderick, Center, Comte—3.

2. That all of Section 7 after the word "distinguished" be stricken out.

Motion lost.

3. That Section 13 be stricken out.

Motion lost by the following vote:

Ayes—Supervisors Connolly, Jennings, McAllister, Murdock, Pollok—5.

Noes—Supervisors Bancroft, Booth, D'Ancona, Giannini, Hocks, Johnston, McLeran, Murphy, Payot—9.

Excused from voting—Supervisor Rixford—1.

Absent—Supervisors Broderick, Center, Comte—3.

Passed for Printing.

Whereupon, the question being taken the following entitled Bill No. 654, as amended, was *passed for printing* by the following vote:

Bill No. 654, Ordinance No. — (New Series), Regulating street railroads and cars in the City and County of San Francisco, and prescribing rules and regulations for the protection of the public from danger and inconvenience in the operation of such railroads.

Ayes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Johnston, McLeran, Murphy, Payot—10.

Noes—Supervisors Jennings, McAllister, Murdock—3.

Excused from voting—Supervisors Pollok, Rixford—2.

Absent—Supervisors Broderick, Center, Comte—3.

Explanation of Votes.

Supervisor Connolly stated that in voting he reserved the right to change his vote on final passage if it was found that the new system of transferring was better than the old.

Supervisor Murdock also stated that he withheld the right to change his vote to the affirmative on final passage.

Supervisor Pollok explained his vote by stating that he was not qualified to vote, inasmuch as he had no opinion as to the legality of the Bill from the City Attorney.

RELATING TO THE ACQUISITION OF A MUNICIPAL WATER SUPPLY.

Motion.

Supervisor Giannini moved that Bill No. 677, Ordinance No. — (New Series), calling and providing for a special election for the acquisition of a municipal water supply be taken up for consideration.

So ordered.

Communication From the Spring Valley Water Company Refusing to Submit Offer to Sell Its Plant and Stating Reasons Therefor.

Whereupon, Supervisor Giannini presented the following communications:

October 2, 1908.

To the Honorable, the Board of Supervisors of the City and County of San Francisco—Gentlemen:

We have concluded that no useful purpose, either for the City or the company, can be served by making an offer for the sale of the company's property, as requested by your Ordinance No. 505. The officers of the company during the past year have done everything in their power to call public attention to the absolute necessity for the purchase of the company's plant by the City, or a radical change in the rate-fixing policy hitherto pursued, if the City was to be saved from imminent danger.

In this connection, the company heretofore offered, both through the Federated Commercial Bodies and afterwards directly to the Supervisors, to sell the company's property for \$32,000,000.

In the offer as it was originally made, and since in the subsequent exhaustive presentation of the entire subject to the Supervisors and to the public, it was clearly made of record in behalf of the company that the price named was believed to be much less than the value of the property, and that it had only been made as a compromise which would have been accepted by the stockholders under financial conditions then existing and in their desire to offer the City an

easy and fair way out of complications which seemed to jeopardize the vital interests of all citizens.

It was also clearly and repeatedly stated that the rejection of this offer for a sale and the refusal of rates which would yield a fair return upon the suggested price would oblige the company to continue the effort which it had already begun for the establishment by judicial decision of what the officers of the company believed to be a fair and much higher valuation.

The city accepted this latter alternative by declining to consider the company's offer for a sale and by attempting to fix rates upon an arbitrarily assumed valuation of about \$25,000,000 and expressly refusing to make any allowance for depreciation, thus deliberately forcing the company again into the courts, where the questions at issue are still pending.

It seems to follow clearly from the facts thus briefly recited:

First, that the City authorities cannot consistently with their previously announced conclusions, recommend to the voters the purchase of the Spring Valley property at any price which would now be considered by the stockholders.

Second, that in view of the misrepresentations which have been so long and consistently made as to the value of the company's property, and the difficulty in which the general public naturally finds itself in passing on a question of such importance with the conflicting evidence before it, there seems no possibility that any price which the company would now accept would be ratified by the voters at the present time.

In the existing and radical difference of opinion as to value, it seems to us that the only hope of a settlement lies in awaiting the additional light upon the controversy which may be expected from a judicial opinion upon the evidence which has been so fully presented upon both sides. The company's brief in the main litigation involving the question of value was filed last April, and we are anxiously awaiting the City's reply.

Respectfully,

**THE BOARD OF DIRECTORS OF
THE SPRING VALLEY WATER
COMPANY.**

Communication From the Spring Valley Water Company Declaring That No Rights Have Been Acquired by the City Under the Decision of the Secretary of the Interior Which Will Warrant an Expenditure of Public Moneys.

San Francisco, October 5, 1908.

To the Honorable, the Board of Su-

pervisors of the City and County of San Francisco.—Gentlemen:

This letter is sent with the hope that the facts which we call to your attention may deter you from passing Ordinance No. 677, the passage of which, we believe, may embarrass the bringing about of conditions vital to the best interests of the City.

With this purpose in view, we beg leave to place the following facts before you:

The acquisition by San Francisco of a so-called Sierra water supply has been the subject of discussion for many years. Several sources from which it has been said the City might obtain water have received more or less attention, and, among these, the source or supply commonly known as the Hetch-Hetchy system.

In the event that Lake Eleanor shall be converted into a reservoir its supply will come from the watershed feeding Tuolumne River. In the event of the conversion of Hetch-Hetchy Valley into a reservoir its source of water supply will be the Tuolumne River. This river flows through a territory in which there are a number of available reservoir sites, some of which are below, and a number of which are above, Hetch-Hetchy Valley. That there are on Tuolumne River above Hetch-Hetchy, sites which are easily convertible into reservoirs and which, if so converted, would be capable of impounding very large quantities of water, no one familiar with the country, or who has investigated the subject, will deny.

Hetch-Hetchy and Lake Eleanor are within the boundaries of the Yosemite National Park.

We are aware of the stipulation entered into between the Secretary of the Interior and the City, and we are also aware of the granting of the City's application for reservoir rights of way by the Secretary under date of May 11, 1908. (Neither the stipulation nor the granting of the application has conferred any right upon, or vested any interest in, the City which can be made the foundation for the expenditure of public money.) The City has not acquired any such right as it must have before its moneys can be expended in the development of property for, or to be used as, a public utility.

The order of the Secretary of the Interior was issued under the provisions of the Act of Congress of February 15, 1901, entitled "An Act relating to rights of way through certain parks, reservations and other public lands". That act contains the following proviso:

"And provided further that any permission given by the Secretary of the Interior under the provisions of this act *may be revoked by him or his successor* in his discretion and shall not be held to *confer any right or easement or interest* in, to or over any public land, reservation or park."

It is to be understood, therefore, that the granting of the application by the Secretary has given the City only a revocable permit, and has not conferred "any right or easement or interest in, to or over any public land".

Under the Charter you are authorized, after appropriate proceedings have been taken, to *acquire*, by purchase or condemnation, lands necessary for constructing or maintaining canals, aqueducts, reservoirs, etc., for conducting or storing water for the use of the City and County or the inhabitants thereof. The so-called grant of the Secretary of the Interior is a mere revocable permit. He could not, and cannot, give you anything more. You have not *acquired*, and will not *acquire*, any lands under this permit. Indeed, you have not *acquired* anything that can be dignified to the extent of calling it property or a property right. Some of the lands which, by the terms of the stipulation, you are required to purchase are outside of, and entirely apart from, and cannot be used in connection with, any public utility of which Lake Eleanor or Hetch Hetchy will form a part. The stipulation requires you to purchase these lands in order that you may, in the event of some action by the Congress of the United States, exchange them for lands belonging to the Government. You have no right to acquire these lands, and if you acquired them, you would have no right to exchange them for lands belonging to the Government. Therefore, if you expend any public money for the purchase of these lands in order to enable you to carry out the stipulation which you have made with the Secretary of the Interior, or if you expend any public money to carry out any of the purposes named in the stipulation, it is clear that you will do so in violation of the provisions of the Charter.

The stipulation provides that the City shall not interfere, in the slightest particular, with the right of two irrigation districts to use the natural flow of Tuolumne River and its branches to the extent of 2350 second feet, or approximately one billion five hundred million gallons per day.

The stipulation also provides:

"5. The City and County of San Francisco will in no way interfere with the storage of flood waters, in sites other than Hetch-Hetchy and Lake Eleanor by the Modesto and Tur-

lock Irrigation Districts or either of said districts for use in said districts, and will return to the Tuolumne River above the LaGrange dam, for the use of said irrigation districts, all surplus or waste flow of the river which may be used for power."

If the irrigation districts should establish reservoirs above Hetch-Hetchy they would have the right to store flood waters in those reservoirs. If they should establish reservoirs below Hetch-Hetchy, they would have the same right with reference to flood waters, and if the City should attempt to prevent such flood waters from flowing into the reservoirs of the irrigation districts, it would unquestionably be interfering with the right of storage recognized by clause 5, which has been quoted.

By the provisions of this stipulation the irrigation districts are entitled to a mean flow throughout the year of 2350 second feet, and in order that the natural flow may be increased so that they may receive a supply of 2350 second feet during the dry season, this right of storage is recognized. The mean flow of Tuolumne River at LaGrange, as shown by State and Government records preserved for a period of years, is less than 2700 cubic feet per second—the water measured at that point being the run-off from 1500 square miles of territory—whereas the run-off which will reach Lake Eleanor and Hetch-Hetchy is from about 580 square miles.

The records of the United States Geological Survey show that from and including 1896 to and including 1906—eleven years—there were six years when the average flow of the river at La Grange was less than 2350 second feet, and that there were three successive years when the mean flow was only 1182 second feet, 2315 second feet and 2160 second feet respectively. These were the years 1898, 1899 and 1900. The average flow for these three years was 1886 second feet, or 464 second feet less than the quantity assured to the irrigation districts under the stipulation heretofore signed by the City. If the City were to build the proposed Hetch-Hetchy dam under the stipulation which it has signed, and the experience of the three years referred to were to be repeated, it would not be entitled to impound any water at all during those three years, unless the irrigation districts were not able to use the quantity which the stipulation recognizes their right to take. These measurements are easy of verification. They are to be found in the published records of the United States Geological Survey, and, indeed, they are set forth in detail in the report of C. E. Grunsky, City Engineer,

made to the Board of Public Works in July, 1902, a copy of which is on file in the office of the Clerk of the Board of Supervisors, as we are informed.

It may be accepted as a fact, that, at the time Mr. Grunsky reported on the so-called Hetch-Hetchy supply, he did not understand or believe that the right of the City would be subject and subordinate to a prior right of the irrigation districts to take 2350 second feet. In his reports with reference to the quantity of water which can be impounded in, and withdrawn from, Hetch-Hetchy Valley, there is not even the remotest suggestion of a prior right to 2350 second feet in the irrigation districts.

We know it has been said that there is ample water (in the proposed Hetch-Hetchy supply) to answer the future needs of the City after the rights of the irrigation districts, as they have been defined by the Secretary of the Interior, are fully supplied. This statement cannot be based upon the State and Government records which have been preserved, and to which you, with all other citizens, have free access, and if not based upon those records, we think it may be confidently asserted that there are no reliable data to sustain the claim.

Considering these prior rights of the irrigation districts (and there are other prior rights, of the extent of which we are not advised), and considering the information afforded by the records of the United States Geological Survey, is it not at least doubtful that the City will be able to obtain from this source sufficient water to supply its future needs?

We suggest, inasmuch as you propose to buy land within the limits of Yosemite National Park, which you are in turn to transfer to the Government of the United States in exchange for lands in Hetch-Hetchy Valley, that, under the existing laws of the United States, you cannot acquire any Government land in Hetch-Hetchy. The answer to this will be that Congress will pass an act enabling the City to acquire this land from the Government.

It is unlawful to employ the public funds for the purchase of property, for which the City will have no need, in anticipation of being able to exchange it for lands to which, until Congress repeals existing laws or passes some new law, it will not be able to obtain any title.

It is illegal for you to incur on behalf of the City an indebtedness which will be of no benefit to it unless the Congress of the United States shall hereafter take some action which you desire to have taken.

It is illegal for you to expend the public money in the acquisition of property which, under existing laws, will be valueless to the municipality.

If, under the existing laws of the United States, the purchases which you propose to make will be of no benefit to San Francisco, you are without authority to incur the expense of an election in anticipation of the repeal of those laws or the enactment of new legislation by Congress.

The nature of the business in which this Company is engaged has naturally kept it in touch with all phases of the water situation in Northern California, and has enabled it to collect information of great importance pertaining to any water supply for San Francisco.

The Secretary of the Interior states in his permit, "the present water supply of the City of San Francisco is both inadequate and unsatisfactory". If there was any foundation for that statement it rested upon financial, and not upon physical conditions.

In order to put at rest the question of the development of which the property of this Company is capable we were considering, as we informed you in our letter of September 14, 1908, submitting an offer of the property to the City with a guaranteed development of one hundred and ten million gallons or more per day. In the same letter we informed you that we would obtain an option on a Sierra property, which option would be without cost to the Company and, in the event of the purchase by the City of the Spring Valley property, would be turned over to the City without cost. In reply to this letter your Public Utilities Committee informed us that all you desired was an offer of our property as at present developed.

You are doing what you consider to be to the best interest of the City, but, while declining to entertain the purchase of our property with a guaranteed development, and with an offer of a Sierra supply of unquestioned title and capable of delivering at least two hundred and fifty million gallons per day practically before you, which you also declined to entertain, is it entirely consistent, in view of your expressed desire to provide a permanent and practically inexhaustible water supply, to involve the City in debt by taking steps to acquire the so-called Hetch-Hetchy system, the title to which is bad, and the delivery from which (after prior rights are satisfied), is at best a very doubtful quantity?

No one of judgment can believe that the passage of the ordinance will enable the City to obtain the Spring Valley property for less than it would

otherwise be required to pay. Your proposed action being illegal, no benefit can flow from the adoption of the ordinance, but, its passage will unquestionably tend to render a complex condition more involved.

We fully realize that in placing this letter before you we have not chosen the easier path of silence. Our motive will be questioned. However, the facts we have recited are of record—most of them in your own office—and that they are called to your attention by the Spring Valley Water Company does not render them of less importance.

Respectfully,

THE BOARD OF DIRECTORS OF
THE SPRING VALLEY WATER
COMPANY.

Communication From Wm. Ham. Hall
With Explanation of Refusal to Sell
Power Rights on Eleanor Creek and
Calling Attention to Difficulties in Way
of Amicable Settlement of Matter.

No. 210 Grant Building, San Francisco, Calif., Sept. 28th, 1908.

Dr. A. H. Giannini, San Francisco, Cal.—My dear Doctor: To guard against further misunderstanding as a result of my last conference with yourself and other members of your committee, in the matter of the City's proposed purchase of the Lake Eleanor holdings which I represent, I am writing you this personal note.

You quite misunderstood my purpose in suggesting our last meeting.

The prior situation was: that progress was stayed until after I should go East, see my principals and return—a time in October or possibly, November.

Your committee had strongly urged that we submit an offer to sell not only our Lake Eleanor holdings, but all our Eleanor Creek claims, including all rights to Eleanor Creek waters for power purposes. We had declined so to do and had reiterated our reasons for such declination, those reasons being, that Eleanor Creek power was valuable to us, and was in no degree necessary to the City water supply project.

After the meeting of Sept. 21st it came to my knowledge that a reason why my people probably would not submit any figure on the Eleanor Creek power rights was that they saw that a price which would in even a small degree compensate them for their sacrifice, would be criticised as a "hold-up" by the City's partizans in this matter. They felt that they had an unassailable ground on which to refuse to sell their power rights, they did not want to sell them, they did not believe the City needed them, they wanted to play into the City's hands in the matter of get-

ting its Tuolumne Water Supply, and they did not want to put themselves in the way of being thought to "hold up" the City by what might be looked upon as a high price, while to them it meant sacrifice of a valuable and legitimate business prospect.

In my personal zeal to serve the City, if I could so do without being recreant to the trust from my principals, I sought you out, told you the situation, as above, and suggested that, if as the result of a further conference I could be placed in a position to suggest to my people a figure which your committee would recommend, I would do so, and possibly it might hasten the outcome, one way or the other.

This was a personal action on my part. I had neither request nor instruction from my New York principals for it. I was trying to open the way for yourselves and the owners to "get together", if that were possible.

When we met, on the 24th, you, it seemed, had misunderstood my action: You thought I had some definite offer to make. In this, I repeat you were absolutely mistaken.

I should have withdrawn from the conference immediately I found that we were not there on the same footing—of a mutual endeavor to "come together" on something I could use with my people to get from them an offer which you would accept.

But I did not, and in response to your strenuous talk, I asked if you would recommend \$500,000 as a price for all on Eleanor Creek.

This was negative. You and other members of the Committee seemed to think that figure unreasonably high, you were not disposed to go on with the conference on lines that might enable me to serve you in the way I proposed, and so the matter ended.

I regret that I suggested this conference, because the suggestion very evidently was not received in the spirit in which it was intended, and I laid myself open to the misunderstanding which I received.

I, personally, say to you that I want to be of service towards enabling you to buy for the City such Lake Eleanor and Eleanor Creek rights and properties as you want to buy for the City and as the owners will sell, and that I think the way for you to get these properties is to pursue a course which does not put us in the attitude of obstructionists, or unreasonable vendors.

If you will realize the fact that I have not taken advantage of my control in this matter to steer these holdings into the ownership of those who could absolutely prevent the City from getting them, except as part of an inflated project or overloaded system, as might easily have been done to my great profit financially and professionally, you must realize that I have

guided them into hands that are not unfriendly and that are disposed to deal fairly by the City.

The sure way to make trouble for the City in this matter is to treat my principals and myself otherwise than as friends of the City.

We do not, my dear Doctor, hold a public utility as to which your Committee have right to demand a price. What has been done thus far, by us, towards giving you one, has been through courtesy and friendliness.

It is usual when a person wants to buy that which another has and which is not offered for sale, to make an offer for it. The city cannot expect to be an exception to this rule.

Now, you might let the matter go until you are ready to institute proceedings in condemnation, and then make an offer, as the law requires. But that course would be in the nature of a challenge to fight, and there are few men who will take a dare when they have previously opened the way to peaceful settlement.

By that time also you will have given opportunity for a number of things to happen with respect to our properties, which will make more difficult if not impossible their acquirement by the City except as a part of an expensive system and after a long period of negotiation and perhaps struggle.

Moreover, meanwhile you should have all the co-operation you can get in order to carry the Sierras supply project before the people. Certainly, you do not want its enemies to advantage, in their arguments, by the position in which you will have placed us.

My dear Doctor, there will be far less difficulty in obtaining our properties by friendly negotiation, than by demand on us to sell or suffer suit in condemnation. And, in my opinion, the longer friendly negotiation is put off the less likely will it be to terminate to the City's advantage.

Now, there are some things which tend to make friendly negotiation impossible.

One is to have your part of them conducted under engineering advice to the effect that our water and power rights are not worth anything, because through the favor of the Secretary of the Interior, in giving it control of a minority of the lands in the reservoir site, the City has been placed in position such as to prevent our using one of our rights, and because we cannot use the other without the Secretary's action in our behalf.

Such advice is almost as vicious and harmful in point of policy as it is radically unsound in matter of law, equity and business.

To say that our water right and power right holdings have not a very material value to us, because they are yet in the formative stage, is to speak

from the standpoint of partisanship, ignorance or inexperience of such matters.

To imply that the Secretary of the Interior will arrest the action of right-of-way laws in our favor as to other rights, until we are brought to drop some of our lawful holdings for the City's benefit, is scandalous, and it is not to be believed that the Honorable Secretary would for a moment stand for such doctrine. Yet, this has been said and is being talked by some near at least, to your councils.

Another thing that tends to make negotiation more than ordinarily difficult is the disposition on the part of some people (not yourself, surely), concerned for the City, to look upon the Hetch-Hetchy water supply area as a sort of sacred ground dedicated by a Superior Power to the salvation and service of San Francisco, and upon themselves as the chosen from On High to administer and conserve the sacred trust.

Now, my dear Doctor, the laws of our land have never been nullified in effect within that area, and human nature has not been changed by the general injection of some mysterious fluid tending to make men rally to the standard of municipal water supply patriotism, to the sacrifice of their purses and their self respect, when they find that standard borne or supported by those who scoff at them as interlopers.

I tell you, squarely, my dear Doctor, I am your friend and the City's friend in this; and I have done more to save the Hetchy-Hetchy Lake Eleanor water supply for the City's acquirement than any man—have spent more of personal means and service—have risked more and suffered more in sacrifice of private interest.

It has sometimes seemed to me during the past seven years that this mountain water supply movement was managed so as to play into the hands of Spring Valley—asking for and insisting upon that which it was next to impossible to get—insisting upon that which it is quite possible to show would be crass business extravagance, and extra hazardous to utilize—leaving practicable things wide open to be taken advantage of to the City's detriment—disastrously compromising with the City's necessarily and naturally strongest opponent—and slapping in the face, covering with suspicion, and treating as purplainers, those who seek to be friendly and co-operative.

This, my dear Doctor, is a personal talk to you. It does not call for a response. But you may show it to whomsoever you choose, and I hope you will show it to those associated with you in this matter, especially Mayor Taylor for whom I have a high

respect and who I would like to understand the case as it really is.

Yours truly,

WM. HAM. HALL.

Final Passage,

Whereupon, the following, entitled Bill, heretofore passed for printing, was taken up, *finally passed* by the following vote and numbered as follows, to wit:

Calling and Providing for Special Election for Acquisition of Municipal Water Supply.

Bill No. 677, Ordinance No. 572 (New Series), Calling and providing for a Special Election to be held in the City and County of San Francisco on the 12th day of November, 1908, for the purpose of submitting to the electors of said City and County three propositions, to wit: 1. Proposition to authorize the City and County of San Francisco to acquire by purchase or condemnation a public utility, viz.: A water supply and works to be owned and controlled by said City and County, to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the source of such supply to be Lake Eleanor, the Hetch Hetchy Valley and the waters of the Tuolumne River in Tuolumne County, California; 2. Proposition to incur a bonded indebtedness by said City and County of San Francisco to the amount of Six Hundred Thousand (\$600,000) dollars for the purchase of certain lands, rights, claims and the construction of certain works in connection with the Hetch Hetchy and Lake Eleanor water supply for said City and County; 3. Proposition to acquire by purchase the property of the County Line Water Company used in supplying a portion of the City and County with water at a cost not to exceed \$50,000, the same to be paid for out of the annual revenue of the City and County, this Ordinance being the fourth of a series of Ordinances to be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the public utility named.

Ayes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Rixford—13.

No—Supervisor McAllister—1.

Excused from voting—Supervisor Pollok—1.

Absent—Supervisors Broderick, Center, Comte—3.

Explanation of Vote.

Supervisor Pollok explained his vote by stating that he was not willing to vote in view of the failure of the Board to obtain an opinion from the City Attorney as to the rights acquired

by the City under the permit of the Secretary of the Interior.

WESTERN PACIFIC RAILROAD FRANCHISE.

Supervisor Center presented the following Reports and Bill:

Report of Joint Committee on Streets and Judiciary Recommending the Granting of the Western Pacific Railway Franchise.

To the Honorable the Board of Supervisors of the City and County of San Francisco.—Gentlemen:

Your Committees on Streets and Judiciary, to whom were referred Bill No. 271 of your Honorable Board, the same being the proposed grant to the Western Pacific Railway Company to construct and operate for a period of fifty years a steam railroad from the water front on the Bay of San Francisco, between Twenty-fourth and Twenty-sixth streets, through the Potrero hills to Ninth and Bryant streets, beg leave to submit the following report thereon:

The application of the Western Pacific Railway Company has been pending before the Board of Supervisors since May 31, 1906.

On August 5, 1907, an amended Bill was reintroduced in Board of Supervisors and ordered referred to the Committees on Streets and Judiciary.

Numerous protests were filed during the years 1906-1907 by property owners who alleged that their property would be damaged by the construction of the road.

All protests were heard by your Committees and we also visited the territory over which it was proposed to construct the road and met the protestants on the ground.

On May 14, 1908, Bill No. 271 was referred to the Board of Public Works, with request that the City Engineer report upon the engineering features of the Bill, and on September 29, 1908, the Board of Public Works submitted a report of the City Engineer as follows:

"San Francisco, Sept. 28, 1908.

"To the Honorable the Board of Public Works of the City and County of San Francisco.—Gentlemen:

"I return herewith draft of Bill No. 271, submitted to your Honorable Board through the Committee of Streets of the Board of Supervisors and relating to the necessary crossings, viaducts, etc., which it is necessary to prescribe in the franchise of the Western Pacific Railway Company from the water front to a proposed terminus at Eighth and Brannan streets and referred by you to this office for report.

"It will be observed:

"1. That in crossing Kentucky street it may become necessary to carry ve-

hicle and street car traffic over the tracks of the Western Pacific Railway and to extend the viaduct over their proposed yards to the south side of Islais Creek.

"2. That in the approach to the south portal near Texas and Twenty-second streets, it has become necessary to provide for carrying streets over the proposed right of way at two points.

"3. That at some point between the north portal of this tunnel and Alameda street it may become necessary to carry some street over said right of way by means of a viaduct.

"4. That in case Eighth street shall be extended and become a great and direct line of communication between the central portion of the City to the Potrero, a viaduct over the company's tracks will become necessary. These have been inserted into the ordinance in such terms as it is believed will guard the future interests of the City and the necessities of the railroad.

"Considering that the early operation of the railroad will not be attended with great inconvenience to the traffic of the streets for some years, it has been considered desirable to postpone the erection of these viaducts until some future times, suggestively fixed in the ordinance at some date subsequent to July 1, 1915.

"Enclosures."

With the report of the Engineer before us your Committees met on October 1, 1908, for the purpose of giving all parties in interest a final hearing before reporting the Bill to your Honorable Board.

We find that all property owners have settled or adjusted with the railroad company, their claims for damages, with the exception of a few minor claims due to proposed grade changes, which will be subsequently adjusted by the Company.

Such claims as have been refused adjustment by the Company, are, in the opinion of your Committee, without merit.

Your Committee desires to express its appreciation of the work performed by the City Engineer, who has incorporated in the Bill all requirements as to fully protecting the interest of the public and the City and County, in the years to come.

Your Committee recommends the passage to print of Bill No. 271 as presented in its present form.

Respectfully submitted,

Report of City Engineer on Western Pacific Railway Franchise.

San Francisco, Sept. 28, 1908.

To the Honorable the Board of Public Works of the City and County of San Francisco—Gentlemen: I return herewith draft of Bill No. 271, submitted to your Honorable Board through the Committee of Streets of the Board of Supervisors and relating to the necessary crossings, viaducts, etc., which it is necessary to prescribe in the franchise of the Western Pacific Railway Company from the water front to a proposed terminus at Eighth and Brannan streets and referred by you to this office for report.

It will be observed:

1. That in crossing Kentucky street it may become necessary to carry vehicle and street car traffic over the tracks of the Western Pacific Railway and to extend the viaduct over their proposed yards to the south side of Islais Creek.

2. That in the approach to the south portal near Texas and Twenty-second streets, it has become necessary to provide for carrying streets over the proposed right of way at two points.

3. That at some point between the north portal of this tunnel and Alameda street it may become necessary to carry some street over said right of way by means of a viaduct.

4. That in case Eighth street shall be extended and become a great and direct line of communication between the central portion of the City to the Potrero, a viaduct over the Company's tracks will become necessary. These have been inserted into the ordinance in such terms as it is believed will guard the future interests of the City and the necessities of the railroad.

Considering that the early operation of the railroad will not be attended with great inconvenience to the traffic of the streets for some years, it has been considered desirable to postpone the erection of these viaducts until some future time, suggestively fixed in the Ordinance at some date subsequent to July 1, 1915.

Respectfully submitted,
MARSDEN MANSON,
City Engineer.

Granting Western Pacific Railroad Franchise.

Thereupon the following Bill was presented on motion to pass to print:
Bill No. 271, Ordinance No. ———
(New Series), Granting to the Western

Pacific Railway Company, a railroad corporation, its successors in interest and assigns, the right, privilege, permission and franchise to construct, lay down, maintain and operate for the term of fifty (50) years, in the City and County of San Francisco, State of California, a railroad of standard gauge, operated by steam or other lawful motive power, together with all the main tracks, spur tracks, slip tracks, switch tracks, side tracks, crossings, slip switches, freight and passenger depots, and other appendages and adjuncts of said railroad as may be required for the convenient use and operation of the same along and over a certain route in said City and County of San Francisco.

Privilege of the Floor.

Warren Olney, representing the Western Pacific Railroad Company, obtained the privilege of the floor and addressed the Board, stating that the road was to be constructed and maintained over private property belonging to the Company except where same crossed street intersections and that he was satisfied that all the rights of the City had been carefully safeguarded in the drawing up of the Bill.

J. Ronan, property owner, stated that the railroad had depreciated the value of his property at least 50 per cent and that his damages should be paid before the franchise was granted.

August Wagner and Katherine McGrath addressed the Board in a similar strain.

Leonard Stone, representing J. Ronan, property owner, also addressed the Board, declaring that his client should be cared for in the matter of the payment of damages before franchise is granted.

BOND ISSUE, 1908.

Communication from E. H. Rollins and Sons Requesting Delivery on Certain Dates of Bonds Recently Purchased by Said Firm.

The following communication was presented, read and ordered referred to the Public Utilities Committee:

San Francisco, Oct. 7, 1908.

Mr. John E. Behan, Clerk of the Board of Supervisors, San Francisco, Calif.
Dear Sir:

This will serve as notice to you that we will require you to deliver to us the \$3,280,000 City and County of San Francisco 5s recently purchased by us, on the following dates:

\$1,000,000 Fire Protection bonds on Oct. 15, 1908.

\$800,000 Sewer bonds on Oct. 19, 1908.

\$280,000 Hospital bonds on Oct. 22, 1908.

\$1,200,000 School bonds on Oct. 26, 1908.

We will pay for these bonds, in gold coin, at the City Treasurer's office, on these dates, the amount of our bid for the same as apportioned by the Board

of Supervisors to the different funds, together with the interest which has accrued on said bonds at 5% per annum from July 1, 1908, to and including the dates of delivery, respectively.

In connection with this delivery, we call your attention to the fact that we agreed with the Public Utilities Committee of the Board of Supervisors that we would ask for delivery of these bonds at such times as would suit the City's convenience, with the distinct understanding, however, that as soon as we had sold the bonds we would be obliged to ask for delivery in order to accommodate our sales.

The bonds were all sold some two weeks ago; but in order to serve the interests of the City to the greatest possible extent, we have deferred the delivery of any of the bonds until Oct. 15, and have continued the delivery through that week and the following week.

It will possibly be of interest to you to know that approximately \$500,000 of the Fire Protection bonds have been sold in this City, and an equal amount divided among the other three issues. The balance of the bonds have been sold to our clients in all sections of the East and Middle West.

With best respects, we are,

Very truly yours,
E. H. ROLLINS & SONS.

Communication from Dillon and Hubbard
as to Compensation for Services Ren-
dered in Connection with Bond Issue,
1908.

New York, Sept. 24, 1908.

Percy V. Long, Esq., City Attorney,
San Francisco, Cal.

Dear Sir:

The matter of the issue and sale of the San Francisco bonds has reached such a stage that it seems to us proper to write you concerning our fee. The original agreement with the City, you will remember, was made on the understanding as embodied in our letter to John E. Behan, Esq., Clerk of the Board of Supervisors, under date of January 30, 1908, which understanding was agreed to by the Board of Supervisors and spread upon their minutes. Concerning that subject we said in our said letter as follows:

"Assuming the bond issue to approximate \$30,000,000 and assuming that the bonds are to issue without any considerable delay, we should say that a reasonable compensation would be the sum of \$18,000; provided, however, that if we are not able to approve the validity of the bonds or to suggest proceedings by which we might approve them, we will make our fee somewhat less" (stating the amount of our charges).

We also added:

"In view of the larger amount of your proposed issue than any of those referred to, and the fact that your issue

will not probably be spread over a series of years, we name instead of \$1.00 per \$1,000 bond, the compensation paid by other cities, the sum of \$18,000, which is sixty cents per bond on the \$30,000,000, one-half to be paid when we give a preliminary opinion that the bonds have been duly authorized and when executed, issued and paid for will constitute the valid and legally binding obligations of the City, and the rest of the compensation to be paid from time to time as the bonds are issued and paid for and our final opinion given that the bonds do constitute the valid and legally binding obligations of the municipality."

When the City later cut down the amount of the bonds to be voted from \$30,000,000 to \$18,200,000, no new agreement was made. We stated to you, however, in our letter dated March 19, 1908, that owing to the difference in the total amount of bonds to be issued some modification of our contract with the City, with respect to our compensation, would be equitable, and the question of such modification has not been taken up or acted upon.

On July 23, 1908, we gave a preliminary opinion on the entire \$18,200,000 of bonds which have already been voted. \$3,280,000 of these bonds have been sold, and we are ready to give a final opinion thereon when furnished with the closing papers already requested. We have the following suggestions to make to the City in regard to our compensation, namely: that our fee in respect of this \$18,200,000 bonds be cut down from \$18,000 to \$15,000; that of this fee there be paid now all but an amount equal to thirty cents per \$1000 bond on the \$18,200,000, in other words, that there be paid now \$9,540 and that thirty cents per \$1000 bonds on \$18,200,000 bonds, aggregating \$5460, be paid in installments from time to time as such bonds are from time to time sold and delivered and paid for and final opinions given thereon.

We have, as you know, given continuous and diligent attention to this issue of bonds, and have done practically all the work that we would have been required to do if the issue had been \$30,000,000 instead of \$18,200,000, in which case we would have been entitled under the agreement to \$18,000. This reduction in the amount of our total compensation, of the \$18,200,000 issue, to \$15,000 we trust you will consider a very reasonable concession on our part.

Very truly yours,

DILLON & HUBBARD.

Extension of Time, Street Work.

Resolution No. 2749 (New Series), as follows:

Resolved, That W. C. Raisch be and is hereby granted an extension of thirty days' time from and after October 7, 1908, to complete the contract for the curbing and paving of First avenue, between Hugo and "I" streets. This extension of time is recommended for the reason that the contractor has been delayed in getting curbing and other materials for the work.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Adopted.

Whereupon, Supervisor Center presented the following Resolution, which was, on his motion, adopted by the following vote:

Declaring Extension of Time of W. C. Raisch to Be of Same Force and Effect as if Passed on October 5, 1908.

Resolution No. 2750 (New Series): Whereas, A Resolution granting W. C. Raisch an extension of thirty days' time, from and after October 7, 1908, within which to complete the contract for the curbing and paving of First avenue, between Hugo and I streets, was passed to print on September 28, 1908, and said Resolution came up for final passage on October 5, 1908; and

Whereas, The Board of Supervisors failed to finally pass said Resolution on October 5, 1908, by reason of the fact that said Board considered and acted upon but four pending matters on the calendar on that date, and postponed action for one week on remaining matters on said calendar; now, therefore,

Resolved, That Resolution No. 2749 (New Series), granting W. C. Raisch the said extension of thirty days' time from and after October 7, 1908, on said contract, finally passed this day, be and the same is hereby declared to have been passed with the same force and effect as if said Resolution had been passed on October 5, 1908.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly,

D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Report of Clerk of the Board of Supervisors on His Inability to Verify Signatures to Petitions for the Acquisition of Certain Public Utilities.

The report of the Clerk of the Board of Supervisors on his inability to verify signatures to petitions for the acquisition of certain public utilities, to wit, the franchises and properties of the United Railroads of San Francisco, of the California Street Cable Railway Company, of the Pacific Telephone and Telegraph Company and of the Home Telephone Company, filed February 15, 1908, and thereafter, heretofore referred to the Judiciary Committee and returned by said Committee with the recommendation that same be approved, was taken up.

Motion.

Supervisor D'Ancona moved that the first signers of each petition be required to make oath that the statements made in the petition are true and that each signature to the paper whereon such names appear are the genuine signatures of the persons whose names appear to be thereto subscribed.

Motion carried by the following vote:

Ayes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Johnston, McLeran, Murdock, Payot—10.

Noes—Supervisors Broderick, Center, Comte, Jennings, McAllister, Murphy, Pollok, Rixford—8.

HEARING IN MATTER OF APPEAL FROM STREET ASSESSMENT. FAIR OAKS STREET, BETWEEN TWENTY-FOURTH AND TWENTY-FIFTH STREETS.

The matter of the appeal of certain property owners against the assessment, warrant and diagram issued by the Board of Public Works for the construction of artificial stone sidewalks on Fair Oaks street, between Twenty-fourth and Twenty-fifth streets, laid over from a prior meeting, was taken up.

Opinion of City Attorney as to Power of Board of Supervisors to Correct Street Assessments.

The following communication was presented and read by the Clerk:
September 28, 1908.

Gentlemen:

I am in receipt of your communication of September 22, 1908, enclosing appeal of various property owners from the assessment for the construction of artificial stone sidewalks on Fair Oaks street, between Twenty-fourth and Twenty-fifth streets under public contract with E. M. Leonard, concerning which you make the following inquiries:

"1. Is it within the power of the

Board of Supervisors under the facts presented by this appeal to consider the question of the jurisdiction acquired by the Board of Public Works to order street work done?

"2. Is it within the power of the Board of Supervisors on the facts presented by this appeal to reduce or order reduced the price to be charged by the contractors for the performance of the work?"

"3. Is it within the power of the Board of Supervisors upon the facts presented by this appeal to order the work done over again, or to order defects in the work to be removed before requiring payment by the property owners?"

From your communication I learn that though the appeal was taken on technical grounds, the main discussion concerned the cost of doing the work and the manner in which it was performed.

The difficulty arises from the interpretation of section 14 of chapter 2 of article VI of the Charter, which reads in part as follows:

"The owners, whether named in the assessment or not, the contractor or his assigns, and all other persons directly interested in any work provided for in this chapter, or in the assessment, feeling aggrieved by any act or determination of the Board of Public Works in relation thereto, or who claim that the work has not been performed according to the contract in a good and substantial manner, or having or making any objection to the correctness or legality of the assessment or other act, determination or proceedings of the Board, shall, within thirty days after the date of the warrant, appeal to the Supervisors, by briefly stating their objections in writing and filing the same with the Clerk of the Supervisors

Upon such appeal the Supervisors may remedy and correct any error or informality in the proceedings, and revise and correct any of the acts or determinations of the Board relative to said work, may confirm, amend, set aside, alter, modify or correct the assessment in such manner as to them shall seem just; and require the work to be completed according to the directions of the Supervisors and may at their option direct the Board of Public Works to correct the warrant, assessment or diagram in any particular, or to make and issue a new warrant, assessment and diagram to conform to the decisions of the Supervisors in relation thereto."

The latest judicial expression on the subject of street assessments is found in the decision of the United States Supreme Court in the case of *Londoner v. City of Denver*, 28 Su-

preme Court Reporter 708 (210 U. S. Sup. Ct.). This was on writ of error to review the decision of the Supreme Court of Colorado in which a case parallel to the one here in question was presented. In reversing the decision of the State court, which affirmed the assessment, the Supreme Court relied upon the constitutional guaranty of due process of law, and upon this point used the following language:

"In the assessment, apportionment and collection of taxes upon property within their jurisdiction, the Constitution of the United States imposes few restrictions upon the States. In the enforcement of such restrictions as the Constitution does impose, this court has regarded substance, and not form. But where the Legislature of a State, instead of fixing the tax itself, commits to some subordinate body the duty of determining whether, in what amount, and upon whom it shall be levied, and of making its assessment and apportionment, due process of law requires that, at some stage of the proceedings, before the tax becomes irrevocably fixed, the tax payer shall have an opportunity to be heard, of which he must have notice, either personal, by publication, or by a law fixing the time and place of the hearing.

"It is enough that, under such circumstances, an opportunity is given to submit in writing all objections to and complaints of the tax to the Board, then there was a hearing afforded in the case at bar. But we think that something more than that, even in proceedings for taxation, is required by due process of law. Many requirements essential in strictly judicial proceedings may be dispensed with in proceedings of this nature. But even here a hearing, in its very essence demands that he who is entitled to it shall have the right to support his allegations by argument, however brief, and, if need be, by proof, however informal. (Citing numerous cases)."

In view of this decision, and bearing in mind the ruling therein that, in the enforcement of the constitutional guaranty of due process of law, substance and not form should be regarded, I am of the opinion that your Board has power to consider the whole question of the assessment together with all the proceedings had regardless of the form of the notice of appeal. The interests of the contractors as well as the petitioners should, however, be given all due consideration and notice given and hearing to all parties concerned permitted. Your first interrogatory is, therefore, answered in the affirmative.

2. The Charter section above quoted fully covers the question of the powers of your Board after the hearing is had. To "confirm, amend, set aside, alter, modify or correct the assessment" contemplates a reduction of the assessment as fully as though the language was directly employed. Your second interrogatory is therefore answered in the affirmative.

3. Referring again to the Charter section, your Board is there empowered to "require the work to be completed according to the directions of the Supervisors." This language is sufficient, in my opinion, to empower your Board to order the work done over if it is in such a condition that it cannot be repaired, or your Board may order the repair and completion of the work before the assessment becomes final. Your third interrogatory is, therefore, answered in the affirmative.

In conclusion it may be well to call attention to the fact that your Board is made the court of last resort in these matters and that no assessment shall be held invalid for any error which might have been corrected by your Board.

The earlier decisions to the effect that the legislative body may assess or direct the assessment of the entire cost of a street improvement upon abutting land according to the front-foot rule, without any inquiry as to benefits received or giving the owner any opportunity to show that this will confiscate his property either in whole or in part have been overruled in the Londoner case above cited. The final determination being left to your Board, too much latitude cannot be given in order that a full and thorough hearing may be had and a fair opportunity given to the parties affected to present evidence and argument for this purpose.

Respectfully,

PERCY V. LONG,
City Attorney.

Board of Supervisors.

Motion.

Supervisor McLeran moved that the assessment be corrected and fixed at 15 cents per square foot.

Privilege of the Floor.

E. M. Leonard, contractor, obtained the privilege of the floor and addressed the Board as to the reasonableness of the price charged.

John Spargo, contractor, also addressed the Board, testifying that price was reasonable on account of the large amount of grading to be done.

Amendment.

Supervisor Connolly moved to amend by fixing price at 18 cents per square foot.

Wm. Metzner, property owner, de-

clared that the fence on his property had been destroyed in the work of constructing the sidewalk and that the earth removed in grading had been dumped on his lot.

J. Broger, property owner, stated that he was in the business of laying cement sidewalks and that he could do the job for 14 cents per square foot and make a profit at that price.

Amendment Carried.

Whereupon, the question being taken on Supervisor Connolly's amendment, the same was carried by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick Center, Connolly, D'Ancona, Giannini, Hocks, Johnston, McAllister, McLeran, Murdock, Payot, Rixford—14.

Noes—Supervisors Comte, Jennings, Murphy, Pollok—4.

Adopted.

Whereupon, the following Resolution was presented by Supervisor Center and on his motion adopted:

Directing Board of Public Works to Correct Assessment Levied for Street Work on Fair Oaks Street, Between Twenty-fourth and Twenty-fifth Streets.

Resolution No. 2751 (New Series):

Whereas, Owners of property liable for assessment for work of constructing artificial stone sidewalks on Fair Oaks street, between Twenty-fourth and Twenty-fifth streets, feeling aggrieved at the assessment levied upon said owners of said property by the Board of Public Works for the doing of said work, did on the 20th day of July, 1908, file with the Clerk of the Board of Supervisors an appeal from said assessment; and

Whereas, Said appeal was heard in the Board of Supervisors on the 8th and 21st days of September, 1908, and on the 12th day of October, 1908; and

Whereas, From the evidence adduced at said hearings it appears that the assessment levied for the cost of the work is excessive; now, therefore,

Resolved, That the Board of Public Works be and is hereby directed to correct the assessment issued to E. M. Leonard on June 26, 1908, so as to read that the cost of the work, inclusive of all charges, shall be at the rate of 18 cents per square foot instead of 21 cents per square foot.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

REGULATING STREET RAILWAY CARS.

The following Bill, heretofore passed for printing, was taken up on final passage:

Bill No. 654, Ordinance No. — (New Series), entitled, "Regulating

street railroads and cars in the City and County of San Francisco and prescribing rules and regulations for the protection of the public from danger and inconvenience in the operation of such railroads."

Referred.

Supervisor Giannini presented the following:

Petitions of Property Owners of Richmond District for Relief in Matter of Street Car Service.

Petition—Of Sol. Getz and numerous other property owners, for the restoration of the Eddy and Turk street car lines as they were prior to October 1, 1908; also to restore transfer system in vogue on the above date.

Read by Clerk and referred to the Public Utilities Committee.

Motion.

Supervisor Giannini moved that interested parties be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon, *William Abbott*, attorney, representing the United Railroads, addressed the Board, stating that no executive officer of a railroad company could be held criminally liable for the negligence of an employee; that the franchise of the railroad was granted before the Charter was adopted, and that the Board of Supervisors had no right to regulate fares, that power resting in the State Legislature. He requested that the Bill be referred to the City Attorney for an opinion as to its legal aspects.

Mrs. J. H. Felt and *Mrs. E. H. O'Donnell*, representing the West Richmond Women's Improvement Club, also addressed the Board in opposition to the new transfer system, and requested that the direct line from the Richmond District to the Ferry be restored.

Dr. Van Meter, representing tax payers, stated that half of all the people traveling on the Eddy and O'Farrell street lines were incommoded by the new arrangements.

Ernest Grey called attention to the inconveniences caused by the new transfer system of the United Railroads and favored the passage of the proposed Bill.

Motion.

Supervisor Comte moved that section 13 of the proposed Bill, relative to transfers, be referred to the City Attorney for his opinion as to its legality.

Motion lost by the following vote:

Ayes—Supervisors Broderick, Center, Comte, McAllister, Murdock, Pollok, Rixford—7.

Noes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McLeran, Murphy,

Payot—11.

Final Passage.

Whereupon, the question being taken on Bill No. 654, the same was *finally passed* as Ordinance No. 581 (New Series), by the following vote:

Ayes—Supervisors Bancroft, Booth, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Payot—12.

Noes—Supervisors Broderick, Center, Comte, McAllister, Pollok, Rixford—6.

Chairman.

At the hour of 4:50 o'clock Supervisor Murdock was called to the Chair, and presided during the remainder of the meeting.

Relative to Granting Temporary Permit to Sutter Street Railroad Company for Overhead Trolley on Outer Tracks of Lower Market Street.

The matter of the petition of various property owners and business men on Sutter street for the granting of a temporary overhead trolley permit to the Sutter Street Railroad Company on the outer tracks of lower Market street was, upon request, taken up for consideration.

Motion.

Supervisor Murphy moved that the matter be made a Special Order of business for next Monday at 3:30 o'clock p. m.

Amendment.

Supervisor Pollok moved as an amendment that the matter be taken up at once.

Amendment carried.

Motion.

Supervisor Giannini moved that the privilege of the floor be granted to any one who desired to address the Board.

So ordered.

Privilege of the Floor.

Whereupon, *Oscar Cooper*, attorney, representing Sutter street property owners, addressed the Board in favor of granting a temporary permit and suggesting that in the meantime the question of rights involved be referred to the City Attorney for an opinion.

A. A. Watkins, representing the Board of Trade, addressed the Board, requesting that a temporary permit be granted for the convenience of the public, but that no public rights be jeopardized.

Dr. J. Rosenstern also addressed the Board, calling attention to the inconveniences of the present Sutter street road, and requesting that a fair valuation be placed on the temporary permit in order that some basis for agreement may be established.

Thornwell Mullally, representing the United Railroads, declared that the company was willing to pay \$25,000 into the Treasury of the City and County for a temporary permit, said

amount to be applied to the construction of the Mission viaduct, and also that the company would construct the Mail Dock line at a cost of \$10,000.

Motion.

Supervisor Connolly moved that the matter be referred to the Public Utilities Committee.

Amendment.

Supervisor Pollok moved as an amendment that the matter be made a Special Order of business for next Monday at the hour of 3 p. m.

Amendment carried.

NEW BUSINESS—(Out of Order).

Relating to the Acquisition of a Municipal Water Supply.

Supervisor Giannini presented the following matters out of order:

Report of Public Utilities Committee on Notice of Special Election.

To the Honorable the Board of Supervisors of City and County of San Francisco.

Gentlemen:

Pursuant to the requirements of the Charter of the City and County of San Francisco, and in accordance with action heretofore taken by your Honorable Board, there is herewith submitted for passage at to-day's meeting a Bill giving notice of a special election to be held in the City and County of San Francisco on the 12th day of November, 1908, in the matter of acquisition of a water supply, with source at Lake Eleanor and Hetch Hetchy Valley, in the Sierra Mountains.

Respectfully submitted,

A. H. GIANNINI,

D. C. MURPHY,

R. McLERAN,

Public Utilities Committee.

Opinion of City Attorney as to Sufficiency of Bill Giving Notice of Special Election.

October 12, 1908.

Board of Supervisors, 70 Eddy street, City.

Gentlemen:

I am in receipt of your communication of October 9th enclosing Bill giving notice of a special election to be held November 12, 1908, in the matter of the acquisition of the water supply for San Francisco and requesting to be advised whether said proposed Bill is sufficient.

Having carefully examined proposed Bill, I have to report that it is sufficient for the purposes intended. I return herewith the Bill sent to me.

Respectfully,

PERCY V. LONG,

City Attorney.

Read and ordered filed.

Passed for Printing.

Whereupon, on motion of Supervisor Giannini, the following Bill was *passed for printing* by the following vote:

Bill No. 683, Ordinance No. — (New Series), entitled, "Giving notice of a Special Election to be held in the City and County of San Francisco on the 12th day of November, 1908, for the purpose of submitting to the electors of said City and County three propositions, to wit: 1. Proposition to authorize the City and County of San Francisco to acquire by purchase or condemnation, a public utility, viz.: A water supply and works to be owned and controlled by said City and County, to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the source of such supply to be Lake Eleanor, the Hetch Hetchy Valley and the waters of the Tuolumne River, in Tuolumne County, California; 2. Proposition to incur a bonded indebtedness by said City and County of San Francisco to the amount of Six Hundred Thousand (\$600,000) dollars for the purchase of certain lands, rights, claims and the construction of certain works in connection with the Hetch Hetchy and Lake Eleanor water supply for said City and County; 3. Proposition to acquire by purchase the property of the County Line Water Company used in supplying a portion of the City and County with water, at a cost not to exceed \$40,000, the same to be paid for out of the annual revenue of the City and County, this Ordinance being the fifth of a series of Ordinances to be adopted by the Board of Supervisors relating to and designed to secure the acquisition, construction and completion of the public utility named.

Ayes—Supervisors Bancroft, Booth, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Fayot, Pollok, Rixford—16.

Noes—Supervisors Broderick, McAlister—2.

NEW BUSINESS—(Out of Order).

BOND ISSUE, 1908.

Appointment of Crocker National Bank as Fiscal Agent, Bond Issue of 1908.

Supervisor Giannini introduced the following Resolution and moved its adoption:

Resolved, That the Crocker National Bank of San Francisco be and is hereby appointed fiscal agent for the City and County of San Francisco for the purpose of providing for the payment in the City of New York of interest on coupons and for the redemption of bonds of the City and County of San Francisco, issue of July 1, 1908, upon the following terms and conditions, to wit:

(1) That the City and County Treasurer shall deposit with the Crocker National Bank of San Francisco at least thirty (30) days previous to the periods of payment of

interest—that is to say, on December 1st and June 1st of each year—a sum sufficient to meet the outstanding obligations which will become due in the City of New York on the first day of the following month, and that the Crocker National Bank of San Francisco shall designate one of its correspondents to act as fiscal agent for the City and County of San Francisco in the City of New York.

(2) That the City and County of San Francisco shall not be put to any expense whatever in the matter of making the said payments, except the current rate of exchange between San Francisco and New York, and the cost of clerical work, not to exceed one hundred and fifty (\$150.00) dollars at each period of payment of interest; provided, however, that if a bond should be exacted by the Treasurer of the City and County of San Francisco upon making any deposit with the Crocker National Bank of San Francisco, the premium on such bond shall be paid by the City and County of San Francisco.

Motion.

Supervisor Jennings moved that the Resolution be recommitted to the Public Utilities Committee with instructions that other banks be invited to submit offers to perform the same service.

Amendment.

Supervisor Bancroft moved as an amendment that the matter be referred to the Finance Committee.

Amendment lost by the following vote:

Fixing Width of Sidewalks on Blake Street at Twelve Feet.

On motion of Supervisor Center:
Bill No. 685, Ordinance No. —

(New Series), entitled, "Amending Ordinance No. 1061, entitled 'Regulating the width of sidewalks,' approved December 18th, 1903, by adding thereto a new section to be numbered Two Hundred and Ninety-nine," the provisions of which fix the width of sidewalks on Blake street at twelve feet.

Conditional Acceptance of Franklin Street, Between Francisco and Bay Streets.

Also, Bill No. 686, Ordinance No. — (New Series), entitled, "Providing for the conditional acceptance of the roadway of Franklin street, between Francisco and Bay streets."

Adopted.

The following Resolution was adopted:

Board of Public Works to Recommend Grading and Macadamizing "H" Street, 20th and 49th Avenues.

On motion of Supervisor Center:

Resolution No. 2763 (New Series), as follows:

Whereas, In the Budget of the fiscal year 1908-9 provision is made for the grading and macadamizing of "H" street, between Twentieth and Forty-fifth avenues, the said amount being the estimated cost of the doing of the City's portion of such work on said street, now therefore,

Resolved, That the Board of Public Works be and is hereby requested to recommend to the Supervisors the ordering of the following street work, insofar as the City and County of San Francisco is liable, and also to recommend the expediency of performing that portion of the work, the expense of which is assessable upon private property.

The grading and macadamizing of "H" street, between Twentieth and Forty-fifth avenues.

The following matters were passed for printing:

Extensions of Time, Street Work.

On motion of Supervisor Center:

Resolution No. — (New Series), as follows:

Resolved, That the Barber Asphalt Paving Company be and is hereby granted an extension of sixty days' time from October 21, 1908, within which to complete the contract for paving the roadway of Sutter street, from Van Ness avenue to Sansome street.

This extension of time is granted for the reason that the construction of sewers now under progress on Grant avenue and Montgomery street prevents their proceeding with the work.

Also, Resolution No. — (New Series), as follows:

Resolved, That the Eureka Construction Company be and is granted an extension of thirty days' time from and after October 11, 1908, within which to complete the contract for the construction of artificial stone sidewalks on Frederick street, between Stanyan street and First avenue.

This extension of time is granted for the reason that the contractor has been delayed in securing the line and grade.

Also, Resolution No. — (New Series), as follows:

Resolved, That Blanchard, Brown & Co. be and is hereby granted an extension of ninety days' time from and after October 14, 1908, within which to complete the contract for grading Thirty-fifth avenue from Point Lobos avenue to Fulton street.

This extension of time is granted for the reason that the contractor has been unable to secure the necessary tracks and switches.

Also, Resolution No. — (New Series), as follows:

Resolved, That Owen McHugh be and is hereby granted an extension of 90 days' time from and after October 25, 1908, within which to complete the contract for grading Fulton street, from Thirty-seventh to Forty-seventh avenues.

This extension of time is granted for the reason that the time originally fixed is not sufficient for the performance of the work.

Blasting Permit.

Also, Resolution No. — (New Series), as follows:

Resolved, That the Western States Construction Co. be and is hereby granted permission, revocable at the will of the Board of Supervisors, to explode blasts for grading purposes along and upon the proposed right of way of the Western Pacific Railway Company and upon the property of the said Western Pacific Railway Company, adjoining said proposed right of way between the westerly line of Minnesota street and a point distant 200 feet north of the northerly line of Twenty-second street; provided that said permittee shall execute and file a good and sufficient bond in the sum of \$50,000, fixed by the Board of Public Works and approved by his Honor, the Mayor, in accordance with Ordinance No. 1204, provided also that said blasts shall be exploded only between the hours of 7 a. m. and 6 p. m., and that the work of blasting shall be performed to the satisfaction and under the supervision of the Board of Public Works, and that if any of the conditions of this Resolution be violated by

said Western States Construction Company, then this privilege and all rights accruing thereunder shall immediately become null and void.

Spur Track Permit, Cyrus S. Wright.

Also, Bill No. 687, Ordinance No. — (New Series), entitled, "Granting permission, revocable at will of the Board of Supervisors, to Cyrus S. Wright, to construct, maintain and operate a single spur track from the westerly line of Third street over and across Third street into the property situate in 100 Vara Block No. 360, bounded by Brannan, Townsend, Second and Third streets."

Minority Report.

Supervisor McLeran presented the following Minority Report:

San Francisco, Oct. 12, 1908.

To the Honorable the Board of Supervisors of the City and County of San Francisco.

Gentlemen: The undersigned, a minority of your Police Committee, begs leave to report in favor of the Petition of the Moving Picture Machine Owners Protective Association, for the repeal of Section 4A of Ordinance No. 777, giving power to the Board of Police Commissioners to issue permits for skating rinks, revolving wheels, etc.

In the matter of Bill No. 671, amending Ordinance No. 777 by prohibiting skating rinks, revolving wheels, nickelodeons and similar enterprises within 200 feet of any church or school the undersigned recommends that the following proviso be incorporated in said Bill:

Provided, however, that this Ordinance shall not apply to buildings already erected, or in course of erection and intended to be used for any of the above purposes as indicated in the building permit issued therefor by the Board of Public Works.

Respectfully submitted,

R. McLERAN.

Amendment.

Whereupon, Supervisor McLeran moved to amend Bill 671 by providing that no permit shall issue to such a business within a distance of 200 feet from the front of any church or school; provided, however, that this restriction shall not apply to buildings already erected or in course of erection.

HEARING IN MATTER OF APPEAL FROM SEWER ASSESSMENT.

Taylor and North Point Streets.

The matter of the appeal of certain property owners from the assessment, warrant and diagram issued by the Board of Public Works for work of sewer construction in the crossing of Taylor and North Point streets was taken up.

Communication From City Attorney Stating That Property Owners Cannot be Assessed a Second Time for the Same Work.

Supervisor Center presented the following:

October 9, 1908.

Gentlemen: I am in receipt of a communication from the Clerk of the Board of Supervisors, asking me to advise your Committee, "as to whether or not the property owners are liable for the cost of the construction of a sewer in the crossing of Taylor and North Point streets." You say "The assessment was issued by the Board of Public Works on July 11, 1908. The property holders or their predecessors making said appeal claim that the construction of a sewer in said crossing in

January or February, 1901, was paid by them or their predecessors." A copy of the appeal of the property owners was enclosed to me with the communication.

Section 14 of Chapter II, Article VI of the Charter, reads as follows:

"The owners, whether named in the assessment or not, the contractor or his assigns, and all other persons directly interested in any work provided for in this Chapter, or in the assessment, feeling aggrieved by any act or determination of the Board of Public Works in relation thereto, or who claim that the work has not been performed according to the contract in a good and substantial manner, or having or making any objection to the correctness or legality of the assessment or other act, determination or proceedings of the Board, shall, within thirty days after the date of the warrant, appeal to the Supervisors, by briefly stating their objections in writing and filing the same with the Clerk of the Supervisors. Notice of the time and place of the hearing, briefly referring to the work contracted to be done, or other subject of appeal, and to the acts, determinations or proceedings objected to or complained of, shall be published for five days. Upon such appeal the Supervisors may remedy and correct any error or informality in the proceedings, and revise and correct any of the acts or determinations of the Board relative to said work, may confirm, amend, set aside, alter, modify or correct the assessment in such manner as to them shall seem just; and require the work to be completed according to the directions of the Supervisors, and may at their option direct the Board of Public Works to correct the warrant, assessment or diagram in any particular, or to make and issue a new warrant, assessment and diagram to conform to the decisions of the Supervisors in relation thereto.

"All the decisions and determinations of the Supervisors, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to appeal under the provisions of this section as to all errors, informalities and irregularities, which the Supervisors might have remedied and avoided; and no assessment shall be held invalid, except on appeal to the Supervisors, as provided in this section, for any error, informality or other defect in the proceedings prior to the assessment, or in the assessment itself, where the Board of Public Works has acquired jurisdiction to make the same."

The property owners against whom the assessment in question was levied have made an appeal to the Supervisors under these provisions of the Charter. The appeal is proper in form and

was made within the time allowed by the section just quoted to you. This appeal having been made, it becomes the duty of the Board of Supervisors to fix a time and place for the hearing of the appeal and to publish a notice thereof for at least five days. Upon a hearing of the appeal the property owners may present such evidence as they have relevant to the matter in dispute and make such objections as they have to the collection of the assessment.

In an opinion dated September 28, 1908, to the Board of Supervisors, I advised the Board the scope and object of the provisions of section 14 of Chapter II, Article VI of the Charter and as to the duty of the Board in respect to those provisions. I refer you to that opinion, which may be of value to the Board in adopting the procedure in respect to the appeal.

The objection of the property owners, as stated in the appeal, is that the construction of a sewer in said crossing was paid for by them and their predecessors in interest. If the work for which the assessment of June 11, 1908, was levied is the same work paid for by the owners of the property making the appeal or their predecessors a second assessment for the same work could not be collected from them. Whether or not this is a fact is not stated in your communication and there are not sufficient facts before me to enable me to advise you as to whether or not the assessment should stand.

The provisions, however, as to the fixing of a time and place for the hearing of an appeal are mandatory upon the Board and this should be done in reference to this appeal. Upon the hearing the Board will determine the facts. When the facts are determined if there are any questions of law upon which you should be advised, the facts should be presented to me as they were determined upon the hearing so that I may fully advise you in the premises.

Respectfully,

PERCY V. LONG,
City Attorney.

Adopted.

Whereupon, the following Resolution was introduced by Supervisor Center and on his motion adopted by the following vote:

Board of Public Works to Correct Assessment for Sewer Work at Crossing of North Point and Taylor Streets by Making Same a Charge Against the City and County.

Resolution No. 2819 (New Series).

Resolved, That the Board of Public Works be and is hereby directed to correct assessment No. 71 for the work of constructing a sewer in the crossing of North Point and Taylor streets in such a manner that the cost of the

work performed on the crossing of Taylor and North Point streets shall be made a charge against the City and County of San Francisco, it appearing that the property owners have already paid the cost of the work of constructing a sewer in this crossing.

Amendment carried by the following vote:

Ayes—Supervisors Booth, Center, D'Ancona, Giannini, Hocks, Johnston, McAllister, McLeran, Payot, Pollok, Rixford—11.

Noes—Supervisors Bancroft, Broderick, Comte, Jennings, Murdock, Murphy—6.

Absent—Supervisor Connolly—1.

Explanation of Votes.

Supervisor D'Ancona explained his vote by stating that it was in line with past actions of the Board of Supervisors to lay down policies in this manner for the guidance of the various Departments of the Municipal Government.

Supervisor Giannini stated that he voted in the affirmative inasmuch as he had no ruling from the Chair as to the power of the Board of Supervisors to interfere with the wishes of the Department of Electricity in the matter.

Supervisor Pollok explained his vote by stating that he acted on the supposition that he was not interfering with the powers of the Department of Electricity.

Recommitted.

The following Bill laid over from last meeting and made a Special Order of Business for 4 p. m. this day, was taken up and on motion of Supervisor Center *recommitted to the Building Laws Committee:*

"The Plumbing Law."

Bill No. 481, Ordinance No. — (New Series), entitled, "Establishing rules and regulations for the plumbing and drainage of buildings in the City and County of San Francisco, this Ordinance to be known as 'The Plumbing Law'".

Hearing in Matter of Granting a Temporary Permit to the Sutter Street Railway Company to Operate its Cars by Means of Overhead Trolley System on Outer Tracks of Lower Market Street.

Consideration of the matter of granting a temporary permit to the Sutter Street Railway Company to operate its cars on lower Market street by means of the overhead trolley system, laid over from last meeting and made a Special Order of Business for 3 p. m. this day, was proceeded with.

Privilege of the Floor.

Oscar Cooper, representing Sutter street property owners, obtained the privilege of the floor, and addressed the Board stating that the railroad company would pay \$2000 per year for

a permit extending over the remaining years of its franchise.

John Egan, whose application for certain street railroad franchises is to be submitted to the people at the coming election, also addressed the Board and requested that the matter lay over until after election day.

Dr. J. K. Frink addressed the Board favoring the granting of the permit.

O. L. Stark, representing West Richmond Improvement Club, addressed the Board opposing the granting of the permit.

O. A. Boeckman, representing the Sutter Street Railroad Company, substantiated the statement of Oscar Cooper, but said that the offer of the Company did not indicate that it attached any value to the permit and that the offer was made only in deference to the wishes of numerous property owners on Sutter street who claim that their property is being injured by the inadequacy of the railroad service.

Motion.

Supervisor McLeran moved that the offer be referred to the Public Utilities Committee.

Motion.

Supervisor Pollok moved that \$200 per month for a permit revocable at will of Board be accepted.

Motion lost by the following vote:

Relative to Refusal of Western Union and Postal Telegraph Companies to Install Wiring for Call Boxes Except at Expense of User.

Supervisor Bancroft introduced the following:

Communication—From Uhl Bros., relative to refusal of the Western Union and Postal Telegraph Company to install wiring for call boxes except at expense of user.

Ordered referred to the Public Utilities Committee.

Police Committee to Frame Ordinance Regulating Clairvoyants, Fortune Tellers, Etc.

Supervisor Giannini introduced the following Resolution:

Resolution No. — (New Series).

Whereas, Under the guise and name of clairvoyants, test mediums and fortune tellers, numerous persons have erected unsightly tents on various portions of Montgomery avenue, Kearny street and Market street, and

Whereas, Numerous complaints are being constantly made to suppress such questionable methods of business; now, therefore,

Resolved, That the License Committee of this Board be and is hereby requested to present to the Board an ordinance designed to regulate or to suppress such character of business.

Ordered *referred to the Police Committee*, instead of License Committee.
Urging Electors to Vote Against "Egan Franchise Ordinance."

Supervisor Giannini introduced the following Resolution under suspension of the rules and moved its adoption:

Whereas, It has come to the notice of this Board that a petition has been filed with the Election Commissioners to have placed upon the official ballot at the coming election an Ordinance granting to one John Egan numerous street railway franchises, and

Whereas, The said proposed Ordinance provides that only the minimum percentage of the gross earnings prescribed by the Charter shall be paid to the City for said franchises; and

Whereas, The said franchises are of great value, and if competitive bidding therefor were permitted, a much larger return to the City would be realized; therefore be it

Resolved, That this Board urge upon all electors in the City to vote against the proposed Ordinance for the reason that the same, if legal, will deprive the City of valuable rights without adequate return.

Privilege of the Floor.

J. Egan, whose application for certain street railway franchises is to be submitted to the electors at the coming election, was granted the privilege of the floor and addressed the Board protesting against the passage of the Resolution.

Adopted.

Whereupon, the question being taken, the above Resolution was *adopted* as Resolution No. 2829 (New Series), by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Comte, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—16.

No—Supervisor Center—1.

Absent—Supervisor Connolly—1.

Adopted.

The following Resolution was introduced under suspension of the rules and adopted:

Mayor to Sell Shacks on North Beach Children's Playground.

On motion of Supervisor Jennings: Resolution No. 2830 (New Series), as follows:

Resolved, That his Honor the Mayor be and is hereby authorized and requested to sell at public auction, after advertising in the official newspaper for a period of five days as required by the Charter, certain shack buildings and structures now located on the easterly one-half of the area known as the North Beach Children's Playground, at Lombard and Powell streets.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—17.

Referred to Clerk.

Ordered *referred to Clerk*.

Referred.

Imposing a License on Coin Operated Machines.

Supervisor Murdock presented the following:

Bill No. 710, Ordinance No. — (New Series), entitled, "Imposing a license on persons, associations and corporations owning or having in charge any machine or apparatus in which, on deposit of a five cent piece, or other piece of money or article representing money, or value, the player or person operating the machine, is entitled to receive cigars, cigarettes or liquor."

Ordered *referred to the License Committee*.

Adopted.

At the request of Supervisor Connolly the following Resolutions were introduced by Supervisor Payot under suspension of the rules and *adopted*.

City Attorney to Obtain Modification of Spring Valley Water Company's Restraining Order.

Resolution No. 2831 (New Series), as follows:

Resolved, That the City Attorney be requested to obtain such modification of the restraining order issued in the case of the Spring Valley Water Company vs. the City and County, that in case the consumers supplied by said Spring Valley Water Company refuse to pay in excess of the rates fixed by the Board of Supervisors, the plaintiff in said action will not be permitted to shut off the supply of water or in any way refuse to supply the same.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—17.

City Attorney to Obtain Modification of San Francisco Gas and Electric Company's Restraining Order.

Also, Resolution No. 2832 (New Series), as follows:

Resolved, That the City Attorney be requested to obtain such modification of the restraining order issued in the case of the Gas and Electric Company vs. the City and County, that in case the consumers supplied by said Gas and Electric Company re-

fuse to pay in excess of the rates fixed by the Board of Supervisors, the plaintiff in said action will not be permitted to shut off the supply of gas or electricity or in any way refuse to supply the same.

JOURNAL OF PROCEEDINGS

BOARD OF SUPERVISORS

MONDAY, OCTOBER 26, 1908.

In Board of Supervisors, San Francisco, Monday, October 26, 1908, 2:00 p. m.

The Board of Supervisors met in regular session.

CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Booth, Broderick, Center, Giannini, Hocks, Jennings, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—14.

Quorum present.

His Honor Mayor Taylor being absent, Supervisor Murdock was called to the chair.

READING THE JOURNAL.

The Journal of the meeting of October 19, 1908, was read and approved.

ROLL CALL FOR PETITIONS FROM MEMBERS.

Supervisor Giannini presented the following:

Relative to Return to Old Transfer System, United Railroads.

United Railroads of San Francisco, Oak and Broderick streets. Chas. N. Black, Vice-President and General Manager.

San Francisco, Oct. 26, 1908.

Dr. A. H. Giannini, Chairman Utilities Committee, Board of Supervisors.

Dear Sir: As stated to you personally, and in the public press, I expect to return to what is known as the old transfer system on November 10th. This is not to be considered in any way as affecting the protest heretofore filed with the Mayor and Board of Supervisors by the United Railroads against the validity of Ordinance No. 581, known as the "regulating ordinance".

I am advised that this ordinance is illegal and cannot be enforced, and am also convinced that the transfer system in effect October 1, 1908, was best suited to the convenience of the traveling public when properly understood. The public, however, seemed to prefer the old system, and I have, therefore, decided to readopt that system as near as may be.

Yours truly,

CHAS. N. BLACK,

Vice-Pres. and Gen'l Mgr.

Ordered referred to Public Utilities Committee.

PRESENTATION OF PETITIONS FILED WITH THE BOARD.

Petitions, Protests, etc., were presented, received and referred as follows:

Report—Of the Stationery Department of the Board of Supervisors for the month of September, 1908.

RELATIVE TO CONSTITUTIONAL AMENDMENT NO. 1, PROVIDING FOR A CHANGE IN METHOD OF RAISING STATE REVENUE.

Motion.

Supervisor Murphy moved that the rules be suspended and that the communication from the League of California Municipalities, on Constitutional Amendment No. 1, proposing to change method of raising state revenue, be read and considered.

So ordered.

The Report of the Committee on Constitutional Amendment No. 1, League of California Municipalities, Proposing a Change in the Revenue System of the State of California.

League of California Municipalities. Mountain View, Cal., Oct. 24, 1908. To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: Your attention is herewith called to the pending Constitutional amendment providing for a new system for raising state revenue which amendment will be voted upon at the coming election.

The accompanying report of a committee of the League of California Municipalities states certain reasons why the said amendment should not be adopted. In addition to the reasons therein given your attention is directed to the financial effect that its adoption will have upon the city. While ultimately the taxpayers might be benefited, there will be a loss of municipal revenue approximating \$900,000. This would have to be made up either by a material increase of the assessment roll or by an increase in the rate of taxation, which latter alternative cannot be done without an amendment to the Charter.

The matter is called to your attention at this time that you may take such action as you may deem proper.

Very truly yours,

H. A. MASON,
Secretary.

To the Members of the League of California Municipalities:

At the last annual convention of the League, held at Pasadena in November, 1907, the question as to whether the association should endorse, or otherwise, the proposed amendment to the Constitution of the State of California providing for the change of the system of raising state revenue, was discussed and as a result of the discussion a committee was appointed for the purpose of ascertaining its probable effect upon the municipalities of the state and to determine whether or not it would be desirable for the League to recommend the measure to the voters. The committee having investigated the subject, submitted the following report: That the benefits to accrue from the adoption of the amendment have not been satisfactorily demonstrated. It is claimed on behalf of the amendment that a separation of state from local revenues would be desirable, for the reason that, in the event of such separation being accomplished, the property would be more likely to be assessed at its full valuation in each county or local assessing district; whereas under the present system the tendency is to keep the assessment as low as possible, in order that each county may thereby be relieved as far as possible of its proportion of state taxation. In as much as it is not claimed that the proposed amendment will entirely separate the state revenues from local revenues, it is probable that the same tendency to minimize the local assessment rolls will be continued and there will be no resulting gain by the adoption of the amendment.

It is claimed that under the plans proposed by the amendment, *i. e.*, the imposition of a gross income tax on the revenues of certain corporations, that such corporations will pay more taxes than they do now. In as much as these corporations in most instances are natural monopolies, the payment of such increased taxes upon their part would be made an excuse for charging higher rates to the consumer. It will be seen that ultimately such increase would be borne by the consumer; hence there would be little gain to the people as a whole. Furthermore, the objection to the present system of taxation is that it is so fixed in the Constitution that changes are difficult to make, that it is unelastic and productive of many abuses. Instead of relieving this cause of objection, the proposed amendment proposes to perpetuate the present system of taxation with the additional system of fixed rates of income tax, all of which will be written into the Con-

stitution, and once there, will be still more difficult to change. Whether the rates fixed by the amendment are just or unjust, is very difficult to determine, and if the future should determine that they were unjust to the people, it would be almost impossible to ever change them.

The chief objection, therefore, which your committee would urge to the adoption of the proposed amendment, is that last above indicated, viz.: that the amendment proposes to engraft a new system of taxation upon the Constitution without any definite knowledge as to whether it is just or unjust. We do not believe that experiments in taxation should be made in the form proposed.

We therefore recommend to the League of California Municipalities and to all cities and towns in this state, that efforts should be made to secure the rejection of the proposed amendment at the ensuing election, and to that end we recommend that all city councils and boards of trustees adopt the resolution expressing their disapproval of the aforesaid amendment.

Respectfully submitted,

(Signed) CLINTON L. WHITE,
Mayor of Sacramento.

D. C. MURPHY,
Supervisor of San Francisco.

S. C. EVANS,
Mayor of Riverside.

S. B. BAGNALL,
Pres. Board of Trustees, Oxnard.

H. H. TURLEY,
City Clerk, Richmond.

H. A. MASON,
Secretary League.

Adopted.

Thereupon Supervisor Murphy introduced the following Resolution, which was on his motion adopted by the following vote:

Requesting Voters to Defeat Proposed Constitutional Amendment No. 1.

Resolution No. 2833 (New Series).

Whereas, A communication has been presented to this Board, signed by Mayor Clinton L. White of Sacramento, Mayor S. C. Evans of Riverside, S. B. Bagnall, Mayor of Oxnard; H. H. Turley, City Clerk of Richmond; D. C. Murphy, Supervisor, San Francisco, and H. A. Mason, the foregoing constituting a committee of the League of California Municipalities, appointed for the purpose of ascertaining the probable effect of Constitutional Amendment No. 1, should the same be adopted, and

Whereas, The report of said Committee concludes that the adoption of said amendment would be unwise at this time, therefore

Resolved, By the Board of Supervisors of the City and County of San Francisco, that voters be requested to

vote against said proposed Constitutional Amendment No. 1, attempting to change the method of raising the revenue of the State, and we assign as our reasons for making such request, the following:

1. It proposes to engraft in the Constitution an experimental system of income tax upon certain corporations, fixing the rates of such tax without means of determining whether such rates are fair or otherwise to the tax-paying public. That when once fastened into the Constitution, a change in the interest of the general tax-payers would be most difficult. For this reason the plan proposed is highly objectionable.

2. The immediate effect of the proposed amendment, if adopted, will be to deprive the city of approximately \$900,000 of taxes now paid by corporations, and as it will be impossible to recoup this loss by any increase of the rate of taxation without an amendment to the Charter raising the so-called "dollar limit," the municipality would suffer a serious financial handicap for at least two years.

The reasons above set forth are not to be expressive of antagonism to the plan for raising revenue provided in this amendment, but as objections to the method of its adoption.

RELATIVE TO THE ACQUISITION OF A MUNICIPAL WATER SUPPLY.

The following Communications and Reports were presented, and on motion of Supervisor Pollok, ordered read.

San Francisco, October 8, 1908.

Mr. Desmond Fitzgerald and Prof. C. D. Marx, Consulting Engineers.

Gentlemen:

With the approval of his Honor, the Mayor, the Committee on Public Utilities and the Honorable the Board of Public Works, you have been selected to report upon the following problem which has arisen in public discussion of certain rights offered to this City by grant of May 11, 1908, by Hon. James Rudolph Garfield, Secretary of the Interior:

Will the proposed development of Lake Eleanor and Hetch Hetchy reservoir sites be sufficient to enable San Francisco to secure a water supply of 200 million gallons per day from the Tuolumne River, due regard being had to the granted rights of the Modesto and Turlock Irrigation Districts to the natural flow of the river up to twenty-three hundred and fifty (2350) second feet?

This is the critical question involved.

in the development of this source either as a reinforcing or as an independent supply.

The superb nature of the drainage areas, the adequacy of the reservoirs and the excellent sites for dams being generally recognized and accepted.

Respectfully submitted,

MARSDEN MANSON,

City Engineer.

San Francisco, October 23, 1908.

To the Honorable the Board of Public Works.

Gentlemen:

I have the honor to transmit herewith the report of Mr. Desmond Fitzgerald and Prof. C. D. Marx, consulting engineers, upon the crucial problem of the adequacy of the Tuolumne source of water supply as made possible of acquisition under the terms of the grant of May 11, 1908, by the Hon. James Rudolph Garfield, Secretary of the Interior.

Mr. Fitzgerald was already familiar with the entire region by reason of his examination in 1903. Prof. Marx accompanied the undersigned on September 30 to October 8, 1908, inclusive, in a careful examination of the reservoirs, dam sites and drainage areas. Since that date, the consulting engineers, with a number of assistants from the office, have been engaged in a critical analysis of all the available data bearing upon the problem. It will be observed that their final analysis and report is based upon the measured run off as gauged by the U. S. Reclamation Service at La Grange, and not upon theoretical discussions of rainfall. The City will doubtless receive from these authorities assurance of the adequacy of the sources now available with keen appreciation, as no problem of equal moment and such far-reaching consequences confronts this municipality.

It is a matter of profound gratification to the undersigned that the sources for which he has persistently struggled have received such high endorsement.

Respectfully submitted,

MARSDEN MANSON,

City Engineer.

San Francisco, October 23, 1908.

To the Honorable the Board of Supervisors of the City and County of San Francisco.

Gentlemen:

There is herewith transmitted to your Honorable Body the report of Mr. Fitzgerald and Professor C. D. Marx, consulting engineers, on the adequacy of the Tuolumne source of water supply, together with the correspondence relating thereto and the letter of the City

Engineer transmitting report of the consulting engineers.

Respectfully submitted,

BOARD OF PUBLIC WORKS.

By Robt. J. Loughery, Secretary.

(Enclosure.)

Report of Mr. Desmond Fitzgerald and Prof. C. D. Marx, Consulting Engineers, on the Adequacy of the Tuolumne Source of Water Supply for San Francisco.

San Francisco, Cal., Oct. 23, 1908.

To the Honorable the Board of Public Works of the City and County of San Francisco.

Gentlemen:

Our final instructions in regard to the investigation of the safe yield of the Lake Eleanor and Hetch Hetchy watersheds were received from your Board through the City Engineer, Marsden Manson, Esq., on October 8th. They were as follows:

The consulting engineers are asked to answer the following question:

Will the proposed development of the Lake Eleanor and Hetch Hetchy reservoir sites be sufficient to enable San Francisco to secure a water supply of 200 million gallons per day from the Tuolumne River, due regard being had to the granted rights of the Modesto and Turlock Irrigation Districts to the natural flow of the river up to twenty-three hundred and fifty (2350) second feet?

In order to secure a daily water supply from any watershed with safety, it is necessary to determine the yield during the period of longest and most severe drought. This is commonly called the "critical period." It is evidently unsafe to deal in this connection with the *average* flow from the watershed because this is made up of the total run-off, including freshets. The true measure of capacity of a domestic water supply is the quantity it may be depended upon to furnish in every emergency. There are two methods for determining the critical period: one by a study of rainfall tables, and the other by considering the actual amount of water flowing from the watershed. As the relations existing between rainfall and run-off are extremely variable and complicated, it becomes a matter of great difficulty to deduce yield from rainfall. With the run-off given, however, the critical period may be selected with little difficulty and a safe daily capacity computed with accuracy.

An examination of the rainfall records at La Grange on the Tuolumne watershed, which extend from 1868 to 1900, shows that during that interval there were four periods of excessive drought, three of which were practically of the same severity, judging by the

rainfall records, and the fourth in 1876-7, measured by the same standard, was the most severe. Fortunately, one of the former periods, that of 1897-8, occurred at a time when the run-off from Tuolumne River was measured. This period, therefore, has been selected for the present investigation as the "critical period" affording the most trustworthy measure of the safe daily yield of the Lake Eleanor and Hetch Hetchy watersheds in time of drought; all other measures must be based upon complicated theoretical considerations.

At La Grange, which is lower down upon the stream than the Lake Eleanor and Hetch Hetchy watersheds, the area of the Tuolumne watershed is 1501 square miles. Lake Eleanor watershed has an area of 84 square miles, and that of Hetch Hetchy is 452 square miles; their combined areas are 35.7 per cent of the area at La Grange. To the extent of this percentage, therefore, with modifications for local conditions, these watersheds contribute to the flow which was measured at La Grange.

The storage proposed on the combined Hetch Hetchy and Lake Eleanor watersheds is 96,000 million gallons. Our computations show that in the drought of 1897-8 draft from storage would have begun on July 1, 1897, and ended on March 1, 1899, a period of 608 days. During the whole of this time, the reservoirs would have been below their full water line, and there would have been no discharge of water into the streams below the dams except for the use of the irrigation districts in accordance with our instructions.

On the basis of the measured run-off at La Grange, which, as we have already stated, we believe to be the most conservative basis that can be adopted, we have computed that during the severe period of drought prevailing in 1897-8 the safe daily supply for the City of San Francisco from Lake Eleanor and Hetch Hetchy watersheds would have been at the rate of 240 million gallons daily.

We consider, therefore, that the question you have asked us is answered in the affirmative, and that the City can depend upon 40 million gallons daily over and above the 200 million gallons referred to in that question.

We have also examined the rainfall records at all stations in this portion of California to ascertain if there is a possibility that in the high Sierras the critical period of 1897-8 may be exceeded in the future when judging on this basis, and we have found but one period—that of 1876-7—pointing in that direction. In this period there is a record showing a rainfall at La Grange of only 5.74 inches.

With the natural flow of the stream entirely diverted to the uses of the irrigation districts, which is the worst assumption that can be made for San Francisco, we find that the period of drought would have extended from July 1, 1876, to January 1, 1878, a period of 549 days, during which the only dependence of the City would have been on its stored water at Lake Eleanor and Hetch Hetchy. After allowing for evaporation and other losses, we find that it would be necessary to increase the proposed storage to 120,000 million gallons in order to furnish a draft of 200 million gallons daily.

In conclusion, we desire to impress upon your Board the importance of beginning as soon as possible a series of continuous gaugings at the outlets of the Hetch Hetchy and Lake Eleanor watersheds.

Very respectfully,
 DESMOND FITZGERALD,
 CHAS. D. MARX,
 Consulting Engineers.

Motion.

Supervisor Pollok moved that consideration of the Water Supply matter be made a Special Order of Business for some day during the week.

Motion lost.

Privilege of the Floor.

L. M. King, representing the Merchants' Association, obtained the privilege of the floor and stated that his association was not satisfied with the legal aspects of the water supply question and that it had submitted certain questions to Supervisor Giannini relative to the matter and was awaiting an answer.

Motion.

Supervisor Johnston moved that the matter be referred to the Public Utilities Committee and that all questions for information be placed before said Committee in writing.

Motion carried.

Referred.

The following communications were also presented and ordered referred to the Public Utilities Committee:

Communication From William Ham. Hall with Suggestions for the Acquisition of Private Rights in Lake Eleanor Watersheds.

210 Grant Building.
 San Francisco, Cal., October 21st, 1908.
 Dr. A. H. Giannini, San Francisco, Cal.

My Dear Doctor: This is only a personal note for you and your associates of the Public Utilities Committee. It is not written by authority of or at the request of any one.

As I remember, it was understood

when we last talked, that I would communicate with your Committee when I could give you some further word from those whom I represent in the Eleanor Creek and Lake Eleanor matter. Hence, I ought to tell you now that my impression is that they have no intention of submitting to the City authorities any further offer of their holdings.

I have no instructions in the matter, though I have asked for them, and I have no direct intimation, other than that they have not authorized me to name a price on parts of their holdings which they do not want to sell.

I gather, as already intimated to you, that they are open to an offer to buy on the part of the City authorities.

My trip to the East has been postponed by instruction from there, I suppose until several weeks after the general election.

Our Cherry Valley reservoir right of way has been finally approved, money paid, contract executed and bond filed.

The titles of the properties have been passed by the attorneys, the money is in escrow, and the positive stage of the New York purchase has thus been arrived at.

I am instructed to put on a considerable force, and to that end am erecting a number of buildings, forwarding in supplies, and otherwise arranging to keep the work going through the winter.

I personally suggest to you that you enter into negotiation to buy what you consider the City must have from my people, otherwise than upon the basis of an offer from them to sell at a figure, for I fear you will not get such an offer.

I have no reason to think that those who are now entering upon actual ownership intend to be unreasonable in meeting the City's necessities, but I have reason to know that the longer this matter remains unadjusted, the more difficult it will be to arrange to the City's satisfaction. You know, that such results are likely to come out of procrastination in this kind of business.

Hence, noticing that Mr. Desmond Fitzgerald and Prof. C. D. Marx are professionally serving the City in connection with the engineering side of this water supply project, I venture to suggest that their services be availed of to indicate a common ground, if possible, whereon the City authorities and my people may come together.

The way to do this would be to enable me to state the case for my people to them; Mr. Manson, I suppose, to state the case for the City;

and then see if Messrs. Fitzgerald and Marx can suggest a settlement which both the City authorities and my people will accept. This would add little or nothing to the City's expense, consume very little time, and might result in strengthening the City authorities' position before the people on the question of voting the funds you call for, and in warding off trouble thereafter.

This is entirely a personal suggestion on my part. I merely hope that I might effect something to the City's convenience if the matter were made to take this indicated course. It is not a proposal for a formal arbitration.

I have copies of memoranda accompanying and forming part of a report made by an Eastern engineer to my parties there, and which I could show you if you care to read them. It might be well for you to get the point of view of those people otherwise than from myself, only. Kindly acknowledge receipt of this, as a personal courtesy.

Yours very truly,

WM. HAM. HALL.

Communication From William Ham. Hall Requesting to be Informed Whether or Not City Intends to Negotiate for the Purchase of Properties, Rights and Claims at Lake Eleanor.

San Francisco, Cal., October 26, 1908.
The Public Utilities Committee, Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: Relative to the properties, rights and claims on the Tuolumne River and branches, which I represent, I am requested to inquire whether the authorities of the City of San Francisco have any offer to make for any of them, or whether they desire to go forward with negotiations for the purchase of any of them?

The present status is—that we have, on request and as a friendly act, offered to sell to the City all our holdings at Lake Eleanor, which, as we are advised and understand, can be utilized for the City's water-supply project, and at a price based on the City's purchase of the Hetch Hetchy land holdings, only, and which does not include payment to us for our old reservoir right and storage water right at the Lake, held in addition to our lands.

We believe this price to be a very reasonable one. We consider that it would be a sacrifice on our part to accept it, on the basis named. We understand that your committee has thought it reasonable, but that you do not accept the offer because we do not also offer at a price other parts of our holdings which we do not wish to sell.

There are many points involved in this matter, which as between two water-supply, irrigation or power companies would be made the subject of patient and intelligent negotiation with the view of arriving at adjustment without litigation. We see no reason why this should not be the course as between the authorities of San Francisco and ourselves.

We having made an offer of that part of the properties which we see the City ought to have for its water-supply works, think we have done all that should be expected of us. We desire it understood that we interpose no obstacle to the City offering to buy anything else which we have. We simply decline to take the responsibility of offering or coupling anything else with that already offered.

We suggest that it would be well to have this matter settled before the unsettled and uncertain conditions are made a handle wherewith to oppose the voting of funds as proposed by your Honorable Board.

We further suggest that we should not be expected to hold these rights and properties for the convenience of City acquirement at some future time. We have financing and development plans imminent and pressing, every step in progress of which necessarily places the properties further from possibility of amicable purchase by the City.

Respectfully yours,

WM. HAM. HALL.

Hospital and Health Committee of the Honorable Board of Supervisors of the City and County of San Francisco—

Gentlemen:

Your Advisory Committee, appointed for the purpose of co-operating with you in the installation of a system of garbage collection and destruction in the City and County of San Francisco, have recognized from the inception of the idea, that arrangements must be made whereby the City and County should not be plunged into a maze of litigation with the "Sanitary Reduction Works", who are now disposing of the City's garbage under a franchise granted on the 17th day of February, 1896, and which still has thirty-eight years to run.

Your Committee further recognizes the fact that should the Board of Supervisors use their authority in the matter of Police regulation as set forth in the opinion of the City Attorney, and stop the operation of the present crematory, that an immediate accumulation of garbage would result which would be a menace to the health of the City, and could not be disposed of, excepting in a most unsanitary manner and at an expense that would be almost prohibitory.

With these facts confronting you, there is but one course to pursue, which is to purchase the plant of the "Sanitary Reduction Works," and operate same until such time as the modern incinerators which you intend to build, are constructed. A further reason for the purchase of their property is that the owners consider the franchise under which they are operating, to be of great value, and any attempt to invalidate same would be met by such strenuous opposition that the time for rendering effective a perfect system of garbage collection and destruction would be postponed for a number of years, and the main object, that of securing a modern sanitary system within a reasonable

time would be defeated and the loss arising from the expense of litigation and otherwise would likely equal the difference between the original appraisement of your Committee and the amount which the company are now willing to accept.

When your Committee first took up the question of purchase with the accredited representatives of the "Sanitary Reduction Works," the company placed a valuation of five hundred thousand dollars on their plant, consisting of the block of land bounded by Rhode Island, De Haro, Alameda and Fifteenth streets, with all the buildings, furnaces and fixtures thereon (with the exception of the foundry and its stock of merchandise which is owned and operated by a separate company), also certain property owned by the Standard Manufacturing and Supply Company (which is a subsidiary company of the "Sanitary Reduction Works"), and consisting of an irregular tract of land with an area of about thirty-five thousand square feet at Fifth avenue South and "M" street, with the buildings, furnaces and fixtures thereon, and in addition to said real and personal property, a surrender of all right, title and interest in the franchise under which they are now operating, which amount was one hundred and fifty thousand dollars in excess of the appraisement made by your Committee, and it was only after numerous conferences, preceding and following meetings of the stockholders of the company, that they consented to name a compromise figure of four hundred thousand dollars cash, which is within fifteen thousand dollars of the appraisement made by the City Engineer in his report filed March 16, 1908.

Your Committee believes that the amount named, to wit: four hundred thousand dollars, is the lowest figure at which the plant, real estate and franchise of the "Sanitary Reduction Works" can be purchased, and considers that under the circumstances the City would be wise in securing it at the price named, as it effectually disposes of litigation, and provides a means of disposing of the garbage until such time as the new incinerators are installed and in operation.

Your Committee also desires to call your attention to the fact that, unless this purchase is consummated, any further plans for the collection of garbage or construction of modern incinerators would have to be made in a blind manner and without the assurance of their being effective, whereas if the purchase is made as suggested, you can immediately proceed to perfect your plans, with the absolute assurance that they will not

be interfered with by problematic questions arising from litigation either just or unjust.

With these facts before you, you can readily understand that it is an imperative necessity that the plant, real estate and franchise of the "Sanitary Reduction Works" and the "Standard Manufacturing and Supply Company" be acquired by the City and County of San Francisco, in order to render effective the modern method of collection and disposal of garbage which you propose to install, and such being the case, your Committee recommends that you acquire by purchase the plant, real estate and franchise of the "Sanitary Reduction Works" and the "Standard Manufacturing and Supply Company" at the figure named, to wit, four hundred thousand dollars.

In case you adopt the recommendation as set forth in this report and the Board of Supervisors acquiesce in your opinion, the details of purchase, also for the temporary operation of the plant can be matured and presented for approval.

Respectfully submitted,

T. B. BERRY, Chairman.
G. A. BUELL,
L. M. KING.

now, therefore,

Resolved, That the aforesaid report be and the same is hereby approved, and the City Attorney is hereby authorized and directed to enter into negotiations with the Sanitary Reduction Works, a corporation, to purchase and acquire for the City and County of San Francisco, all properties, franchise, rights and privileges accrued and accruing under and pursuant to Order No. 2965 of the Board of Supervisors, adopted February 17, 1896, the result of said negotiations to be the basis of the acceptance by the Board of Supervisors of the offer of the stockholders of the Sanitary Reduction Works, a corporation, filed October 21, 1908, to accept the sum of \$400,000.00 for the sale to the City and County of San Francisco of the plants and franchise of said corporation.

The City Attorney is hereby authorized and instructed to examine the titles to the properties of the Sanitary Reduction Works, a corporation, and of subsidiary corporation, and if the same are found to be vested in said corporation and assigns, then to submit to the Board of Supervisors a form of agreement by which the franchise and properties of said corporation and assigns may be transferred to the City and County of San Francisco.

RELATIVE TO GRANTING PERMIT TO SUTTER STREET RAILROAD COMPANY TO OPERATE OVERHEAD TROLLEY SYSTEM ON OUTER TRACKS OF LOWER MARKET STREET.

Supervisor Giannini introduced the following:

Granting Sutter Street Railroad Company a Permit During the Remainder of Its Franchise to Operate Overhead Trolley System on Outer Tracks of Lower Market Street on Condition That a Municipally Owned and Operated Street Railroad Be Allowed to Use Said Tracks.

Bill No. —, Ordinance No. — (New Series), Granting to the Sutter Street Railroad Company, permission to maintain and operate cars by an overhead trolley over the tracks of said Company on Market street, between Sansome and Sutter streets and the ferry, for the unexpired term, to wit, to November 14, 1929, of the franchise granted to said Company by Order No. 1525, approved November 14, 1879.

Whereas, Various mercantile and civic organizations and numerous property owners have petitioned the Board of Supervisors to grant to the Sutter Street Railroad Company a temporary overhead trolley permit over the outer tracks of said Company

on lower Market street, now therefore, Be it ordained by the people of the City and County of San Francisco as follows:

Section 1. The Sutter Street Railroad Company is hereby granted permission to maintain and operate cars by an overhead trolley over the tracks of said Company on Market street, between Sansome and Sutter streets and the ferry, for the unexpired term, to wit: to November 14, 1929, of the franchise granted to said Company by Order No. 1525, approved November 14, 1879; provided, however, that before such privilege shall be exercised, or the cars of said Company or those of the United Railroads of San Francisco be operated on said tracks, that said Sutter Street Railroad Company, and said United Railroads of San Francisco shall file with the Board of Supervisors a stipulation in writing, agreeing to grant a right of way for a municipally owned and operated street railroad over said tracks of said Sutter Street Railroad Company on Market street in common with said Sutter Street Railroad Company and said United Railroads of San Francisco, said stipulation to be approved as to form by the City Attorney.

In the event of the failure of said Sutter Street Railroad Company and said United Railroads of San Francisco to file the aforesaid stipulation, the permission hereby granted shall be without prejudice to the right of the City and County of San Francisco to claim at any time hereafter that the United Railroads of San Francisco or said Sutter Street Railroad Company has no right, and never had any right, to operate cars by any means over said outer tracks on lower Market street.

Section 2. Resolution No. 2510 (New Series), approved July 22, 1908, is hereby repealed.

Section 3. This Ordinance shall take effect immediately.

Substitute Resolution.

Thereupon, Supervisor McAllister presented the following Substitute Resolution and moved its adoption:

City Attorney to Comply With Resolution No. 1518 (New Series), Requesting Opinion as to Legal Questions Involved, Also Granting Temporary Permit for Period of Four Months in Consideration of the Payment of \$250 Per Month.

Whereas, The Board of Supervisors by Resolution No. 1518 (New Series), introduced by Supervisor Murphy and approved October 29, 1907, requested the City Attorney to advise said Board whether or not the Sutter Street Railway Company has a legal right to maintain the outer

rails and operate cars thereon on Market street from Sansome to the Ferries; and

Whereas, No reply has been received to the request contained in said Resolution; therefore,

Resolved, That the attention of the City Attorney be and is hereby called to said Resolution No. 1518 (New Series), and request is hereby made that an answer be given to the question therein contained, with the least possible delay, as the public has at present no means of ascertaining the precise legal standing of the parties to the controversy.

Further Resolved, That in the meantime and in order to convenience our fellow citizens, and that proper arrangements be made to handle the extra travel that may be looked for during the coming holiday season, a temporary permit for a period of four months from November 1st, 1908, to March 1st, 1909, both inclusive, be granted to the Sutter Street Railway Company to operate cars by means of the so-called overhead trolley system over said outer tracks on lower Market street; said permit to be without prejudice to the rights of either said Railway Company or the City and County of San Francisco; and further

Resolved, That as a condition precedent to the granting of said temporary permit, that permittee hereunder will cease to operate said cars by the said so-called overhead trolley system without further notice and of their own accord at the expiration of the period specified. March 1st, 1909.

That the said Sutter Street Railway Company in return for the said temporary permit, and as a rental for the same at the rate of \$250 per month, pay into the Treasury of this City and County on or before October 1st, 1908, the sum of one thousand dollars.

Motion.

Supervisor D'Ancona moved that the Substitute Resolution be changed as to form by providing that an offer be made instead of a grant and that the question be divided by providing that each subject be considered as a separate Resolution.

Motion carried.

City Attorney to Comply With Resolution No. 1518 (New Series), Requesting Opinion as to Legality of Sutter Street Railway Franchise.

Whereupon, the following Resolution, embodying the subject-matter of the first part of the Substitute Resolution, was presented for adoption:

Whereas, The Board of Supervisors by Resolution No. 1518 (New Series), introduced by Supervisor Murphy, ap-

proved October 29, 1907, requested the City Attorney to advise said Board whether or not the Sutter Street Railway Company has a legal right to maintain the outer rails and operate cars thereon on Market street from Sansome to the Ferries; and whereas no reply has been received to the request contained in said Resolution; therefore,

Resolved, That the attention of the City Attorney be and is hereby called to said Resolution No. 1518 (New Series) and request is hereby made that an answer be given to the question therein contained, with the least possible delay, as the public has at present no means of ascertaining the precise legal standing of the parties to this controversy.

Amendment.

Supervisor Murphy moved to amend by striking out the words "introduced by Supervisor Murphy."

Amendment carried.

Adopted.

Whereupon, the question being taken on the above Resolution as amended, the same was adopted as Resolution No. 2856 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—18.

Offering Sutter Street Railroad Company a Temporary Permit for Four Months, From November 1, 1903, to March 1, 1909, on the Payment of a Certain Rental Per Month.

Thereupon, the following Resolution embodying the subject matter of the second part of the Substitute Resolution, changed as to form by providing that an offer be made instead of a grant of a temporary permit, was presented for adoption:

Resolved, That in order to convenience our fellow citizens and that proper arrangements may be made to handle the extra travel that may be looked for during the coming holiday season, an offer to grant a temporary permit for a period of four months from November 1, 1908, to March 1st, 1909, both inclusive, be and is hereby made to the Sutter Street Railway Company to operate cars by means of the so-called overhead trolley system over the outer tracks on lower Market street; said permit to be without prejudice to the rights of either said railway company or the City and County of San Francisco; and further resolved, that as a condition precedent to the granting of said temporary permit, the permittee thereunder will agree to cease to operate said cars by the said so-called overhead trolley sys-

tem without further notice and of their own accord at the expiration of the period specified, March 1, 1909.

Further Resolved, That the said Sutter Street Railway Company, in return for the said temporary permit and as a rental for the same at the rate of \$250 per month, pay into the treasury of this City and County on or before October 31, 1908, the sum of \$1000.

Amendment.

Supervisor Connolly moved to amend Resolution by increasing rental from \$250 to \$500 per month.

Amendment carried.

Refused Passage.

Whereupon, the question being taken on the above Resolution as amended, the same was refused passage by the following vote:

Ayes—Supervisors Center, Comte, Connolly, Jennings, McAllister, Murdock, Payot, Pollok—8.

Noes—Supervisors Bancroft, Booth, Broderick, D'Ancona, Giannini, Hocks, Johnston, McLeran, Murphy, Rixford—10.

Adopted.

Thereupon, Supervisor Giannini presented the following Substitute Resolution in lieu of the Bill granting a temporary permit originally submitted, which Resolution was, on his motion adopted by the following vote:

Offering Sutter Street Railroad Company a Permit During the Remainder of its Franchise to Operate an Overhead Trolley System on the Outer Tracks of Lower Market Street on Condition that a Municipally Owned and Operated Street Railroad be Allowed to Use Said Tracks.

Endorsement of "India Basin Act."

On motion of Supervisor Hocks:

Resolution No. 2860 (New Series), as follows:

The "India Basin Act" passed at the regular session of the Legislature of this State in 1907 by unanimous vote of both houses and amended at the extra session of the same year by unanimous vote, is to be submitted to the

electors of this State for their ratification at the next general election.

The Act provides for the issuance and sale of State bonds redeemable in nineteen years, for an amount not exceeding One Million Dollars, to create a fund for the acquisition by the State of sixty-four blocks of submerged land, comprising about one hundred and seventy-three acres now held in private ownership in the basin at the mouth of Islais Creek, adjoining India Basin. The land is to be acquired for the purpose of constructing thereon wharves, docks, piers and slips, and increasing harbor facilities on the water front of the City and County of San Francisco.

India Basin, a much smaller area, belongs to the State. Both basins form one expansive area in the Bay of San Francisco, and if utilized for harbor and wharfage purposes will practically double our harbor facilities. There are now for the accommodation of our shipping 8.3 miles of berth room along our water front. Eminent engineers declare that eight miles more of berth room can be provided in Islais and India Basins. The increasing commerce of our port demands the acquisition by the State of the area included in the Islais Creek Basin.

Our harbor, the grandest in the world, does not belong to San Francisco alone; it is the property of all of the people of the State. Whatever directly benefits our harbor necessarily benefits the entire State. The ratification of the Act means that a much needed inland harbor will be created, which will supplement the accommodations for the rapidly increasing commerce of the State. The defeat of the measure will deprive the State forever of the opportunity of increasing the harbor accommodation of our world-renowned port and will place the only location in our harbor where rail and water meet, in the control of monopolies.

San Francisco is destined in the near future to be one of the greatest maritime ports of the world. The completion of the Panama Canal at an early date renders it imperative that we should develop and increase our harbor facilities to meet the demands that will result from the completion of the canal. The land to be condemned pursuant to the provisions of the India Basin Act is now entirely covered with water to the depth of from six to thirty feet. Owing to its muddy bottom, it can at a comparatively trifling expense be dredged to a depth sufficient to accommodate the largest vessels afloat. By reason of its location and freedom from the prevalent winds of this city, it has, from time immemorial, served

as a "snug harbor" for vessels lying at anchor.

The lands are held by private owners, who have never heretofore attempted to improve or utilize them. They are now assessed for the comparatively insignificant sum of \$48,600. If the State should be compelled to pay to the present owners ten times the assessed valuation of the land, less than one-half million dollars will suffice to purchase the property. If the Act be ratified, the bonds issued and the land acquired, the property holders of the State will not contribute one dollar of the expense required for the purchase. The entire cost of the land, the expense of dredging the same and the cost of all future improvements thereon, will be paid out of the San Francisco Harbor Improvement Fund, a fund created by tolls and charges imposed upon the commerce of our port, which tolls are now lower than those imposed by any other great seaport of the world.

The average annual income of our port now exceeds one million dollars. The amount necessary to redeem bonds amounting to the sum of \$500,000, pursuant to the provisions of the Act, will impose an annual burden upon the harbor improvement fund of less than thirty-five thousand dollars, an amount which may be expended without in any manner hampering the administration of our harbor affairs.

Now, therefore, by reason of these premises, be it

Resolved, By the Board of Supervisors of the City and County of San Francisco as follows:

1. That this Board is unqualifiedly in favor of the ratification of the "India Basin Act."

2. That every elector of this City, County and State be and he is hereby requested to vote at the next ensuing general election for the ratification of said Act.

3. That we commend the conduct of the press of this City and County for its unanimous support of said Act and for its praiseworthy work in advocacy of the ratification thereof.

4. That the Clerk of this Board, without delay, send a printed copy of these Resolutions to the County Clerk of each county of the State of California, to each member of every Board of Supervisors within the State, to each State and County official and to the publisher of every newspaper, daily and weekly, printed and circulated within the State of California.

5. That the Associated Press and the United Press be requested to wire this day to the press of California a copy of these Resolutions.

RELATING TO ACQUISITION OF A MUNICIPAL WATER SUPPLY.

The following Communications were presented, read and ordered referred to the Public Utilities Committee:

Communication from the Merchants' Association with Suggestions as to Certain Legal Propositions Involved in Proposed Bond Issue for Municipal Water Supply.

The Merchants' Association of San Francisco.

San Francisco, California,
October 24, 1908.

Hon. A. H. Giannini, Chairman Committee on Public Utilities of the Honorable the Board of Supervisors.

Dear Sir:

Pursuant to our promise of yesterday, we submit herewith a statement of the legal propositions that, to our minds, are involved in the proposed bond issue to be voted on next November relative to the acquisition of lands in connection with the Hetch Hetchy source of water supply and in compliance with the agreement with the Secretary of the Interior.

The proceedings on the Board of Supervisors, initiating this proposed bond issue, recite on their face that they are taken in order to comply with and carry out the provisions of the agreement with the Secretary of the Interior. The immediate purpose of the proposed bond issue is to acquire certain lands in the neighborhood of Hetch Hetchy Valley which are not to be used by the City for constructing or maintaining canals, aqueducts, reservoirs, tunnels, flumes, ditches or pipes for conducting or storing water for the use of the City and County or the inhabitants thereof, and therefore are not lands such as alone, under section 15 of article XII of the Charter, the City is authorized

to buy. On the contrary, these lands are purchased with the distinct and avowed purpose of exchanging the same with the Federal Government for lands in the Hetch Hetchy Valley, which purpose is clearly manifested by the agreement with the Secretary of the Interior, and reiterated by the recitals in the proceedings of the Board of Supervisors showing its purpose and intent of complying fully with this agreement.

The only provision in the Charter under which lands once acquired can be disposed of is found in section 9 of chapter 2 of article II thereof. This section of the Charter does not permit lands to be exchanged for other lands, and only permits lands to be sold at public or private sale for cash in United States gold coin.

The two serious questions of law, therefore, involved in the proposed bond issue for the acquisition of the Hog Ranch lands and other lands, are these:

1st. Is not the effort to buy lands outside of the city limits, for purposes of subsequent exchange merely and not for the purpose of ever using the same in connection with any public utility, beyond the powers of the Board of Supervisors, and therefore invalid and an opening of the door to successful injunction proceedings against the bond issue?

2nd. If the City and County were able to acquire these lands through the failure of any person to object to the proceedings or because the proceedings were held valid by the court, could the City thereafter exchange these lands with the Federal Government for other lands when the Charter contains no provision authorizing lands to be exchanged? An attempt to exchange such lands would again open the door to successful injunction proceedings.

We do not dwell on the third point suggested yesterday, having to do with the time limits within which work must proceed under the State water appropriation laws, or with the fact that only so much water can be appropriated at one time as is applied to some actual beneficial use, for the reason that these questions may be solved easily in the interest of the City of an amendment of the State laws at the approaching session of the Legislature.

The other two questions, however, relating to the provisions of the Charter, are not susceptible of amendment until 1910, and could only be ratified by the Legislature which meets in 1911. The other two questions, therefore, present serious considerations.

As you know, we are behind you on the main scheme, and it is merely because we do not want to see any vital errors of generalship made at the present time that we ask your careful con-

sideration of the possible legal objections suggested.

Faithfully yours.

(Signed) WRIGHT & WRIGHT,
Attorneys for the Merchants' Association.

Opinion of City Attorney as to Power of Board of Supervisors to Purchase Land Outside of City Limits for the Purpose of Exchanging Same for Government Lands in Hetch Hetchy Valley.

October 28th, 1908.

Hon. A. H. Giannini, Chairman Committee on Public Utilities, Board of Supervisors, City.

Dear Sir:

It has been called to my notice that some question has been raised as to the power of the Board of Supervisors to buy lands outside of the City limits for the purpose of exchanging such lands to the Federal Government in return for certain lands which will be patented to the City; and that this question and the further question that if any person failed to object to such proceeding at the time it was contemplated might open the doors to successful injunction proceedings.

While, of course, I have not had time to go into these questions at any length, still I am of the view that they relate merely to matters of detail that can be in all probability successfully handled after the people of this City have declared their intention of accepting the offer made by the Government.

The most important thing at hand is for this City to show its good faith in the matter of the acquisition of an independent water supply by accepting the offer of the Government and then devising the necessary means to carry out such acceptance. The agreement with the Government for the purchase and exchange of lands is merely a part of the general scheme tending towards the acquisition of reservoir sites in both Lake Eleanor and the Hetch Hetchy Valley. It is the general plan by which the powers of the Board of Supervisors are to be tested and not by any single transaction.

The ultimate purpose on the part of the City is the securing of the unpatented lands from the Government, and this can only be done by means of the purchase of the patented lands and the transfer of the patented lands to the Government in exchange for the present unpatented lands would be the consideration in the transaction. This would amount to a series of transactions which, when finally completed, would make the City the absolute owner of the now unpatented lands and the entire reservoir site.

These transactions in no way involve the validity of the bonds sought to be

issued, but are merely the incidents attendant upon the acquiring of an independent water supply. As a matter of fact, this course could be followed by the City in the acquisition of lands for school or fire or City Hall purposes. The fact that the lands are outside of the City and County of San Francisco to my mind in no wise affects the transaction.

It is a matter of public knowledge that aside from Lake Merced there is no source of water in the City and County of San Francisco and the City in any event would be compelled to go outside of the City and County to secure even a small supply. I am satisfied that no court would seriously consider such an objection.

I would suggest to you that you urge upon all persons with whom you come in contact that we must first dispose of the question of ratification and then the working out of the details will be matters that will logically follow.

Yours very truly,

PERCY V. LONG,
City Attorney.

Opinion of City Attorney that Water Supply Bonds Proceedings Are in Accordance with Law.

San Francisco, October 30, 1908.

John E. Behan, Esq., Clerk of the Board of Supervisors.

Dear Sir:

I am in receipt of your communication under date of October 29th, in which you state that the Board of Supervisors have followed my advice contained in an opinion under date of July 24, 1908. You remind me that this opinion outlined the procedure necessary to be taken in the acquisition of a system of water supply and works. The procedure so outlined having been followed by the Board of Supervisors, and all Ordinances preliminary to the election having been first submitted to me for approval before passage by the Board of Supervisors, I am satisfied that no further proceedings in this connection need be taken by the Board of Supervisors, and I know of no legal question which could be raised affecting the regularity of the proceedings or validity of the proposed bond issue which has not been submitted to or considered by me.

You are therefore advised that every possible objection to the regularity of the proceedings or validity of the proposed bond issue has been considered by me, and I am convinced that all of the acts performed by the Board of Supervisors in this connection have been in accordance with the Charter and that such proceedings are free from attack.

Very truly yours,

PERCY V. LONG,
City Attorney.

Opinion of Curtis H. Lindley on Certain Legal Propositions Involved in Proposed Bond Issue for Municipal Water Supply.

San Francisco, October 26, 1908.

Hon. A. H. Giannini, Chairman Committee on Public Utilities, Board of Supervisors, San Francisco, California.

Dear Sir:

I have been requested by the Public Utilities Committee of the Board of Supervisors to express my views in the form of a reply to certain interrogatories submitted to your Committee by representatives of the Merchants' Association of San Francisco. These inquiries suggest certain Charter impediments affecting the right of the City to carry out in detail certain provisions of the permit granted by the Secretary of the Interior to the City covering reservoir privileges on the head waters of the Tuolumne River.

These inquiries are predicated upon a statement of assumed facts appearing in their communication, which statement may be quoted in order to illustrate the bearing of the questions submitted. The association says in its communication (the underscorings are mine):

"The proceedings of the Board of Supervisors initiating this proposed bond issue recite on their face that they are taken in order to comply with and carry out the provisions of the agreement with the Secretary of the Interior. The *immediate purpose of the proposed bond issue is to acquire certain lands in the neighborhood of the Hetch Hetchy Valley, which are not to be used by the City for constructing or maintaining canals, aqueducts, reservoirs, tunnels, flumes, ditches, or pipes for conducting or storing water for the use of the City and County, and of the inhabitants thereof, and therefore are not such lands as alone under section 15 of article XII of the Charter the City is authorized to buy. On the contrary, these lands are purchased with the distinct and avowed purpose of exchanging the same with the Federal Government for lands in the Hetch Hetchy Valley, which purpose is clearly manifested by the agreement with the Secretary of the Interior and reiterated by the recitals in the proceedings of the Board of Supervisors showing its purpose and intent of complying fully with this agreement.*"

After pointing out the provisions of the Charter which prescribe the method by which the property of the City may be disposed of, which negatives the idea of a power to exchange, the questions propounded are as follows:

"1st. Is not the effort to buy lands outside of the City limits, for purposes of subsequent exchange merely and not for the purpose of ever using the same in connection with any public utility,

beyond the powers of the Board of Supervisors, and therefore invalid and an opening of the door to successful injunction proceedings against the bond issue?

"2nd. If the City and County were able to acquire these lands through the failure of any person to object to the proceedings or because the proceedings were held valid by the court, could the City thereafter exchange these lands with the Federal Government for other lands when the Charter contains no provision authorizing lands to be exchanged? An attempt to exchange such lands would again open the door to successful injunction proceedings."

The assumption embodied in the statement of facts upon which these questions are framed is incorrect and, unintentionally, no doubt, misleading.

The facts are substantially as follows:

By far the greater part of the land sought to be acquired under the bond issue is embraced within the areas necessary to be submerged, on the floors of the Hetch Hetchy Valley and Lake Eleanor. It is held in private ownership and must be either purchased or condemned. The United States Government has no interest in this land. The same proprietors own certain other and comparatively small tracts in the vicinity of the proposed submerged areas which must be purchased simply because the private owners are unwilling to sell the one without the other.

In the floor of the valley the Government owns lands surrounding or adjoining those held in private ownership, which will also be submerged. The agreement between the Secretary of the Interior and the City provides that the outside areas are to be acquired and turned back to the Government in lieu of the Government lands in the floor of the valley.

It is thus readily seen that the immediate purpose of the proposed bond issue is *not* to acquire lands in the neighborhood of the Hetch Hetchy Valley which are *not* to be used by the City, as stated in the communication of the association, but the sole avowed purpose is to acquire lands actually necessary to be used in the floor of the Hetch Hetchy Valley and at Lake Eleanor for reservoir purposes. The acquisition and exchange of the other and smaller areas for part of the lands that are necessary is merely a method of securing the desired end—of acquiring title to lands to be submerged. In order to revest title to these outside lands in the Government, it is not at all essential that the title should be first vested absolutely in the City. It may pass direct to the Government from the present owners. This would be one method of making compensation, and which would

not, in my judgment, fall within the provisions of the Charter.

The City is empowered under the Charter to acquire, construct or complete any public utility, and to acquire by purchase or condemnation lands necessary for that purpose.

By necessary implication, the City may adopt any legitimate means of accomplishing this result. Its power in this behalf is not exhausted until the ultimate desired result is accomplished.

In solving problems of this character, we are also called upon to consider the manifest distinction between City property lying within its corporate limits, subjected to its sovereignty and the exercise of governmental power, used for governmental and administrative purposes, and property to be acquired for business and non-governmental purposes lying beyond its corporate limits, outside of the sphere of sovereignty and governmental control.

This distinction is, and has been, clearly stated in comparatively recent cases as follows:

"A city has two classes of powers—the one legislative, public, governmental, in the exercise of which it is a sovereignty and governs its people; the other, proprietary, quasi-private, conferred upon it, not for the purpose of governing its people, but for the private advantage of the inhabitants of the city and of the city itself as a legal personality. In the exercise of the powers of the former class it is governed by the rule here invoked. In their exercise it is ruling its people and is bound to transmit its powers of government to its successive sets of officers unimpaired. But in the exercise of the powers of the latter class it is controlled by no such rule, because it is acting and contracting for the private benefit of itself and its inhabitants, and it may exercise the business powers conferred upon it in the same way, and in their exercise it is to be governed by the same rules that govern a private individual or corporation. (Citing cases.) In contracting for water works to supply itself and its inhabitants with water, the city is not exercising its governmental or legislative powers, but its business or proprietary powers. The purpose of such a contract is not to govern its inhabitants, but to obtain a private benefit for the city itself and its denizens."

The general grant of power to acquire these utilities which involves the acquisition of properties far removed from the field of its municipal government implies the right of the City to deal with such property as the exigency of the situation may require.

"Acquire" means to gain by any lawful means.

"Purchase" is the acquisition of title by any means other than by descent.

Certainly the title to the City to the use of lands to be submerged is in no sense jeopardized, nor is the bond issue open to attack, simply because, in reaching the desired end, relatively small areas are to be acquired and transferred to the Government as compensation for like areas in the floor of the valley. This is simply one method of acquiring or purchasing necessary property.

From a fair consideration of all the elements involved, I am of the opinion that the Charter provisions suggested in the communication of the Merchants' Association do not present an obstacle in the way of the timely fulfillment of the obligations of the City as expressed in the compact between it and the Federal Government.

Sincerely yours,

CURTIS H. LINDLEY.

Communication from Desmond Fitzgerald Stating His Understanding of the Purpose Expressed in the Decision of the Secretary of the Interior Granting Certain Water Rights in Lake Eleanor and Hetch Hetchy Valley

San Francisco, Oct. 28, 1908.

My Dear Mr. Manson:

At least one of the newspapers in San Francisco has misstated what I said before the Board of Supervisors the other day in connection with the Lake Eleanor and Hetch Hetchy matters, and I thought I would send you this line to call your attention to my understanding of the clearly intended purpose expressed in the decision of the Secretary of the Interior in granting to San Francisco and the county certain rights in the Lake Eleanor and Hetch Hetchy Valleys for the storage of a domestic water supply.

Early in the investigation by the consulting engineers of the problem submitted to them by the Board of Supervisors, it became my duty to study carefully the different sections of that instrument, and the more I studied them, the more convinced I became that it was the clear intent of the Government to give the people in and about San Francisco a good water supply and an ample one as far as they could do so, and that they will ever do anything which will vitally imperil the storage of water for that purpose. I cannot believe. Of course, interested parties may put adverse constructions of their own on certain provisions, particularly those of section 5. It does not seem to me at all probable that the Government will give other storage sites above Hetch Hetchy and the dam to be built by the City, with the opportunity to store water in time of drought, when every drop is needed for the higher use of a domestic water supply. It seems to me that running all through the document the Secretary gives the first right to the City and makes the irrigation rights secondary.

Before pointing out the language which I refer to, I wish to point out that every one who is studying this matter shall keep clearly in mind the difference between the smaller watersheds of the Hetch Hetchy and Eleanor Lake and the whole watershed of 1501 sq. miles contributing to the Irrigation Districts at La Grange. Many people are laboring under the delusion that the only valuable sites for storage open to the irrigation districts are those which may interfere with the City rights, whereas there are 965 square miles below the City reservoirs, which should be developed before the districts should be allowed to invade the areas directly contributing to the City reservoirs, and in this connection, it should not be forgotten that storage at the headwaters of any stream is not nearly so valuable as further down, as can be easily demonstrated. Is it common sense to believe that the Government which has already given to San Francisco the chances which San Francisco has so long sought will in the future do anything to destroy the rights when once developed? In the decision of the Interior Dept. the rights of the Irrigation Districts are already defined as rights to the natural flow of the stream. At the bottom of page 7, section 4, the Secretary says: "to use the *natural flow* of the Tuolumne River and its branches to the full extent of their claims as follows: Turlock Irrigation District 150 second feet, Modesto Irrigation District 850 second feet," and in the next paragraph: "S. F. will stipulate not to store, nor cause to be stored, divert nor cause to be diverted from the Tuolumne River in any of its branches, any of the natural flow of said river, when desired for use by said districts unless this natural flow of the river and tributaries above La Grange dam be in excess of 1500 second feet for the T. I. D. and 850 second feet for the Modesto Irrigation District." On page 6 the Secretary says: "Domestic use, however, especially for a municipal supply is the highest use to which water and available storage basins therefor can be put." "The next great use of water and water resources is irrigation." There is an evident error in the next paragraph, where the Secretary refers to "2350 second feet of the natural flow of the water through Lake Eleanor and Hetch Hetchy". This flow is really inclusive of far larger water sheds below and is really at La Grange and so could not all flow through Lake Eleanor and Hetch Hetchy.

In section 3, the city is obliged to develop Lake Eleanor site to its "full capacity" and "as the drainage area tributary to Lake Eleanor will not yield under the conditions herein imposed, sufficient run-off in dry years

to replenish the reservoir, a diverting dam and canal from Cherry Creek to Lake Eleanor reservoir for the conduct of waste flood or extra seasonal water to said reservoir" is to be granted.

After Lake Eleanor is developed, the document goes on to say, p. 8, Section 8: "The City and County of San Francisco, when it begins the development of the Hetch Hetchy site, will undertake and vigorously prosecute to completion a dam at least 150 feet high with a foundation capable of supporting the dam when built to its great economic and safe height." All through this document I find repeated reference to the rights of the Irrigation District and defining them as the right to the "natural flow" of the river below 2350 second feet at La Grange. With the exercise of this right, the City should, of course, not desire to interfere. Even in times of greatest drought this natural or normal flow must be conceded at La Grange, but the city has only to see that the 35.7 per cent of that flow, or in about that proportion on the average which passes through the Lake Eleanor and Hetch Hetchy water sheds shall go on down stream unobstructed. The opportunities for writing on a train are so uninviting that I cannot pursue this subject further, but will simply add that if anyone will read the Secretary's decision through several times, I think they will be satisfied that it breathes all through its various sections a desire on the one hand to give the people abundant storage to utilize all the freshet water above 2350 second feet at La Grange, and on the other hand to safeguard the interests of the irrigation districts to the extent of 2350 second feet at La Grange; in other words, when the river is flowing less than that amount of water at La Grange, the City cannot touch the water. Very faithfully,

(Signed)

DESMOND FITZGERALD,
Consulting Engineer.

Communication From William Ham. Hall,
With Explanation of His Offer to Sell
Private Rights in Lake Eleanor Dis-
trict and Requesting City to Make Offer
for Reserved Rights.

San Francisco, Cal.
October 30th, 1908.

Public Utilities Committee, Honorable
Board of Supervisors, City and
County of San Francisco.

Gentlemen: Those who control the Lake Eleanor holdings whose purchase you have been contemplating, have been made to appear by the public press or some part of same, as seeking to sell to the City part or all of what they own. An injustice has been done my principals in this re-

spect. We hope you do not so misunderstand us. We are not seeking to sell; we have understood that it is the City that has sought to buy. We have expressed willingness to meet the City half way, in securing to it at a reasonable figure, so much of our holdings as the City's water supply project can be shown to require.

With a view to making this as inexpensive as possible to the City, we made a definite offer, reserving the right to use the stored waters for power, because this is a right of very great value to us and one which the City could not use as part of its water supply works or at all to nearly so great advantage. This offer was declined by you. It has appeared and does appear to us to be your duty, at least as a matter of fairness to us, to make some proposition looking to the acquirement of the right which had been reserved by us in our offer.

In view of your apparent disinclination to make such offer, the suggestion was made to you by our representative that the case be laid before Professor C. D. Marx and Mr. Desmond Fitzgerald, the City's consulting engineers on this water supply project, in order that they might determine, after a full consideration of the facts, what price, in their opinion, would be a reasonable one. Such recommendations as they might make would, of course, not be binding on any one, but should tend at least to a fair adjustment of the matter.

We simply wish to be understood as having made an offer to sell, only on your initiative and earnest request, as being open to a counter offer for other parts of our holdings which you think the City must have, and as having indicated a way which you must certainly recognize as favorable to the City, whereby the Public Utilities Committee and ourselves may be advised in a way that should tend to relieve the embarrassment which seems to exist.

Very respectfully yours,
WM. HAM. HALL.

Communication From Hon. George C.
Perkins Promising to Assist in Securing
Water Rights for San Francisco.
San Francisco, California,
24 Market Street,
October 29, 1908.

Hon. John E. Behan, Clerk Board of
Supervisors, City of San Francisco.

Dear Sir: I am in receipt of your valued favor under date of the 28th instant, and your remarks have my careful consideration in relation to the acceptance by the City of San Francisco of certain reservoir sites at Lake Eleanor and Hetch Hetchy Valley. I note that it is the opinion of your hon-

orable Board of Supervisors that the acceptance of this generous offer on the part of the government is vital to the successful acquisition of an adequate water supply, and the Public Utilities Committee of the Board of Supervisors desires you to obtain my opinion as to whether it is possible to pass an act at the coming session of Congress and what assistance I would be able to render the measure.

In reply I beg to state that I stand ready in the future, as in the past, to do everything in my power to assist the good people of San Francisco in obtaining water rights and privileges for which they have made application. I would state, however, that the coming session of Congress is, as you are aware, what is known as the short session, the Sixtieth Congress expiring by limitation on the 4th day of March. Therefore, the great pressure of general legislation, and especially the appropriation bills for the support of the government for the ensuing year, will tax to the utmost limit the time of Congress while in session. I think, however, that the recommendation of the Secretary of the Interior and the endorsement of the Board of Supervisors of the City of San Francisco will enable us to pass a bill such as you indicate, and which you think is necessary to perpetuate the grant. I feel confident we can pass the bill through the Senate, perhaps in the early days of Congress; and, with the co-operation of the members of the House of Representatives, I think action can be secured by that body during January or February.

In any event, I am sure that I hazard nothing in saying that the united delegation in Congress from California will be pleased to co-operate in the enactment into law of such a measure as you indicate, as we are a unit in working for the general interest of our whole State of California, and especially of San Francisco.

I remain very truly yours,

GEO. C. PERKINS.

Communication From Hon. Frank P. Flint, U. S. Senator, Promising to Assist in All Necessary Legislation in Connection With the Acquisition of a Municipal Water Supply.

Los Angeles, California,
October 30, 1908.

Dear Sir: I have your letter of October 28th, contents of which I have noted. I am in favor of the passage of a bill carrying out the agreement between the City of San Francisco and the Secretary of the Interior for the reservoir site at Lake Eleanor and Hetch Hetchy Valley, and I will be glad to do everything in my power to

have the necessary legislation enacted to enable the City to carry out the plans that have been suggested for the purpose of acquiring an adequate water supply for the City of San Francisco. I do not anticipate there will be any trouble in passing this bill promptly in the Senate.

Yours truly,

FRANK P. FLINT.

Mr. John E. Behan, Clerk Board of Supervisors, San Francisco, California.

BOND ISSUE, 1908.

The following communication was presented by Supervisor Giannini and ordered referred to the Public Utilities Committee:

Communication From Dillon & Hubbard Relative to Their Compensation for Services Rendered in Connection With Bond Issue of July 1, 1908.

New York, October 27, 1908.

John E. Behan Esq., Clerk Board of Supervisors, 70 Eddy Street, San Francisco, California.

Dear Sir: We beg to acknowledge receipt of your letter dated October 17 in regard to our claim for services in matter of the bond issue of the City and County of San Francisco. Your assurance that the committee and entire Board of Supervisors express their appreciation of our services in this matter and that it is their belief that the successful issue of the proceedings is largely due to us, is very gratifying.

Referring now to the matter of our compensation, we note that in our letter of September 24 to which you refer, giving the facts as to our employment, we stated as follows:

"In view of the larger amount of your proposed issue than any of those referred to, and the fact that your issue will not probably be spread over a series of years, we name instead of one dollar per \$1000 bond, the compensation paid by other cities, the sum of \$18,000, which is sixty cents per bond on the \$30,000,000, one-half to be paid when we give a preliminary opinion that the bonds have been duly authorized, and when executed, issued and paid for will constitute the valid and legally binding obligations of the city, and the rest of the compensation to be paid from time to time as the bonds are issued and paid for and our final opinion given that the bonds do constitute the valid and legally binding obligations of the municipality."

The sum of \$18,000, as you perceive, was fixed in view of the contemplated issue being the full \$30,000,000, also that the issue was to be made without any considerable delay. The issue has been cut down for the present to \$18,200,000; and although you state that it is in contemplation to submit the question of the issue of the balance

of the \$30,000,000 to the electors in the future, it is uncertain when it will be submitted and what the result may be.

It was in this view that we wrote suggesting that we close up the matter now and that our fee should be cut down from \$18,000 to \$15,000 for the entire \$18,200,000, and that of this fee there should be paid now all but an amount equal to thirty cents per \$1000 bond on the \$18,200,000; in other words, that there be paid now \$9540 and that thirty cents per \$1000 bond on \$18,200,000, aggregating \$5460, be paid in instalments from time to time as such bonds are from time to time sold, delivered and paid for and final opinions given thereon. In answer to this you state that our claim for services for the sum of \$9540 has been presented to and considered by the Committee on Public Utilities, and that the committee decided to recommend payment of the demand as presented, without determining as to the amount of any claim to be made in the future. Further on in your letter you suggest that the original contract stand and not be concluded at this time, that the compensation be at the rate of sixty cents per bond, and that as soon as you deem the conditions favorable you will have another bond election and repeat the same proceedings as already had. You say that there will be practically no additional labor on our part, as you will copy the proceedings already had and there will be no new points involved. It would be necessary in any event to look over all the papers carefully the same as if it was an issue *de novo*, and there would be some considerable additional labor—not, of course, as much as if the subject had never been considered, but it would take considerable time and care. Your suggestions as to the matter might be acceptable to us if it were certain that the bonds were to be voted in the early future, and if it were certain, also, that the same persons were to be in office with whom we have been dealing and working during the pendency of this bond matter. It is because of inherent uncertainty in these respects and to the end that the matter may be adjusted now while the persons who have had to do with the matter and who know the labor and difficulty connected with it, and the nature, extent and value of our services, are still in office, that we have the following proposition to make, to wit: That we be paid \$9540 now; that when the \$18,200,000 shall have been sold and delivered we be paid the sum of \$1380, making the amount paid \$9540 plus \$1380, or \$10,920, which is equal to sixty cents

per \$1000 bond on the \$18,200,000; that if by the time the said \$18,200,000 have been sold and delivered no more bonds out of the contemplated \$30,000,000 or thereabouts shall have been submitted to a vote of the people, then the city shall pay us in addition to said \$1380 the further sum of \$2500. This would make full compensation to us in respect of the \$18,200,000 bonds. In the event, however, that within a reasonable time after the \$18,200,000 have been sold and delivered the City and County shall take up the question of the issuance of the remainder of the \$30,000,000 or thereabouts, we are in that event to examine into the validity of these additional bonds up to \$30,000,000 and to make the compensation such with respect to these additional bonds that the total amount of compensation for the additional bonds together with the compensation theretofore received in respect of the \$18,200,000 shall be \$18,000 and no less; provided that if more than \$30,000,000 bonds are issued, such additional sum shall be paid us as will amount to sixty cents per \$1000 bond on the total amount. If, however, prior to the time when the \$18,200,000 bonds already voted shall have been sold and delivered there is submitted to the vote of the people the question of the issuance of the remainder of the \$30,000,000 bonds or thereabouts, then the further payment of \$2500 above mentioned is not to be made at the time of the payment of said \$1380, but we are to proceed under the original contract, and our compensation is to be \$18,000 and no less; and if bonds are issued beyond \$30,000,000, then our total compensation is to be such as will amount to sixty cents per \$1000 bond, and the further payments after the \$1380 (which is to be paid as soon as the \$18,200,000 bonds have been delivered) are to be made from time to time as a proportionate amount of the remainder of the \$30,000,000 or thereabouts of bonds shall be sold and delivered, instead of the \$18,000 stipulated.

In other words, if the city goes on with the issue of the \$30,000,000 or thereabouts, the amount of the compensation will be in accordance with the contract as originally made, while if the city does not issue any more than the \$18,200,000, the total amount of our compensation will be \$13,420 as above detailed.

A payment of sixty cents per \$1000 bond for the \$18,200,000 bonds would make only \$10,920, and that would not be nearly adequate payment for the services which we have rendered in the matter of this bond issue, and would not, we respectfully submit, be

in accordance with the terms and spirit of our agreement with the city. You no doubt appreciate the fact that if this matter is left open without any definite agreement and if a new set of officers should happen to come into the city to deal with the matter of this bond issue who have not been familiar with the labor and difficulties connected with it, it would be difficult for them to deal with the matter understandingly.

We hope the committee and Board of Supervisors will consider the suggestions here made as equitable; and assuring them that we wish to meet any reasonable expectation on their part and to have our compensation entirely satisfactory to them, we remain

Very truly yours,
DILLON & HUBBARD.

UNFINISHED BUSINESS.

The following Resolution, laid over from last meeting, was taken up on final passage:

Providing \$5500 for Fire Alarm Signal Boxes.

Resolution No. — (New Series), as follows:

Resolved, That the sum of \$5,500 be and the same is hereby set aside, appropriated and authorized to be expended by the Department of Electricity out of the item in the budget of the fiscal year 1908-9: "For paving, repaving and repairs to streets, for reconstruction and repairs to sewers and for construction of and repairs to public buildings," for the purpose of enabling said Department to manufacture fifty fire alarm boxes of the type now in use in San Francisco.

The attention of the Auditor and the Treasurer is hereby called to the provisions of this Resolution.

Motion.

Supervisor Giannini moved that the privilege of the floor be granted to interested parties.

So ordered.

Privilege of the Floor.

Whereupon, *Hugo D. Keil*, Police Commissioner, addressed the Board in favor of the Gamewell Fire Alarm Signal Box, stating that said box was in use in all of the principal cities of the United States and Europe and its use in connection with the proposed Auxiliary Water System for Fire Protection would make San Francisco one of the best protected cities in the country.

Wm. Delaney, Fire Commissioner, favored a home manufactured box and stated that said box could be manufactured for \$75.

W. J. Nixon, Chief of the Department of Electricity, also addressed the Board and stated that while the home manufactured box was a good one, the non-interference feature of the Gamewell Box was a great improvement.

Motion.

Supervisor Comte moved that the Resolution be amended by striking out the words "of the type now in use in San Francisco."

Privilege of the Floor (con.).

Andrew Gallagher, representing the San Francisco Labor Council and *J. I. Nolan*, representing the Iron Trades Council, also addressed the Board requesting that the boxes be manufactured in this City.

Vincent Witte suggested that the boxes be manufactured in this City and that the use of non-interference feature of the Gamewell box be purchased from that company.

William McCarthy, Fire Commissioner, also addressed the Board, stating that while he was in favor of home industry, he had been guided in his decision by the superior merit of the Gamewell box.

Amendment Lost.

Whereupon, the question being taken on Supervisor Comte's motion to amend, the same was lost by the following vote:

Ayes—Supervisors Comte, Connolly, Jennings, McAllister, Murdock, Murphy, Payot, Rixford—8.

Noes—Supervisors Bancroft, Booth, Broderick, Center, D'Ancona, Giannini, Hocks, Johnston, McLeran, Pollok—10.

Final Passage.

Whereupon, the question being taken the foregoing Resolution was finally passed as Resolution No. 2863 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murphy, Payot, Pollok, Rixford—16.

Noes—Connolly, Murdock—2.

Explanation of Vote.

Supervisor Connolly explained his vote by stating that while he was in favor of home industry he was of opinion that the Resolution was illegal and would not be upheld by the courts.

Final Passage.

The following matters heretofore passed for printing, were taken up, finally passed by the following vote and numbered as follows, to wit:

Invitation to Attend Eleventh Annual Meeting of the League of California Municipalities.

The following communication was presented and read:

League of California Municipalities, Mountain View, Cal., Oct. 30, 1908.

Gentlemen:

The eleventh annual meeting of the League of California Municipalities will be held at Sacramento on Tuesday, Wednesday, Thursday and Friday, November 17th to 20th.

In this connection your attention is called to the value offered by these meetings to all municipal officials. Not alone do the discussions promise unusual interest, but the opportunity to meet the officials of other cities and to compare notes on the administration of municipal affairs is one that should not be neglected.

Your city should be represented at this meeting, and we trust that you will provide therefor.

Reduced rates have been promised on the railroads, providing that those attending obtain a receipt certificate from the local agent at the time of purchasing a ticket.

Attention is called to the program published in the October issue of "Pacific Municipalities," and copies of which will be sent you later.

Trusting that we will have the pleasure of meeting a number of your officials at this meeting, we remain,

Respectfully yours.

J. J. HANFORD, President.

H. A. MASON, Secretary.

Invitation Accepted.

Supervisor Murphy moved that his invitation be accepted and that his Honor the Mayor appoint a committee from the Board to attend the session.

Motion carried.

Appointment of Committee.

Whereupon, His Honor the Mayor appointed Supervisors Murphy, Murdoch and Pavot to represent the Board of Supervisors at said session.

RELATIVE TO THE ACQUISITION OF A MUNICIPAL WATER SUPPLY.

The following communication was received, read and ordered referred to the **Public Utilities Committee**:

Communication from Congressman E. A. Hayes with Assurances that Grant of Reservoir Sites at Hetch Hetchy Valley and Lake Eleanor Will Be Ratified by Congress.

San Jose, Cal., Nov. 7, 1908.

Mr. John E. Behan, Clerk, Board of Supervisors, San Francisco, Calif.

My Dear Sir:

Replying to your favor of the 28th ultimo, I have to say that I have no doubt that we shall be able to secure

the passage of an Act by Congress at the coming session ratifying the grant made by the Secretary of the Interior of the reservoir sites at Lake Eleanor and Hetch Hetchy Valley, provided, of course, that the grant is approved by the citizens of San Francisco at the coming election. I certainly shall be glad to do anything to that end that lies in my power.

Sincerely yours,

E. A. HAYES.

Endorsement of Merchants' Association of Proposed Bond Issue for Municipal Water Supply.

Resolution adopted by the Board of Directors of the Merchants' Association of San Francisco at a regular meeting held November 6, 1908:

Resolved, By the Board of Directors of the Merchants' Association of San Francisco, that, while it sees and recognizes legal and other difficulties in the proposal to acquire Lake Eleanor and Hetch Hetchy as a water supply for San Francisco, yet, in the hope that these difficulties can be overcome, it recommends that the membership vote favorably on the question at the special election to be held November 12th, 1908.

BOARD OF DIRECTORS OF THE MERCHANTS' ASSOCIATION OF SAN FRANCISCO.

A. M. DAVIS, President.

L. M. KING, Secretary.

Endorsement of Iroquois Club of Proposed Bond Issue for Municipal Water Supply.

San Francisco, Cal., Nov. 6, 1908.

Resolved, That the Iroquois Club of San Francisco endorses the adoption of the bond issue to be voted on by the people on Thursday, November 12th, for the purchase of land necessary to secure a suitable municipally owned water supply, known as the Hetch Hetchy and Lake Eleanor water source.

The above resolution was adopted at a meeting held November 6, 1908.

W. H. WILLIAMS, JR., Secretary.

Illegal Use of Streets by United Railroads.

The following communication was presented and read:

Mayor's Office, City and County of San Francisco.

San Francisco, November 6, 1908.

To the Board of Supervisors of the City and County of San Francisco.

I beg to submit for your consideration the following cases of the illegal use by the United Railroads Company of certain of the streets of this City and County—illegal, that is, if the facts are as I believe them to be, viz.:

On Seventh street, between Howard and Bryant streets, there are trolley poles which were placed there in connection with a temporary track for the removal of debris after the fire. The tracks were afterwards removed by order of the Board of Public Works, but the poles are still standing. No fran-

chise, so far as I know, was ever given the United Railroads on this street.

On Post street, between Larkin and Leavenworth streets, there is a permanent track laid and poles and wires strung, notwithstanding the fact that the street railway company has no franchise on these two blocks of this street. After the fire and while the westbound Sutter-street track was being laid, the United Railroads obtained a permit to lay a temporary track on these two blocks so as to enable it to run eastbound cars on Sutter street and returning westbound on Post street to Larkin, thence south on Larkin to O'Farrell, thence west on O'Farrell to Fillmore and thence north on Fillmore connecting the eastbound reconstructed track on Sutter street. This was done to enable them to get the Sutter-street line in operation earlier than they would otherwise have been able to do had they been compelled to await the completion of the westbound track on Sutter street. As they had no franchise on Post street between Leavenworth and Larkin streets, this temporary permit was given by the administration precedent to the present one to enable them to operate the Sutter-street line, as above stated, for the time being; but instead of removing the track after the westbound track was laid on Sutter street, they relaid the Post-street track permanently, although no franchise, so far as I know, had been given on these two blocks.

On Stanyan street, between Hayes and Fulton streets, the United Railroads laid a permanent track, claiming the right to do so under a franchise granted many years ago. At the time they laid this track the right was disputed by the Board of Public Works, but the then administration permitted their installing the present permanent construction with the proviso that the City was not to sacrifice any of its rights in the matter and the whole case was referred to the City Attorney for his decision. This matter has never yet been finally determined, so far as I know.

I submit the above for such action as your Board may deem proper. It may be that the facts are not exactly as I have stated them, but I believe them to be substantially correct.

EDWARD R. TAYLOR,

Mayor.

Ordered referred to the Judiciary and Streets Committee.

Motion.

Supervisor Pollok called attention to the fact that the United Railroads of San Francisco had constructed a switch track leading from Post street into Market street, and moved that the question of whether or not the said company had a legal right to lay

said track be also referred to said committees.

So ordered.

Authorizing an expenditure of \$7,500.00 to be made out of the Hospital Construction Account of the Public Building Fund, in payment to L. Rendler as purchase price of a lot of land and improvements, of dimensions 66 feet 8 inches by 100 feet, in Potrero Nuevo Block 108, required as an addition to the site upon which it is proposed to construct the City and County Hospital.

Adopted.

The following Resolution was adopted:

Install Telephones.

On motion of Supervisor Rixford:

Resolution No. 2894 (New Series).
Resolved, That the Pacific Telephone and Telegraph Company be and is hereby requested to install the following telephones: One extension telephone in

the private office of the Coroner: one telephone at the Twenty-sixth Street Hospital. Also the following telephones for use of the Board of Health at new quarters No. 1085 Mission street: Private exchange system, having a ringing power on board without generator, and furnished with six trunk lines; also telephones in the Health Officer's room, bookkeeper's office, complaint department, mortuary clerk, chief clerk vital statistics, board room, inspectors' room, sanitation bureau, chemical laboratory, bacteriological laboratory, special sanitation, warehouse and Emergency Hospital; and be it further

Resolved, That the said Telephone Company be and is hereby requested to discontinue the service at the vacated premises of the Board of Health situate at O'Farrell and Scott streets.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, McAllister, McLeran, Murdock, Murphy, Rixford—15.

Passed for Printing.

The following Bill was *passed for printing*:

Fixing Sidewalks Widths, Parker Avenue.

On motion of Supervisor Center:

Bill No. 719, Ordinance No. — (New Series), entitled, "Amending Ordinance No. 1061, entitled 'Regulating the width of sidewalks,' approved December 18th, 1903, by adding thereto a new section, to be numbered Three hundred and three."

Adopted.

The following Resolution was *adopted*:

Intention to Change Grades on Certain streets.

On motion of Supervisor Center:

Resolution No. 2895 (New Series), Declaring it to be the intention of the Board of Supervisors to change and establish grades at certain points and elevations on Merritt street, on Hattie street and on Danvers street, in accordance with the recommendation of the Board of Public Works, filed October 24, 1908; and further declaring that no assessment district is necessary as no damage will result from said change of grade, inasmuch as the improvements already conform to the proposed grade; also directing said Board of Public Works to cause to be conspicuously posted along the streets upon which said change or modification of grades is contemplated, notice of passage of this Resolution of Intention, and repealing Resolution No. 2765 (New Series), approved October 15, 1908.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Requesting President to Retain American Fleet in the Pacific.

Supervisor Murphy presented the following Resolution:

Whereas, The American fleet, now in the Pacific Ocean, is making ready to depart these waters for a voyage around the world, and

Whereas, Its departure will leave exposed our possessions in the Pacific and our Pacific Coast cities, and

Whereas, In view of all the circumstances, it is extremely desirable that the fleet should remain in these waters, be it therefore

Resolved, By the Board of Supervisors of the City and County of San Francisco that the President of the United States be respectfully petitioned to hold the fleet in the Pacific Ocean, and that his Honor the Mayor be requested to forward this message as the expression of the Board of Supervisors of this City and County.

Ordered referred to Judiciary Committee.

Announcement.

It was announced that the Judiciary and Streets Committee would meet on Friday, November 13, 1908, at 10 a. m., to consider the matter of the illegal use of streets by the United Railroads of San Francisco.

City Attorney to Obtain Modification of Restraining Orders of Gas and Water Companies Preventing Them From Shutting Off Service From Consumers Who Tender Legal Rate.

Supervisor Connolly presented the following Resolution:

Resolved, That the City Attorney be and he is hereby requested to obtain such modifications of the restraining orders in the present gas and water litigation as will prevent gas and water companies from shutting off the supply from such consumers as refuse to pay any rate in excess of those fixed by the Board of Supervisors.

Resolved Further, That this Board does not request the City Attorney to secure such a modification of the aforesaid restraining orders as would permit individual consumers to contest the action of the gas and water companies in case either of them sought to shut off the supply of water or gas, or in such a manner as would permit the filing of a multiplicity of injunction suits, or the contesting of the matters in dispute at the suit of private individuals and consumers.

Resolved Further, That the sole purpose of this Resolution is to secure at the very outset, and pending final determination of the rights of the parties, such modifications of the restraining orders as will prevent the gas and

water companies from shutting off the supply, and leave the main matters in dispute in status quo.

Ordered referred to the Judiciary Committee.

Library Trustees to be Requested to Permit Board of Public Works to Use Library Site for Corporation Yard.

Supervisor Rixford presented the following:

Whereas, The lot of land now occupied by the Corporation Yard of the Board of Public Works is soon to be built upon for school purposes, thus necessitating the removal of the said Corporation Yard, and

Whereas, The Public Library lot is the only unused property belonging to

the city which is large enough to accommodate said Corporation Yard, now therefore,

Resolved, That the Library Trustees be and they are hereby requested to allow the Board of Public Works to use a portion of said lot 137.6 by 275 feet as a Corporation Yard; the Board of Public Works to vacate said lot upon sixty days' notice being given by the Library Trustees.

Ordered referred to the Public Buildings Committee.

ADJOURNMENT.

There being no further business, the Board at the hour of 3:50 o'clock, adjourned.

VETO.

Fire Alarm Signal Boxes.

The following message from his Honor the Mayor, returning without his approval and with his objections thereto, Resolution No. 2863 (New Series), was received and read, being as follows:

San Francisco, November 9th, 1908.
To the Board of Supervisors of the City and County of San Francisco.

I am constrained to return to you without my approval Resolution No. 2863, which purports to appropriate \$5500 for the purpose of enabling the Department of Electricity to manufacture fifty fire alarm boxes of the type now in use in San Francisco. This Resolution as it came up for passage to print purported in terms to appropriate the money to the Department of

Electricity to enable it to procure fifty fire alarm boxes. The Department of Electricity having made it clear to the Finance Committee of your Honorable Board that the appropriation was to be devoted to the purchase of fire alarm boxes known as the "Gamewell box," now in use in many of the principal cities of Europe and America, that Committee reported in favor of the appropriation: but when the matter came before the Board for passage to print, as above mentioned, it was amended by striking out the word "procure" and by inserting in lieu thereof the word "manufacture" and by adding to the first paragraph of the Resolution the words "of the type now in use in San Francisco." When these amendments were offered the Mayor deemed it his duty to point out to your Honorable Board that the amendment would operate if adopted to substitute the judgment of the Board of Supervisors for that of the Department of Electricity, to which latter Board was deputed by the Charter the kind of apparatus which the Department of Electricity deemed proper for the city. Your Honorable Board, nevertheless, adopted the amendment and the Resolution thus amended passed to print. The Resolution with its amendment coming up for final passage on the 2nd instant, the Mayor deemed it his duty to again point out the lack of power in your Honorable Board to pass the Resolution as amended; thereupon it was moved to amend the Resolution so as to restore it to its original form; but the amendment, having failed of passage, the Resolution was finally passed in its amended form, the result being that the judgment of the Department of Electricity, based upon many months of the most careful examination and experimentation as to the respective merits of fire alarm boxes, was set aside and the judgment of the Board of Supervisors substituted in its stead. In other words, we have your Honorable Board exercising powers which are not delegated to you by the Charter, but which are specifically delegated to the Department of Electricity.

It is too clear for argument that if this can be done in ONE case it can be done in EVERY case and that we would have your Honorable Board, as the legislative department of the City, controlling all of the executive functions of the City. In such case it would be impossible to have the proper kind of persons in charge of the various executive Boards, for no self-respecting man will discharge the duties which are imposed upon him by law if that discharge can be dictated to him by some assumed superior.

The Board of Supervisors, like every other Board under the Charter, is just as strong as are its Charter powers and

NO STRONGER; it, like every other Board, must find its warrant for action in some express provisions of the Charter. It possesses very extensive powers of legislation, but has no appointive powers beyond that covering its own clerks, and is wholly without power to do anything which has been expressly deputed to be done by some other Board. The Board of Supervisors can determine what money shall be appropriated to the various departments of the City and can itemize such appropriations; it can determine, for instance, what money shall be spent for fire alarm boxes, but it CANNOT determine for what particular fire alarm box money shall be spent, as that matter is one which rests with the Department of Electricity exclusively. If the Board of Supervisors should fail to appropriate sufficient money for that particular purpose, the money being available, then the responsibility for something adverse happening would rest entirely upon that Board; and so if the Department of Electricity should make a mistake in its adoption of some particular kind of apparatus, then the responsibility for anything adverse happening would rest entirely upon that Board and could not be shared by it with the Board of Supervisors. It is said that the boxes which are now made by the Department of Electricity should continue so to be made as a matter of encouragement to "home industry"; but with this your Honorable Board has nothing whatever to do, nor can the least responsibility rest upon you, or criticism be justly made of you, in this matter. If, indeed, the boxes now in use ought to continue to be made here as a matter of "home industry," then the responsibility for the selection of some other box must rest solely and wholly upon the shoulders of the Department of Electricity. It is well to point out that the box we have in use and are now making lacks one of the most essential requisites of a modern fire alarm box—that of non-interference, whereas the Gamewell box adopted by the Department of Electricity has this great and necessary quality. When we come to consider the unequalled disaster suffered by San Francisco from fire, it surely behooves us to procure a fire alarm box of the very LATEST AND BEST. The early ascertainment of the locality of a fire, and the speed with which the engines are enabled to reach it, are of paramount importance in the matter of preventing the spread of the conflagration. Surely we in San Francisco can afford to risk NOTHING in such a matter; we must have the BEST, no matter where it can be procured. As to the cost of the manufacture of the present boxes, nothing seems to be very accurately ascertainable; but the best opinion seems to be that they would cost at

least near \$150 a box, and with the necessary non-interfering patented attachment (which would cost about \$50 each) would make the box complete come to nearly \$200, whereas the Gamewell box would cost far less and in the end probably prove to be much more effective. After all, however, while these are grave considerations for your Honorable Board, the paramount consideration is, that which I am constrained to present to you—the exercising by your Board in this instance of a power not delegated to you when at the same time this power is specifically delegated to another Board.

EDWARD ROBESON TAYLOR.
Mayor.

RELATIVE TO ACQUISITION OF WATER SUPPLY.

Assignment by Marsden Manson to City and County of Rights Acquired in Tuolumne Watershed.

San Francisco, November 9, 1908.

To the Honorable, the Board of Supervisors, of the City and County of San Francisco—Gentlemen: Herewith is transmitted to your Honorable Board an assignment (executed in duplicate) made by Marsden Manson, City Engineer, to the City and County of San Francisco, on the 22nd day of October, 1908, of all his rights, titles and interests in and to certain filings of water rights to the waters of Tuolumne River and Eleanor Creek, in the County of Tuolumne, State of California, which filings were made in the capacity and manner, and for the purposes in said assignment set forth. A copy of a communication addressed to this Board by Mr. Manson, as City Engineer, of date November 5th, 1908, bearing upon the subject matter of said

assignment, is also herewith transmitted to your Honorable Board.

Respectfully,

BOARD OF PUBLIC WORKS,
By ROBT. J. LOUGHERY, Secretary.
Enc.

San Francisco, Nov. 5, 1908.

To the Honorable the Board of Public Works of the City and County of San Francisco—Gentlemen: It was deemed prudent by this office to renew the filings made in 1901 upon the waters of Tuolumne River and Eleanor Creek made in the interests of this City by the Honorable James D. Phelan, and transferred by him to the City.

Notices were, therefore, posted in accordance with the laws of this State by Assistant Engineer Drenzy A. Jones and witnessed by Mr. Leslie W. Stocker and Mr. L. R. Mercado of this office, in the early part of October, at the same points as were the notices of appropriation in 1901. These have been properly and legally filed in the office of the Recorder in Sonora, the County Seat of Tuolumne County.

I transmit herewith an assignment in duplicate of each of these filings to the City, and request that one be placed on file in your office, the other transmitted to the Honorable the Board of Supervisors.

Respectfully submitted,

MARSDEN MANSON,
City Engineer.

2 Encl.:

The under-signed, Marsden Manson, hereby transfers, assigns and sets over to the City and County of San Francisco, a Municipal Corporation organized under the Constitution and Laws of the State of California, for and in consideration of one (\$1.00) dollar, the receipt of which is hereby acknowledged; all his rights, titles and interests in and to the accompanying filings of water rights to the waters of Tuolumne river and Eleanor creek in the County of Tuolumne, State of California. These filings were made under the official direction of the under-signed in his capacity as City Engineer in order to cover any possible laches in previous filings made at the same points and to the same amounts of water to which the present filings apply. These filings are made in accordance with the laws of the State of California and are recorded in the office of the Recorder of Tuolumne County, California, as required by law.

Signed MARSDEN MANSON.

State of California, City and County of San Francisco.—ss.

On this 22nd day of October in the year One Thousand Nine Hundred and Eight before me, L. H. Anderson, a Notary Public in and for the City and County of San Francisco, personally appeared Marsden Manson, known to me to be the person whose name is

subscribed to the within instrument, and who duly acknowledged to me that he executed the same.

In Witness Whereof, I have hereunto set my hand and affixed my Official seal, at my office in the City and County of San Francisco, the day and year in this certificate first above written.

(Seal) L. H. ANDERSON,

Notary Public in and for the City and County of San Francisco, State of California.

RELATIVE TO SUPERIOR COURT DECISIONS RELATING TO NICKELODEONS AND TO THE VERIFICATION OF SIGNATURES TO PETITIONS FOR THE ACQUISITION OF CERTAIN PUBLIC UTILITIES UNDER SO-CALLED O'CONNELL PETITION.

The following Communication was presented:

November 9, 1908.

John E. Behan, Esq., Clerk of the Board of Supervisors—Dear Sir: Two decisions of importance were rendered this week, first in the case of *Fried vs. Bush* and the second in the case of *O'Connell vs. John E. Behan et al.* In the case of *Fried vs. Bush*, Judge Seawell of Department 1 of our Superior Court sustained the demurrer of defendant and dismissed a petition for a writ of mandate which was brought to compel the issuance of a license to plaintiff to conduct a nickelodeon in his premises at Stockton and Green streets. Upon the demurrer two points of interest were argued, first, that the Ordinance requiring the owner of a nickelodian to procure a permit from the Board of Police Commissioners before the issuance of a license was invalid, as being an unconstitutional delegation of powers to the Board of Police Commissioners; upon this point the Court held with the defendant that in the exercise of the police powers of a municipality the Supervisors could delegate such administrative duties to subordinate boards and officers as properly came within their general functions; and second that the Ordinance was invalid because improperly passed in that it attempted to amend an existing Ordinance by adding a section thereto without reciting the original Ordinance in full. On this point the Court held with the defendants that the section of the Charter requiring that all amendments to Ordinances should recite the amended Ordinance in full was merely directory and not mandatory, and that, therefore, the Ordinance in question was not invalid on account of the irregularity of its passage.

In the case of *O'Connell vs. John E. Behan et al.*, Judge Seawell dismissed the petition for a writ of mandate to compel the defendant, Clerk of the

Board of Supervisors, to verify the signatures to a petition to the Board of Supervisors to submit to the voters propositions to acquire the properties and franchises of the United Railroads and various other existing utilities.

In his oral opinion Judge Seawell held that the petition was insufficient because the Charter contemplated the acquisition or construction of public utilities at the lowest possible cost, and that where a petition merely requested the submission of the proposition to acquire an existing public utility no opportunity was given to the City to acquire a similar utility by original construction, nor was any provision made nor any procedure provided if the owners of the existing public utility should refuse or neglect to make an offer to sell.

Judge Seawell also held that the provisions of the Charter were indefinite and insufficient in this respect in that they failed to provide the means for the Clerk to carry out its provisions. By the Charter the Clerk is required to verify the signatures of the signers of a petition but no means is provided as to how he shall make such verification, the petition is required to be signed by "electors" but the Clerk has no opportunity of determining whether the signers are electors or not and therefore, all that the Clerk is able to do is to give his *opinion* as to whether the signatures are genuine or not. Such opinion is not sufficient upon which to base his certification to the Board to authorize the Board to proceed with the submission of the propositions to the electors. In this respect Judge Seawell held that these provisions of the Charter were in very great need of amendment.

Very truly yours,

PERCY V. LONG,

City Attorney.

Imposing a License on Liquor Dealers.

Bill No. 714, Ordinance No. — (New Series), entitled, "Imposing a license on liquor dealers."

Amendments.

Supervisor Murdock moved to amend the Bill as follows:

Amend Section 1 by adding after the word "sells" in line 2 and also after the word "sells" in line 7 of the ordinance as officially printed, the following words:

"or at any place of business within the corporate limits of the City and County of San Francisco."

Amend Section by striking out all thereof after the word "pay" and substituting therefor the following:

"a annual license fee as follows: Until January 1st, 1910, \$600; thereafter until January 1st, 1911, \$800; thereafter \$1000. The fee to be paid in quarterly installments, payable in advance from the date of the permit provided for in the ordinance; provided, however, that any person, firm or corporation owning or managing a restaurant or hotel may obtain a 'Retail Liquor Dealer's License' for restaurants and hotels, and shall pay therefor a license fee of \$500 per annum, payable quarterly in advance, from the date of the permit; provided that such person, firm or corporation shall not have, keep or maintain any bar, buffet or sideboard at which or over which spirituous, malt or fermented liquors are sold, given away or served and in all other respects such restaurant and hotel keepers are to be governed by all the terms and conditions of this ordinance."

Referred.

Supervisor Giannini moved that Bill No. 714, together with amendments submitted by Supervisor Murdock, be referred to License Committee.

So ordered.

CONSTRUCTION OF BOND ISSUE SCHOOL BUILDINGS.

Bill No. 661, Ordinance No. — (New Series), entitled, "Ordering the construction of the Bryant Cosmopolitan Primary School Building, in ac-

cordance with plans and specifications prepared therefor under direction of the Board of Public Works, and approved by the Board of Education, authorizing and directing the Board of Public Works to enter into contract for the construction of said school, and to expend therefor the sum not to exceed \$100,000.00 out of the proceeds for sale of School Bonds; and authorizing progressive payments to be made during the construction of said school building."

Recommended.

The following Bills heretofore passed for printing and laid over from a prior meeting were taken up and on motion ordered *recommitted to Public Buildings Committee*:

Ordering Construction of Sutro Grammar School Building.

Bill No. 662, Ordinance No. — (New Series), entitled, "Ordering the construction of the Sutro Grammar School Building, in accordance with plans and specifications prepared therefor under direction of the Board of Public Works and approved by the Board of Education; authorizing and directing the Board of Public Works to enter into contract for the construction of said school and to expend therefor the sum not to exceed \$100,000, out of the proceeds for sale of School Bonds; and authorizing progressive payments to be made during the construction of said school building."

Ordering Construction of Madison Primary School Building.

Bill No. 663, Ordinance No. — (New Series), entitled, "Ordering the construction of the Madison Primary School Building, in accordance with plans and specifications prepared therefor under direction of the Board of Public Works, and approved by the Board of Education; authorizing and directing the Board of Public Works to enter into contract for the construction of said school, and to expend therefor the sum not to exceed \$80,000, out of the proceeds for sale of School Bonds; and authorizing progressive payments to be made during the construction of said school building."

Ordering Construction of Garfield Primary School Building.

Bill No. 675, Ordinance No. — (New Series), entitled, "Ordering the construction of the Garfield Primary School Building, in accordance with plans and specifications prepared therefor under direction of the Board of Public Works and approved by the Board of Education; authorizing and directing the Board of Public Works to enter into contract for the construction of said school and to expend therefor the sum not to exceed \$125,000, out of the proceeds for sale of School

Bonds; and authorizing progressive payments to be made during the construction of said school building."

Final Passage.

The following matters heretofore passed for printing, were taken up *finally passed* by the following vote and numbered as follows, to wit:

Authorizing Payment of \$550 to Chas. Costa for Garfield School Lands.

Resolution No. 2918 (New Series), Authorizing an expenditure of \$550 to be made out of the "School Construction Account" of the Public Building Fund, in payment to Charles Costa as purchase price of a lot of land of dimensions 25x25 feet in 50-vara Block No. 82, required as an addition to the site upon which it is proposed to construct the Garfield School building.

Authorizing Payment of \$7500 to L. Rendler for City and County Hospital Lands.

Resolution No. — (New Series), Authorizing an expenditure of \$7,500.00 to be made out of the Hospital Construction Account of the Public Building Fund, in payment to L. Rendler as purchase price of a lot of land and improvements, of dimensions 66 feet 8 inches by 100 feet, in Potrero Nuevo Block 108, required as an addition to the site upon which it is proposed to construct the City and County Hospital.

Motion.

Supervisor Connolly moved that Luther Elkins be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Luther Elkins, representing Stuart Middlemas, addressed the Board protesting against the Resolution and requested that the matter be laid over one week or recommitted to the Committee for the reason that only superficial appraisements had been made of the improvements on the land.

L. Mooser, real estate agent, representing Carl Frick, property owner in proposed County Hospital site, protested against the passage of the Resolution on the ground that the action of the Board would establish the value of land in vicinity at \$45 per front foot, which amount he alleged was erroneous and considerably less than the real value.

Motion.

Supervisor Center moved that the Resolution be recommitted to the Committee.

Motion lost.

Final Passage.

Whereupon, the question being taken the above Resolution was *finally passed* as Resolution No. 2919 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, Comte, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—15.

City Attorney to Obtain Modifications of Gas and Water Injunctions Preventing Companies From Shutting Off Service From Consumers Who Tender the Legal Rate.

Resolution No. 2923 (New Series), as follows:

Resolved, That the City Attorney be and he is hereby requested to obtain such modifications of the restraining orders in the present gas and water litigation as will prevent gas and water companies from shutting off the supply from such consumers as refuse to pay any rate in excess of those fixed by the Board of Supervisors.

Further Resolved, That this Board does not request the City Attorney to secure such a modification of the aforesaid restraining orders as would permit individual consumers to contest the action of the gas and water companies in case either of them sought to shut off the supply of water or gas, or in such a manner as would permit the filing of a multiplicity of injunction suits, or the contesting of the matters in dispute at the suit of private individuals and consumers.

Further Resolved, That the sole purpose of this Resolution is to secure at the very outset, and pending a final determination of the rights of the parties, such modifications of the restraining orders as will prevent the gas and water companies from shutting off the supply and leave the main matters in dispute *in statu quo*.

ILLEGAL USE OF STREETS BY UNITED RAILROADS.

Report of Judiciary and Streets Committee on Illegal Use of Streets by United Railroads.

The following report was presented and read:

To the Honorable the Board of Supervisors of the City and County of San Francisco.

Gentlemen: Your Joint Committee on Judiciary and Streets, to whom were referred the message of his Honor the Mayor, calling attention to the illegal use by the United Railroads of San Francisco of certain streets, which message reads in part as follows:

"Illegal, that is, if the facts are as I believe them to be, viz.: On Seventh street, between Howard and Bryant streets, there are trolley poles which were placed there in connection with a temporary track for the removal of debris after the fire. The tracks were afterwards removed by order of the Board of Public Works, but the poles are still standing. No franchise, so far as I know, was ever given the United Railroads on this street.

"On Post street, between Larkin and Leavenworth streets, there is a permanent track laid and poles and wires strung, notwithstanding the fact that the street railway company has no franchise on these two blocks of this street. After the fire and while the westbound Sutter street track was being laid, the United Railroads obtained a permit to lay a temporary track on these two blocks so as to enable it to run eastbound cars on Sutter street and returning westbound on Post street to Larkin, thence south on Larkin to O'Farrell, thence west on O'Farrell to Fillmore and thence north on Fillmore, connecting the eastbound reconstructed track on Sutter street. This was done to enable them to get the Sutter street line in operation earlier than they would otherwise have been able to do had they been compelled to await the completion of the westbound track on Sutter street. As they had no franchise on Post street, between Leavenworth and Larkin streets, this temporary permit was given by the administration precedent to the present one to enable them to operate the Sutter street line, as above stated, for the time being; but instead of removing the track after the westbound track was laid on Sutter street, they relaid the Post street track per-

manently, although no franchise, so far as I know, had been given on these two blocks.

"On Stanyan street, between Hayes and Fulton streets, the United Railroads laid a permanent track, claiming the right to do so under a franchise granted many years ago. At the time they laid this track the right was disputed by the Board of Public Works, but the then administration permitted their installing the present permanent construction with the proviso that the City was not to sacrifice any of its rights in the matter and the whole case was referred to the City Attorney for his decision. This matter has never yet been finally determined."

Begs leave to state that they have duly considered the subject matter of said message, and report thereon as follows:

Your Committee is advised through the Board of Public Works and by Wm. M. Abbot, attorney of the United Railroads of San Francisco, that the poles on Seventh street, between Howard and Bryant streets have been removed.

In the matter of the track on Post street, between Larkin and Leavenworth streets, your Committee begs leave to state that J. C. Meyerstein, representing property owners on Post street, appeared before your Committee and requested postponement of action on said matter for one week, which request has been granted by your Committee, but with the understanding that the matter will be heard on Thursday, November 19th, 1908, at the hour of 2:30 p. m.

In the matter of the curve track recently constructed on Market street at Post street and connecting the Post street tracks with those laid in the center line of Market street, your Committee begs leave to report in favor of requesting the opinion of the City Attorney as to whether or not the United Railroads has the legal right to construct and maintain said track under the franchise granted in the year 1886 to the predecessors in interest of said Company to construct the Post street line commencing at Market street, and under franchise granted in the year 1879 to the predecessors in interest of said Company to construct the Market street line.

Your Committee further recommends that the Clerk of this Board be hereby directed to transmit to the City Attorney copies of the franchises aforesaid.

In the matter of the tracks on Stanyan street, between Hayes street and Fulton street, your Committee recommends that the City Attorney be requested to advise your Honorable

Board whether or not the United Railroads of San Francisco has the legal right to maintain and operate said tracks under franchises heretofore granted by the Board of Supervisors by Orders Nos. 2541, approved June 3, 1892, and 2535, approved June 3, 1892.

For the information of your Honorable Board, your Committee calls attention to the fact that the United Railroads of San Francisco were granted permission to lay the aforesaid tracks during the pleasure of the Board of Supervisors, by Ordinance No. 101 (New Series), approved November 20, 1906.

Respectfully submitted,
JAMES P. BOOTH,
GEORGE CONNOLLY,
G. L. CENTER,
ALLAN POLLOK,
WM. BRODERICK,

Joint Committee on Judiciary and Streets.

Adopted.

Whereupon, Supervisor Booth introduced the following Resolution, which was, on his motion *adopted* by the following vote:

City Attorney to Advise Board Whether or Not United Railroads Has Right to Construct Track From Termination of Post Street Line to Center Tracks on Market Street.

Resolution No. 2924 (New Series), as follows:

Whereas, The Board of Supervisors, by Order No. 890, in effect December 27, 1886, granted to A. W. Rose Jr. and associates, predecessors in interest of the United Railroads of San Francisco, the right to construct, maintain and operate a single or double track street railroad for a term of fifty years, with all the necessary side-tracks, switches, turnouts and turntables along and upon certain streets in the City and County of San Francisco, among others of which appears the following: "also commencing at the intersection of Post street with Market street, thence along and upon Post street to Leavenworth street," and

Whereas, The Board of Supervisors by Order No. 1514, approved September 20, 1879, granted to the Market Street Railway Company, of San Francisco, the predecessor in interest of the United Railroads of San Francisco the right to construct, lay down, maintain and operate for a term of fifty years a single or double track street railroad with all necessary switches and turnouts along and upon certain streets in the City and County of San Francisco, among others of which appears, "Commencing at the city front, on Market street; thence

along Market street to Seventeenth street;" and

Whereas, The United Railroads of San Francisco, the successor in interest of the aforesaid grantees of the City and County, claim the right under the franchise aforementioned to construct a switch from Post street at Market street, across Market street, to connect with the tracks now laid on Market street, now therefore,

Resolved, That the City Attorney be and he is hereby requested to advise the Board of Supervisors whether or not the United Railroads of San Francisco has the legal right to construct the said switch over the intervening space on Market street between the terminal of the Post street line and the tracks on the center line of Market street.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford 18.

City Attorney to Advise Board Whether or Not United Railroads Has Right to Maintain Tracks on Stanyan Street, Between Hayes and Fulton Streets; Also Whether or Not it is Obligated to Operate Cars on Hayes Street, Between Baker and Fulton Streets.

Supervisor Booth introduced the following Resolution:

Resolved, That the City Attorney be and he is hereby requested to advise this Board whether or not the United Railroads of San Francisco has the legal right to maintain tracks on Stanyan street, between Hayes street and Fulton street, for the purpose of operating cars thereon, under franchises heretofore granted by the Board of Supervisors to the predecessors in interest of said Company. The attention of the City Attorney is hereby called to the provisions of Orders Nos. 2541, approved June 3, 1892, and 2535, approved June 3, 1892, and to Ordinance No. 101 (New Series) of the Board of Supervisors, approved November 20, 1906, and the Clerk of this Board is hereby directed to transmit to the City Attorney copies of said Orders and Ordinances.

Amendment.

Supervisor Murphy moved to amend as follows:

Further Resolved, That the City Attorney be and he is hereby requested to advise this Board as to whether the United Railroads is obliged, under its franchise, to operate cars continuously on Hayes street, from Market to Stanyan streets, and if so, to suggest to this Board the proper course to pursue to compel such operation on that part

of the street between Fillmore and Devisadero streets.

Amendment carried.

Adopted.

Whereupon, the above Resolution, as amended, was adopted as Resolution No. 2925 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Giannini, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford 18.

RELATIVE TO THE ACQUISITION OF A MUNICIPAL WATER SUPPLY.

The following recapitulation and affidavit, showing result of Bond Election of November 12, 1908, for the acquis-

ition of a municipal water supply, was received, read and ordered *filed*:

Recapitulation.

Proposition to incur a bonded debt of the City and County of San Francisco, State of California, and other propositions voted upon at a special election held in the City and County of San Francisco, State of California, November 12, 1908.

Proposition One. To authorize the City and County of San Francisco to acquire by purchase or condemnation a public utility, viz.: A Water Supply and Works to be owned and controlled by said City and County, to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the source of such supply to be Lake Eleanor, the Hetch Hetchy Valley and the waters of the Tuolumne River in Tuolumne County, California.

Proposition Two. To incur a bonded indebtedness by the City and County of San Francisco to the amount of Six Hundred Thousand (\$600,000) dollars for the purchase of lands, rights and claims in and adjacent to the Hetch Hetchy Valley, adjacent and near Lake Eleanor and within the watershed of the Tuolumne River, and in constructing certain works, all of which are necessary in order to comply with the conditions and stipulations agreed to by the City and County in the acquiring of certain rights and privileges heretofore granted by the Interior Department or hereafter to be granted by the Congress of the United States.

Proposition Three. To acquire by purchase the property of the County Line Water Company used in supplying a portion of the City and County with water at a cost not to exceed forty thousand (\$40,000) dollars, the same to be paid for out of the annual revenue of the City and County.

State of California, City and County of San Francisco—ss.

We, the undersigned, the Board of Election Commissioners of the City and County of San Francisco, State of California, do hereby certify and declare as follows: That upon the 12th day of November, A. D. 1908, there was held in and throughout the whole of said City and County, and in and at one hundred and thirty-five voting precincts in said City and County, a special election called by the provisions of various ordinances passed and enacted by the Board of Supervisors of said City and County, calling such special election to be held on the said 12th day of November, A. D. 1908, for the purpose of submitting to the vote of the electors of said City and County three several propositions specifically designated and set forth in the ordinances before mentioned, and that at said special election the said three several propositions as contained in said ordinances were placed upon the official ballots used at said special election, as propositions "one," "two," and "three," respectively, and that the official returns from each of the said one hundred and thirty-five precincts were returned by the various and respective election boards of such precincts to the office of the said Board of Election Commissioners under seal, as required by law, upon said 12th day of November, A. D. 1908; and that thereafter upon the 16th day of November, A. D. 1908, being the first Monday after the said special election, the said Board of Election Commissioners did pursuant and according to the laws of the State of California, at their usual meeting place, in the City Hall of said City and County, proceed to canvass the said returns of said special election, and proceeded with said canvass according to law until the same was completed;

RELATING TO THE ACQUISITION OF A MUNICIPAL WATER SUPPLY.

Declaring Result of Bond Election of November 12, 1908, for the Acquisition of a Water Supply.

On motion of Supervisor Giannini:

Resolution No. 2959 (New Series), as follows:

Declaring the result of the Special Election held on the 12th day of November, 1908, for the purpose of authorizing the acquisition, construction and completion of a public utility, to wit: a water supply and works, the source of such supply to be Lake Eleanor, the

Hetch Hetchy Valley and the waters of the Tuolumne River in Tuolumne County, California; for the purpose of the incurring of a bonded indebtedness to the amount of \$600,000 by the City and County of San Francisco for the purpose of acquiring certain lands, rights and claims in connection with said water supply; and for the purpose of acquiring by purchase the property of the County Line Water Company, used in supplying a portion of the City and County with water at a cost not to exceed \$40,000, the same to be paid for out of the annual revenue of the City and County.

Whereas, Pursuant to the provisions of Ordinance No. 572 (New Series), calling a special election, and Ordinance No. 588 (New Series), giving notice of the same, a special election was held in the City and County of San Francisco, State of California, on the 12th day of November, 1908, whereat was submitted to and determined by the qualified electors of said City and County, three propositions for the purposes set forth, as follows, to-wit:

Proposition One. The acquisition, construction and completion of a public utility: A water supply and works to be owned and controlled by the City and County of San Francisco to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the source of such supply to be Lake Eleanor, the Hetch Hetchy Valley and the waters of the Tuolumne River in Tuolumne County, California.

Proposition Two. To incur a bonded debt of the City and County of San Francisco to the amount of \$600,000 for the purpose of purchasing certain lands, rights and claims in and adjacent to the Hetch Hetchy Valley, adjacent and near Lake Eleanor and within the watershed of the Tuolumne River, and in constructing certain works, all of which are necessary in order to comply with the conditions and stipulations agreed to by the City and County in the acquiring of certain rights and privileges heretofore granted by the Interior Department or hereafter to be granted by the Congress of the United States.

Proposition Three. Proposition to acquire by purchase the property of the County Line Water Company situated in the City and County of San Francisco, at a price not to exceed \$40,000, the same to be paid for out of the annual revenue of the City and County; and

Whereas, Said election was held and conducted in form and manner and in every respect as required by law, and the returns thereof canvassed, and the result thereof determined and declared as required by law; and

Whereas, The Board of Election Commissioners of said City and County filed

on November 18, 1908, in the office of the Clerk of the Board of Supervisors, its certificate showing the facts above recited and setting forth in detail the total number of votes cast at such election and the number of votes cast and counted for and against, respectively, all and each of the aforesaid propositions thereat submitted; now therefore,

Be it resolved by the Board of Supervisors as follows:

1. It is hereby declared that the special election held on the 12th day of November, 1908, for the purpose of authorizing the acquisition, construction and completion of a public utility, to-wit: a water supply and works, the source of such supply to be Lake Eleanor, the Hetch Hetchy Valley and the waters of the Tuolumne River in Tuolumne County, California; for the purpose of the incurring of a bonded indebtedness by the City and County of San Francisco to the amount of \$600,000 for the purposes set forth in the hereinbefore stated proposition; and for the purpose of acquiring by purchase the property of the County Line Water Company, used in supplying a portion of the City and County with water at a cost not to exceed \$40,000, the same to be paid for out of the annual revenue of the City and County, was held and conducted, and the votes cast and counted thereat, and the returns thereof made and the result thereof determined and declared, in all respects, and in time, form and manner as required by the laws of the State of California and the Charter and Ordinances of the City and County of San Francisco.

2. It is hereby declared that the total number of votes cast at said special election was 41,137.

3. It is hereby declared that of the votes so cast 34,950 votes were cast and counted in favor of and 5,708 votes were cast and counted of as not in favor of proposition one, to authorize the City and County of San Francisco to acquire by purchase or condemnation a public utility, viz.: A Water Supply and Works to be owned and controlled by said City and County, to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the source of such supply to be Lake Eleanor, the Hetch Hetchy Valley and the waters of the Tuolumne River in Tuolumne County, California.

4. It is hereby declared that of the votes so cast 34,572 votes were cast and counted in favor of and 5,647 votes were cast and counted of as not in favor of proposition two to incur a bonded debt of the City and County of San Francisco to the amount of Six Hundred Thousand (\$600,000) dollars for the purchase of lands, rights and claims in and adjacent to the Hetch Hetchy Valley, adjacent and near Lake

Eleanor and within the watershed of the Tuolumne River, and in constructing certain works.

5. It is hereby declared that of the votes so cast 33,897 votes were cast and counted in favor of and 5,955 votes were cast and counted of as not in favor of proposition three to acquire by purchase the property of the County Line Water Company used in supplying a portion of the City and County with water at a cost not to exceed forty thousand (\$40,000) dollars, the same to be paid for out of the annual revenue of the City and County.

6. It is hereby declared and determined that more than two-thirds of the votes cast at said special election were cast and counted as in favor of each and all of the propositions thereat submitted and to authorize the acquisition of the properties and the incurring of a bonded indebtedness by the City and County to the amount of and for the purpose set forth in the respective propositions herein enumerated.

Accepting Assignment of Marsden Manson of Water Rights to Tuolumne River and Eleanor Creek.

Also, Resolution No. 2960 (New Series), as follows:

Whereas, The assignment of Marsden Manson to the City and County of San Francisco of water rights to the waters of Tuolumne River and Eleanor Creek in the County of Tuolumne, State of California, was filed with the Board of Supervisors on November 9, 1908, said assignment being in words and figures as follows:

The undersigned, Marsden Manson, hereby transfers, assigns and sets over to the City and County of San Francisco, a municipal corporation, organized under the Constitution and laws of the State of California, for and in consideration of one (\$1.00) dollar, the receipt of which is hereby acknowledged, all his rights, titles and interests in and to the accompanying filings of water rights to the waters of Tuolumne River and Eleanor Creek in the County of Tuolumne, State of California. These filings were made under the official direction of the undersigned in his capacity as City Engineer in order to cover any possible laches in previous filings made at the same points and to the same amounts of water to which the present filings apply. These filings are made in accordance with the laws of the State of California and are recorded in the office of

the Recorder of Tuolumne County, California, as required by law.

(Signed) MARSDEN MANSON.

State of California, City and County of San Francisco—ss.

On this 22nd day of October, in the year One Thousand Nine Hundred and Eight, before me, L. H. Anderson, a Notary Public in and for the City and County of San Francisco, personally appeared Marsden Manson, known to me to be the person whose name is subscribed to the within instrument, and who duly acknowledged to me that he executed the same.

In witness whereof, I have hereunto set my hand and affixed my official seal, at my office in the City and County of San Francisco, the day and year in this certificate first above written.

(Seal) L. H. ANDERSON.

Notary Public in and for the City and County of San Francisco, State of California.

Now therefore,

Resolved, That the Board of Supervisors, on behalf of the City and County of San Francisco, a municipal corporation, hereby accepts and approves said assignment.

Further Resolved, That the Clerk of this Board be and he is hereby directed to cause said assignment to be recorded in the office of the Recorder of the City and County of San Francisco and in the office of the Recorder of Tuolumne County in the City of Sonora in said County.

BOND ISSUE, 1908.

The following Communications were received, read and ordered *referred to the Public Utilities Committee*:

Communication from Dillon and Hubbard Relative to Compensation for Services.

New York, November 24, 1908.

John E. Behan, Esq., Clerk of Board of Supervisors, San Francisco, California.

Dear Sir:

In your letter to us dated November 18 you state as follows:

"Regarding your letter of October 27, 1908, stating that in the event only \$18,200,000 bonds be issued that your total fee shall be \$13,420, and in the event of any future bond issue being floated to the extent approximately of thirty millions, including the issue of May 11, 1908, your fee will be the amount originally agreed upon, namely, 60 cents per \$1000 bond, I beg leave to state that the Public Utilities Committee of this Board will recommend to the Supervisors the acceptance of this post agreement by resolution of the Board of Supervisors should you deem this action necessary to protect your interests.

"Be kind enough to advise me as to your wishes in this latter matter."

In reply we beg to state that we think it desirable that the matter be provided for by resolution of the Board of Supervisors, and we therefore suggest that the proposition stated in our letter to you dated October 27 be approved by Resolution of the Board of Supervisors, such proposition being as follows, to wit:

"That we be paid \$9,540 now; that when the \$18,200,000 shall have been sold and delivered we be paid the sum of \$1,380, making the amount paid \$9,540, plus \$1,380, or \$10,920, which is equal to sixty cents per \$1,000 bond on the \$18,200,000; that if by the time the said \$18,200,000 have been sold and delivered no more bonds out of the contemplated \$30,000,000 or thereabouts shall have been submitted to a vote of the people, then the city shall pay us in addition to said \$1,380 the further sum of \$2,500. This would make full compensation to us in respect of the \$18,200,000 bonds. In the event, however, that within a reasonable time after the \$18,200,000 have been sold and delivered the City and County shall take up the question of the issuance of the

remainder of the \$30,000,000 or thereabouts, we are in that event to examine into the validity of these additional bonds up to \$30,000,000 and to make the compensation such with respect to these additional bonds that the total amount of compensation for the additional bonds, together with the compensation theretofor received in respect of the \$18,200,000 shall be \$18,000, and no less; provided that if more than \$30,000,000 bonds are issued, such additional sum shall be paid us as will amount to sixty cents per \$1000 bond on the total amount. If, however, prior to the time when the \$18,200,000 bonds already voted shall have been sold and delivered there is submitted to the vote of the people the question of the issuance of the remainder of the \$30,000,000 bonds or thereabouts, then the further payment of \$2,500 above mentioned is not to be made at the time of the payment of said \$1,380, but we are to proceed under the original contract, and our compensation is to be \$18,000 and no less; and if bonds are issued beyond \$30,000,000, then our compensation is to be such as will amount to sixty cents per \$1000 bond, and the further payments after the \$1,380 (which is to be paid as soon as the \$18,200,000 bonds have been delivered) are to be made from time to time as a proportionate amount of the remainder of the \$30,000,000 or thereabouts of bonds shall be sold and delivered."

We suggest that the proposition as above fully stated by us be quoted in full in the resolution of the Board of Supervisors agreeing to this proposition, this being, we think, better than any abridgement or condensation of it which does not so fully express the intention. We shall be glad to have you send us in due course a certified copy of the record of proceedings adopting the resolution, including among other things the resolution itself, as well also as a certified copy of the record showing the passage of Resolution No. 2900 (New Series), passed November 16, 1908, allowing the present payment of \$9,540.

Very truly yours,

DILLON & HUBBARD.

Communication from Dillon and Hubbard
Transmitting Power of Attorney to E.
H. Rollins & Sons for Collection of
Their Fee.

New York, November 28, 1908.

John E. Behan, Esq., Clerk, Board of
Supervisors, San Francisco, California.

Dear Sir:

We beg to acknowledge receipt of your letter dated November 18 in regard to our fee for professional services in the matter of the San Francisco bonds. We note what you state, that the Board

of Supervisors allowed our claim in the sum of \$9,540 as a payment on account and that the claim was on the date of your letter, November 18, in the hands of the Mayor for approval; that after approval by the Mayor the claim must be transmitted to the Auditor for auditing, and when approved by the Auditor will be ready for payment. You suggest that we give a power of attorney to some person, bank or financial institution in San Francisco, for instance, E. H. Rollins and Sons, who might act as our agent for the purpose of collecting the claim and forwarding the proceeds thereof. We thank you for this suggestion, and acting upon it are today sending to E. H. Rollins and Sons a power of attorney to collect this claim and give in our name the proper voucher therefor. We inclose you a duplicate original of this power of attorney.

We address you a separate letter in relation to the other subject mentioned in your letter of November 18.

Very truly yours,

DILLON & HUBBARD.

Power of Attorney.

Dillon, a member of the firm of Dillon and Hubbard, to me personally known, and known to me to be the same person described in and who executed the within power of attorney, and duly acknowledged to be his act and deed, for the purpose therein mentioned and also the voluntary act and deed of said firm of Dillon and Hubbard.

In testimony whereof, I have hereunto subscribed by name and affixed my seal of office, the day and year last above written.

B. W. J. FOX, Notary Public,
Kings and New York Counties.

**Communication from Dillon and Hubbard
with Opinion as to Validity of Bonds
Sold to E. H. Rollins and Sons and N.
W. Harris and Co.**

New York, November 25, 1908

John E. Behan, Esq., Clerk of the Board
of Supervisors, San Francisco, California.

Dear Sir:

Referring to the matter of the San Francisco, California, public improvement bonds, we beg to advise you that we have been furnished with certain papers by E. H. Rollins & Sons and N. W. Harris & Company with respect to the sale and delivery of \$3,280,000 of said bonds and have furnished them with an opinion in favor of the validity of said \$3,280,000 bonds, numbered and described as stated in our opinion. We enclose herewith an original opinion for your files, receipt of which please acknowledge.

Very truly yours,

DILLON & HUBBARD.

(Enclosure.)

New York, November 25, 1908.

Board of Supervisors of the City and
County of San Francisco, San Francisco, California.

Dear Sirs:

At your request we have examined into the validity of \$3,280,000 bonds of the City and County of San Francisco, California, said bonds being of the denomination of one thousand dollars each, dated July 1, 1908, bearing interest at the rate of five per centum per annum payable semi-annually January 1 and July 1, said bonds being for the

amounts and numbered and described as follows:

\$1,000,000 Fire Protection Bonds, maturing twenty-five bonds on July 1, 1916, and twenty-five bonds on July 1 of each and every year thereafter to and including July 1, 1955, and numbered as follows:

\$800,000 Sewer Bonds, maturing twenty bonds on July 1, 1915, and twenty bonds on July 1 of each and every year thereafter to and including July 1, 1954, and numbered as follows:

1-20, 101-120, 201-220, 301-320, 401-420, 501-520, 601-620, 701-720, 801-820, 901-920, 1001-1020, 1101-1120, 1201-1220, 1301-1320, 1401-1420, 1501-1520, 1601-1620, 1701-1720, 1801-1820, 1901-1920, 2001-2020, 2101-2120, 2201-2220, 2301-2320, 2401-2420, 2501-2520, 2601-2620, 2701-2720, 2801-2820, 2901-2920, 3001-3020, 3101-3120, 3201-3220, 3301-3320, 3401-3420, 3501-3520, 3601-3620, 3701-3720, 3801-3820, 3901-3920.

\$1,200,000 School Bonds, maturing forty-eight bonds on July 1, 1914, and forty-eight bonds on July 1 of each and every year thereafter to and including July 1, 1938, and numbered as follows:

1-48, 201-248, 401-448, 601-648, 801-848, 1001-1048, 1201-1248, 1401-1448, 1601-1648, 1801-1848, 2001-2048, 2201-2248, 2401-2448, 2601-2648, 2801-2848, 3001-3048, 3201-3248, 3401-3448, 3601-3648, 3801-3848, 4001-4048, 4201-4248, 4401-4448, 4601-4648, 4801-4848.

\$280,000 Hospital Bonds, maturing fourteen bonds on July 1, 1913, and fourteen bonds on July 1 of each and every year thereafter to and including July 1, 1932, and numbered as follows:

1-14, 101-114, 201-214, 301-314, 401-414, 501-514, 601-614, 701-714, 801-814, 901-914, 1001-1014, 1101-1114, 1201-1214, 1301-1314, 1401-1414, 1501-1514, 1601-1614, 1701-1714, 1801-1814, 1901-1914.

Said bonds recite among other things that that they are issued pursuant to the constitution and statutes of the State of California and the Charter of said City and County of San Francisco and amendments thereto, and pursuant to ordinances and proceedings of said City and County duly adopted and taken, and a vote and assent of more than two-thirds of all the qualified electors of said City and County voting at a special election duly and legally called and held for that purpose; that

provision has been made for the collection of an annual tax sufficient to pay the interest on said bonds as it falls due, and also provision to constitute a sinking fund for the payment of the principal of said bonds on or before maturity, and that said bonds are exempt from all taxation within the State of California. We have examined the constitution and statutes of the State of California and the Charter of said City and County of San Francisco, and certified copies of proceedings of said City and County authorizing the issue of said bonds, also one of the originals of said bonds.

In our opinion said bonds, described and numbered as above, are issued in accordance with the constitution and statutes of the State of California, including the Charter of said City and County of San Francisco, and constitute valid and legally binding obligations of said City and County of San Francisco.

Very truly yours,

DILLON & HUBBARD.

Containing in the aggregate seven hundred and sixty-two acres. Said lands last described are hereinafter referred to as "outside lands"; and

WHEREAS, By Section 15 of Article XII, of the Charter of said City and County of San Francisco, it is provided as follows:

"The Supervisors shall have power, in the name and for the benefit of the City and County, to acquire by purchase or condemnation, subject to the conditions and limitations in this Charter and the general laws of the State prescribed, any lands situated within the State of California necessary for constructing or maintaining canals, aqueducts, reservoirs, tunnels, flumes, ditches or pipes for conducting or storing water for the use of the City and County, or the inhabitants thereof"; and,

WHEREAS, Said City and County of San Francisco, acting by and through its properly accredited and authorized agents and representatives, and in pursuance of the authority of and for the purpose of exercising the rights and privileges conferred by said Section 15, Article XII, of its Charter, said City and County has heretofore acquired from the Government of the United States through its Secretary of the Interior, among other privileges, the right to utilize the floor of said Hetch Hetchy Valley and necessary contiguous land for the purpose of a storage reservoir to impound water, to be thence conducted by means of tunnels,

flumes, ditches or pipes for the use of said City and County, and has obtained from said Secretary of the Interior a permit to so utilize said floor of Hetch Hetchy Valley for such storage purposes, and has also obtained a similar privilege as to Lake Eleanor and lands adjacent to its margin, upon the following stipulation, among others:

"The City and County of San Francisco will surrender to the United States equivalent areas outside of said reservoir sites and within the Yosemite National Park and adjacent reserves in exchange for the remaining land in said reservoir sites"; and

WHEREAS, Said City and County of San Francisco is desirous of purchasing from said party of the first part all and singular the lands and premises situated in the floor of said Hetch Hetchy Valley, said lands to be held by said City and County in fee simple absolute, and for the use and purpose specified in said Section 15, Article XII, of its said Charter, and is desirous of obtaining or securing the control of the title to those other lands in said Yosemite National Park and adjacent reserves outside of said floor of Hetch Hetchy Valley hereinbefore designated as "outside lands" in order to enable said City and County to effect with the United States an exchange of said outside lands for equal areas of Government land within said reservoir site in and adjacent to the floor of said valley, and in and adjacent to Lake Eleanor, and its margin:

NOW THEREFORE, For and in consideration of the sum of ten thousand (\$10,000) dollars, gold coin of the United States, heretofore paid by the party of the second part to the party of the first part, the receipt whereof is hereby acknowledged, and other considerations good, adequate and valuable, said party of the first part hereby covenants and agrees to sell and convey to said City and County of San Francisco, by deed of grant, bargain and sale, all the lands and premises first hereinbefore described and designated as "inside lands," and to make, execute and deliver such deeds, conveyances or instruments conveying said outside lands to either the United States or to any person or persons who may be designated by Edward R. Taylor, Mayor of the City and County of San Francisco, or his successor in office, which may be necessary and requisite under the regulations of the Secretary of the Interior or any Act of Congress, in order to enable said City and County to effect the exchange of said outside lands with the United States for areas of Government land on or adjacent to the floor of said Hetch Hetchy Valley and underlying or adjacent to the margin of Lake Eleanor,

upon the following terms and conditions:

The total purchase price of said lands is the sum of one hundred and fifty thousand eight hundred (\$150,800) dollars, and of said sum ten thousand (\$10,000) dollars has been paid to the party of the first part, the receipt whereof is hereby acknowledged, and the further sum of forty thousand eight hundred (\$40,800) dollars is to be allowed and ordered paid by the Board of Supervisors of said City and County at the time of the execution and delivery of this agreement. The remaining portion of said purchase price, to wit: one hundred thousand (\$100,000) dollars, is to be allowed and ordered paid by said Board of Supervisors within thirty (30) days from the sale of certain water supply bonds of the said City and County, authorized to be issued at a special election held November 12, 1908, which bonds are to bear date January 1, 1909, together with interest on said sum of one hundred thousand (\$100,000) dollars at the rate of six (6) per cent per annum from the first day of August, 1908, until paid, the party of the first part agreeing that the demand will be presented for payment without delay. The party of the second part may at any time in its discretion pay said sum from its ordinary revenues.

In the event that said bonds should be declared by a court of competent jurisdiction to be illegal and void, said party of the second part agrees, without delay, through its proper officers, to institute such new proceedings as will result in new bonds being issued free from legal defects and objections, and will diligently prosecute such proceedings to successful termination and sale of such bonds so issued.

Upon the payment of said installment of forty thousand eight hundred (\$40,800) dollars to said party of the first part at the time and in the manner hereinbefore specified, said party of the first part will make and execute to the party of the second part, and deliver to the Central Bank of Oakland, in the City of Oakland and County of Alameda, State of California, in escrow, a deed in form sufficient to convey the fee simple title to all of said lands first hereinbefore described and designated as "inside lands" to said City and County of San Francisco, with appropriate instructions to said depository to deliver said deed to the then Mayor of said City and County for and on behalf of said City and County, upon paying to said Central Bank of Oakland to the credit, and for the use of said party of the first part, the remainder of the purchase price herein named, to wit: the sum of one hundred thousand (\$100,000) dollars in gold coin of the United

States, with interest accrued thereon, as hereinbefore provided.

Said party of the first part further agrees that he will, at any time after said installment of forty thousand eight hundred (\$40,800) dollars shall have been paid, and whenever thereto requested by the then Mayor of said City and County of San Francisco, make, execute and deliver to said depository in escrow such deed or other instrument sufficient to convey to the United States, or to such other person or persons as may be then designated by said Mayor, the lands hereinbefore designated as "outside lands," such deed or other instrument to be in such form and manner as may be requisite and necessary to effect the exchange with the Government of the United States of said outside lands for equivalent areas in and adjacent to the floor of Hetch Hetchy Valley or underlying or adjacent to the margin of Lake Eleanor, in accordance with law or the regulations in that behalf made by the Secretary of the Interior.

Said depository shall be instructed to deliver to the then Mayor of said City and County said last named deed or instrument simultaneously with the delivery of the deed to said City and County to said "inside lands" hereinbefore specified.

Said party of the first part further covenants and agrees that he will, at any time when thereto requested by said Mayor of said City and County, execute and place in escrow with said depository any and all instruments which may at any time become necessary or requisite to effectuate said exchange of lands, the delivery of the same out of escrow to be simultaneous with the delivery of the deed to said inside lands hereinbefore provided for.

The party of the first part hereby covenants and agrees that his title to all of said lands is now merchantable, and that upon the delivery of said deeds out of escrow, said title to all of said lands shall be clear, unencumbered and free of liens.

The said City and County of San Francisco on its part hereby covenants and agrees to purchase all of said lands as hereinbefore described upon the terms and conditions herein expressed.

And the Clerk of the Board of Supervisors is authorized and directed to affix the seal of the City and County to the aforesaid agreement, to attest the same by his signature, and to cause said agreement to be recorded in the Recorder's offices of the County of Tuolumne and the City and County of San Francisco.

Section 2. This Ordinance shall take effect immediately.

Report of City Attorney on Purchase of Spring Valley Homestead Lots 211 and 212 for Sewer Right of Way.

December 4, 1908.

John E. Behan, Esq., Clerk of the Board of Supervisors:

Dear Sir:

I have to report as follows on the purchase of Spring Valley Homestead Lots Nos. 211 and 212 per the terms of Resolution No. 2868 of the Board of Supervisors. The deed to said property has passed to the City and County and was filed with the Recorder for record, December 1st, 1908. The taxes for the fiscal year 1908-9 were entirely paid, and McEnerney proceedings are now under way to quiet title to these two lots in connection with several other pieces.

The consideration has been paid to Fyfe and Depaoli and the title to said

property is now in the City and County.

Very truly yours,

PERCY V. LONG.

City Attorney.

Read and ordered *filed*.

BOND ISSUE, 1908.

Relative to Payment of Interest on Bonds.

The following communication was presented:

December 1, 1908.

Mr. John E. Behan, City Clerk, City and County of San Francisco, Eddy street, City.

Dear Sir:

As requested by you, we beg to advise that it is our opinion that provision should be made for paying the interest due January 1, 1909, on approximately \$1,975,000, City and County of San Francisco 5% gold bonds, dated July 1, 1908, in New York City, and approximately \$1,305,000, on this Coast.

This estimate, which is only approximate, is based on our best opinion as to the location of these bonds at this time.

We are, with very great respect,

Very truly yours,

R. H. ROLLINS AND SONS.

Read and ordered *referred to Public Utilities Committee*.

RELATING TO ACQUISITION OF A MUNICIPAL WATER SUPPLY.

Communication from Wm. Ham. Hall, Stating that San Francisco Can Now Purchase Such Parts of Lake Eleanor Holding as are Required for Water Supply Purposes.

The Honorable Mayor and Board of Supervisors of the City and County of San Francisco,

Gentlemen:

I am instructed by those who control the Tuolumne properties which I manage to ask whether or not the City of San Francisco desires to purchase the Lake Eleanor portions of the same.

If so, whether or not the City authorities will without further delay make an offer for the same, stating specifically what they desire to buy, and naming the sum they will pay therefor.

I am instructed to call your attention to the fact that this matter has remained open for the convenience of the City authorities for several months, without our receiving reply to our communications submitted in response to the request of the honorable Public Utilities Committee.

Finally, I am instructed to say that, so far as our attitude affects the case, the City of San Francisco can now purchase, as it could have arranged to purchase at any time within the past several months, such parts of our holdings as presumably it wants, for its water supply purpose, at a fair valuation, to be arrived at by patient, disinterested and competent consideration of the facts of the case; and that we are now, as we have been, prepared to

submit our ideas of value, together with our data and view of the facts, for consideration by a disinterested and competent board of experts.

This is to be considered as a formal offer, and a prompt response is requested, because if the City does not wish to acquire any of our properties, we must, in justice to ourselves, proceed to protect and develop them in our own interest, or make such other disposition of them as may be deemed advisable.

Very respectfully yours,

WM. HAM. HALL, Agent.

Dated San Francisco, December 7th, 1908.

Read and ordered referred to Public Utilities Committee.

Diablo meridian.

Containing in the aggregate seven hundred and sixty-two acres. Said lands last described are hereinafter referred to as "outside lands"; and

WHEREAS, By Section 15 of Article XII. of the Charter of said City and County of San Francisco, it is provided as follows:

"The Supervisors shall have power, in the name and for the benefit of the City and County, to acquire by purchase or condemnation, subject to the conditions and limitations in this Charter and the general laws of the State prescribed, any lands situated within the State of California necessary for constructing or maintaining canals, aqueducts, reservoirs, tunnels, flumes, ditches or pipes for conducting or storing water for the use of the City and County, or the inhabitants thereof"; and,

WHEREAS, Said City and County of San Francisco, acting by and through its properly accredited and authorized agents and representatives, and in pursuance of the authority of and for the

purpose of exercising the rights and privileges conferred by said Section 15, Article XII, of its Charter, said City and County has heretofore acquired from the Government of the United States through its Secretary of the Interior, among other privileges, the right to utilize the floor of said Hetch Hetchy Valley and necessary contiguous land for the purpose of a storage reservoir to impound water, to be thence conducted by means of tunnels, flumes, ditches or pipes for the use of said City and County, and has obtained from said Secretary of the Interior a permit to so utilize said floor of Hetch Hetchy Valley for such storage purposes, and has also obtained a similar privilege as to Lake Eleanor and lands adjacent to its margin, upon the following stipulation, among others:

"The City and County of San Francisco will surrender to the United States equivalent areas outside of said reservoir sites and within the Yosemite National Park and adjacent reserves in exchange for the remaining land in said reservoir sites"; and

WHEREAS, Said City and County of San Francisco is desirous of purchasing from said party of the first part all and singular the lands and premises situated in the floor of said Hetch Hetchy Valley, said lands to be held by said City and County in fee simple absolute, and for the use and purpose specified in said Section 15, Article XII, of its said Charter, and is desirous of obtaining or securing the control of the title to those other lands in said Yosemite National Park and adjacent reserves outside of said floor of Hetch Hetchy Valley hereinafter designated as "outside lands" in order to enable said City and County to effect with the United States an exchange of said outside lands for equal areas of Government land within said reservoir site in and adjacent to the floor of said valley, and in and adjacent to Lake Eleanor, and its margin:

NOW THEREFORE, For and in consideration of the sum of ten thousand (\$10,000) dollars, gold coin of the United States, heretofore paid by the party of the second part to the party of the first part, the receipt whereof is hereby acknowledged, and other considerations good, adequate and valuable, said party of the first part hereby covenants and agrees to sell and convey to said City and County of San Francisco, by deed of grant, bargain and sale, all the lands and premises first hereinafter described and designated as "inside lands," and to make, execute and deliver such deeds, conveyances or instruments conveying said outside lands to either the United States or to any person or persons who may be designated by Edward R. Tay-

lor, Mayor of the City and County of San Francisco, or his successor in office, which may be necessary and requisite under the regulations of the Secretary of the Interior or any Act of Congress, in order to enable said City and County to effect the exchange of said outside lands with the United States for areas of Government land on or adjacent to the floor of said Hetch Hetchy Valley and underlying or adjacent to the margin of Lake Eleanor, upon the following terms and conditions:

The total purchase price of said lands is the sum of one hundred and fifty thousand eight hundred (\$150,800) dollars, and of said sum ten thousand (\$10,000) dollars has been paid to the party of the first part, the receipt whereof is hereby acknowledged, and the further sum of forty thousand eight hundred (\$40,800) dollars is to be allowed and ordered paid by the Board of Supervisors of said City and County at the time of the execution and delivery of this agreement. The remaining portion of said purchase price, to wit: one hundred thousand (\$100,000) dollars, is to be allowed and ordered paid by said Board of Supervisors within thirty (30) days from the sale of certain water supply bonds of the said City and County, authorized to be issued at a special election held November 12, 1908, which bonds are to bear date January 1, 1909, together with interest on said sum of one hundred thousand (\$100,000) dollars at the rate of six (6) per cent per annum from the first day of August, 1908, until paid, the party of the first part agreeing that the demand will be presented for payment without delay. The party of the second part may at any time in its discretion pay said sum from its ordinary revenues.

In the event that said bonds should be declared by a court of competent jurisdiction to be illegal and void, said party of the second part agrees, without delay, through its proper officers, to institute such new proceedings as will result in new bonds being issued free from legal defects and objections, and will diligently prosecute such proceedings to successful termination and sale of such bonds so issued.

Upon the payment of said installment of forty thousand eight hundred (\$40,800) dollars to said party of the first part at the time and in the manner hereinbefore specified, said party of the first part will make, and execute to the party of the second part, and deliver to the Central Bank of Oakland, in the City of Oakland and County of Alameda, State of California, in escrow, a deed in form sufficient to convey the fee simple title to all of said lands first hereinbefore described and designated as "inside lands" to said City and County of San

Francisco, with appropriate instructions to said depository to deliver said deed to the then Mayor of said City and County for and on behalf of said City and County, upon paying to said Central Bank of Oakland to the credit and for the use of said party of the first part, the remainder of the purchase price herein named, to wit: the sum of one hundred thousand (\$100,000) dollars in gold coin of the United States, with interest accrued thereon, as hereinbefore provided.

Said party of the first part further agrees that he will, at any time after said installment of forty thousand eight hundred (\$40,800) dollars shall have been paid, and whenever thereto requested by the then Mayor of said City and County of San Francisco, make, execute and deliver to said depository in escrow such deed or other instrument sufficient to convey to the United States, or to such other person or persons as may be then designated by said Mayor, the lands hereinbefore designated as "outside lands," such deed or other instrument to be in such form and manner as may be requisite and necessary to effect the exchange with the Government of the United States of said outside lands for equivalent areas in and adjacent to the floor of Hetch Hetchy Valley or underlying or adjacent to the margin of Lake Eleanor, in accordance with law or the regulations in that behalf made by the Secretary of the Interior.

Said depository shall be instructed to deliver to the then Mayor of said City and County said last named deed or instrument simultaneously with the delivery of the deed to said City and County to said "inside lands" hereinbefore specified.

Said party of the first part further covenants and agrees that he will, at any time when thereto requested by said Mayor of said City and County, execute and place in escrow with said depository any and all instruments which may at any time become necessary or requisite to effectuate said exchange of lands, the delivery of the same out of escrow to be simultaneous with the delivery of the deed to said inside lands hereinbefore provided for.

The party of the first part hereby covenants and agrees that his title to all of said lands is now merchantable, and that upon the delivery of said deeds out of escrow, said title to all of said lands shall be clear, unencumbered and free of liens.

The said City and County of San Francisco on its part hereby covenants and agrees to purchase all of said lands as hereinbefore described upon the terms and conditions herein expressed.

And the Clerk of the Board of Supervisors is authorized and direct-

ed to affix the seal of the City and County to the aforesaid agreement, to attest the same by his signature, and to cause said agreement to be recorded in the Recorder's offices of the County of Tuolumne and the City and County of San Francisco.

Section 2. This Ordinance shall take effect immediately.

The following Resolution was adopted:

Accepted Modified Offer of Dillon & Hubbard for Services Rendered in Connection With Bond Issue of July 1, 1908.

On motion of Supervisor Murphy: Resolution No. 3009 (New Series), as follows:

Whereas, Under the original agreement between the City and County of San Francisco and Dillon & Hubbard of New York City in relation to services to be rendered by said Dillon & Hubbard in connection with the issuance of bonds of the City and County, as the same is set forth in Resolution No. 1939 (New Series), adopted February 10, 1908, and said Dillon & Hubbard have rendered services of a fiduciary character, furnishing certificates establishing the regularity and value of said bonds, and assisting in the matter of the sale thereof; and

Whereas, There has been a variance from the said agreement in that bonds to the amount of \$18,200,000 have been authorized to be issued in lieu of the \$30,000,000 originally contemplated; and

Whereas, A modification of the said agreement is necessary in order to clearly set forth the nature of the obligations assumed by the respective parties thereto; and

Whereas, The nature of said modifications and new obligations mutually agreed upon are set forth in a communication from said Dillon & Hubbard, dated November 24, 1908, and are recited therein as follows:

That we be paid \$9540 now; that when \$18,200,000 shall have been sold and delivered we be paid the sum of \$1380, making the amount paid \$9540 plus \$1380, or \$10,920, which is equal to sixty cents per \$1000 bonds on the \$18,200,000; that if by the time the said \$18,200,000 have been sold and delivered no more bonds out of the contemplated \$30,000,000 or thereabouts shall have been submitted to a vote of the people, then the City shall pay us in addition to said \$1380 the further sum of \$2500. This would make full compensation to us in respect of the \$18,200,000 bonds. In the event, however, that within a reasonable time after the \$18,200,000 have been sold and delivered the City and County shall take up the question of the issuance of the remainder of the \$30,000,000 or thereabouts, we are in that event to examine into the validity of these additional bonds up to \$30,000,-

000 and to make the compensation such with respect to these additional bonds that the total amount of compensation for the additional bonds together with the compensation thereto for received in respect of the \$18,200,000 shall be \$18,000 and no less; provided that if more than \$30,000,000 bonds are issued, such additional sum shall be paid us as will amount to sixty cents per \$1,000 bond on the total amount. If however, prior to the time when the \$18,200,000 bonds already voted shall have been sold and delivered there is submitted to the vote of the people the question of the issuance of the remainder of the \$30,000,000 bonds or thereabouts, then the further payment of \$2,500 above mentioned is not to be made at the time of the payment of said \$1,380, but we are to proceed under the original contract, and our compensation is to be \$18,000 and no less; and if bonds are issued beyond \$30,000,000, then our compensation is to be such as will amount to sixty cents per \$1,000 bond, and the further payments after the \$1,380 (which is to be paid as soon as the \$18,200,000 bonds have been delivered) are to be made from time to time as a proportionate amount of the remainder of the \$30,000,000 or thereabouts of bonds shall be sold and delivered." Now therefore

Resolved, By the Board of Supervisors, that the above offer, stipulation and conditions be and are hereby accepted and agreed to by the Board of Supervisors of the City and County of San Francisco, and that said original agreement contained in said Resolution No. 1939 (New Series) is hereby accordingly modified.

Relative to Suit for Recovery of Naturalization Fees from County Clerk.

Supervisor Comte presented the following communication, which was received, read and ordered entered at large in the journal:

December 14th, 1908.

John E. Behan, Esq., Clerk, Board of Supervisors.

Dear Sir:

I have the pleasure of informing you that Judge Seawell this morning overruled the demurrer of County Clerk Mulcrevy in the matter of City and County of San Francisco vs. Mulcrevy.

This proceeding was brought for the purpose of recovering \$4000 in naturalization fees which the County Clerk claimed he had the right to retain to his own use. The facts were admitted and the case was practically tried upon the hearing of the demurrer.

Judge Seawell holds that this case must follow the law as laid down by

the Supreme Court of this State in the Dodge case.

Yours very truly,

PERCY V. LONG, City Attorney.

Relative to the Sufficiency of the Water Supply Bond Ordinance.

December 14th, 1908.

John E. Behan, Esq., Clerk, Board of Supervisors.

Dear Sir:

I herewith return to you copy of proposed ordinance "providing for the issuance and redemption of bonds of the City and County of San Francisco for the purchase of lands, etc., in the acquisition of a water supply."

I have examined the proposed ordinance, and believe the same to be sufficient for all purposes.

Yours very truly,

PERCY V. LONG,
City Attorney.

Enc.

Passed for Printing.

The following Bills were passed for printing:

Providing for the Issuance and Redemption of Water Supply Bonds.

On motion of Supervisor Murphy:

Resolution No. 3050 (New Series),
as follows:

(Providing for statements being filed by companies, corporations or persons engaged in the business of supplying pure, fresh water for the use of the inhabitants of this City and County.)

Resolved, that the Spring Valley Water Company, a corporation, and every other corporation, company or person, if any there be, supplying water to the City and County of San Francisco, or to the inhabitants thereof, be and are hereby required to furnish to the Board of Supervisors of the said City and County, in the month of January, in the year of our Lord one thousand nine hundred and nine, a detailed statement, verified by the oath of the president and secretary of such corporation or company, or of such person, as the case may be, showing the name of each water rate payer, his or her place of residence, and the amount paid for water by each of such water rate payers during the year preceding the date of such statement, and also showing all revenue derived by such corporation, company or person, from all sources, and an itemized statement of expenditures made for supply water during said time; and that such statement be accompanied by a further and detailed statement, verified by the president and secretary of such corpora-

tion or company, or of such persons, as the case may be, showing the amount of money actually expended annually since commencing business, in the purchase, construction and maintenance, respectively, of the property necessary to the carrying on of the business of such corporation, company or person, and also the gross cash receipts annually for the same period from all sources, in accordance with an act of the Legislature approved March 7, 1881 (Statutes 1881, page 54).

Resolved, That the attention of every corporation, company or person engaged in supplying water is hereby called to the provisions of Section 4 of the act of the Legislature heretofore referred to, as the same will be strictly enforced, to wit:

"Section 4. Every corporation, company or person who shall refuse or neglect to furnish the statements mentioned in Section 2 and 3 of this Act, or either of them, or who shall furnish any false statements in relation thereto, within thirty days after having been required or requested to furnish the same, as prescribed in Sections 1, 2 and 3 of this act, shall be deemed guilty of a misdemeanor."

Resolved, That the Clerk of this Board is hereby directed to forthwith serve a certified copy of this Resolution upon the president and secretary, respectively of the said corporation, the Spring Valley Water Company, and every other corporation or company, and upon every other person so supplying water to the City and County of San Francisco, or to the inhabitants thereof.

Board of Public Works to Submit Appraisalment of Spring Valley Properties.

Also, Resolution No. 3051 (New Series), as follows:

Resolved, That the Board of Public Works be and is hereby directed to submit to the Board of Supervisors not later than February 1, 1909, an appraisalment of the properties of the Spring Valley Water Company actually used in furnishing the City and County of San Francisco, and the inhabitants thereof, with a pure and wholesome supply of water, for the purpose of enabling said Board of Supervisors to establish a basis of valuation of said properties and upon which it may fix and determine water rates to be charged said City and County and its inhabitants for the fiscal year commencing July 1, 1909, and ending June 30, 1910.

In making said appraisalment the Board of Public Works shall submit a list of all lands, water rights, reservoir sites and tangible property of all kinds of said company, together with a spe-

cific statement of valuation in each instance.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—17.

Spring Valley Water Company to Furnish Inventory of Properties Actually Used in Furnishing Water to San Francisco.

Also, Resolution No. 3052 (New Series), as follows:

Resolved, That the Spring Valley Water Company be and is hereby directed to furnish this Board, not later than February 1, 1909, an inventory of all its property actually used in supplying the City and County of San Francisco with a pure, wholesome supply of water, said inventory to set forth in detail each and every component of its system so used, together with a summary of the cost, showing in connection with each source of supply and the City distributing system, the cost of the lands, water rights, reservoir sites, improvements, works and personal property.

Resolved, That the Spring Valley Water Company be and is hereby directed to furnish, in a manner similar to that above set forth, an inventory of its properties not now actually used in supplying San Francisco with water, but which have been heretofore so used, and also of all its properties which are capable of development into a source of water supply for this City and County.

Relative to the Acquisition of the Plant of the Spring Valley Company.

Supervisor McAllister presented:

Resolution No. — (New Series), as follows:

Whereas, The election of November 12, 1908, expressed in unmistakable terms the wishes of the people of this commonwealth to own and operate their municipal water works; and

Whereas, The present scheme to bring the waters of Hetch Hetchy and the Sierras has included in it the purchase of the works of the Spring Valley Water Company; and

Whereas, The immediate necessities of this City require the spending of money to install water mains, hydrants and increase the present water supply; be it, therefore,

Resolved, That we, the Board of Supervisors, hereby pledge ourselves that if your company will give this Board the option of purchasing your entire plant for the sum of thirty-one million eight hundred and fifty-nine thousand dollars (\$31,859,000), or "the face value of its stocks and bonds" taken as a basis the 1st of January, 1909, and further providing that any and all sums spent for the development of this plant from and after above date be provided by the Spring Valley Company, but such expenditures to be under the direction and control of the City Engineer and be added to the above purchase price, and further providing said option to extend for two years from 1st of January, 1909, expiring the 1st of January, 1911.

We therefore pledge ourselves to put before the people as soon as possible at a general election to be held in this

city the question as called for by this Resolution.

If at such an election the people of this commonwealth vote by a two-thirds majority to agree to pay above sums for the Spring Valley plant and its developments, we further pledge ourselves to accept your offer and complete the sale.

Resolved, That this Resolution be immediately transmitted to the president and directors of the Spring Valley Company with a request for an early reply.

BOND ISSUE, 1908.

The following communication was presented, read and ordered referred to Public Utilities Committee:

Communication From Board of Public Works Recommending Sale of Certain Public Improvement Bonds.

Office of Board of Public Works.

San Francisco, Dec. 21, '08.

To the Honorable the Board of Supervisors, City and County of San Francisco.—Gentlemen: The Board of Public Works, at its meeting held Monday, December 21st, 1908, decided by Resolution No. 6628 (New Series), to

recommend that your Honorable Board make provision in the immediate future for the sale of the following described public improvement bonds for the purpose of enabling the Board of Public Works to proceed with the essential work of improvements contemplated by the Bond Issue of May 11th, 1908, to wit:

Fire protection bonds to the amount of	\$2,000,000
Sewer bonds to the amount of	800,000
School bonds to the amount of	900,000
Hospital bonds to the amount of	400,000
Hall of Justice bonds to the amount of	660,000
Garbage disposal bonds to the amount of	640,000
Total	\$5,400,000

The \$2,000,000 secured by the sale of the fire protection bonds will cover the cost of the cast-iron pipe, fire hydrants, gate valves and appurtenances for the distribution system, and the salt water pumping stations.

The \$800,000 secured by the sale of the sewer bonds is to be expended in the construction of portions of the Channel-street sewer, portions of the North Point main sewer, sewers in the Yerba Buena district, the main sewers in the Bay View district, and the easterly section of the Hunters Point main sewer.

The \$900,000 secured from the sale of school bonds will cover the construction of the following schools:

Denman Grammar, estimated cost	\$160,000
McKinley School, estimated cost	120,000
Jackson Primary School, estimated cost	100,000
Hancock Grammar School, estimated cost	160,000
Sheridan Primary School, estimated cost	100,000
Spring Valley Grammar School, estimated cost	100,000
Jean Parker Grammar School, estimated cost	160,000

Total \$900,000

The above estimates are intended to include the cost of the equipment by the Board of Education of the schools hereinabove named.

The \$400,000 secured by the sale of the hospital bonds will be expended in the construction of the foundation and the steel frame of the main hospital building on the site now owned by the City and County. The said amount of \$400,000, together with the amount remaining available from the last sale, after all necessary lands have been purchased, approximately \$120,

000, or \$520,000 in all, is sufficient for this purpose.

The amount recommended to be set aside from the Hall of Justice bonds of \$660,000 will, together with the balance of approximately \$100,000 remaining to the credit of the old issue of July 1st, 1904, or \$760,000 in all, is sufficient to construct the entire building.

The amount of garbage disposal bonds recommended to be sold, to wit: \$640,000, will cover the purchase of the Sanitary Reduction Works, and the cost of purchasing the land and the construction of one of the new incinerator plants.

Respectfully submitted.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—16.

Regulating the Use of Streets for the Purpose of Laying Pipes and Conduits for Furnishing Light or Water.

Supervisor Center introduced the following:

Bill No. 753, Ordinance No. — (New Series), entitled, "Regulating the use of public streets or thoroughfares for the purpose of laying down pipes and conduits therein and connections therewith for introducing and supplying the City and County of San Francisco and its inhabitants either with gas light or other artificial light or with fresh water.

Action Deferred.

Supervisor Johnston moved that above Bill be laid over one week and printed in pamphlet form.

So ordered.

Ordering Sewer and Street Work.

On motion of Supervisor Center:

Bill No. 754, Ordinance No. — (New Series), entitled, "Ordering the construction of a sewer, including the necessary fill to support and protect the same, along the extension of Hampshire street, from Serpentine avenue to Army street; approving and adopting plans and specifications therefor, and authorizing the Board of Public Works to enter into contract for doing said work at an estimated cost of \$4000, payable out of the item in the Budget of the fiscal year 1908-9. 'For paving, repaving and repairs to streets, for construction and repairs to sewers, and for construction of and repairs to buildings.'"

Also, Bill No. 755, Ordinance No. — (New Series), entitled, "Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor, and authorizing the Board of Public Works to enter into contract for doing the same," the provisions of which order street work on Eighth avenue, between "K" and "L" streets.

Also, Bill No. 756, Ordinance No. — (New Series), entitled, "Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same," the provisions of which order sewer work in Sixteenth avenue South, from "R" street to a point 125 feet southeasterly therefrom and in Harrison street, between Essex street and Rincon place.

Adopted.

The following Resolution was introduced under suspension of the rules and adopted:

Providing for Filing of Statements by Gas and Electric Companies.

On motion of Supervisor D'Ancona: Resolution No. 3083 (New Series), as follows:

Resolved, That the San Francisco Gas and Electric Company, the Metropolitan Light and Power Company, the Mutual Electric Light Company, the City Electric Company, the Standard Electric Light Company, the United Railroads of San Francisco, the Sutro Baths and all other persons, companies or corporations supplying heat, light or power to this City and County or to the inhabitants thereof, be and they are hereby required to furnish this Board on or before February 13, 1909, with the following information, to wit:

First—A detailed statement showing all revenue derived by such person, company or corporation supplying heat, light or power, from all sources, for the year ending December 31, 1908.

Second—An itemized statement showing all expenditures made for the manufacture and supply of heat, light or power for the year ending December 31, 1908.

Third—The original cost and the estimated present value of the plant used for the manufacture and supply of heat, light and power.

Fourth—If it be a company or corporation the amount of the capital stock of the company or corporation outstanding, the amount of the bonds of the company or corporation outstanding, and the amount of the

floating debt of the company or corporation.

The above statements to be verified by the oath of the president of such company or corporation, or of such person, as the case may be.

The object of this inquiry is in order that this Board may obtain information upon which to fix and determine, in the month of February, the rates or compensation to be collected by any person, company or corporation in this City and County for the use of heat, light or power supplied to this City and County or to the inhabitants thereof, and to prescribe the quality of the service, as provided under the provisions of the new Charter of the City and County of San Francisco, Article II, Chapter II, Section 1, Subdivision 14, under the title "Powers of the Supervisors."

Further Resolved, That the Clerk of this Board be and he is hereby directed to forthwith serve a certified copy of this resolution upon the president and secretary of each company or corporation, or upon such person, hereinbefore mentioned, and upon all other companies or corporations, or such persons, as the case may be, furnishing heat, light or power to this City and County or to the inhabitants thereof.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—16.

Passed for Printing.

The following Resolution was introduced by Supervisor Jennings under suspension of the rules and passed for printing:

Authorizing Payment, Hauling Clay, Park.

Resolution No. — (New Series), as follows:

Resolved, That an expenditure of \$1,912.40 be and the same is hereby authorized to be made out of the Park Fund of the fiscal year 1908-9 in payment to Owen McHugh for hauling and delivering 2938 cubic yards of clay to Golden Gate Park at 79½ cents per cubic yard, as per agreement and bill rendered.

Adopted.

The following Resolutions were introduced under suspension of the rules and adopted:

City Attorney to Advise Whether City Could Acquire Municipal Building Constructed by Private Capital by Paying Cost With Interest In Form of Rent.

On motion of Supervisor Murdock: Resolution No. 3084 (New Series), as follows:

Whereas, It is imperative to keep the bonded indebtedness of the City at the lowest sum consistent with the public needs, and

Whereas, It is reported that private

capital would be available to construct a municipal building, or buildings, on the City Hall lot if an agreement could be made with the City whereby under a long lease, the cost of such building and the interest thereon could be met in the form of rent, and

Whereas, A preliminary consideration is one of law, therefore be it

Resolved, That the City Attorney be requested to advise the Board if the City can legally enter into a long term lease of buildings to be erected on its own land, upon terms that would reimburse private investors for the cost of outlay and interest thereon.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—16.

Building Committee to Consider Proposition of Constructing Auditorium by Private Capital.

Also, Resolution No. 3085 (New Series), as follows:

Whereas, The need in San Francisco of a large auditorium is admitted, and

Whereas, It has been suggested that the City issue bonds and erect a municipal auditorium, and

Whereas, It is clearly not advisable for the city to issue bonds for a purpose that may be satisfactorily achieved by private enterprise, and

Whereas, It is reported that Mr. Chas. G. Naylor and associates propose the erection of an auditorium on the Mechanics' Institute lot, and if in character and plan it will meet the requirements of the City, the municipality ought not through possible rivalry to interfere with the consummation of the purpose, therefore be it

Resolved, That the Committee on Public Buildings be requested to invite Mr. Naylor to confer with them and submit his plans, and that at their earliest convenience they report to the Board their conclusions in the matter.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—16.

Action Deferred.

Additional Land for Garfield School.

December 24, 1908.

John E. Behan, Esq., Clerk of the
Board of Supervisors.
Dear Sir:

You are respectfully advised that that certain piece of property owned by Mr. Chas. Costa, and required as an additional site for the Garfield School, has been acquired in accordance with the terms of Resolution No. 2881. The property is described as the rear twenty-five feet by twenty-five feet of the lot of land belonging to Mr. Costa, and located on the southerly line of Greenwich street, being a portion of 50 Vara Block No. 82.

The taxes for the entire fiscal year have been paid by Mr. Costa, and a McEnerney action to secure title to the entire lot was commenced several months ago by W. H. Davis, Esq., attorney for Mr. Costa. The decree of the McEnerney action will provide for title to the rear twenty-five feet in the City and County of San Francisco. The deed was recorded and the money paid December 22, 1908.

Very truly yours,

PERCY V. LONG.

City Attorney.

Additional Land for City and County Hospital.

December 21, 1908.

John E. Behan, Esq., Clerk, Board of
Supervisors, City.
Dear Sir:

You are respectfully advised that that certain piece of property owned by Mr. L. Rendler and situated on the westerly line of Vermont street, 133 feet 4 inches north of Humboldt street and running northerly 66 feet 8 inches by a depth westerly of 100 feet, in Potrero Nuevo Block No. 108, has been acquired in accordance with the provisions of Resolution No. 2893 (N. S.). The taxes for the entire fiscal year were paid by Mr. Rendler, and the sum of \$35 deposited to cover the expense of securing a McEnerney title.

Yours very truly,

PERCY V. LONG,

City Attorney.

School Lands In University Mound District.

December 24, 1908.

John E. Behan, Esq., Clerk of the
Board of Supervisors.
Dear Sir:

You are respectfully advised that that certain piece of property owned by Mr. James B. Keenan and described as a portion of Block No. 132 of the University Extension Homestead Association, has been acquired in accordance with the terms of Resolution No. 3042 (New Series).

The taxes for the entire fiscal year have been paid by Mr. Keenan, and fifty (50) dollars to cover the expense of obtaining a McEnerney title de-

posited with this office, which sum will be forwarded to you.

The deed was recorded December 21, 1908, and the consideration paid at the same time.

Very truly yours,

PERCY V. LONG.

City Attorney.

Additional Site for Garfield School.

December 21, 1908.

John E. Behan, Esq., Clerk, Board of
Supervisors, City.
Dear Sir:

You are respectfully advised that that certain piece of property owned by Mr. Charles Huth, and required as an additional site for the Garfield School, has been acquired in accordance with the terms of Resolution No. 2851 (N. S.). The lot is described as the rear 25 feet by 25 feet of the property belonging to Mr. Huth, and located on the southerly line of Greenwich street, being a portion of 50 Vara Block No. 82.

The taxes for the entire fiscal year have been paid by Mr. Huth, and a McEnerney action commenced December 11th, 1908, as to the entire piece. The decree in the McEnerney action will provide for title to the rear 25 feet in the City and County of San Francisco.

Yours very truly,

PERCY V. LONG.

City Attorney.

Relative to Title of Property Acquired in Potrero Nuevo Blocks 108 and 109 for Hospital Site.

December 21, 1908.

Building Committee, Board of Super-
visors, City.
Gentlemen:

Your attention is respectfully called to the following considerations relative to the acquisition of property for hospital purposes in Potrero Nuevo Blocks Nos. 108 and 109.

This office has been instructed by Resolution to pass upon no title as sufficient unless a McEnerney title has been secured or provision made therefor. The contract for reports on the various pieces of property in this district was awarded to the California Title Insurance and Guaranty Company. This company has never recognized the necessity of McEnerney proceedings, and does not include in its reports any mention of a McEnerney title. Likewise, this company does not engage in the securing of McEnerney titles.

It is therefore suggested that where McEnerney titles have not been secured and it is necessary for the owner to either commence proceedings himself or deposit a sufficient sum to cover the expense of securing a McEnerney title, that the City enter into an agreement with a title company that does this character of work, to receive from each owner the sum necessary to be with-

held, and that when the property is finally acquired said company will obtain a McEnerney title to the entire two blocks. If this method is followed it would relieve the owners of about one-half the expense of securing individual McEnerney titles, and this office of the labor which should not be imposed.

Yours very truly,

PERCY V. LONG,

City Attorney.

Board of Supervisors, San Francisco, Cal.

Gentlemen:

I have this day filed for record a deed running from Rudolph Spreckels to the City and County of San Francisco for a parcel of land commencing at a point on the west line of Webb street 68 feet 9 inches from the north-west corner of Webb and California streets; running thence along the westerly line of Webb street 124 feet 3 inches; thence at a right angle easterly 18 inches and thence at right angles and parallel with said westerly line of Webb street 124 feet 3 inches; thence at a right angle westerly 18 inches to the point of beginning.

This deed is to determine finally the dedication of that portion of Webb street to the City. For long years before the fire these eighteen inches were occupied by a portion of the building then standing on the northwest corner of Webb and California streets and upon our showing to Mr. Spreckels in a McEnerney action brought by him which included the property in question, Mr. Spreckels conceded our right.

Yours very truly,

PERCY V. LONG,

City Attorney.

Accepting Offer of Western Pacific Railroad Company to Sell School Lands and Providing \$14,700 for Payment Thereof.	
Also, Resolution No. — (New Series), as follows:	
Whereas, The Western Pacific Railway Company, in order to secure its right of way, was obliged to commence condemnation proceedings against the City and County of San Francisco for the purpose of condemning two school lots in Potrero Nuevo Blocks Nos. 254 and 265, and said action was carried to final judgment and a final order of condemnation condemning the property for public use and awarding damages to the City and County of San Francisco in the sum of \$14,700 was duly entered; and	
Whereas, The Board of Education during the pendency of said action, being anxious to obtain a school site in the locality of the lots condemned, arranged with the Western Pacific Railway Company that said company should tender to the City and County for sale for school purposes a lot of which the company was the owner, and which lot was examined by the Board of Education, found suitable for school purposes and appraised in the sum of \$16,500; and	
Whereas, The money recovered as damages, to wit: the sum of \$14,700, was paid by the Western Pacific Railway Company into the General Fund of the City and County of San Francisco, and said company now offers to convey to the City and County for the amount of the damages paid the following described land, which has been heretofore appraised at the instance of the Board of Education in the sum of \$16,500; now, therefore.	
Resolved, That the offer of the Western Pacific Railway Company to convey to the City and County of San Francisco for the sum of \$14,700 a good and sufficient fee simple title to the following described land be and the same is hereby accepted, to wit:	
Beginning at a point on the westerly line of Connecticut street, distant thereon 125 feet northerly from the northerly line of Twentieth street; running thence northerly along said westerly line of Connecticut street 150 feet; thence at right angles westerly 200 feet to a point on the easterly line of Arkansas street; thence southerly along said easterly line of Arkansas street 150 feet; thence easterly at right angles 200 feet to the point of commencement;	

being a portion of Potrero Nuevo Block No. 231.

Provided, however, that the Western Pacific Railway Company, its successors and assigns, shall have the right to remove within a reasonable time the house now situate on the aforesaid premises, and shall have an easement to cross the land above described with its railroad by means of a tunnel or tunnels underneath the surface of said land, and to construct, maintain and operate its railroad through the same.

The City Attorney is hereby requested to examine the title to the aforesaid described lot of land, and if the same is found to be vested in said Western Pacific Railway Company, free from all incumbrances, then to cause a good and sufficient deed to be made, subject, however, to the aforesaid easement, and to cause the same to be delivered to the City and County upon the payment of the said consideration of \$14,700.

Further resolved, That the sum of \$14,700 be and the same is hereby set aside, appropriated and authorized to be expended out of the General Fund of the fiscal year 1908-9 for the purpose of acquiring the aforesaid described lot of land.

The attention of the Auditor, the Treasurer and the City Attorney is hereby called to the provisions of this Resolution.

Authorizing Payment in Sum of \$14,700 to Western Pacific Railroad Company for Certain School Lands.

Also, Resolution No. — (New Series), Authorizing an expenditure of \$14,700 to be made out of the General Fund of the fiscal year 1908-9, in payment to the Western Pacific Railway Company as purchase price of a lot of land required for School Department purposes, and situated on the westerly line of Connecticut street, distant thereon 125 feet northerly from the northerly line of Twentieth street, running thence northerly along said westerly line of Connecticut street 150 feet by a uniform depth of 200 feet to the westerly line of Arkansas street.

Providing \$1500 for Surveying and Fencing City Property.

Also, Resolution No. — (New Series), as follows:

Resolved, That the sum of \$1500 be and the same is hereby set aside, appropriated and authorized to be expended out of the item for "Urgent Necessities" in the budget of the fiscal year 1908-9, by the Board of Public Works, under direction of the City Attorney, for the purpose of making the necessary surveys of and to fence City property with a view of obtaining the so-called McEnerney title therefor.

Before any moneys shall be expended out of the aforesaid appropriation requisition must be made in the first instance by the City Attorney upon the Board of Public Works, which requisition shall specify the character of service to be rendered by said Board, and when the service has been performed the claims must be approved in the first instance by the City Attorney.

The City Attorney is hereby requested to report to the Board of Supervisors the character and extent of the services performed under this resolution.

The attention of the Auditor, the Treasurer, the City Attorney and the Board of Public Works is hereby called to the provisions of this resolution.

The following matters were *passed for printing*:

Fixing Width of Sidewalks, Wood Street, On motion of Supervisor Center:

Bill No. 759, Ordinance No. — (New Series), entitled, "Amending Ordinance No. 1061, entitled 'Regulating the Width of Sidewalks,' approved December 18th, 1903, by adding thereto a new section to be numbered three hundred and five," the provisions of which fix the width of sidewalks on Wood street, between Point Lobos avenue and St. Rose's street, at twelve (12) feet.

Extension of Time, Construction of Fire Cistern.

Also, Resolution No. — (New Series), as follows:

Resolved, That Healy-Tibbitts Construction Company be and is hereby granted an extension of forty days' time from and after December 19, 1908, within which to complete the contract for construction of a reinforced concrete cistern at Van Ness avenue and Market street for fire protection purposes.

This extension of time is recommended for the reason that all progress on the work was stopped for a considerable period of time during which the plans were being revised.

Adopted.

The following Resolution was adopted:

Amending United States Government Underground Conduit Permit.

On motion of Supervisor Center:

Resolution No. 3103 (New Series), as follows:

Resolved, That Resolution No. 3036 (New Series) of the Board of Supervisors, approved December 16, 1908, granting the United States Government permission to lay an underground conduit from Fort Miley Reservation to the Presidio be and the same is hereby amended by substituting in said Resolution the words "California street" for the words "Lake street" wherever appearing.

Ordering Construction of East Potrero Intercepting Sewer.

Supervisor Pollok presented:

Bill No. 760, Ordinance No. — (New Series), entitled, "Ordering the construction of the southerly portion of the East Potrero intercepting sewer; approving and adopting plans and specifications therefor, and authorizing the Board of Public Works to enter into contract for doing said work at an estimated cost of \$140,000, payable out of the proceeds of sale of sewer bonds of the City and County of San Francisco, issue of the year 1908."

Motion.

Supervisor Murphy moved that Assistant City Engineer H. D. Connick be granted the privilege of the floor.

So ordered.

Privilege of the Floor.

Whereupon, H. D. Connick, Assistant City Engineer, addressed the Board, stating, in reply to Supervisor Center's criticism of the sewer system, that in order to protect the bay shores from pollution it was necessary to carry the sewage to a point where the

current was of sufficient force to carry it away. He also stated that Rudolph Herring, Civil Engineer, had been consulted in the matter and that he had expressed the opinion that the velocity of water in the proposed sewer would be sufficient to carry off all gravel deposits that might accumulate and that the danger of the sewer filling up from this cause was very remote. Mr. Herring, he declared, approved the sewer plan as proposed.

Passed for Printing.

Whereupon, the above Bill was passed for printing by the following vote:

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Referred.

The following Resolutions were introduced under suspension of the rules by Supervisor D'Ancona and ordered referred to the Public Buildings Committee:

Intention to Devote Premium of School Bonds of 1908 to Construction and Equipment of Polytechnic High School.

Whereas, Provision was made in the Bond Issue of July 1, 1904, for the construction of a Polytechnic High School, but owing to the non-sale of said bonds, it was impossible to construct said building; and

Whereas, The Board of Education and the Board of Public Works recommended that provision for the construction of said building be made in the bond issue of July 1, 1903, but inasmuch as the original recommendation to expend \$3,175,000, was reduced to \$5,000,000 in said issue, and in so doing the item for the construction of the Polytechnic High School was eliminated; and

Whereas, It develops that a premium of approximately \$300,000 will be obtained upon the sale of the remaining \$3,800,000 worth of unsold school bonds of July 1, 1908, with which premium it will be possible to commence the construction of the said Polytechnic High School, which was estimated to cost in the early part of 1908 the sum of \$500,000; now therefore

Resolved, That this Board hereby declares its intention to devote the premium obtained from the sale of school bonds of the issue of July 1, 1908, estimated to be approximately \$300,000 to the work of partial con-

struction and equipment of the Polytechnic High School on the property of the City and County of San Francisco purchased for that purpose, and situate on the southerly side of Frederick street, between Willard street and First avenue.

Providing \$5000 for Plans and Specifications, Polytechnic High School.

Also, Resolution No. — (New Series), as follows:

Resolved, That the sum of \$5000 be and the same is hereby set aside, appropriated and authorized to be expended by the Board of Public Works out of the "School Construction Account" of the Public Building Fund, bond issue of July 1, 1908, for the purpose of enabling this Board to prepare plans, specifications and details of construction of the Polytechnic High School, to be situate on property belonging to the City and County of San Francisco on the southerly side of Frederick street, between Willard street and First avenue.

The attention of the Auditor and the Treasurer is hereby called to the provisions of this Resolution.

Providing for Removal of Unused Poles on Valencia Street.

The following Resolution was introduced under suspension of rules by Supervisor Hocks and ordered *referred to Streets and Public Utilities Committee*:

Resolution No. —, (New Series), as follows:

Whereas, Valencia street, between Market and 22nd streets, is a veritable forest of poles, many of which are not used by public service corporations; and

Whereas, The presence of such unused poles on Valencia street constitutes a public nuisance, mar the appearance of the street and obstruct the use of said street for business purposes; now therefore,

Resolved, That the Board of Public Works be and is hereby requested to serve notice upon the companies or corporations maintaining said unused poles on Valencia street, between Market and 22nd streets, to forthwith remove the same and to repair the sidewalk space from whence removed.

Passed for Printing.

The following matters were introduced under suspension of the rules and *passed for printing*:

Police to Preserve Order on New Year's Eve.

On motion of Supervisor Murdock: Resolution No. 3104 (New Series), as follows:

Whereas, The celebration of welcoming the New Year is becoming an attractive and exhilarating feature of life in San Francisco, and

Whereas, If it is to endure and be a credit to the city it must be kept clean, and liberty must not be allowed to degenerate into license and lawlessness, be it

Resolved, That the police authorities be urged to strictly enforce all ordinances and regulations for the preservation of order, especially those for the arrest of all persons who become intoxicated, either on the public streets, in a restaurant or elsewhere; be it further

Resolved, That all citizens be asked to sincerely co-operate in the purpose of preventing excesses that would bring reproach to the good name of the city, and of showing that San Francisco can have a jolly good time without crossing the border that divides decency from disgrace.

Ayes—Supervisors Bancroft, Booth, Broderick, Center, Comte, Connolly, D'Ancona, Hocks, Jennings, Johnston, McAllister, McLeran, Murdock, Murphy, Payot, Pollok, Rixford—17.

City Attorney to Advise as to Power to Require Certain Kinds of Poles to Be Erected by Public Service Corporations on Public Streets.

On motion of Supervisor D'Ancona: Resolution No. 3105 (New Series), as follows:

Resolved, That the City Attorney be requested to inform this Board to what extent the Supervisors, the Board of Public Works or the Department of Electricity have power under the law to regulate the kind, height and number of poles erected on any street or block, for the purpose of carrying electric current for light, power, telephone or telegraph communication.
